jeffrey.horn@sfgov.org

Recommendation: Approval with Conditions

PROJECT DESCRIPTION

The Project is to legalize interior alterations and horizontal additions at the rear buildings wall's bay window and decks, to construct a roof deck, to construct horizontal additions of a spiral staircase and deck infill at the basement level within the rear yard, and the addition of a second unit within an existing single-family dwelling.

REQUIRED COMMISSION ACTION

In order for the Project to proceed, the Commission must grant Conditional Use Authorization to allow the legalization of the unpermitted expansion of the breakfast nook and 3rd floor deck and to permit a new spiral deck and expansion on the basement rear deck in the Corona Heights Large Residence SUD, pursuant to Planning Code Sections 249.77(d)(4) and 303(c).

ISSUES AND OTHER CONSIDERATIONS

• The project is located within the boundaries of the Corona Heights Large Residence Special Use District (SUD). The SUD was adopted to protect and enhance existing neighborhood character, encourage new infill housing at compatible densities and scale, and provide for thorough assessment of proposed large-scale residences that could adversely impact the area and affordable housing opportunities, to meet these goals, the SUD requires Conditional Use Authorization for five (5) types of development. The proposed Project exceeds one of these development standards; thereby requiring Conditional Use Authorization pursuant to Planning Code Section 249.77(d)(4) for residential development that results in less than 45% rear yard depth. The project also requires a Variance for encroachment into the required rear yard.

Executive Summary Hearing Date: June 21, 2018

- The Residential Design Advisory Team (RDAT) reviewed the project scope of the horizontal addition of an angled bay form protruding past the permitted square bay and found that the angled bay does not impact adjacent properties' access to light and air.
- The project seeks to legalize completed work to the subject property. There are two phases of unpermitted, illegal or out of scope construction.
 - The expansion of the bay windows and top floor deck were unpermitted and beyond the scope of Building Permit #2002.1010.8753. Expansion to the size, shape and roofing of the top floor deck appears to have occurred between the years 2002 and 2010. The expansion of the bay window at the rear occurred sometime between March 14, 2010 and March 29, 2011. (Reference attached context photo set: "Archived Rear Wall Photo")
 - The excavation and interior alterations, including the creation of a second unit occurred through a series of 15 over-the-counter permits, filed between 8/11/2014 and 12/8/2017, however, not all work that occurred was covered by the issued permits. DBI has issued eight violations for this work, currently stopped all work and has requested the proposed project serve to legalize all work under one comprehensive permit. Planning opened an enforcement case on 3/13/2017.
- Public Comment & Outreach. The adjacent neighbors to the west (145 Corbett Avenue) of the
 project have expressed concerns with the legalizing of the rear structures, with the amount of
 unpermitted work that has occurred on site, and other issues. The Department has received one
 comment letter in opposition to the proposal from a resident of Corbett Avenue and a letter of
 opposition from the Corbett Heights Neighbors.

BASIS FOR RECOMMENDATION

The Department finds that the Project is, on balance, consistent with the Objectives and Policies of the General Plan. The Project designed within existing site constraints and conforms to the prevailing neighborhood character while adding a dwelling unit, thereby maximizing the site's density. The Project is conditionally consistent with all accepted design standards, including those related to site design, building scale and form, architectural features and building details. The resulting height and depth is compatible with the existing building scale on the adjacent properties. The Department also finds the project to be necessary, desirable, and compatible with the surrounding neighborhood, and not to be detrimental to persons or adjacent properties in the vicinity.

ADOPTING FINDINGS RELATING TO THE APPROVAL OF CONDITIONAL USE AUTHORIZATION UNDER PLANNING CODE SECTIONS 249.77(D)(4) AND 303(C) TO LEGALIZE INTERIOR ALTERATIONS AND HORIZONTAL ADDITIONS AT THE REAR BUILDING WALL'S BAY WINDOW AND DECKS, TO CONSTRUCT HORIZONTAL ADDITIONS OF A SPIRAL STAIRCASE AND DECK INFILL WITHIN THE REAR YARD, AND THE ADDITION OF A SECOND UNIT WITHIN AN EXISTING SINGLE-FAMILY DWELLING AT 143 CORBETT AVENUE THAT HAS A REAR YARD THAT IS LESS THAN 45% OF THE LOT DEPTH, WITHIN AN RH-2 (RESIDENTIAL HOUSE, TWO-FAMILY) ZONING DISTRICT AND A 40-X HEIGHT AND BULK DISTRICT.

PREAMBLE

On February 12, 2018, Mark Cruz of Cruz Architecture+Design, LLP (hereinafter "Project Sponsor") filed an application with the Planning Department (hereinafter "Department") for Conditional Use Authorization under Planning Code Sections 249.77(d)(4) and 303(c) to legalize interior alterations and horizontal additions at the rear buildings wall's bay window and decks, and construct horizontal additions of a spiral staircase and deck infill at the basement level within the rear yard, and the addition of a second unit within an existing single-family dwelling at 143 Corbett Avenue that has a rear yard that is less than 45% of the lot depth, within the RH-2 (Residential-House, Two-Family) Zoning District, 40-X Height and Bulk District.

On June 21, 2018, the San Francisco Planning Commission (hereinafter "Commission") conducted a duly noticed public hearing at a regularly scheduled meeting on Conditional Use Application No. 2017-009348CUA.

The project is exempt from the California Environmental Quality Act ("CEQA") as a Class 1 and Class 3 categorical exemption under CEQA.

The Commission has heard and considered the testimony presented to it at the public hearing and has further considered written materials and oral testimony presented on behalf of the applicant, Department staff, and other interested parties.

MOVED, that the Commission hereby authorizes the Conditional Use requested in Application No. 2017-005992CUA, subject to the conditions contained in "EXHIBIT A" of this motion, based on the following findings:

FINDINGS

Having reviewed the materials identified in the preamble above, and having heard all testimony and arguments, this Commission finds, concludes, and determines as follows:

- 1. The above recitals are accurate and constitute findings of this Commission.
- 2. **Site Description and Present Use.** The subject property is located on the south side of Corbett Avenue, between Hattie Street and Danvers, within the Corbett Heights neighborhood. The subject property is slightly more than 25 feet of wide, and slopes downward with a depth of approximately 71 feet. The site is developed with a 4-story single family home; two of the floors are below street grade and not are not entirely conditioned spaces. The lot is 1,829 square feet in size and is located in a RH-2 (Residential House, Two-Family) Zoning District and a 40-X Height and Bulk District.
- 3. Surrounding Properties and Neighborhood. The surrounding neighborhood consists of a mixture of two- and three-story buildings, containing mostly one- or two-residential dwelling units. Corbett Avenue slopes up slightly to the west, but steep slopes characterize the neighborhood as a whole; with the lots along the north and south side of Corbett Avenue steeply upsloping up towards the north, in excess of 20 percent. The adjacent parcel to the west, 145 Corbett Avenue, is a two-story over basement single-family residence. The adjacent property to the east, 137 and 139 Corbett Avenue, is a two-story over basement two-family residence.
- 4. **Project Description.** The Project is to legalize interior alterations and horizontal additions at the rear buildings wall's bay window and decks, to construct a roof deck, to construct horizontal additions of a spiral staircase and deck infill at the basement level within the rear yard, and the addition of a second unit within an existing single-family dwelling.
- 5. **Public Comment/CommunityOutreach**. The adjacent neighbors to the west (145 Corbett Avenue) of the project have expressed concerns with the legalizing of the rear structures, with the amount of unpermitted work that has occurred on site, and other issues. The Department has

received one comment letter in opposition to the proposal from a resident of Corbett Avenue and a letter of opposition from the Corbett Heights Neighbors.

- 6. **Planning Code Compliance:** The Commission finds that the Project is consistent with the relevant provisions of the Planning Code in the following manner:
 - A. **Height.** Planning Code Section 260 requires that all structures be no taller than the height prescribed in the subject height and bulk district. The proposed project is located in a 40-X Height and Bulk District, with a 40-foot height limit.

The project proposes no changes to the buildings height. Roof access is proposed via a hatch.

B. **Front Setback.** Planning Code Section 132 requires, in RH-2 Districts, a front setback that complies to legislated setbacks (if any) or a front back based on the average of adjacent properties (in no case shall the required setback be greater than 15 feet).

The Project will provide the minimum front setback required based on the average of adjacent properties along Corbett Avenue.

C. **Rear Yard.** Planning Code Section 134 requires a minimum rear yard depth equal to 45% of the total depth of the lot on which the building is situated, except that rear yard requirements can be reduced to a line on the lot, parallel to the rear lot line, which is the average between the depths of the rear building walls of both adjacent properties.

The Project Sponsor is seeking a Variance to Section 134 and Condition Use Authorization pursuant to Section 249.77 to allow for the legalization to a rear bay addition and a new spiral staircase within the required rear yard.

D. **Side Yard.** Planning Code Section 133 does not require side yard setbacks in in RH-2 Districts.

No side setbacks are required. The proposed building will be built to both side lot lines.

E. **Front Setback Landscaping and Permeability.** Planning Code Section 132 requires that the required front setback be at least 20% unpaved and devoted to plant material and at least 50% permeable to increase storm water infiltration.

The Project complies with Section 132 and provides the required landscaping permeable area.

F. **Street Frontage.** Off-street parking and freight loading shall meet the standards set forth in Planning Code Section 144 with respect to entrance dimensions and features.

There is presently no off-street parking or loading on site.

G. **Usable Open Space.** Planning Code Section 135 requires at least 125 sq.ft. usable open space if private, 333 sq. ft. for two units if common and 400 sq. ft. if a shared inner court.

The Project meets common open space requirements for two units.

H. **Off-Street Parking.** Planning Code Section 151 requires one off-street parking space per dwelling unit, and the maximum parking permitted as accessory may not exceed three spaces, where one is required by Code.

There is presently no off-street parking existing or proposed oat the site.

I. **Bicycle Parking.** Planning Code Section 155.2 requires one Class 1 Bicycle Parking space per dwelling unit, when there is an addition of a dwelling unit.

The Project proposes two Class 1 Bicycle Parking spaces within the proposed garage, therefore the requirement is met.

J. **Density (Section 209.1).** Planning Code Section 209.1 permits up to two dwelling units per lot in an RH-2 District.

The Project proposes two units; therefore, the permitted density is not exceeded.

- 7. **Planning Code Section 303** establishes criteria for the Planning Commission to consider when reviewing applications for Conditional Use approval. On balance, the project does comply with said criteria in that:
 - A. The proposed use or feature, at the size and intensity contemplated and at the proposed location, will provide a development that is necessary or desirable for, and compatible with, the neighborhood or the community.

The Project add a much-needed dwelling unit. The size, design, and two-family residential use, are compatible with the neighborhood. Located in an exclusively residential neighborhood, this project will add a new 2-bedroom residential unit at grade and the lower level to the existing 2,113 sf single-family building. The site's RH-2 zoning permits this unit as of right. This building was built in 1911 and has been used for residential use over that period. The new unit will not expand the existing envelope. There will not be a noticeable change in the intensity of use at the site given that it is surrounded by similarly situated 1 and 2 unit homes.

In addition, the project is seeking legal authorization of existing and proposed rear yard extensions, respectively. A horizontal expansion of the existing modified breakfast nook will encroach 1'9" or 10 sf into the average rear yard of 33'. Additionally, 32' of a proposed 1-story spiral stair at grade will encroach 12'6" into in the rear yard for 32 sf.

This project is necessary and desirable at this location. Most of the elements in the rear yard were installed by the prior owner of the property. As noted above, the new element that the project sponsor

seeks to introduce is a 1-story spiral staircase that will facilitate access between the upper floors and the new lower level unit. There are also numerous other features at the rear of the building which were undertaken by the prior owner. Many of the other homes facing the southern portion of the block also enjoy decks, stairs and other elements that support outdoor activities.

- B. The use or feature as proposedwill not be detrimental to the health, safety, convenience or general welfare of persons residing or working in the vicinity, or injurious to property, improvements, or potential development in the vicinity, with respect to aspects including, but not limited to the following:
 - i. Nature of proposed site, including its size and shape, and the proposed size, shape and arrangement of structures;

The subject property, similar to many lots within the surrounding neighborhood, is characterized by a steep slope, with a rear property line that lower than the front property line, on a 71 foot deep lo, which is much shorter than the typical lot in San Francisco. The proposed building's depth and height have been sensitively designed with regard to site-specific constraints and will create a quality, family-sized home while retaining the existing structure fronting on Corbett Avenue. Although the Project will have a rear yard less than 45% of the total lot depth, its coverage and scale are consistent with other properties in the surrounding neighborhood.

There is already an existing 3-story over basement single family residential building on the Project site. The Project involves variances for the legalization of various existing and proposed rear yard features. That includes the 10 sf of the existing rear breakfast nook that will encroach 1'9" into the required rear yard. It also includes a 32 sf of a new, 1-story spiral staircase for rear access to the lower unit. Other variance requests (e.g., 2nd story deck) were submitted. No other changes to the building envelope or rear façade are sought.

ii. The accessibility and traffic patterns for persons and vehicles, the type and volume of such traffic, and the adequacy of proposed off-street parking and loading;

The Project can provide two-bike parking space, which is adequate to meet the needs of a two-family home. This small Project will not have significant impacts on area traffic.

The subject property is also in close proximity to several transit lines, located only approximately a 10-minute walk away from the Castro Street MUNI Station, and within a ½ mile of MUNI bus lines.

iii. The safeguards afforded to prevent noxious or offensive emissions such as noise, glare, dust and odor;

The Project will comply with all applicable regulations relating to construction noise and dust. It will not produce, nor include, any permanent uses that generate substantial levels of noxious or offensive emissions, such as noise, dust, glare, or odor.

iv. Treatment given, as appropriate, to such aspects as landscaping, screening, open spaces, parking and loading areas, service areas, lighting and signs;

The proposal does not include loading or services areas, nor will it include atypical lighting or signage. The Project has existing landscaping at the base of the entry stair and in the rear yard to contribute to an enjoyable rear yard and open space area. The proposed roof deck above the third floor will be set back from the front, rear and side lot lines to minimally impact the neighboring properties and their own enjoyment of their space.

C. That the use or feature as proposed will comply with the applicable provisions of the Planning Code and will not adversely affect the General Plan.

The proposed Project complies with all applicable requirements and standards of the Planning Code, and is consistent with the Objectives and Policies of the General Plan as detailed below.

D. That the use or feature as proposed would provide development that is in conformity with the stated purpose of the applicable Use District.

The proposed project is consistent with the stated purpose of the RH-2 District. The building structure is compatible to the height and size of development expected in this District, and within the permitted density.

8. Corona Heights Large Residence Special Use District (Planning Code Section 249.77). The project is located within the boundaries of the Corona Heights Large Residence Special Use District (SUD). The SUD was adopted to protect and enhance existing neighborhood character, encourage new infill housing at compatible densities and scale, and provide for thorough assessment of proposed large-scale residences that could adversely impact the area and affordable housing opportunities, to meet these goals, the SUD requires Conditional Use Authorization for five (5) types of development.

The proposed Project exceeds one of these development standards; thereby requiring Conditional Use Authorization pursuant to Planning Code Section 249.77(d)(4) for residential development that results in less than 45% rear yard depth.

In acting on any application for Conditional Use authorization within the SUD, the Commission shall consider the Conditional Use authorization requirements set forth in subsection 303(c) and, in addition, shall consider whether facts are presented to establish, based on the record before the Commission, one or more of the following:

A. The proposed project promotes housing affordability by increasing housing supply.

The Project would add a second unit below and existing single-family unit, resulting in two family-sized units (three bedrooms and two bedrooms), thereby increasing the housing supply in the City.

B. The proposed project maintains affordability of any existing housing unit; or

The Site is currently vacant. Therefore, there is no affordability of an existing unit to maintain.

C. The proposed project is compatible with existing development.

The subject property and the adjacent properties are all approximately 70 feet deep, due to a curve in Corbett Avenue; this is a much short dimension than the typical lot in San Francisco. These buildings all have a similar depth and have relatively consistent rear building-wall depths. The subject property and the property to the west have non-complying rear decks at all levels.

The project is in a predominantly 1-2 unit neighborhood in the upper Castro neighborhood. The scale and massing of the building is not changing. No changes will occur to the building envelope at the rear because of the project or legalization of the encroachments by issuance of a variance by the Zoning Administrator. Most of the existing encroachments were done without benefit of permit and by the prior owner.

The trigger for compliance with the Corona SUD is a modified breakfast nook, 10 sf of which encroaches 1'9" into the 33' averaged rear yard and 32 sf of a proposed 1-story spiral staircase. Similar rear yard encroachments exist in the neighborhood. In addition to the spiral staircase, legalization is sought for other encroachments including existing decks and bay windows. Many of the other neighbors have similar encroachments in the required rear yards

9. **General Plan Compliance.** The Project is, on balance, consistent with the following Objectives and Policies of the General Plan:

HOUSING ELEMENT

Objectives and Policies

OBJECTIVE 1:

IDENTIFY AND MAKE AVAILABLE FOR DEVELOPMENT ADEQUATE SITES TO MEET THE CITY'S HOUSING NEEDS, ESPECIALLY PERMANENTLY AFFORDABLE HOUSING.

Policy 1.8:

Promote mixed use development, and include housing, particularly permanently affordable housing, in new commercial, institutional or other single use development projects.

The Project proposes to contribute a much needed home to the City's housing stock.

OBJECTIVE 4:

FOSTER A HOUSING STOCK THAT MEETS THE NEEDS OF ALL RESIDENTS ACROSS LIFECYCLES.

Policy 4.1:

Develop new housing, and encourage the remodeling of existing housing, for families with children.

The Project advances this policy by creating a two quality family-sized home that could accommodate families.

OBJECTIVE 11:

SUPPORT AND RESPECT THE DIVERSE AND DISTINCT CHARACTER OF SAN FRANCISCO'S NEIGHBORHOODS.

Policy 11.1:

Promote the construction and rehabilitation of well-designed housing that emphasizes beauty, flexibility, and innovative design, and respects existing neighborhood character.

Policy 11.2:

Ensure implementation of accepted design standards in project approvals.

Policy 11.3:

Ensure growth is accommodated without substantially and adversely impacting existing residential neighborhood character.

Policy 11.6:

Foster a sense of community through architectural design, using features that promote community interaction.

The Project supports these policies in that the proposed construction is sensitively designed within existing site constraints and conforms to the prevailing neighborhood character. The Project is consistent with all accepted design standards, including those related to site design, building scale and form, architectural features and building details. The resulting height and depth is compatible with the existing building scale on the adjacent properties. The building's form, façade materials, proportions, and third floor addition are also compatible with the surrounding buildings and consistent with the character of the neighborhood.

TRANSPORTATION ELEMENT

Objectives and Policies

OBJECTIVE 1:

MEET THE NEEDS OF ALL RESIDENTS AND VISITORS FOR SAFE, CONVENIENT AND INEXPENSIVE TRAVEL WITHIN SAN FRANCISCO AND BETWEEN THE CITY AND OTHER PARTS OF THE REGION WHILE MAINTAINING THE HIGH QUALITY LIVING ENVIRONMENT OF THE BAY AREA.

Policy 1.3:

Give priority to public transit and other alternatives to the private automobile as the means of meeting San Francisco's transportation needs, particularly those of commuters.

The Project furthers this policy by creating a quality second dwelling unitin an area well-served by the City's public transit system. The Castro Street MUNI Station is less than a 10-minute walk from the project site, and several MUNI bus lines have stops within a quarter-mile of the site.

URBAN DESIGN ELEMENT

Objectives and Policies

OBJECTIVE 4:

IMPROVEMENT OF THE NEIGHBORHOOD ENVIRONMENT TO INCREASE PERSONAL SAFETY, COMFORT, PRIDE AND OPPORTUNITY.

Policy 4.15:

Protect the livability and character of residential properties from the intrusion of incompatible new buildings.

The Project furthers this policy by ensuring that the proposed development is compatible with the surrounding properties and neighborhood. The height and depth of the resulting building is compatible with the neighborhood's scale in terms of bulk and lot coverage.

- 10. **Planning Code Section 101.1(b)** establishes eight priority-planning policies and requires review of permits for consistency with said policies. On balance, the project does comply with said policies in that:
 - A. That existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses be enhanced.

This policy does not apply to the proposed project, as the project is residential and will not affect or displace any existing neighborhood-serving retail uses.

B. That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods.

The Project is consistent with this policy, as the proposed construction is designed to be consistent with the existing neighborhood's height and size while maintaining the strong mid-block open space pattern.

C. That the City's supply of affordable housing be preserved and enhanced,

The Project does not propose to remove or add any affordable housing units, nor are any required under the Planning Code. The Project does help to create a high-quality two-family house by contributing one net new family-sized unit to the City's housing stock.

D. That commuter traffic not impede MUNI transit service or overburden our streets or neighborhood parking.

The Project is located in an area well-served by the City's public transit systems, proposes two offstreet parking spaces and provides two bicycle parking spaces. The Castro MUNI Rail Station and several MUNI bus lines are in close proximity to the subject property, therefore the Project will not overburden streets or neighborhood parking. MUNI transit service will not be overburdened as the unit count is only increasing by one unit.

E. That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced.

This policy does not apply to the proposed project, as the project does not include commercial office development and will not displace industrial or service sector uses.

F. That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake.

The proposed building is designed and will be constructed to conform to the structural and seismic safety requirements of the City Building Code. This proposal will not impact the existing building's ability to withstand an earthquake as no alterations are proposed.

G. That landmarks and historic buildings be preserved.

The Project will not adversely affect any landmarks or historic buildings.

H. That our parks and open space and their access to sunlight and vistas be protected from development.

The Project will not affect any parks or open space, through development upon such lands or impeding their access to sunlight. No vistas will be blocked or otherwise affected by the proposed project.

- 11. The Project is consistent with and would promote the general and specific purposes of the Code provided under Section 101.1(b) in that, as designed, the Project would contribute to the character and stability of the neighborhood and would constitute a beneficial development.
- 12. The Commission hereby finds that approval of the Conditional Use authorization would promote the health, safety and welfare of the City.

DECISION

That based upon the Record, the submissions by the Applicant, the staff of the Department and other interested parties, the oral testimony presented to this Commission at the public hearings, and all other written materials submitted by all parties, the Commission hereby **APPROVES Conditional Use Application No. 2017-009348CUA** pursuant to Planning Code Sections 249.77(d)(4) and 303(c) to legalize interior alterations and horizontal additions the rear and propose horizontal additions at the rear and a add a second unit to an existing single-family dwelling at 143 Corbett Avenue that has a rear yard that is less than 45% of the lot depth, within the RH-2 (Residential-House, Two-Family) Zoning District, 40-X Height and Bulk District, subject to the conditionssubject to the following conditions attached hereto as "EXHIBIT A" in general conformance with plans on file, dated June 11, 2018, and stamped "EXHIBIT B", which is incorporated herein by reference as though fully set forth.

APPEAL AND EFFECTIVE DATE OF MOTION: Any aggrieved person may appeal this Conditional Use Authorization to the Board of Supervisors within thirty (30) days after the date of this Motion No. XXXXX. The effective date of this Motion shall be the date of this Motion if not appealed (After the 30-day period has expired) OR the date of the decision of the Board of Supervisors if appealed to the Board of Supervisors. For further information, please contact the Board of Supervisors at (415) 554-5184, City Hall, Room 244, 1 Dr. Carlton B. Goodlett Place, San Francisco, CA 94102.

Protest of Fee or Exaction: You may protest any fee or exaction subject to Government Code Section 66000 that is imposed as a condition of approval by following the procedures set forth in Government Code Section 66020. The protest must satisfy the requirements of Government Code Section 66020(a) and must be filed within 90 days of the date of the first approval or conditional approval of the development referencing the challenged fee or exaction. For purposes of Government Code Section 66020, the date of imposition of the fee shall be the date of the earliest discretionary approval by the City of the subject development.

If the City has not previously given Notice of an earlier discretionary approval of the project, the Planning Commission's adoption of this Motion, Resolution, Discretionary Review Action or the Zoning Administrator's Variance Decision Letter constitutes the approval or conditional approval of the development and the City hereby gives **NOTICE** that the 90-day protest period under Government Code Section 66020 has begun. If the City has already given Notice that the 90-day approval period has begun for the subject development, then this document does not re-commence the 90-day approval period.

I hereby certify that the Planning Commission ADOPTED the foregoing Motion on June 21, 2018.

Jonas P. Ionin	
Commission Secretary

ADOPTED:	June 21, 2018

EXHIBIT A

AUTHORIZATION

This authorization is for a conditional use to legalize interior alterations and horizontal additions the rear and construction the horizontal additions of a spiral staircase and deck infill with the rear yard and a add a second unit within the existing single-family dwelling at 143 Corbett Avenue that has a rear yard that is less than 45% of the lot depth, within the RH-2 (Residential-House, Two-Family) Zoning District, 40-X Height and Bulk District. District and a 40-X Height and Bulk District; in general conformance with plans, dated June 11, 2018, and stamped "EXHIBIT B" included in the docket for Case No. 2017-009348CUA and subject to conditions of approval reviewed and approved by the Commission on June 21, 2018 under Motion No. XXXXX. this authorization and the conditions contained herein run with the property and not with a particular Project Sponsor, business, or operator.

RECORDATION OF CONDITIONS OF APPROVAL

Prior to the issuance of the building permit or commencement of use for the Project the Zoning Administrator shall approve and order the recordation of a Notice in the Official Records of the Recorder of the City and County of San Francisco for the subject property. This Notice shall state that the project is subject to the conditions of approval contained herein and reviewed and approved by the Planning Commission on June 21, 2018 under Motion No. XXXXX.

PRINTING OF CONDITIONS OF APPROVAL ON PLANS

The conditions of approval under the 'Exhibit A' of this Planning Commission Motion No. XXXXX shall be reproduced on the Index Sheet of construction plans submitted with the Site or Building permit application for the Project. The Index Sheet of the construction plans shall reference to the Conditional Use authorization and any subsequent amendments or modifications.

SEVERABILITY

The Project shall comply with all applicable City codes and requirements. If any clause, sentence, section or any part of these conditions of approval is for any reason held to be invalid, such invalidity shall not affect or impair other remaining clauses, sentences, or sections of these conditions. This decision conveys no right to construct, or to receive a building permit. "Project Sponsor" shall include any subsequent responsible party.

CHANGES AND MODIFICATIONS

Changes to the approved plans may be approved administratively by the Zoning Administrator. Significant changes and modifications of conditions shall require Planning Commission approval of a new Conditional Use authorization.

Conditions of Approval, Compliance, Monitoring, and Reporting PERFORMANCE

- 1. **Validity.** The authorization and right vested by virtue of this action is valid for three (3) years from the effective date of the Motion. The Department of Building Inspection shall have issued a Building Permit or Site Permit to construct the project and/or commence the approved use within this three-year period.
 - For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org
- 2. Expiration and Renewal. Should a Building or Site Permit be sought after the three (3) year period has lapsed, the project sponsor must seek a renewal of this Authorization by filing an application for an amendment to the original Authorization or a new application for Authorization. Should the project sponsor decline to so file, and decline to withdraw the permit application, the Commission shall conduct a public hearing in order to consider the revocation of the Authorization. Should the Commission not revoke the Authorization following the closure of the public hearing, the Commission shall determine the extension of time for the continued validity of the Authorization.
 - For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org
- 3. **Diligent pursuit.** Once a site or Building Permit has been issued, construction must commence within the timeframe required by the Department of Building Inspection and be continued diligently to completion. Failure to do so shall be grounds for the Commission to consider revoking the approval if more than three (3) years have passed since this Authorization was approved.
 - For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org
- 4. **Extension.** All time limits in the preceding three paragraphs may be extended at the discretion of the Zoning Administrator where implementation of the project is delayed by a public agency, an appeal or a legal challenge and only by the length of time for which such public agency, appeal or challenge has caused delay.
 - For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org
- 5. **Conformity with Current Law.** No application for Building Permit, Site Permit, or other entitlement shall be approved unless it complies with all applicable provisions of City Codes in effect at the time of such approval.
 - For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org
- 6. **Final Materials.** The Project Sponsor shall continue to work with Planning Department on the building design. Final materials, glazing, color, texture, landscaping, and detailing shall be subject to Department staff review and approval. The architectural addenda shall be reviewed and approved by the Planning Department prior to issuance.

For information about compliance, contact the Case Planner, Planning Department at 415-575-9017, www.sf-planning.org

7. Garbage, Composting, and Recycling Storage. Space for the collection and storage of garbage, composting, and recycling shall be provided within enclosed areas on the property and clearly labeled and illustrated on the building permit plans. Space for the collection and storage of recyclable and compostable materials that meets the size, location, accessibility and other standards specified by the San Francisco Recycling Program shall be provided at the ground level of the buildings.

For information about compliance, contact the Case Planner, Planning Department at 415-575-9017, www.sf-planning.org

PARKING AND TRAFFIC

- 8. **Managing Traffic During Construction.** The Project Sponsor and construction contractor(s) shall coordinate with the Traffic Engineering and Transit Divisions of the San Francisco Municipal Transportation Agency (SFMTA), the Police Department, the Fire Department, the Planning Department, and other construction contractor(s) for any concurrent nearby Projects to manage traffic congestion and pedestrian circulation effects during construction of the Project.
 - For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org
- 9. Enforcement. Violation of any of the Planning Department conditions of approval contained in this Motion or of any other provisions of Planning Code applicable to this Project shall be subject to the enforcement procedures and administrative penalties set forth under Planning Code Section 176 or Section 176.1. The Planning Department may also refer the violation complaints to other city departments and agencies for appropriate enforcement action under their jurisdiction.
 - For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org
- 10. Revocation due to Violation of Conditions. Should implementation of this Project result in complaints from interested property owners, residents, or commercial lessees which are not resolved by the Project Sponsor and found to be in violation of the Planning Code and/or the specific conditions of approval for the Project as set forth in Exhibit A of this Motion, the Zoning Administrator shall refer such complaints to the Commission, after which it may hold a public hearing on the matter to consider revocation of this authorization.
 - For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org
- 11. **Bicycle Parking.**The Project shallprovide no fewerthan **2**Class 1 bicycle parking spaces as required by Planning Code Sections 155.1 and 155.2.
 - For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org

OPERATION

12. **Child Care Fee - Residential.** The Project is subject to the Residential Child Care Fee, as applicable, pursuant to Planning Code Section 414A.

For information about compliance, contact the Case Planner, Planning Department at 415-558-6378, www.sf-planning.org

OPERATION

13. Garbage, Recycling, and Composting Receptacles. Garbage, recycling, and compost containers shall be kept within the premises and hidden from public view, and placed outside only when being serviced by the disposal company. Trash shall be contained and disposed of pursuant to garbage and recycling receptacles guidelines set forth by the Department of Public Works.

For information about compliance, contact Bureau of Street Use and Mapping, Department of Public Works at 415-554-.5810, http://sfdpw.org

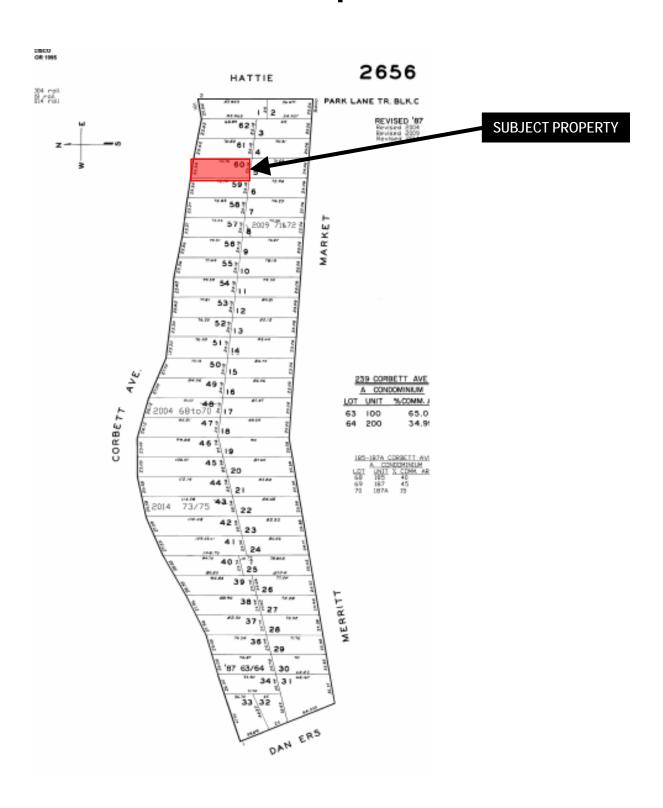

14. **Sidewalk Maintenance.** The Project Sponsor shall maintain the main entrance to the building and all sidewalks abutting the subject property in a clean and sanitary condition in compliance with the Department of Public Works Streets and Sidewalk Maintenance Standards.

For information about compliance, contact Bureau of Street Use and Mapping, Department of Public Works, 415-695-2017, http://sfdpw.org

15. Lighting. All Project lighting shall be directed onto the Project site and immediately surrounding sidewalk area only, and designed and managed so as not to be a nuisance to adjacent residents. Nighttime lighting shall be the minimum necessary to ensure safety, but shall in no case be directed so as to constitute a nuisance to any surrounding property.

For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org

San Francisco Planning Department 1650 Mission St., Suite 400 San Francisco, CA 94103

Re: <u>Joint Planning Commission and Variance Hearing on 143 Corbett Ave., San</u>

Francisco, CA 94114 scheduled for June 21, 2018

Dear Commissioners:

I represent the owners of the real property located at 143 Corbett Ave., San Francisco, California 94114 ("143 Corbett"), Messrs. Rajan Raghavan and Ravi Raghavan (the "Raghavans"). I write to provide the Planning Commission with relevant information to consider in the upcoming joint Planning Commission and Variance hearing on 143 Corbett, scheduled for June 21, 2018.

I. The Proposed Variances

The variances sought by the Raghavans are set forth in the plans and drawings (the "Plans") attached hereto as **Exhibit A**. These Plans were prepared by Mark Cruz, the Raghavans' architect for the proposed variances. The requested variances include:

- 1. Approval of a pre-existing extension of a breakfast nook by a prior owner;
- 2. Approval to enclose a lightwell with the neighbors' signed permission. (A copy of the neighbors' written authorization is attached as **Exhibit B**.) The enclosed lightwell will still allow light into both properties;
- 3. Addition of a roof deck; and
- 4. Extension of an existing spiral staircase in the back of the house to the ground level.

Mr. Cruz will explain the requested variances and why they are appropriate at the hearing.

II. The Neighbors' False Accusations And Gaming Of The System

A. The Neighbors Knowingly False Statements About the Breakfast Nook

Ms. Jennifer Creelman and Mr. Alfred Waldo "Chip" Driggs (the "Neighbors") reside at the real property known as 145 Corbett Ave., San Francisco, California 94114 ("145 Corbett"), which abuts the Raghavans' property to the West. Creelman and Diggs are represented by attorney Stephen Williams.

Mr. Williams and his clients have objected to the variances sought by the Raghavans for various reasons, but their objections are based on completely unsupported false accusations and assertions. Notably, they have not included <u>any</u> evidence supporting their slanderous attacks on the Raghavans.

First, Creelman and Driggs argue that the Raghavans extended their breakfast nook (one of the requested variance items), without a permit, after they purchased their property on May 9, 2014. But this is demonstrably false. To the contrary, a historical review of Google Earth and the file for the property shows that the Raghavans did not extend the breakfast nook, but rather that it was extended by the prior owner. The Raghavans replaced the windows in the nook, but did not perform any other work on that area. Jeff Horn's findings to this effect with respect to the nook and the supporting documents were sent by Mr. Horn to Williams on June 8, 2018, and are attached as **Exhibit C**.

Creelman and Driggs have always known that the Raghavans did not extend the nook. As they admit in the materials they have submitted, they knew the owner prior to the Raghavans and visited the home when he owned it, at which time the breakfast nook had already been extended. Moreover, as evidenced by the Google Earth photographs attached to Mr. Horn's findings, the extended portion of the nook is clearly visible from Creelman and Driggs' property, so they know exactly when it was built. Accordingly, Creelman and Driggs' assertion that the Raghavans extended the nook is knowingly false and made in bad faith to harass and oppress the Raghavans.

B. The Neighbors' False Claims About Serial Permitting

Creelman and Driggs, through Williams, have also made false claims that the Raghavans intentionally engaged in serial permitting in order to deceive DBI. Again, these claims are nothing more than unsupported false accusations. Mr. Williams and his clients have not supplied the Planning Commission with any evidence. Unsupported accusations like these are easy to make, given that they are protected from a defamation lawsuit by the litigation privilege recognized under California law.

Gary Weiss of the Corbett Heights Neighbors group submitted a letter to the Commission on May 21, 2018, raising a similar objection as the Neighbors, i.e., that the Raghavans have engaged in bad faith serial permitting to game the system. But this is not the case. Each permit here was pulled in good faith to address unexpected conditions and issues on the property as they

arose. Like the Neighbors, Mr. Weiss offers no evidence to the contrary and has no first-hand knowledge of this project. Mr. Weiss's general concerns about the potential abuses of serial permitting should not influence the Commission here, where there is no evidence of such a practice.

As Mr. Raghavan will explain in more detail at the hearing, the permits he obtained were made necessary by the unexpected conditions his contractors encountered at 143 Corbett. Some of these conditions include:

- The electrical system in the house was antiquated, with knob and tube wiring from decades ago. In addition, the previous owner had tapped electrical connections from various random points in the house, which presented a safety hazard. Mr. Raghavan and his contractors needed to add new breakers and replace the wiring, which entailed tearing down the sheet rock in the house and obtaining various electrical permits;
- The internal staircase in the house was built ad-hoc with no safety rails and random height code non-conforming steps, so Mr. Raghavan and his contractors were forced to replace the existing staircase for safety reasons;
- The foundation of the house needed extensive repair work, so Mr. Raghavan and his contractors had to pull permits to fix the foundation;
- The balcony had a very heavy non-conforming roof that leaked water, and the balcony railings were not child-proof, so Mr. Raghavan and his contractors had to pull permits to fix these issues;
- The breakfast nooks had wooden joists and pillars which had rotted and had to be replaced for safety reasons.

For reference, a complete list of the permits pulled as to 143 Corbett is attached hereto as **Exhibit D**. The Raghavans and their contractors have not engaged in deception. As the Department of Building Inspection has largely found, and as Rajan Raghavan and Mr. Cruz will attest at the June 21st hearing, construction on 143 Corbett is proper, permitted, and Building Code-compliant.

C. The Neighbors Have A Pattern And Practice Of Making False Accusations To Interfere With The Raghavans' Construction

Ms. Creelman, Mr. Driggs, and Mr. Williams have opposed the Raghavans' construction in bad faith from the beginning. For example, in September of 2016, Mr. Williams and his clients filed a frivolous appeal of a permit the Raghavans obtained to infill their Eastern lightwell, which is on the side opposite from Creelman and Driggs and thus does not abut their property. However, a clerical error resulted in the permit showing that the lightwell on the Southwest side of their home would be infilled. *See* Exhibit E. After discovering the oversight,

the Raghavans promptly informed Ms. Creelman and Mr. Driggs that the error was clerical. **Exhibit F**. However, before the Raghavans obtained a revised permit, Mr. Williams filed an appeal of the permit on behalf of Creelman and Driggs, despite knowing that the error was clerical. **Exhibit G**. The Raghavans subsequently obtained a revised permit. **Exhibit H**.

In addition, this is not the first time Creelman, Driggs and Williams have falsely accused the Raghavans of using serial permitting to deceive DBI. They made these same false accusations in connection with an appeal of one of the Raghavans' permits. Attached hereto as Exhibits I, J, and K are the appellate materials (notice of appeal and briefing) of an appeal filed by Williams on behalf of his clients of a permit the Raghavans pulled to install temporary shoring at 143 Corbett, at DBI's request. As you can see, Williams and his clients made the same unsupported, slanderous accusations against the Raghavans in their appellate briefing as they make here. However in that proceeding, when it came time to stand behind their false accusations, Williams and his clients withdrew their appeal at the last minute, on the morning of the hearing, after the Raghavans were forced to spend tens of thousands of dollars briefing and responding to the false claims, and after delaying construction of their home by months. See Exhibits L and M. This despite the fact that the Raghavans had made every effort to accommodate the Neighbors' concerns, and even proposed in early 2016 to address water drainage issues between the homes that Mr. Driggs raised as an ongoing issue from before the Raghavan's purchased 143 Corbett. Exhibit F. Accordingly, making false accusations to game the system and harass the Raghavans is a pattern by Creelman, Driggs and Williams, which the Commission should consider in assessing their complaints.

III. Attachments

- 1. **Exhibit A -** Plans and drawings of architect Mark Cruz regarding the variances sought by the Raghavans;
- 2. **Exhibit B** Approval to enclose a lightwell (while still allowing light into both properties) with the Neighbors' signed permission;
- 3. **Exhibit C** Jeff Horn's findings with respect to the breakfast nook and supporting documents, including a historical review of Google Earth and the file for the property showing that the Raghavans did not extend the breakfast nook, but rather that it was extended by the prior owner;
- 4. **Exhibit D -** A complete list of the permits pulled as to 143 Corbett;
- 5. **Exhibit E -** Permit No. 1402304 to infill lightwell approved August 31, 2016, which due to a clerical error incorrectly describes lightwell as on the Southwest side of the house;
- 6. **Exhibit F -** Email correspondence in which Rajan Raghavan informs Chip Driggs on February 24, 2016 that the application for Permit No. 1402304 incorrectly describes the lightwell as on the Southwest side of the house, and first proposes to

take care of the water drainage issues between the homes that Mr. Driggs raised as a concern;

- 7. **Exhibit G** Preliminary Statement of Appeal, Appeal No. 16-155, filed on September 15, 2016 by Williams on behalf of Ms. Creelman and Mr. Driggs, of Permit No. 1402304 describing lightwell as on Southwest side of the house rather than the East side of the house;
- 8. **Exhibit H -** Permit No. 1403825 to infill lightwell on the East side of the house, correcting clerical error in Permit No. 1402304 describing the lightwell as on the Southwest side of the house, approved on September 16, 2016;
- 9. **Exhibit I -** Notice of Appeal and Appeal No. 16-186 of Permit No. 1410466 addressing Notice of Violation 201631352, dated October 24, 2016 and filed by Williams on behalf of Creelman and Driggs;
- 10. **Exhibit J -** Appellants' brief in support of Appeal No. 16-186;
- 11. **Exhibit K -** Respondents' brief in Appeal No. 16-186;
- 12. **Exhibit L** Withdrawal Request of Appeal No. 16-186 filed by Appellants April 5, 2016, the morning of the hearing;
- 13. **Exhibit M -** Affidavit of Service of Notice of Withdrawal of Appeal No. 16-186.

IV. Conclusion

The variances requested by the Raghavans are appropriate and should be granted. The Neighbors' and Mr. Weiss's objections are not supported by any evidence, and the Neighbors' prior conduct shows that their false accusations should be disregarded. For these reasons and as will be further explained at the hearing, the Commission should grant the proposed variances.

Sincerely,

/s/ Richard F. Munzinger

SCOPE OF WORK:

LOWER LEVEL UNIT

A PRIMARY GOAL OF THE PROJECT IS TO FINISH AND LEGALIZE THE EXISTING LOWER LEVEL UNIT, PER THE RH-2 ZONING FOR CORBETT AVE. THIS APPLICATION SEEKS SF PLANNING APPROVAL TO COMPLETE THE LOWER UNIT THAT WAS UNDER WAY BEFORE THE N.O.V.

RETAINING WALLS HAVE BEEN REVIEWED BY A GEOTECHNIAL ENGINEER (ADEL KASIM), DESIGNED A STRUCTUAL ENGINEER, REVIEWED BY A CONSULTING ENGINEER (PAT BUSCOVICH), INSPECTED BY DBI (INSPECTORS JOSEPH MCDUFFY AND KEVIN BIRMINGHAM), AND POURED BY A LICENSED CONTRACTOR (FJ SANDOVAL).

THE FRONT OF THE FACADE NEAR THE EXISTING BAY WINDOW WILL NEED TO BE ALTERED SLIGHTLY TO FACILATE 81" OF HEADROOM @ TEH EXISTING STEPS FROMR THE SIDEWALK.. THIS MODIFCIAION WILL RAISE TEH BOTTOM OF TEH BAY WINDOW BY APPROX. 12" TO 14". BUT WILL CONFLICT WITH THE STYLE OR CHARACTER OF THE ARCHITECTURE OF THE BUILDING OR STEET.

VARIANCE

- 18" REAR PROTRUSION OF THE EXISTING BREAKFAST NOOK WITH HISPROCAL DPCIMENT IDENITIFY THE ILLEGAL ADDITION OCCURING SOMETIME BETWEEN 2003 AND 2014.
- TRIANGULAR SIDE PROTRUSION OF THE EXISTING
 BREAKFAST NOOK WITH HISPROCAL DPCIMENT
 IDENITIFY THE ILLEGAL ADDITION OCCURING SOMETIME
 BETWEEN 2003 AND 2014.
- ADDITION OF A REAR SPIRAL STAIRCASE FROM THE REAR GROUND LEVEL OPEN SPACE TO THE LIVING ROOM OF THE UNIT IN THE REAR YARD IN ORDER TO NORMALIZE THE EXISTING OBTUSE REAR DECK AND PROVIDE ACCESS FROM THE UPPER UNIT TO THE GRADE.

ROOF DECK

THE APPLICATION SEEKS SF PLANNING APPROVAL OF AN APPROXIMATE 200 SF ROOF DECK. THIS DECK WOULD BE CONSTRUCTED OF NON-COMBUSTIBLE MATERIALS CONSISTENT WITH DBI AND FIRE EQUIVALENCY REQUIREMENTS.

THE APPLICATION SEEKS TO PROVIDE ACCESS TO THE ROOF FOR THE PUPROSES OF REGULAR MAINTENANCEING A PROPOSED A/C UNIT AN REGULAR MAINTENANCE OF PROPOSED SOLAR PANELS. PV ARRAYR ARE ALREADY PERMITTED FOR THE ROOF [AND ASSOCIATED ELECTRICAL WORK].

THE DESIGN INCLUDES AN INTERNAL WOOD STAIRCASE FROM THE TOP FLOOR TO THE ROOF. NO PENTHOUSE OR SOLID PROTRUSIONS WILL BE PROPOSED BEYONBD TEH EXISTING PARAPET.

LIGHT WELL ENCLOSURE

THIS APPLICATION PURSUES A ONE STORY ENCLOSURE OF THE LIGHTWELL ON THE WEST PROPERTY LINE @ THE MAIN LEVEL. PLANNING CODE 311(B) SECTION 136(c), STATES THE EXCEPTION, THAT LIGHTWELLS THAT ARE NOT VISIBLE FROM ANY OFF SITE LOCATION DO NOT REQUIRE 311, AND CAN BE SOUGHT OVERTHE-COUNTER WITH THE ADAJACENT NEIGHBROS WRITTEN APPROVAL. WE HAVE ATTACHED WRITTEN STATEMENT CLARIFYING THE ENCLOSURE OF THE LIGHTWELL BY THE OWNERS OF 145 CORBETT. THE TOP OF THIS LIGHTWELL WOULL ALIGN WITH THE EAVE LINE FO 145 CORBETT.

City and County of San Francisco Department of Building Inspection 1660 Mission Street, 3rd Floor San Francisco, CA 94103

Re: Rear Cantilevered Room @ 143 Corbett Avenue San Francisco, CA Job number: 1841

To whom it may concern,

Introduction:

On June 5 2018 we conducted a site visit to examine the rear bay that houses the nook at the rear of the kitchen at 143 Corbett Ave.

It is our understanding from the permit history that this bay was originally built as a rectangular shaped bay and was later amended so the shape was changed to a semi octagonal shape and was extended a further 12" approximately. The legality of this bay protrusion is beyond the scope of our services and our review herein is limited to a sturctural inspection only.

Observations:

- The roof of the bay forms a roof deck accessible from the rear bedroom. The framing of this deck was in accessible and excluded from the scope of our investigation.
- 2. The railing at the deck was observed to consist of glazed infill panels supported by stainless steel guardrail posts. It was noted that the guardrail does not extend the code required 42" high above the deck surface. It is our understanding however that the railing has yet to be completed, and will be, by adding a continuous top rail which will increase the rail height to the code prescribed 42". It is unknown if the glazed panels aree tempered and meet the requiremetrs of chapter 24 of the 2016 CBC. The original installer or a glazing specialist should be retained to confirm this
- 3. The framing of the floor of the bay under the sunroom was observed from underneath as the soffit was removed and the framing was visible.
- 4. The 2X12 joists are supported by a wall mounted ledger that is lag screwed into the wall with 3/8" lags staggered at 9" c.c. this connection appears to be adequate for the gravity loads code prescribes. The joists cantilever over a 4X12 beam at the outer edge. This 4x12 beam is non treated and exposed it is supported in turn by 4x6 Pressure Treated (PT) posts with PC framing clips which are continuous to the foundation. This beam should be either replaced with

- wood that is PT or naturally preservative to weather. Alternatively it can be finished with a waterproof finish to protect it from the elements.
- The bay subfloor is plywood and it is recommended that horizontal HDU5 holdowns be added at each side to provide lateral bracing to the bay which currently lacks lateral support at the rear.
- 6. The soffit is finished with untreated plywood and appears to lack code required venting. We recommend this be finished with a product that is rated for exterior applications and the soffit vented in accordance with code requirements. Waterproofing recommendations are beyond the scope of this report but it is recommended as part of the waterproofing that a drip edge be installed at the outer edge to inhibit the horizontal migration of water along the underside of the soffit.
- 7. The lower level deck is balloon framed off the 4x6 posts. It is anticipated that this will be rebuilt in kind as part of the remodel of the lower level unit.
- 8. A system of knee braces or some other method of laterally bracing the posts is recommended at the lower level.
- 9. The posts at the foundation are supported on 12" diameter piers. They are connected to the piers with cbsq post pbases. The piers and footing for the othe post forming the ladngin of the stairs and the post for the spiral staris have both been undermined by recent excavation that occurred to lower the grade of the rear yard. It is assumed the piers have lost some of their bearing capacity as well as piers usually derive their capacity form skin friction acting at the sides of the piers. It is recommend that new footings be built to support these posts.

We will be issuing details as to how to implement the repairs we recommend in this report in due course.

Our observations and recommendations are limited to structural elements visible to us on the day of our visit. We make no representation as to elements not visible to us on that day nor do we make any recommendation to issues or items related to waterproofing and finishes.

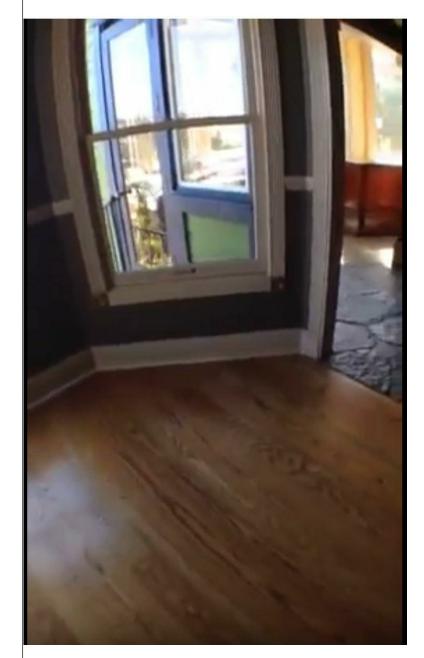

We are happy to answer any questions you may have pertaining to items we have outlined in this report.

STATEMENT FROM THE ARCHITECT

"THE NEIGHBORS HAVE SHOWN CONCERN FOR THE FRAMING OF THE EXISTING REAR DECK AND BREAKFAST NOOK @ 143 CORBETT BY SENDING PHOTOS TO SFPLANNING STAFF. IN FULL TRANSPARENCY AND OUT OF OUR CONCERN FOR LIFE SAFETY, WE HAVE SINCE EXPOSED ALL SUPPORTING FRAMING UNDER THE BREAKFAST NOOK IN QUESTION, IN ORDER TO TO BE INSPECTED BY OUR NEW PROJECT ENGINEER, EREVAN O'NIEL, (AS WELL AS JEFF HORN IN PERSON FOR REFERENCE). ONCE WE OBTAIN A BUILDING PERMIT, WE INTEND TO HAVE EVERY ASPECT OF THE ENTIRE HOUSE, EXISTING AND PROPOSED, FULLY RE-CALCULATED, REVIEWED, ENGINEERED, AND INSPECTED AS REQUIRED BY THE ENGINEER AND DBI INSPECTORS.

WHILE ON THE TOPIC OF STRUCTURAL SAFETY ABOVE THE REAR YARD AREA: THIS ARCHITECT WOULD LIKE TO ALSO MAKE MENTION OF A PRECARIOUSLY-FRAMED, THREE STORY DECK ON THE REAR OF 145 CORBETT. THE PHOTOS TAKEN HERE SHOW SOME LEVEL OF NEGLECT LEADING TO DILAPIDATION AND DISREPAIR OF AN EXISTING NON-CONFORMING STRUCTURE. ADDITIONALLY, IT DOES NOT APPEAR TO BE CONSISTENT WITH AN PERMIT-APPROVED DECK DESIGN BY DBI STANDARDS?

OF SPECIFIC CONCERN:

- IT IS NOT CLEAR IF THE BEAMS HAVE THE APPROPRIATE COLUMN BRACKETS
- THE GUARDRAIL IS APPRENTLY 42" IN SOME PLACES, DO APPER TO BE READY FOR A 200 LB LOAD APPLIED LATERALLY @ THE TOP RAIL
- IT IS NOT DIFFICULT FOR ANY BUILDING PROFESSIONAL TO ASSESS THAT ITS LACK IN LATERAL BRACING SUPPORTS, MAKE IT A PERILOUS PLACE TO BE DURING A SEISMIC EVENT.

THE DECK DESERVES AT THE VERY LEAST TO BE INSPECTED BY AN ENGINEER, JUST AS THE OWNERS OF 143 CORBETT ARE CURRENTLY DOING WITH THEIR OWN HOME. FOR THE SAKE OF THE SAFETY OF THE OWNERS AND THEIR YOUNG CHILDERN, PERHAPS FUNDS SPENT ON ATTOURNEY'S FEE MIGHT BE MORE PRUDENTLY SPENT ON THE RECTIFICATION OF THIS CONTRAPTION."

Subject: RE: 143 Corbett

Hi Steve,

I have put out all materials for you to review and will follow this email with a PDF of all the emails I have received or sent.

The scope of the CU and Variance are for the legalization work done beyond the approved plans of the 2002 permit, specific to portions of the building located within the required rear yard setback. I went on a site visit of the building earlier this week, to better understand the areas that were illegally constructed. From my review of the existing conditions vs. the last approved plans (2002), the scope of work the Sponsor seeks to be legalized

and therefore triggering the CU and Variance is the angled bay addition beyond the original square bay, the triangular volumes added where the square bay meets the rear wall, any proposed additions to or new decks or stairs and any non-compliant or unpermitted new railings along the property lines that do not meet Fire code standards.

The scope of work for the CU does also incorporate all of the scopes of work from the many previously issued building permits. This is to satisfy DBI, who requested that Building Permit #201708094368 be an all-encompassing permit.

Please review my attached figure "Rear Façade Photo History," this is an analysis of the rear of the building through aerial photography since 2002. It is in my opinion that in 2002, the square bay breakfast nook existed in compliance with the 2002 plans. Sometime between the March 14, 2010 and March 29, 2011 is when that the rear of the square bay was extended out to the current angled bay shape. Based on this photo analysis, It seems that most of the illegal work that is within the rear yard, and requiring the CU and Variance, occurred prior to the current owners purchase of the property in 2014. Records show the purchase was completed on 5/9/2014, and the photo dated 6/7/2014 shows a clear view of an enclosed, angled bay breakfast nook.

Staff is in support of the CU in our recommendation to the Commission. In regards to a decision on the Variance, that will be at the discretion of the Zoning Administrator after the public hearing is closed.

Do you think you will be submitted materials for the Commission Package? Those would be needed by early Thursday morning at the latest.

Thank you,

Jeff Horn, Senior Planner

Jeff:

We have had a long quiet period since this permit was sought...over a year I believe....Can you please put the files out for me to review. I would like to see everything that that has been going on and the communication the new architect, and attorney and others have been sending to the Dept to justify the application. I am really hoping that the Dept recommendation will be "no" as to the CU and the variance as these folks were breaking the rules from the opening bell on the project, knew they were breaking the rules and just continued to break more rules to cover it up....That should not be rewarded with the exceptions and special favors they are seeking.

Possible to put that stuff out for me?

Thanks...Steve

On Wed, Feb 24, 2016 at 6:17 PM, Rajan Raghavan < <u>rraghavan57@gmail.com</u>> wrote: Hi Chip:

The present permit is not for the lightwell between our homes. Before we submit the plans to the city we will show it to you and get your inputs. We will take care of all the water drainage issues that has been there before our times. Since Francisco is there all the time and he is the most competent to understand the problems please explain it to him. We will definitely do everything we can within reason to take care of it on our own.

As Francisco mentioned we have asked him to work with you on taking out the concrete that is there downstairs and accommodate your convenience and needs. We do have to take out the concrete for us to remodel the space downstairs. Besides, the previous owner/owners seem to have arbitrarily layered one concrete layer on another.

My number is <u>4083754032</u> and Ragini's number is <u>4086741907</u>. Please text us if we have to address any issues and to reiterate please reach out to Francisco to address any issue.

Rajan

On Wed, Feb 24, 2016 at 9:53 AM, Chip Driggs < chipdriggs@gmail.com> wrote: Hi Rajan,

We appreciate the note and continued communication about what is going on next door. I also appreciate your understanding that we neighbors have been the ones bearing majority of the inconvenience of the construction as you the homeowner are not living near this construction zone. Jennifer is very sick and over the last week she has not been able to get good rest during the day due to the construction and I have had to alter my work at home schedule over the last 18 months as I've been concerned that the construction noise would interrupt important calls I am on. I'm bringing this up just to bring some reality to the situation and how your construction has had real world consequences for us personally.

As we discussed, if there was better communication from day one we could have avoided a lot of the confusion as to what is being done. With that said, I do want to tell you that we are again very concerned this morning as there is jack hammering going on which is seriously vibrating our house and have concerns that this could be causing some unintended consequences on our property. I would like to take you up on the "courtesy" of viewing what is being done in the lower levels which "could" be affecting our property. I will ask Francisco to take a look next time I see him.

Thank you for the pre-notice of intent to in-fill the light well along our property line. I again want to confirm that the current filed permit to in-fill the "south" light well is NOT for the light well between our homes? As we have discussed and you mention above, there are serious water issues between our homes and this is a very big concern of ours. Our homes have been like this for over 100 years and as you mention there will need to be some cooperation

from both parties to properly address that issue. I would like to hear as soon as possible what the plans are to address the the water drainage issue. We are 100% prepared to fully cooperate with your intent to infill the light well, but also want to be clear that if an acceptable solution to the water issue is not proposed, we will be forced to do everything in our power to delay, stop, or change the proposed infill.

Thanks for reaching out Rajan, I do hope to continue with the open lines of communication.

Best,

Chip

On Mon, Feb 22, 2016 at 5:45 PM, Rajan Raghavan < <u>rraghavan57@gmail.com</u>> wrote: Hi Chip:

We have researched the issue extensively and also spoken to our engineer, building architect and the building department. The summary is very simple: What we have undertaken is engineered correctly and compliant with the legal codes. We took your inputs seriously and took time researching the data in depth.

I am ok with you taking a look at the work being done under our house as a courtesy. Please schedule with Francisco our contractor if you would like to do so. Christopher our other neighbor did stop by and Francisco showed him around the basement. I am reproducing the email from our team as a reference:

"Tim, Javier and myself have made various trips to different departments to investigate the information you had forwarded me. First of all after showing the building department this information they (SFDBI), informed us the map and the link is a insert from the building department. There are various codes pertaining to this section. "A project may or may not require one of the various codes pertaining to this section." I know nothing of your neighbors project, I do not know what their project entails, requires or how their professional team has designed their project. Therefore depending various factors on their project they may have fallen into one of these requirements. "WE" cannot assume or make an assessment of what they are required to do.

What I do know is that we have gone through all the proper channels of planning, building and engineering. WE have an approved plan and permits by all departments. Furthermore the building department reiterated our project did not require public notification. You have the option of informing your neighbors of your work (if) you wish to do so. Again this would be voluntary but not required. We have fulfilled our requirement and have done nothing illegal".

Also, we do want to let you know well in advance that we plan to enclose our side of the lightwell. Francisco and we are prepared to discuss the plans with you and also address the water issues. We are ok with accommodating changes within reason. When we do apply to the city we will of course send all the notifications as would be required by the city.

Regards,

Rajan

On Sat, Jan 30, 2016 at 5:52 PM, Chip Driggs < chipdriggs@gmail.com> wrote:

Rajan,

Thanks for taking the time today to discuss the remodel your undertaking and listening to our concerns. A couple key points from the conversation is that you will better communicate to the neighbors of the project status and well as reassuring us that anything which is not to code you will make the appropriate changes to comply with code.

We discussed the excavation which was being done, and below are details from both the City of SF and our Surveyor and architect which clearly states that 143 Corbett has a slope >20° which would require a geotechnical report.

From the **SFDBI.ORG** website

Note: A geotechnical report prepared by a qualified professional must be submitted if one of the following thresholds apply to the project:

- The project involves a lot split located on a slope equal to or greater than 20 percent.
- The project is located in a seismic hazard landslide zone or on a lot with a slope average equal to or greater

than 20 percent and involves either

- o excavation of 50 or more cubic yards of soil, or
- building expansion greater than 1,000 square feet outside of the existing building footprint.

A geotechnical report may also be required for other circumstances as determined by Environmental Planning staff.

I have included a map from the planning dept. which highlights 143 Corbett Ave as being a lot which is greater than 20° slope.

*see attached CatEx Determination Map

We also had our architect calculate the slope using our survey and his calculations confirmed as well that in fact the slope is $>20^{\circ}$

Architect Notes:

- A survey point was taken slightly west-of-center on the northernmost property line as it runs along Corbett Avenue. The elevation of this point is 252.29'.
- A survey point was also taken slightly west-of-center on the property line defining the southernmost end of your lot. The elevation of this point is 237.09'.
- A line connecting these two points (which is almost precisely parallel to your eastern and western property lines) is 74.17' long.
- The slope between these points is: 100x[(252.29'-237.09')/74.17']=20.49%

I have copied Bill and Christoher as well seeing the large amount of earth being excavated is also a concern of theirs.

Please let us know how you plan to address this potential issue.

Also, here is the permit details which was filed by FRANCISCO SANDOVAL. I know you told me you had no intentions of filling in the light well on our property line, but as you can see in the permit details, the permit was filed to infill the LIGHTWELL ON SOUTHSIDE OF THE HOUSE. Our house would be on the south side of your house, so to us, this clearly looks like a permit had been filed for to infill the light well between our houses.

APPEAL # 16-155

CITY & COUNTY OF SAN FRANCISCO BOARD OF APPEALS

PRELIMINARY STATEMENT OF APPEAL

I / We, Stephen Williams, hereby appeal the following departmental action: ISSUANCE of Alteration Permit No. 2015/11/25/3643 by the Department of Building Inspection which was issued or became effective on: August 31, 2016, to: Rajan Raghavan, for the property located at: 143 Corbett Avenue.

BRIEFING SCHEDULE:

The Appellant may, but is not required to, submit a one page (double-spaced) supplementary statement with this Preliminary Statement of Appeal. No exhibits or other submissions are allowed at this time.

Appellant's Brief is due on or before: **December 22, 2016**, **(no later than three Thursdays prior to the hearing date)**, up to 12 pages in length, double-spaced, with unlimited exhibits, with eleven (11) copies delivered to the Board office by 4:30 p.m., and with additional copies delivered to the other parties the same day. In addition, an electronic copy should be emailed to: boardofappeals@sfgov.org if possible.

Respondent's and Other Parties' Briefs are due on or before: **January 05, 2017**, **(no later than one Thursday prior to hearing date)**, up to 12 pages in length, doubled-spaced, with unlimited exhibits, with eleven (11) copies delivered to the Board office by 4:30 p.m., and with additional copies delivered to the other parties the same day. In addition, an electronic copy should be emailed to: boardofappeals@sfgov.org if possible.

Only photographs and drawings may be submitted by the parties at hearing.

Hearing Date: Wednesday, January 11, 2017, 5:00 p.m., City Hall, Room 416, One Dr. Carlton B. Goodlett Place

All parties to this appeal must adhere to the briefing schedule above, however if the hearing date is changed, the briefing schedule MAY also be changed. Written notice will be provided of any change to the briefing schedule.

In order to have their documents sent to the Board members prior to hearing, **members of the public** should submit eleven (11) copies of all documents of support/opposition no later than one Thursday prior to hearing date by 4:30 p.m. Please note that names and contact information included in submittals from members of the public will become part of the public record. Submittals from members of the public may be made anonymously.

Please note that in addition to the parties' briefs, any materials that the Board receives relevant to this appeal, including letters of support/opposition from members of the public, are distributed to Board members prior to hearing. All such materials are available for inspection at the Board's office. You may also request a copy of the packet of materials that are provided to Board members at a cost of 10 cents per page, per S.F. Admin. Code Ch. 67.28.

If you have any questions please call the Board of Appeals at 415-575-6880

The reasons for this appeal are as follows:

BOARD OF APPEALS

Appeal of Building Permit Application No.: 2015.1125.3643 143 Corbett Ave; APN: 2656/060

SEP 1 5 2016

APPEAL #_ 16-155

Attachment 1

This Appeal is for Building Permit Application No.: 2015.1125.3643 (attached). The permit was issued in error and for work that may not be approved over the counter as it directly impacts windows at the neighboring property to the west at 145 Corbett Ave and requires neighborhood notice or a sign off of approval by the owners of 145 Corbett Ave.

Building Permit Application No.: 2015.1125.3643 was filed on November 25, 2015 and the permit was issued August 31, 2016. In the interim, the owners of 145 Corbett, the west adjacent neighbors have objected to the plan and the proposed infill of a light-well on the west side of the Project Building. As a result of these complaints, the Project Sponsor and the Neighbors discussed entering into a Settlement Agreement in which the Project Sponsor agreed to maintain the existing light-well on the west side of the Project Building.

Building Permit Application No.: 2015.1125.3643 states in its description of the work to be performed, "INFILL LIGHTWELL ON SOUTH (WEST) SIDE OF THE HOUSE." Building Permit Application No.: 2015.1125.3643 also lists 3 floors of occupancy even though the Assessor's office records show 2 floors of occupancy for the subject site and no approvals have been approved for an additional floor of occupancy.

The Project Sponsor has admitted in an email that the description of work to be performed contained in Building Permit Application No.: 2015.1125.3643 is an error, and that the work to be done is actually infilling a light-well on the <u>east</u> side of the Project Building. The project Sponsor also assured my clients that this mistake would be corrected, however as of the date of this filing, the Project Sponsor has not corrected the permit prior to the date to appeal the permit.

Statement of Appeal--143 Corbett Avenue

APN: 2656/060

Appeal of Building Permit Application No.: 2106.1123.3483

DEC 0 8 2016 APPEAL # 16-186

Permit Holder/Project Sponsor purchased the single-family dwelling at 143 Corbett Ave. in 2014 and immediately undertook massive alterations. Sponsors obtained some nineteen (19) different permits---all over-the-counter and all issued without neighborhood notification. A recent

inspection has revealed that the Sponsors added two additional floors of occupancy to the

structure transforming it from a two-story dwelling into a four-story dwelling---without

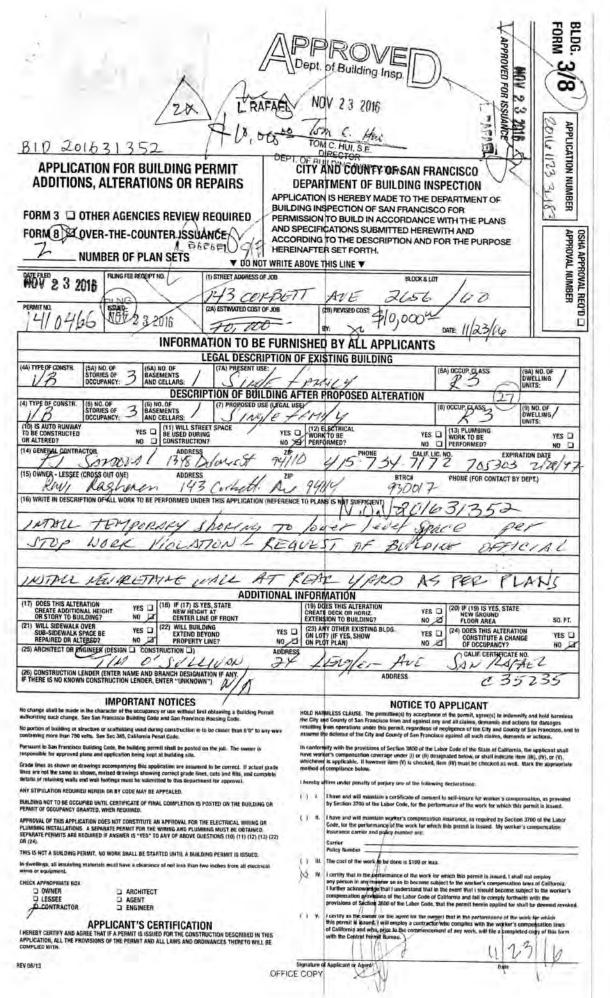

engineered plans or an architect. DBI issued an NOV is requiring that the Sponsors reconcile the

numerous permits which have been issued and to provide plans to show the full extent of the

work on the site---Existing-Work Done to Date---Proposed.

Sponsors applied for BPA No.: 2015.1123.3483 on November 23, 2016 and the permit was issued the same day. The pattern of serial permitting makes it impossible to tell what work is legal and permitted. The two-floor excavation conducted without approved engineering or plans creates a concern for the neighbors since it was done without the required State or local building code notices to the neighbors and is far below the neighbors' foundation. The topography of the site is a very steep hill moving south from Corbett Avenue down to Market Street. The plans for the subject permit falsely show as "existing" the two new floors that were excavated at the site. Accurate plans should be required and shared with the neighbors.

The neighbors are also concerned about safety at the job site. Given the number of different permits, the neighbors are concerned that there is no central oversight of the entire project, and therefore it is impossible for anyone to know if the Project and Project site are safe, code compliant and free of unreasonable hazards. A new four-story structure requires a licensed engineer or architect (the plans were done by a "designer") and also triggers fire safety issues, seismic and structural concerns. The addition of the two new floors of occupancy was done under the guise of foundation upgrades and other over-the-counter permits.

Jennifer Creelman, and Alfred "Chip" Driggs Appellants,

V.

San Francisco Dept. Of Building Inspection, Respondent.

Project Sponsor, Ravi Raghavan

Appellants' Brief In Support of Appeal

BPA No. 2016.1123.3483

143 Corbett Avenue

Appeal of Issuance of Alteration Permit No. 2016.1123.3483 by the Department of Building Inspection.

Hearing Date: Wednesday, February 22, 2017

Time: 5:00 PM

Location: City Hall, Room 416

#1 Dr. Carlton B. Goodlett Place

San Francisco, CA 94102

Stephen M. Williams SBN: 122103 1934 Divisadero Street San Francisco, CA 94115 Tel: (415) 292-3656 smw@stevewilliamslaw.com Attorney for Appellants, Jennifer Creelman and Alfred "Chip" Driggs

INTRODUCTION

Appellants Jennifer Creelman and Chip Driggs live next door (west) to the subject site at 145 Corbett Ave. Appellants seek review of the Subject Project because for the past two years, the Project Sponsors have:

- 1. Obtained some twenty (20) serial permits, over-the-counter in order to avoid Planning

 Department review and to deceive the community and DBI about the scope and extent of the

 Project;
- 2. Dangerously excavated two new floors of occupancy far below the Appellants' foundations, without notice or approved plans;
 - 3. Completely excavated the rear yard causing serious drainage issues; and
- 4. Enclosed (with added walls and a roof) a second-floor rear deck to create a new occupied room in the required rear yard without permits, notice or a variance.

Appellants and their neighbors filed seven complaints regarding these illegal activities beginning in August 2014, (before sponsors obtained a single permit) but inexplicably, the complaints were abated or closed each time until an inspection by senior DBI officials in October 2016 brought to light the extent of the violations.

On October 24, 2016, the DBI issued Notice of Violation ("NOV") # 201631352. The NOV has not been abated or cured. The violation description in NOV # 201631352 states:

A site inspection and a review of issued building permits has revealed that work is being performed that exceeds the scope of work approved. The property is described on city record[s] as a 2 story building. At time of inspection it was noted that the property appears to have four levels. Two levels have been created below street level. New Framing has been done at new floors including the installation of new bathrooms. Backyard level has been excavated and is lower than previous. Retaining walls have been undermined. A new deck has been constructed at roof top level.

Exhibit 1.

Sponsors bought this property in May 2014 and immediately began work without any permits. Now the 105-year-old house has been gutted. Although the building is perched on the side of steeply graded hill, Sponsors excavated two new floors from underneath the existing building without required notice under the civil code, engineering or permits. The entire lot has been re-graded. Retaining walls have been undermined. An external deck was enclosed as part of the internal structure, and a new deck was added on top – all without proper permitting or notice.

None of this work was permitted when it was undertaken. Rather the Sponsors implemented work with no regard to safety or the law. Although the building appears on all City records as a two-story building (Exhibit 2 Planning Information report), the most recent permit, # 2016.1123.3483, (Exhibit 3) falsely states that the building is three stories. Meanwhile it is based on plans (Exhibit 4) which state that the building contains "four stories". When the neighbors complained, the Sponsors falsified plans and permit applications and then claimed that they had been entitled to perform the work all along. Exhibit 1, NOV #201631352 instructed the Sponsors to stop work; file for a new permit before November 24, 2016 (30 days), which consolidates all the work performed to date with plans; and obtain a new permit by December 24, 2016 (60 days). None of the required actions on the NOV have occurred. As of the filing of this brief, three full months (90 days) will have expired since the NOV was written. Sponsors have failed to comply in any way with the NOV. Sponsors have not filed for a new permit or provided plans as required by the Stop Work Order. Appellants have forwarded a letter to Senior Inspector Joseph Duffy at DBI explaining the complicated chronology of this Project in detail and making it clear that Sponsors are in violation of the NOV; however as of filing the Department has taken no action to enforce its October 24, 2016 order. Letter to Senior Inspector Duffy is Exhibit 5.

The Board of Appeals now has the chance to correct the dangerous and contemptuous construction strategy employed by Sponsors. The Board should grant this appeal and hold the Appealed Permit in abeyance. Sponsors should be ordered to produce a set of plans which accurately depicts (1) what existed at the site prior to construction; (2) explaining what work has occurred since Sponsors acquired the property; and (3) depicting the work to be performed.

PROJECT HISTORY

Sponsors have submitted false permit applications and false plans for the site, which among other things, conceal the fact that Sponsors have illegally excavated two floors of occupancy from under the existing building, and altered a two-story building to create an unpermitted four story building.

The City has recently acknowledged that there are two additional occupied floors in the building which are not on City records. DBI states that the construction has dangerously undermined the retaining walls which keep these buildings perched on their hillside locations, and Appellants' foundation is endangered. Despite putting the construction on hold, the neighbors have still not received the required notification of the planned work, and no one (including the City) knows what work has actually been done. Sponsors illegally added two floors of occupation, and illegally enclosed an external deck. The Board should require that Sponsors reverse these illegal alterations to the building and then re-start this project from the beginning with the correct notification and planning review of <u>all</u> work proposed.

Project Sponsors and Owners, Ravi and his father Rajan Raghavan purchased this property on May 9, 2014 and immediately implemented a massive excavation project, including adding two new floors of living space and the infrastructure for a second unit. In conversations with Appellants, Sponsors stated that they intended to add a new unit however they gave no

formal notice of an excavation for two new floors of occupancy. From the beginning, Sponsor determined to conceal the scope of the project, and thereby avoid the safe, normal, legal building permitting and construction process for properties in San Francisco.

Sponsors did not submit the project to the Planning Department for the required review. Instead Sponsors applied for some 20-different piecemeal over-the-counter permits for various aspects of the Project. All permits were issued over-the-counter without neighborhood notification as is required by Planning Code Section 311. As specified in the chronology (Exhibit 5) all the permits were sought *retroactively* for work already underway, as a result of complaints filed by Appellants and numerous other neighbors after obvious unpermitted construction.

Two New Floors of Occupancy Were Constructed Illegally

Because of the past two years of illegal and unpermitted construction, the building currently has **four** floors of occupancy. This was discovered by DBI during an inspection on October 24, 2016. There is a clear pattern of overlapping, ambiguous, and ultimately false permit applications. Fraud is revealed on the face of every single permit. The Assessor-Recorder's office lists the subject property as a two (2) story building. (Exhibit 2: Assessor's Report.)

Numerous Real Estate websites, show that the house is still understood to be a 2-story building. See Exhibit 6: Zillow Report on 143 Corbett; Exhibit 7: Redfin Report on 143 Corbett; Exhibit 8: Trulia Report on 143 Corbett. The plans from the building's original construction also show two stories.

Sponsors Falsified Permits -- Listing an Incorrect Number of Existing Floors of Occupancy

In contrast to the recorded description of the property and all publically available descriptions of the property, Sponsors' permit applications all list three (3) stories of occupancy plus a basement. Exhibit 9, Permit 2014.0811.3493 was applied for on August 11, 2014 and at

box (5A) states that the existing building has 3 floors of occupancy. Exhibit 10 Permit 2014.0918.6685 was issued on September 18, 2014 and at box (5A) which lists the number of stories of occupancy, the handwritten entry appears to be "2" covered by "3".

Exhibit 11 Permit 2014.1125.2473 was issued November 25, 2014 and at box (5A) states that the existing building has 3 floors of occupancy. Exhibit 12, Permit 2015.0706.0719 was issued July 6, 2015 and at box (5A) states that the existing building has 3 floors of occupancy. Sponsors filed for Exhibit 13, Permit 2015.0827.5417 on August 27 2015, but the permit was issued November 30, 2015 and at box (5A) states that the existing building has 3 floors of occupancy. Sponsors filed for Exhibit 14, Permit 2015.1125.3643 on November 25, 2015 but the permit was issued August 31, 2016 and at box (5A) states that the existing building has 3 floors of occupancy. Exhibit 15, Permit 2016.0916.7972 was issued September 16, 2016 and at box (5A) states that the existing building has 3 floors of occupancy. Exhibit 16, Permit 2016.0819.5515 was issued September 19, 2016 and at box (5A) states that the existing building has 3 floors of occupancy.

The most recent permit, # 2016.1123.3483, Exhibit 3 which is the subject of this appeal is based on plans which state that the building contains "four stories". The Plans before the Board are false and continue the pattern of fraud and deception by Sponsor and the Contractor. All permits, applied for by Sponsor, incorrectly state that there are three floors of occupancy in the project building or even three floors and a basement (four floors). The legal description provided by the City, lists the building as 2 stories of occupancy. The Sponsors' motivation for these incorrect descriptions of the property, is and was to cover up the nature, and extent of the work which was actually being performed on the site.

Sponsors Lied to The Neighbors About the Scope of The Project

After purchasing the property in May 2014, Sponsor stated a desire to remodel the Property, and add a unit. Shortly after this conversation Appellants noticed the noise of construction work at the site, and observed substantial construction work occurring on the ground floor of the building---no permits had been applied for or issued. No permits were publicly posted as is required, and no receive written notice of an application for such work was made. On August 7, 2014, the DBI received Complaint # 201489181 (Exhibit 17), reporting unpermitted construction work on the 1st floor of the property.

In response, on August 11, 2014, Sponsors applied over-the-counter, for Permit # 2014.0811.3493 (Exhibit 9) to "repair dry rot on floor and wall of third floor bathroom, and replace plumbing fixtures; existing lighting and ventilation to remain." On August 11, 2014 Complaint # 201489181 was closed due to the issuance of "PA201408113493". This was the first example of Sponsors' *modus operandi* for this project. Sponsors bought the house with the expansion in mind, and upon purchasing the house started the expansion immediately without ANY permits. Each time they were caught doing unpermitted work, they went back and filed for a false permit to cover the work they had already implemented.

Work on the 1st Floor Continued Though the Permit Covered Only Work on the 3rd Floor

On September 16, 2014, the Dept. received Complaint # 201494491 (Exhibit 18) reporting work without a permit and work beyond the scope of the permit. The Complaint notes as additional information, "gutted 1st floor, permit is for 3rd floor bath. Earlier complaint abated by inspector who did not visit but assumed permit covered work." Exhibit 18.

On September 17, 2014, a DBI Inspector visited the site to investigate Complaint # 201494491. The Inspector noted that the "contractor to provide permits not on site." Of course, Permits were not in site, because the next day on September, 18 2014, Sponsors applied, over-

the-counter, for PA# 2014.0918.6685 (Exhibit 10) to install a new bathroom on the 3rd floor, remodel existing bathroom on the 3rd floor, and address Complaint 20149441.

On September 18, 2014, the Inspector closed Complaint 20149441, noting that "PA201409186685 issued for work". It is clear from this timeline, that Sponsors started the work which led to Complaint # 201494491, when an Inspector arrived to investigate the complaint, the sponsors lied and told the Inspector they had merely forgotten to have their permits on site with them, and then they filed for BPA# 2014.0918.6685 to cover their tracks.

The Sponsors Needed to Upgrade Other Systems to Match the Expanded Square Footage

On November 10, 2014, the Department received Complaint #201407451 (Exhibit 19) which reported that the ceilings were being torn out with the windows open, and a failure to contain construction related dust and expressed concern about work beyond the scope of the permit. On November 14, 2014, the Inspector, "issued a correction notice to extend permit to work done [beyond] scope of permit," and closed the case. Exhibit 19.

On November 25, 2014, Sponsors applied, over-the-counter, for BPA # 2014.1125.2473 (See Exhibit 11) to "Open walls in various location on 1st 2nd and 3rd floors to install electrical replacement cables related to electrical permit E201409243026." Electrical Permit E201409243026 (See Exhibit 11) was filed for on September 24, 2014 for "2 bathroom and hallway lights, panel upgrade, demo current electrical and upgrade as needed..." BPA# 2014.1125.2473 was issued in late November 2014, to cover the unpermitted work which led to the November 10 complaint, because the electrical permit sited in BPA # 2014.1125.2473 had been issued nearly 8 weeks prior, for a different project (bathroom remodel) in a different part of the house (3rd floor).

The Sponsors Overwhelmed Inspectors with the Sheer Volume of Permits

Complaint # 201542021 was filed on April 22, 2015 (Exhibit 20). The Complaint requested a verification that the project did not exceed the permitting which was limited to a remodel of a third-floor bathroom; the complaint reported that work was going on all day everyday, that the house was taken "down to the studs" and a new electrical box installed.

On April 28, 2015 Complaint # 201542021 was closed with the note, "work per scope of [permits]". The notes do not indicate that a site visit occurred. This is a good example of how Sponsors have been successful in evading enforcement for the unpermitted work. When confronted with a complaint, sponsors merely apply for more permits, in the hopes that the sheer number of permits that they have obtained will obscure the unpermitted work being performed.

After Excavating New Floors Without Permit Sponsors Enclosed an External Deck

On July 2, 2015, the DBI received Complaint # 201555501 (Exhibit 21), reporting "work outside the scope of permits 201408113493, 201409186685, 201411252473. Enclosing the deck and putting in windows in the deck." On July 6, 2015, Sponsor was issued, over-the-counter, BPA#2015.0706.0719 (See Exhibit 12) to, "replace rear windows (6) not visible from the street. In-kind, size & type..." On August 10, 2015, Complaint #201555501, was closed with the note, "per scope of permits." None of the previously issued permits covered this type of work, any framing that occurred before August 10 as reported by the complaint, was done without permit.

The record is clear. Late in the week, Sponsor's unpermitted work was reported to the Department. After the weekend on Monday, Sponsors filed for a Permit for the first time which would cover ostensibly the unpermitted work---"replacing" windows that never existed before in the new room created. Thereafter the Inspector was unable to return to the site for nearly five weeks, at which point the work at the site appeared to be within the scope of the active permits.

After Excavating Two New Floors, And Enclosing an External Deck, Sponsors Realize That the Building is Not Adequately Supported

On November 24, 2015 DBI received Complaint # 201580691 (Exhibit 22) reporting the following work without permits: "1. closing out lightwell between 143 and 145 Corbett Ave; 2. digging out lower level to put in a new unit; 3. completely redid back deck, closing it in, blocking neighbor's view." On November 25, 2015 Sponsors applied for BPA# 2015.1125.3643 (See Exhibit 14) permitting the "[I]nfill of the lightwell on southside of house." On November 30, 2015 Sponsors were issued BPA# 2015.0824.5417 (Exhibit 13) to, "[I]nstall retaining wall, beam and footings in basement."

The Sponsors' strategy worked again, and on December 2, 2015 an Inspector closed Complaint # 201580691, noting "complaint not valid. Multiple permits issued and filed. See PTS for permits and scopes of work." The neighbors repeatedly warned the Department of work outside the scope of any permit for two years. Unfortunately, no Inspector inspected the site or responded to the complaint for over a week. In that time, Sponsors were able to slip in and apply for two permits to cover work that had been performed without permits. By the time the Inspector had investigated the complaint, it appeared as though the work was permitted.

After Numerous Complaints, Sponsor's Dangerous -Unpermitted Excavation Is Discovered

On August 10 2016, Complaint # 201631352 was received by the DBI. Exhibit 23. The Complaint states that the work has been going on for 2 years with no signs posted, and that there has been scaffolding and excavation occurring. On October 24, 2016, the Department issued a Notice of Violation # 201631352 and Stop Work Order (See Exhibit 1). The Notice of Violation states, "A site inspection and a review of issued building permits has revealed that work is being performed that exceeds the scope of work approved. The property is described on city record as a 2-story building. At time of inspection it was noted that the property appears to have four levels.

Two levels have been created below street level... Backyard level has been excavated and is lower than previous. Retaining walls have been undermined. ..."

Sponsors have submitted plans that even abandon the three-story fallacy they created in their permitting. The most recent plan set received by Appellants clearly shows (and states) a total of 4 floors of occupancy. Exhibit 4. Thus, in just under 3 years and nearly 20 permits, Sponsors have obscured from the City that they have converted a two-story building into a four-story building. They did this without notice, permits or oversight. Without warning or notice to anyone, Sponsors excavated the space for the two new floors of occupancy out from underneath the existing building. The neighbors watched as load after load of dirt was removed from the site.

The lack of proper notice and permitting is especially important in this instance. Any extraordinary excavation such as this one must be done with the utmost care and according to the rigorous engineering and safety guidelines; however, without the proper notice and permitting the City, and the neighbors have no way of confirming a site's safety. In this case Sponsors deliberately hid what they were doing. It has now been revealed that the work <u>had not</u> been done with the utmost care and safety, as Notice of Violation #201631352, clearly states: "<u>retaining walls have been undermined</u>." Exhibit 1. This is of particular concern, because the project lot and the adjacent neighbors' lots are on a very steep grade, and any excavation must be properly shored to prevent catastrophic damage to these buildings' foundations.

Sponsors Go on The Offensive and Sue Their Neighbors in the Superior Court.

After deceiving the neighbors and the DBI for years and receiving these complaints and opposition, reasonable people would recognize that an untenable situation was developing with their neighbors based on their own illegal actions. Reasonable people would admit fault and take steps to work out differences in a conciliatory way. Instead Sponsors hired an attorney who

threatened to bring a frivolous lawsuit against Appellants if they did not abandon their administrative appeals. See Exhibit 24 Letter from Attorney Richard Munzinger, Oct. 27, 2016.

It was pointed out to Sponsors' attorney, that a lawsuit against a defendant for engaging in lawful actions before a public body, is the definition of a Strategic Lawsuit Against Public Participation ("SLAPP"), and would be subject to dismissal under the "Anti-SLAPP" Statute. In response, on November 7, 2016 Sponsors filed a lawsuit anyway against their neighbors alleging: 1) that 13 months earlier on October 1, 2015 Appellant Creelman had trespassed against Sponsors by entering their property during a loud party to ask them to keep the noise down; and 2) that for some 30 months Appellants had allowed water to leak onto Sponsor's property causing unspecified "damage". Lawsuit attached as Exhibit 25. Sponsors fail to note that they removed a portion of their roof (without permits) which covered a lightwell that had previously directed water into a gutter and off of the property.

The pattern here speaks for itself. At every stage, Sponsors have submitted false plans and perjured permits. At every stage of this project, Sponsors and their Contractor have engaged in a deliberate, and coordinated plan to avoid the additional time and cost to do this project right. Instead Sponsors conducted major work without permits and then have obtained a flurry of overlapping and vague permits once a complaint was filed. These permits were all obtained overthe-counter. None of these permits describe the work which is actually being performed, namely the construction of two additional floors of occupancy, via a major excavation below grade, and the construction of new floors. It would be of no surprise to anyone familiar with the project to learn that upon completion the Raghavans intend to put the now two-unit property up for sale and make a tidy profit for their efforts to deceive the City and their neighbors.

Appellants desire to have a safe, legally permitted, and code compliant project built next door to their property. The Board should order Sponsors to comply with the consolidation order from DBI, and submit for full review the entire plan for the Project. Two and a half years into this Project, the neighbors still have no idea what the full scope of the Project is, and neither does the City. No one knows the full scope of the illegal excavation which occurred at this site. Until the full scope is assessed it will be impossible to say if this now four-story building, perched at the top of an extreme grade is safe. Appellants, and in particular the downhill neighbors deserve to know that this Project does not endanger them or their property.

Sponsors should also be required to remove the new construction which enclosed the back deck. The enclosed deck was never designed to be incorporated into the structure. This expansion of the building envelope was illegally performed and blocks Appellants' air and light and requires a variance.

The Board should grant this appeal and hold the Appealed Permit in abeyance. The Sponsors should be ordered to produce a set of plans which accurately depicts what existed at the site prior to construction; a set of plans explaining what work has occurred since the Sponsors acquired the property; and a set of plans depicting the work to be performed. Furthermore, the Project should be thoroughly and transparently vetted to ensure that it is structurally sound and safe.

Sincerely,

Stephen M. Williams

An William

NOTICE OF VIOLATION

of the San Francisco Municipal Codes Regarding Unsafe, Substandard or Noncomplying Structure or Land or Occupancy

Pursuant to SFBC 304(e) and 332.3 investigation fees are charged for work begun or performed without permits or for work exceeding the scope of permits. Such fees may be appealed to the Board of Permit Appeals within 15 days of permit issuance, at 875 Stevenson St., 4th floor. 554-6720

WARNING: Failure to take immediate action as required to correct the above violations will result in abatement proceedings by the Department of Building Inspection. If an Order of Abatement is recorded against this property, the owner will be billed or the property will be liened for all costs incurred in the code enforcement process from the posting of the first "Notice of Violation" until all costs are paid. SFBC 203(b) & 332.3

WARNING: Section 204 of the San Francisco Housing Code provides for immediate fines of \$100 for each instance of initial non-compliance, followed by \$200 fines per violation for the second instance of non-compliance, up to a maximum of \$7,500 per building. This section also provides for issuance of a criminal charge as a misdemeanor for each violation, resulting in fines of not less than \$1,000 per day or six months' imprisonment or both.

WARNING: Anyone who derives rental income from housing determined by the Department of Building Inspection to be substandard cannot deduct from state personal income tax and bank and corporate income tax interest, depreciation or taxes attributable to such substandard structure. If correction work is not completed or being diligently, expeditiously and continuously prosecuted after six (6) months from the date of this notice, notification will be sent to the Franchise Tax Board as provided in Section 17284(c) of the Revenue and Taxation Code.

WARNING: Section 205(a) of the San Francisco Building Code provides for civil fines of up to \$500 per day for any person who violates, disobeys, omits, neglects or refuses to comply with or opposes the execution of any provisions of this code. This section also provides for misdemeanor fines, if convicted, of up to \$500 and/or imprisonment up to six months for each separate offense for every day such offense occurs.

De acuerdo a las Secciones 304(e) y 332.3 de el Código de Construcción de Edificios de San Francisco, gastos de investigación serán cobrados por trabajo empezado o realizado sin los debidos permisos o por trabajo que exceda el límite estipulado en los permisos. Dichos cobros pueden ser apelados ante la Junta de Apelaciones de Permisos (Board of Permit Appeals) dentro de los primeros quince días de haberse obtenido el permiso. Las apelaciones se hacen en el 875 de la calle. Stevenson, cuarto piso, telétono 554-6720.

ADVERTENCIA: Si no cumple con las acciones immediatas requeridas para corregir las infracciones, el Departamento de Inspección de Edificios tendrá el derecho de iniciar el proceso de mitigación. Si una Orden de Mitigación es registrada contra dicha propiedad, los gastos incurridos durante el proceso de aplicación del código, desde la primera puesta del Aviso de Infracción hasta que todos los gastos esten pagados, se le cooraran al dueño del edificio o la propiedad sera embargada para recuperar dichos gastos. Referencia a la Sección 203(b) y 332.3 de el Código de Construcción de Edificios.

ADVERTENCIA: La Sección 204 de el Código de Vivienda de San Francisco permite que se multe inmediatamente \$100 por cada primer caso de inconformidad, seguida por una multa de \$200 por cada segunda infracción de inconformidad, aumentando hasta un máximo de \$7,500 por cada edificio. Esta Sección también permite obtener cargos criminales como delito menor, resultando en multas de no menos de \$1,000 diarios ó 6 meses de encarcelamiento o ambas sanciones.

ADVERTENCIA. Cualquier persona que reciba renta por una vivienda que haya sido declarada que no satisface las normas requeridas por el Departamento de Inspección de Edificios, no puede deducir del estado intereses personales, de banco o empresa, depreciación o taxes atribuidos sobre dicha estructura. Si el trabajo de reparación no se termina o está diligentemente, rápidamente y contuamente acusado después de seis (6) meses de la fecha de este aviso, se le enviará una notificación a la Junta de Concesión de Impuestos (Franchise Tax Board) de acuerdo a la Sección 1264(c) del Código de Ingresos e Impuestos (Revenue and Taxation Code).

ADVERTENCIA: La Sección 205(a) de el Código de Edicios de San Francisco impone multas civiles hasta de \$500 por cada dia a cualquier persona que infrinja, desobedezca, emita, descuide, rehusa cumplir, resiste o se opone la la ejecución de las provisiones de este código. Esta sección también impone multas por delito menor, si es declarado culpable, de hasta \$500 o encarcelamiento de hasta 6 meses, o ambas sanciones, por cada una de las ofensas y por cada dia que dicha ofensa occura.

Miscellaneous Permits Reviewed By The Planning Dept Report: 2656060

Depending on the activity being proposed a permit may need to be obtained from the Fire Department, Health Department, Police Department, Alcoholic Beverage Commission or other organization. The Planning Department reviews most applications for these permits in order to ensure compliance with the <u>Planning Code</u>.

MISCELLANEOUS PERMITS REVIEWED BY THE PLANNING DEPT:

None

Complaints Report: 2656060

The Planning Department and the Department of Building Inspection operate programs that ensure compliance with the San Francisco <u>Planning Code</u> and <u>Building Inspection Commission Codes</u> respectively. Additionally, they respond to customer complaints of potential code violations and initiate fair and unbiased enforcement action to correct those violations and educate property owners to maintain code compliance.

Senior Inspector Duffy:

I understand you are meeting with Jennifer Creelman and Chip Driggs tomorrow to discuss the construction that has been going on next to their home for the past two plus years. I am enclosing a comprehensive chronology of the permits and complaints at the site for the past two years. It is not a pretty picture....some of the worst and most brazen violations I have seen. The DBI has now written the owners up for the exact same violations of which the neighbors (not just Chip and Jennifer) complained two years ago!

As you know, we are headed to the Board of Appeals on this case on their last permit. Jennifer and Chip appealed this permit because the permit and the plans both falsely state that this is an "existing" four story building.(as you know it is a legal two story building). Before any additional work is done at the site, they want to see the consolidation permit and plans ordered by DBI to understand what was there before work started, what work has been conducted to date and what is planned by the Sponsors. Because the appealed permit are plainly false (stating four stories) can you require that be corrected?

Obviously we want the shoring and retaining walls to safeguard Chip and Jennifer's home, but the Sponsors cannot be trusted to do only that work and will likely work to cover other issues. Also, can you up-date me on the status of the NOV? It was issued October 24 and we are now past 90 days and way past time when the permits were to be obtained and the work completed for the entire project. Can you please set the Director's hearing on these open, obvious violations? The neighbors complained on July 2, 2015 that the deck was being turned into a room....we believe that should ordered removed immediately and don't understand the months and months of delay? Can you let me know what is going on?

Thanks-

Steve Williams

TO OBTAIN FINAL INSPECTION FOR WORK APPROVED UNDER PA#201408113493, 201409186685, 201411252473, ALL WORK IS COMPLETE.

Cost: \$1.00

August 10, 2016—Seventh Complaint 201631352

143 Corbett Ave. --- Caller states please inspect. Caller states I want to make sure that this house has permits, and that it is safe to do the work that is being done at this location. This work has been going on for 2 years and there is also scaffolding there on and off and excavation. No Signs posted.

September 16, 2016---Tenth Permit App 201609167972

REVISION TO PERMIT #201511253643: INFILL ON LIGHTWELL ON EAST SIDE OF BUILDING AS NOTED ON PLAN. CLERICAL ERROR SHOWS WEST.

Cost: \$1.00

Chronology of Complaints and Permit Applications at 143 Corbett Avenue

October 24, 2016 -- DBI issued Notice of Violation ("NOV") # 201631352 Based on Complaint

from August 10, 2016 --- Senior Inspectors Found Multiple Violations

A site inspection and a review of issued building permits has revealed that work is being performed that exceeds the scope of work approved. The property is described on city record[s] as a 2-story building. At time of inspection it was noted that the property appears to have four levels. Two levels have been created below street level. New Framing has been done at new floors including the installation of new bathrooms. Backyard level has been excavated and is lower than previous. Retaining walls have been undermined. A new deck has been constructed at roof top level.

November 23, 2016—Eleventh Permit App 201611233483

TO COMPLY WITH NOV 201631352: INSTALL TEMP SHORING TO LOWER LEVEL SPACE PER STOP WORK VIOLATION REQUEST OF BLD OFFICIAL. INSTALL NEW RETAINING WALL AT REAR YARD AS PER PLANS Cost:

\$10,000.00

Jennifer and Chip appealed this permit because the permit and the plans both falsely state that this is an "existing" four story building. They want to see the consolidation permit and plans ordered by DBI to understand what was there before work started, work has been conducted to date and what is planned by the Sponsors.

Stephen M. Williams, Esq. Law Offices of Stephen M. Williams 1934 Divisadero Street San Francisco, CA 94115

Re: 143 Corbett Avenue; Cease and Desist Demand

Dear Mr. Williams:

I write on behalf of our clients Rajan Raghavan ("Rajan") and Ravi Raghavan ("Ravi") (collectively, the "Raghavans"), to demand that your clients, Jennifer Creelman and Chip Driggs, cease and desist in their current wrongful and improper conduct. More specifically, your clients have abused the city permitting and inspection process, harassed the Raghavans to the point of creating a nuisance, invaded their privacy, intentionally inflicted emotional distress on them, trespassed on their property and negligently caused damage to it. If your clients do not immediately cease their wrongful conduct, my clients will have no choice but to file a lawsuit to compel them to do so and recover for the damages caused by your clients.

As you know, Rajan owns the property located at 143 Corbett Avenue, San Francisco, California (the "Property"), and Ravi occupies it. In or about October 2014, the Raghavans began remodeling the Property. In the course of that remodeling, they have complied with all applicable laws, rules and regulations, including obtaining all required city permits. (As you know, your clients requested inspections on several occasions, and those inspections always concluded that the project was fully legally compliant.) Accordingly, the Raghavans are entitled to proceed with their remodeling project and to the use and enjoyment of their Property.

Unfortunately, your clients' wrongful conduct has delayed the remodeling of the Property and made it more expensive, as well as interfered with my clients' right to use and enjoy the Property. Among other things, your clients have harassed the Raghavans and the individuals working on the project by constantly complaining to and confronting them with no legitimate basis. For example, your clients have continually harassed the Raghavans and their agents with demands that they delay the commencement of work each morning until long after the time allowed by law. Your clients have further frivolously complained that the Raghavans have "too many permits," which of course, they are required to obtain by law. Your clients have also

continually demanded access to the Raghavans' Property and documents and information in order to inspect and approve the project, even though they have no right in law or equity to do either. Your clients have further harassed Ravi for his lawful use of the Property, such as exercising, watching television or listening to music. Taken as a whole, your clients' conduct constitutes a nuisance, invasion of privacy, intentional infliction of emotional distress and interference with contract.

Your clients have also completely disregarded and invaded the Raghavans' privacy and trespassed on their Property. On or about October 1, 2015, your client entered onto my clients' Property at approximately 9:30 p.m. without permission and yelled vulgarities at Ravi and his friends for supposedly making too much noise at a party. No other neighbors complained. Ravi's boss and work colleagues were also present. Putting aside the fact that a party at 9:30 p.m. is a reasonable part of normal life in a major metropolitan area, your client did not have permission or any legal justification for entering the Property. She could have called or emailed the Raghavans or even called the police, but she did not have the right to trespass and then embarrass and harass Ravi and his guests.

In addition to Ms. Creelman's personal trespass, your clients have trespassed on the Raghavans' Property and negligently damaged it by failing to repair a water leak, despite knowing that this leak exists and is causing damage to my clients' Property, and despite numerous demands by my clients that you fix it.

Moreover, your clients have delayed and interfered with the Raghavans' construction by filing and pursuing frivolous administrative complaints and objections with the city planning department and demanding inspections with no legitimate basis. Your clients have persisted in their frivolous complaints and objections despite being notified that their conduct was causing material delay and expense to the Raghavans and despite your clients knowing that their position is frivolous.

For example, your clients have refused, and continue to refuse, to withdraw their frivolous appeal of the Raghavans' pending lightwell project despite knowing that the plans are proper, and that there is no construction planned for the side of the property adjacent to your clients' home, which was your clients' only complaint with that project. As you and your clients know, there was never any construction planned for the side of the Property adjacent to your clients' home, and the information on the initial permit stating otherwise was a clerical error, which has been corrected. It will be obvious to a judge and jury that your clients' refusal to withdraw their appeal, despite being represented by counsel who can advise them as to its lack of merit, is the result of bad faith and a desire to intentionally delay and hamper the project, to the Raghavans' detriment. As you know, such conduct is the basis for claims for abuse of process and malicious prosecution, for which your clients would be liable for the Raghavans' attorneys' fees, construction costs and other losses arising from their frivolous complaints to the city.

I called you a few days ago to introduce myself and try to resolve this dispute. In the course of our conversation, you confirmed that you and your clients knew that the lightwell project was not planned for the side of the Property adjacent to your clients' property. However,

you stated that your clients would not dismiss the appeal. You also stated that your clients intended to "pile on" further complaints with the city regarding the Raghavans' construction.

Although you did not provide any further detail, we have since learned that your clients have filed objections with the city relating to the Raghavans supposedly building new spaces which did not exist before and supposedly building an illegal kitchen nook. However, your clients have absolutely no evidence that any of the construction they have challenged is improper, nor is it. To the contrary, all of the work at issue is legal and permitted.

Moreover, as your clients know from living there before the prior owner of the Property sold to the Raghavans, the spaces your clients now claim are "new" were there before the Raghavans purchased the Property. The Raghavans are not building any new spaces, which your clients know, and which will be easily established by City records and documents from the Raghavans' purchase of the Property. For example, I have attached as **Exhibit A** an appraisal report created prior to the Raghavans' purchase of the Property, including a diagram of the rooms in the Property and photos of the rooms, all of which clearly establish that the spaces your clients claim to be new are pre-existing. Finally, your clients know that the previous owner rented out the basement space, so they cannot claim in good faith that they believe that space is new. If your clients persist with their baseless objections, we will present this evidence, along with the disclosure documents from the Raghavans' purchase of the property and testimony by the real estate agent for the sale and by the Raghavans' contractor.

As I advised on our call, if your clients do not dismiss their frivolous appeals and objections and refrain from further malicious abuse of the legal process, then, when these proceedings are over, and the Raghavans have prevailed in them, they will sue your clients for abuse of process and malicious prosecution. To prevail, the Raghavans need only show (1) that they prevailed against your clients' objections with the city, (2) that your clients lacked probable cause for bringing those actions, and (3) that your clients acted out of malice. Daniels v. Robbins, 182 Cal. App. 4th 204, 216 (2010); Citi-Wide Preferred Couriers, Inc. v. Golden Eagle Ins. Corp., 14 Cal. App. 4th 906, 911 (2003).

The Raghavans will establish these elements at trial. First, they will prevail against your clients' appeals and objections. Next, the Raghavans will establish that your clients acted without probable cause. As I'm sure you have advised your clients, the test for whether a legal proceeding was based on "probable cause" is whether the party that brought the proceeding (i.e., your clients), had any hard evidence or concrete basis for their position. See Sheldon Appel Co. v. Albert & Oliker, 47 Cal. 3d 863, 868 (1989); see also Sangster v. Paetkau, 68 Cal. App. 4th 151, 164-65 (1998). Your clients do not possess a shred of evidence that any of the work they have challenged was unpermitted, improper or new. When your clients are called to the stand under oath in front of a jury in the action the Raghavans file for malicious prosecution and abuse of process, they will not be able to identify any basis for their frivolous legal proceedings. Finally, the Raghavans will establish malice based on the lack of probable cause, and based on your clients' many emails and actions showing their disdain and personal animosity towards the Raghavans. See Grindle v. Lorbeer, 196 Cal. App. 3d 1461, 1465-66 (1987) (malice may be

inferred from lack of probable cause). In addition, the Raghavans will call a mutual neighbor to testify that your clients informed that neighbor that they were intentionally harassing the Raghavans and interfering with their construction.

You argued in our call that the Raghavans would be barred from bringing a lawsuit for malicious prosecution or abuse of process by the anti-SLAPP statute, but such claims routinely survive an anti-SLAPP challenge. See Soukup v. Law Offices of Herbert Hafif (2006) 39 Cal. 4th 260, 291 (1995). In Soukup, the plaintiff succeeded in making a prima facie showing that the prior action (1) was commenced by or at the direction of the defendant and was pursued to a legal termination favorable to the plaintiff; (2) was brought without probable cause; and (3) was initiated with malice. Accordingly, the case was allowed to proceed. See also Slaney v. Ranger Ins. Co. 115 Cal. App. 4th 306, 321 (2004) (plaintiff was able to make prima facie showing of termination of prior suit in its favor, lack of probable cause, and malice and therefore survived an anti-SLAPP motion); Ross v. Kish, 145 Cal. App. 4th 188, 197-98 (2006) (denial of anti-SLAPP motion upheld where plaintiff showed a probability of prevailing on malicious prosecution claim); HMS Capital, Inc. v. Lawyers Title Co., 118 Cal. App. 4th 204, 214-219 (2004) (plaintiff established probability of prevailing on malicious prosecution claim and therefore defendant's anti-SLAPP motion was denied).

Here, as set forth above, the Raghavans have ample evidence to establish a prima facie likelihood of success on the merits and thus will defeat an anti-SLAPP motion. As you know, all evidence offered by the Raghavans in opposition to such a motion will be accepted by the court as true, and any evidence offered by your clients will only be considered if it is completely dispositive of an issue as a matter of law. *Flately v. Mauro*, 39 Cal. 4th 299, 323-326 (2006).

In closing, the Raghavans would prefer to try to resolve this matter amicably. To this end, please promptly make a specific settlement proposal as to what your clients seek in order to agree to dismiss their appeals, stop trespassing and harassing the Raghavans and to refrain from interfering further with the Raghavans' construction. Please be advised that the Raghavans are not willing to forgo any construction or give your clients control over any aspect of construction, so please refrain from making any settlement proposals that include such terms.

If we are not able to resolve this matter amicably very soon, and your clients continue their trespass, nuisance, harassment and abuse of the legal process, then the Raghavans will file a lawsuit in superior court. If your clients force the Raghavans to do so, they will seek legal fees, the increased cost of construction resulting from your clients' harassment and delay, damages caused by the leak on your clients' property, nuisance damages, trespass damages and emotional distress damages, which together will easily exceed the jurisdictional minimum for an unlimited jurisdiction case. The Raghavans will also seek punitive damages.

We look forward to your response.

Sincerely,

Richard F. Munzinger

SUMMONS (CITACION JUDICIAL)

NOTICE TO DEFENDANT: (AVISO AL DEMANDADO):

JENNIFER CREELMAN; CHIP DRIGGS; and DOES 1-10, inclusive

YOU ARE BEING SUED BY PLAINTIFF: (LO ESTÁ DEMANDANDO EL DEMANDANTE): RAJAN RAGHAVAN

FOR COURT USE ONLY
(SOLO PARA USO DE LA CORTE)

NOTICE! You have been sued. The court may decide against you without your being heard unless you respond within 30 days. Read the information below.

You have 30 CALENDAR DAYS after this summons and legal papers are served on you to file a written response at this court and have a copy served on the plaintiff. A letter or phone call will not protect you. Your written response must be in proper legal form if you want the court to hear your case. There may be a court form that you can use for your response. You can find these court forms and more information at the California Courts Online Self-Help Center (www.courtinfo.ca.gov/selfhelp), your county law library, or the courthouse nearest you. If you cannot pay the filing fee, ask the court clerk for a fee waiver form. If you do not file your response on time, you may lose the case by default, and your wages, money, and property may be taken without further warning from the court.

There are other legal requirements. You may want to call an attorney right away. If you do not know an attorney, you may want to call an attorney referral service. If you cannot afford an attorney, you may be eligible for free legal services from a nonprofit legal services program. You can locate these nonprofit groups at the California Legal Services Web site (www.lawhelpcalifornia.org), the California Courts Online Self-Help Center (www.courtinfo.ca.gov/selfhelp), or by contacting your local court or county bar association. NOTE: The court has a statutory lien for waived fees and costs on any settlement or arbitration award of \$10,000 or more in a civil case. The court's lien must be paid before the court will dismiss the case. [AVISO! Lo han demandado. Si no responde dentro de 30 días, la corte puede decidir en su contra sin escuchar su versión. Lea la información a continuación.

Tiene 30 DÍAS DE CALENDARIO después de que le entreguen esta citación y papeles legales para presentar una respuesta por escrito en esta corte y hacer que se entregue una copia al demandante. Una carta o una llamada telefónica no lo protegen. Su respuesta por escrito tiene que estar en formato legal correcto si desea que procesen su caso en la corte. Es posible que haya un formulario que usted pueda usar para su respuesta. Puede encontrar estos formularios de la corte y más información en el Centro de Ayuda de las Cortes de California (www.sucorte.ca.gov), en la biblioteca de leyes de su condado o en la corte que le quede más cerca. Si no puede pagar la cuota de presentación, pida al secretario de la corte que le dé un formulario de exención de pago de cuotas. Si no presenta su respuesta a tiempo, puede perder el caso por incumplimiento y la corte le podrá quitar su sueldo, dinero y bienes sin más advertencia.

Hay otros requisitos legales. Es recomendable que llame a un abogado inmediatamente. Si no conoce a un abogado, puede llamar a un servicio de remisión a abogados. Si no puede pagar a un abogado, es posible que cumpla con los requisitos para obtener servicios legales gratuitos de un programa de servicios legales sin fines de lucro. Attorneys for Plaintiffs RAJAN RAGHAVAN and RAVI RAGHAVAN

CLERK OF THE COURT KATENE APULLA

SUPERIOR COURT OF THE STATE OF CALIFORNIA

COUNTY OF SAN FRANCISCO

RAJAN RAGHAVAN and RAVI RAGHAVAN,

v.

Plaintiffs,

JENNIFER CREELMAN; CHIP DRIGGS; and DOES 1-10, inclusive,

Defendants.

Case NCGC=16-555223 **COMPLAINT**

THE PARTIES

- Plaintiff Rajan Raghavan ("Rajan") an individual residing in Saratoga, California. 1. Rajan is the co-owner of the real property located at 143 Corbett Avenue, San Francisco, California (the "Property").
- Plaintiff Ravi Raghavan ("Ravi") is Rajan's son, the co-owner of the Property and resides at the Property.
- Defendant Jennifer Creelman ("Creelman") is an individual residing in San 3. Francisco, California.
- 4. Defendant Chip Driggs ("Driggs") is an individual residing in San Francisco, California.
- 5. Creelman and Driggs are collectively referred to as "Defendants." Defendants reside at 145 Corbett Avenue, San Francisco, California 94114, next door to the Property.

6. Plaintiffs do not know the true names and capacities of defendants sued as Does One through Ten, inclusive, and therefore sues those defendants by fictitious names. Plaintiffs will amend this complaint to allege the true names and capacities of those defendants when such names have been ascertained. Plaintiffs are informed and on that basis alleges that each of the fictitiously-named defendants is liable for the claims set forth in this complaint.

7. Plaintiffs are informed and believes and thereon allege that Defendants and Does One through Ten, inclusive, were the agents, employees, servants and/or representatives of each of the other defendants, and in doing the acts herein alleged, were acting within the course and scope of their authority as agents, employees, servants and/or representatives, and with the knowledge, approval, permission, and consent of the other defendants, and in conspiracy with them.

VENUE

8. Venue is proper in this Court because the Property is located in this County, Defendants reside in this County, and the events giving rise to this Complaint took place in this County.

COMMON ALLEGATIONS

Background

- 9. On or about October 1, 2015 (a Saturday), Creelman entered the Property at approximately 9:30 p.m. without permission and yelled vulgarities at Ravi and his friends for supposedly making too much noise at a party. (No other neighbors complained.) Creelman did not have permission or any legal justification for entering the Property.
- 10. Water is also leaking from Defendants' property onto Plaintiffs' property and has been since approximately May 9, 2014. This leak has caused, and continues to cause, damage to the Property. Despite Plaintiffs' requests, Defendants have failed to repair the leak.

CAUSES OF ACTION

FIRST CAUSE OF ACTION (Trespass)

11. Paragraphs 1 to 10 are incorporated herein.

have	at all re	levant time	s had the ri	ght to pos	ssess and	d enjoy	such p	roperty	. Ravi	occupie	s the
Prope	rty.										

- As set forth above, Defendants have unlawfully interfered with Plaintiffs' right to 13. possess, use and enjoy the Property and have unlawfully entered onto the Property. Creelman intentionally entered the Property on or about October 1, 2015, at which time she yelled vulgarities at Ravi in front of his boss and work colleagues. Furthermore, water from Defendants' property continues to enter and damage the Property.
 - 14. Plaintiffs did not give Creelman permission for the entries described above.
- 15. As a direct and proximate result of Defendants' trespasses, Plaintiffs have suffered damages in an amount according to proof.
- In carrying out the wrongful conduct set forth herein, Defendants acted willfully and with malice or reckless indifference as to the rights of Plaintiffs, so punitive damages should be awarded against Defendants.
- 17. Defendants continue to trespass on Plaintiffs' property, including through the ongoing water leak. Unless Defendants are enjoined, it will be necessary for Plaintiffs to commence many successive actions against Defendants to secure compensation for damages sustained, thus requiring a multiplicity of suits, and Plaintiffs will continue to be threatened by Defendants' ongoing trespasses.
 - 18. Plaintiffs have no plain, speedy or adequate remedy at law.

WHEREFORE, Plaintiffs seek relief as set forth below.

SECOND CAUSE OF ACTION (Private Nuisance)

- 19. Paragraphs 1 to 18 are incorporated herein.
- The Property and the property of Defendants are adjacent. At all relevant times, 20. there has been a water leak on Defendants' property. This leak has caused, and continues to cause, damage to the Property.
 - 21. The aforementioned occupation, use, and maintenance of the property of

Defendants constitutes a nuisance within the meaning of Section 3479 of the Civil Code, in that it interferes with the comfortable use and enjoyment of Plaintiffs' Property.

- 22. On numerous occasions, Plaintiffs gave notice to Defendants, and each of them, of the damage caused by the nuisance, and requested its abatement, but Defendants, and each of them, have refused, and continue to refuse, to abate the nuisance.
- As a direct and proximate result of the nuisance created by Defendants, Plaintiffs 23. have suffered damages in an amount according to proof.
- 24. Unless Defendants are enjoined, it will be necessary for Plaintiffs to commence many successive actions against Defendants to secure compensation for damages sustained, thus requiring a multiplicity of suits, and Plaintiffs will continue to incur damages. Moreover, unless Defendants are enjoined, Plaintiffs will suffer irreparable injury in that the use and economic value of the Property will be substantially diminished, and Plaintiffs will be deprived of the comfortable enjoyment of the property.
 - 25. Plaintiffs have no plain, speedy or adequate remedy at law.
- 26. In maintaining the nuisances, Defendants are acting with full knowledge of the consequences and damage being caused to Plaintiff, and his conduct is willful, wanton, oppressive and malicious. Accordingly, Plaintiffs are entitled to punitive damages.

WHEREFORE, Plaintiffs seek relief as set forth below.

THIRD CAUSE OF ACTION (Negligence)

- 27. Paragraphs 1 to 26 are incorporated herein.
- 28. The Property and the property of Defendants are adjacent. Accordingly. Defendants have a duty to act reasonably and prevent water from leaking from their property onto Plaintiffs' property.
- Defendants have breached that duty by failing to repair said leak, despite multiple 29. demands by Plaintiff.
- 30. As a direct and proximate result of Defendants' negligence, Plaintiffs have suffered damages in an amount according to proof.

WHEREFORE, Plaintiffs seek relief as set forth below.

FOURTH CAUSE OF ACTION (Invasion of Privacy)

- 31. Paragraphs 1 to 30 are incorporated herein.
- 32. Defendants have intentionally intruded into Plaintiffs' private affairs intruding onto the Property without permission and yelling vulgarities at Ravi and his friends for supposedly making too much noise at a party.
- 33. Plaintiffs at all times had an objectively reasonably expectation of privacy with respect to the Property.
- 34. Defendants' intrusion onto the Property would be highly offensive to the reasonable person.
- 35. As a direct and proximate result of Defendants' invasion of privacy, Plaintiffs have suffered damages in an amount according to proof.
- 36. Unless Defendants are enjoined, it will be necessary for Plaintiffs to commence many successive actions against Defendants to secure compensation for damages sustained, thus requiring a multiplicity of suits, and Plaintiffs will continue to incur damages. Moreover, unless Defendants are enjoined, Plaintiffs will suffer irreparable injury in that the use and economic value of the Property will be substantially diminished, and Plaintiffs will be deprived of the comfortable enjoyment of the Property.
 - 37. Plaintiffs have no plain, speedy or adequate remedy at law.
- 38. In invading Plaintiffs' privacy, Defendants are acting with full knowledge of the consequences and damage being caused to Plaintiff, and his conduct is willful, wanton, oppressive and malicious. Accordingly, Plaintiffs are entitled to punitive damages.

WHEREFORE, Plaintiffs seek relief as set forth below.

PRAYER

- 1. For compensatory and consequential damages;
- 2. For general damages;
- 3. For punitive damages;

February 16, 2017

Via Messenger & Email (boardofappeals@sfgov.org)

Darryl Honda, President San Francisco Board of Appeals 1650 Mission Street, Suite 304 San Francisco, CA 94103

Re:

Creelman and Driggs v. SF DBI

Appeal No. 16-186

Reply to Appellants' Brief Hearing: February 22, 2017

Dear President Honda and Members:

We represent Rajan and Ravi Raghavan ("Raghavans"), the co-owners of the single-family home at 143 Corbett Avenue ("Property"), located on Corbett Street near Hattie in the Castro neighborhood. The site is zoned RH-2 on a 1,829 sf lot. The house was built in 1911 but is not considered a historic resource by the Planning Department. The Raghavans bought the house in May 2014. Appellants live immediately to the west of the Property.

Appellants appealed a building permit for temporary shoring for which a stop work order was issued by DBI under a Notice of Violation ("NOV") on October 24, 2016. The Raghavans' contractor pulled a permit² to address the NOV on November 23, 2016 and it was timely appealed by Appellants. Appellants seek to revoke the permit on the grounds that the Raghavans have not complied with the time periods under the NOV for production of a new set of plans.

Appellants misinterpret the scope of plans required under the NOV as plans showing "1. pre-existing site conditions; 2. work done since the Raghavans purchase of the Property; and, 3.

¹ See Exhibit A. NOV 201631352, dated October 24, 2016.

² See Exhibit B.

alterations/work proposed by the Raghavans."³ However, under the plain language of the NOV, its abatement only requires "submittal of a building permit with plans to consolidate all work that has been performed at interior and exterior, which shall show separate existing and proposed conditions, including floor plans, building sections and elevations."⁴ As we will show below, the Raghavans' design team – contractor, structural engineer and architect – are working closely with Senior Building Inspector Joseph Duffy on preparing plans that satisfy both the letter and the intent of the NOV. These actions negate Appellants' request for similar relief from this Board. Additionally, Insp. Duffy granted an exception to proceed with the temporary shoring under the appealed permit. Shoring work has begun under that exception but has stopped due to weather. Based on reasons stated below, we request the appeal be denied.

FACTUAL BACKGROUND

1. Permits and Complaints

Like many homeowners who buy older houses such as this, the Raghavans wanted to undertake immediate upgrades of the Property for aesthetic as well as livability/health and safety reasons. Like many neighbors of property where work is proceeding, Appellants closely monitored every action that the Raghavans were taking. However, as is common given the age and general condition of the house when the Raghavans bought it, the Raghavans ended up having to pull approximately 20 permits for different scopes of work, not all of which was visible to the eye as necessary prior to purchase (e.g., electrical). This also included a secondary level of work which was completely unexpected until the permitted interior alterations took place. This was not the planned approach for the proposed upgrades to be carried out.

³ See Appellants Brief, p. 3.

⁴ See Exhibit A.

According to Appellants brief, however, this all too common phenomenon of more work needing to be done to a "fixer upper" than meets the eye, unequivocally meant that the Raghavans were carrying out a nefarious plan to deceive DBI and the public by submitting fraudulent permit applications. There are no facts to support this allegation. The basis for such apparent fraud, according to Appellants, was apparently that some of the permits referenced a building with 3-floors while others stated a 4-floor home.⁵

As additional evidence of the Raghavans purported intent to conceal their actual scope of work, Appellants point to the numerous complaints that were lodged with DBI (presumably mostly by Appellants).⁶ The sheer volume of complaints they were compelled to file, according to Appellants, is an indication that the Raghavans were intentionally trying to "overwhelm" DBI with false and inaccurate permits so that those permits could be issued with little review.⁷

Nothing could be further from the truth. Of the 7 complaints that were made against the Raghavans since they purchased the property, presumably all by Appellants, each of them were addressed by a DBI field inspector and action was taken to abate the complaint within 3-7 days of filing except for the holidays. Contrary to Appellants' contentions, all 7 complaints were abated by DBI field inspectors in compliance with standard DBI protocols.

⁵ This is a common error on many permits filled out by design professionals. It does not, however, show any deliberate intent to mislead either DBI or the public.

⁸ See Exhibit C.

⁶ See Appellants' brief, Exhibits 17-23. It is noteworthy that the first 3 complaints that were made against the property at 143 Corbett presumably by the Appellants were made prior to the Raghavans' ownership. In one complaint, there is an allegation of "illegal conversion/#units." In a site visit in 2001, DBI found that there were no illegal units in the home." See Exhibit C.

⁷ See Appellants' Brief, p. 7-8.

Based on these limited facts, there is little evidence in the record that the Raghavans were master-minding a grand scheme to do as much work to their home as possible without benefit of permits and with DBI completely in the dark. In fact, the opposite is true.

2. Oversight and Guidance by DBI on Compliance with the NOV

While Appellants' narrative is an unfortunately frequent story in San Francisco, the project design team – contractor Francisco Sandoval, shoring engineer Tim O' Sullivan and architect-Mark Cruz – have been working closely with Senior Building Inspector Joseph Duffy and DBI staff on complying with the NOV since early November, 2016. The most critical feature of the NOV and the appealed permit is that the shoring that was suspended under both documents would have equally benefitted both Appellants' and the Raghavans' properties.

With the torrential rains that affected the City in late December/early January, Insp.

Duffy took the initiative with the Raghavans' project team to review and comment on shoring drawings and request a geotechnical report⁹ and ensure that all elevations and datum points were clearly shown on the temporary shoring plans. In his official capacity, he reviewed and approved the location of the shoring elements consistent with the geotechnical report's recommendations, and granted a temporary exception from the NOV's stop work provisions and the permit on appeal to allow a new temporary shoring design recommended by geotechnical

⁹ See Exhibit D, dated January 2, 2017. Item No. 2 indicated that the "covered face of the excavation is firm with no visible bulges or cave-ins, indicating that the incident of the missing portion of the #143 Corbett Ave concrete retaining wall has so for . . . not been associated with removal of lateral support from underneath the 12" deep perimeter footing of [Appellants' Property].

Item No. 4 states that "it is strongly recommended that the replacement of the missing foundation retaining wall section be installed very, very soon, before the onset of strong winter storms that could destabilize this excavation face.

engineers to be installed prior to or between the winter storms of early 2017.¹⁰ Insp. Duffy's initiative benefitted primarily the Appellants' property. The missing foundation retaining wall section has yet to be installed as weather prevented the work.¹¹ Nonetheless, the exception granted by Insp. Duffy from the building permit and the NOV's suspensions to install the temporary shoring wall remains intact.

Even though this work was started but not done, it would have addressed only half of the drainage/slippage issue on the adjacent sites. The 100% runoff ratio from Appellants' roof downspout remains, and continues to pour large amounts of water directly into the Raghavans' lower floors of occupancy, rather than onto their own property as is required by the San Francisco Building and Plumbing Codes. The geotechnical report refers to the contribution of "the open discharge of the #145 Corbett Ave roof downspout" to the Property as "detrimental to the supporting capacity of the soil and also exacerbates the lateral earth thrust onto the foundation retaining wall." 12

We have made numerous complaints to Insp. Duffy to issue an NOV to the Appellants for the water drainage onto the Property. Yet, no NOV has issued for this violation as of February 15, 2017. We reiterate our request that such an NOV now be issued in light of all the time, money and effort that the Raghavans have spent in addressing the temporary shoring and minimizing the effects of the drainage on their Property.

Contrary to Appellants' allegations that DBI was not aware of what was being done at the Property, once engaged on this project, Insp. Duffy, Chief Building Inspector Patrick O' Riordan

¹⁰ See Exhibit E, email exchanges between J. Duffy and Francisco Sandoval, project contractor.

¹¹ *Id*.

¹² See Exhibit C, p. 2.

Darryl Honda February 16, 2017 Page 6

and/or field inspectors, performed their job of overseeing technical compliance with the Building Code and ensuring proper protocols were in place for the temporary shoring. ¹³

The suspended building permit's scope of work was to "install temporary shoring to lower level space" and "install new retaining wall at rear yard as per plans." Both of these actions were subject to the NOV stop work order. Despite the roadblocks of the appeal and the NOV, DBI staff, under Insp. Duffy's authority, took the necessary actions to authorize the temporary shoring to minimize damage to both the Property and Appellants' home during a period of torrential storms. Appellants appeal to revoke or condition this permit is now moot by the fact that construction of the temporary shoring wall has been authorized by DBI and has already begun.¹⁴

ARGUMENT

1. Appellants Want This Board To Condition The Permit To Require The Raghavans To Prepare Master Plans For All Pre-Existing Work, Work Currently Proposed For The Building And For The Future. The Design Team Is Already Preparing Plans In Compliance With The NOV.

Appellants want the Board to indefinitely suspend the permit (and by default, much of the necessary work on the site) to wait for a set of plans that are beyond the scope of what was requested by the NOV¹⁵ issued by DBI.¹⁶ However, consistent with their ongoing joint working relationship with DBI, and desire to create a livable home for the Raghavans, the project team

¹³ The alleged absence of DBI oversight was one of Appellants' biggest objections to the work being done on the Property prior to their appeal of the building permit.

¹⁴ See Exhibit F.

¹⁵ See Appellants Brief, p. 3.

¹⁶ The scope of the master plans under the NOV is "consolidated work that has been performed at interior and exterior, show separate existing and proposed conditions, including floor plans, sections and elevations."

has been working on plans that show (1) what was unchanged by any work done in the Property since acquisition; (2) upgraded life/safety interior access including internal upstairs staircase and deck guardrails that existed prior to acquisition; and, (3) proposed work, including an Accessory Dwelling Unit ("ADU") added at the lower level, containing 2 new bedrooms, a new bathroom and a new kitchen with egress from the existing lower entrance at Corbett Street.

Since the project team is already diligently working on preparing master plans to comply with the NOV requirements, there are no facts to support granting the appeal on the basis of non-compliance with the NOV or the appealed permit. Given the heightened tensions between the parties, the fact that the Raghavans' design team, with guidance from DBI, has already been preparing such plans should help facilitate discussion and better understanding of the existing and proposed scope of work between the parties.

2. DBI May Exercise Its Discretion Regarding The Timing And Substantive Compliance Of A Project With An NOV.

Lastly, Appellants have argued that DBI has not timely enforced the NOV and on that basis, this Board should grant the appeal. ¹⁸ This is immaterial for the following reasons. First, the NOV is not before the Board. Only the Abatement Appeals Board may hear appeals of NOVs after having gone through the abatement review procedure. Appellants have used the NOV to question the integrity of the Raghavans' compliance efforts to date, and to impugn the motives of DBI staff who have worked diligently with the Raghavans' design team to address the underlying issues in the permit and NOV, including the pressing need to erect a retaining wall to limit water saturation on the Property.

 $^{^{17}}$ The appealed permit only requires that there be installation of temporary shoring at the lower level and a new rear yard retaining wall. See <u>Exhibit B</u>.

¹⁸ See Appellants' Brief, p. 2.

The DBI Code Enforcement process has historically allowed the exercise of discretion by building officials. As Senior Building Inspector, Insp. Duffy has the authority and was acting within his discretion to assist and work diligently with the project team to expedite what work they could perform given the weather conditions and the permit status. Merely because the NOV was not timely abated does not mean that there has not been a sincere effort by the Raghavans or their representatives to abate the NOV. As long as the owners are showing good faith efforts at attempts to abate the NOV, DBI can be flexible based on the sound judgment and professionalism of their inspectors. Insp. Duffy was entitled to exercise his good faith discretion on this matter in the manner he did. ¹⁹

CONCLUSION

Based on the above, we respectfully request that the appeal be denied. The Raghavans are doing everything that Appellants seek to obtain in relief from this Board. They have obtained an exception from DBI to shore the Property to minimize further personal and property damage from the wet winter weather. They are preparing master plans for review and permit submittal to DBI and Planning that will reflect existing and proposed conditions. This "master plan" is broader than required by the NOV.

The Raghavans' project team has been working diligently with DBI staff since the October issuance of the NOV in both ensuring no further Code violations occurred at the Property and to prevent further property damage to both homes. The temporary shoring suspension had to be overridden to accomplish that. Preparation of master plans are already underway by the Raghavan team. Since these are the three substantive grounds upon which the

¹⁹ It is noteworthy that Insp. Duffy has exercised his discretion to not issue an NOV to Appellants for their unlawful drainage on the Raghavans' property.

Darryl Honda February 16, 2017 Page 9

appeal was based, we believe that there is no factual or legal basis to grant an appeal. Based on the above, we request that the appeal be denied in its entirety.

Sincerely

Ilene Dick

Rajan Raghavan 143 Corbett Ave ,San Francisco, CA Date: January 2,2017

Project 7972 GP

RE: Geotechnical Engineering Inspection Findings
Property Line(#143- #145 Corbett Ave, San Francisco, CA)
Drainage & Foundation Issues @ Bottom of Stairs to Lower Basement

Observations (December 27th,2016):

This endeavor specifically pertains to the subject area at the bottom of the concrete stairs to the lower basement of #143 Corbett Ave, Figure 1; all other conditions are excluded; this engineer is not involved with the construction project.

In this subject area where the two structures #143 / #145 Corbett Ave abut each other there is a roof gutter from # 145 Corbett Ave that runs to a downspout which openly discharges alongside the exterior of # 145 Corbett Ave, Picture One. The engineer felt by hand the interior of this downspout and confirmed water was dripping. Just underneath the discharge location of this downspout, the 12" deep perimeter footing foundation of # 145 Corbett Ave is observed to abut a ~ 6 ft tall concrete foundation retaining wall of # 143 Corbett Ave; a short piece of which is missing, rebar is in place for a replacement. We understand that the missing section of the retaining wall collapsed during the excavation and demolition in this area.

The face of the excavation at the missing section is covered up with Miradrain blanket; this face of the excavation appeared plumb, firm and with no visible bulges or cave-ins that could indicate lateral geo ground movements, Picture Two. The exposed soil is firm native clayey sandy SILT ML-SC only slightly expansive , PI \sim 12 CBC 13 Section 1803.5.3 Item # 1 .Beyond this missing section and all the way to the rear, the original foundation retaining wall of # 143 Corbett Ave is visible with intact , no cracks ,no spalling, non segregated concrete, but with no rebars. Underneath the original section, there is a replacement concrete about 3 ft high along the entire 9 ft long rear section of this foundation retaining wall. That is this \sim 6 ft foundation retaining wall of \$ 143 Corbett Ave has an original \sim 3 ft high top and \sim 3 ft high replacement bottom.

These observations are schematically depicted on Figure 2.

Property line is presumed where the two structures abut each other; No formal survey was made for this endeavor.

East Bay P.O. Box 1473 El Cerrito, CA 94530 Peninsula P.O. Box 1666 San Bruno, CA 94066

Email: adelkasim@gmail.com

Conclusions and Recommendations (interim, can be updated on the basis of further data):

1. The open discharge of the # 145 Corbett Ave roof downspout is a clear violation of CBC 13 Section 1808.7.4 and must be piped to "an approved drainage device"..."subject to the approval of the building official".."away from the structure". The impervious roof generates 100% runoff ratio.

Open discharge of storm water at foundation bearing zone is detrimental to the supporting capacity of the soil and also exacerbates the lateral earth thrust onto the foundation retaining wall.

- 2. The Miradrain covered face of excavation is firm with no visible bulges or cave-ins; indicating that the incident of missing portion of the # 143 Corbett Ave concrete retaining wall has ,so far (see #3 below), not been associated with removal of lateral support from underneath the 12" deep perimeter footing of # 145 Corbett Ave. Reference CBC 13 Sections 1803.5.7 and 1804.1.
- 3. The face of excavation reported under # 2 above is only temporarily holding as the soil arching (see illustration Figure 2) is so far holding this face plumb, averting loss of lateral support from underneath the bearing zone of the 12" deep footing foundation of # 145 Corbett Ave.
- 4. It is strongly recommended that the replacement of the missing foundation retaining wall section be installed soon, very soon, before the onset of strong winter storms that could destabilize this excavation face. The avenues of storm water to this subject area are:

The gutter/spout of # 145 Corbett Ave

The deck board gaps of # 143 Corbett Ave (roof recently removed)

Groundwater from the uphill side.

Also, time-dependent soil creep loading / movements effects would be realized and be detrimental to the foundation stability from any undue delays in the replacement construction.

5. The plans for the construction project of # 143 Corbett Ave should consider installing an engineered subdrain behind the replacement concrete foundation retaining wall; this is a standard undertaking.

Very truly Yours,

Hallenbeck/Allwest Principal Geotechnical Engineer Adel Kasim, Ph.D, CE,GE # 453

Subject: RE: 143 Corbett repairs

Hi Francisco

Sorry for the delay in responding . You may proceed with the shoring work and the repairs at the door.

Please let me know when you are starting and how long the work will take.

We had a good conversation with the neighbor after we met you . It would appear that she wants to work with you guys to get things figured out . That was our impression.

I will be off this afternoon

Let me know if you have any questions.

Thank you

Joseph Duffy, Senior Building Inspector Building Inspection Division Department of Building Inspection 1660 Mission Street, 3rd Floor San Francisco, CA 94103 (415) 558-6656 (Desk) Joseph.Duffy@sfgov.org

Subject: 143 Corbett repairs

Joe,

At our site meeting I forgot to mention there is a leak from the sliding doors off the master bedroom. As I had previously mentioned these are old existing doors that obviously have failed. I really need to address this issue for the homeowner since water is filtering from the door sill to lower areas of the home. I will have to remove these doors to repair the leak. I would like to address this issue while on site for the shoring. I just wanted to inform you in case you get a call that we were working on the deck.

Do not heaitate to contact me regarding this iasue. Thank you for your help regarding this matter,

Francisco

Subject: Shoring

Hi Joe,

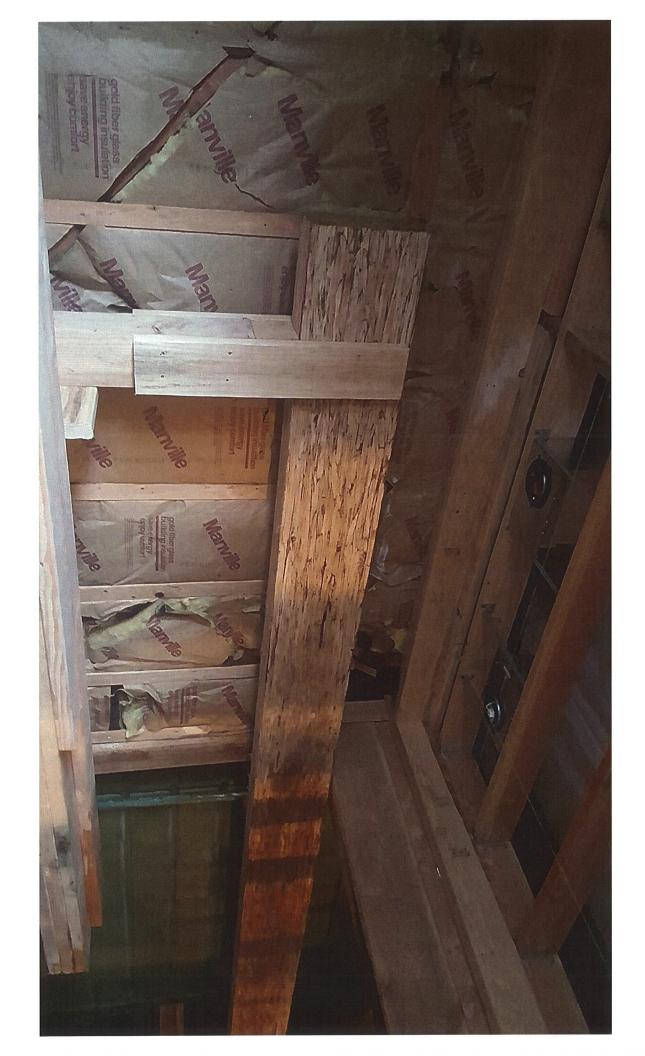

Thank you for your site visit today. Per the limited work scope of shoring and pouring the one small section of foundation per the geotech recommendation I will need approximately 3 weeks to complete this scope weather permitting.

Thanks again, Francisco

CORBETT HEIGHTS NEIGHBORS

Corbett Heights Neighbors was formed in July 2004 for the purpose of providing a forum for the residents to discuss common issues and concerns, develop solutions, and guide the direction of the neighborhood. The goals of the organization are to beautify, maintain and improve the character of the neighborhood, protect historic architectural resources, ensure that new construction/development is compatible with the neighborhood, maintain its pocket parks, increase security, provide community outreach and an educational forum, and encourage friendly association among the neighbors.

May 21, 2018

Jeff Horn, Senior Planner Southwest Team, Current Planning Division San Francisco Planning Department 1650 Mission Street, Suite 400, San Francisco, CA 94103

Re: 143 Corbett Avenue

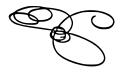

Dear Mr. Horn:

Corbett Heights Neighbors **OPPOSES** the granting of CUA or Variance to the sponsors of the project at 143 Corbett Avenue. There have been over four years of unpermitted work, serial permitting, and overall deception on the part of the contractors and project sponsors.

On top of this, we **OPPOSE** sanctioning the horizontal expansion that encroaches into the already minimal required rear yard open space within the Corona Heights Large Residential SUD.

Thank you for your consideration.

Sincerely,

Gary Weiss, President Corbett Heights Neighbors June 12, 2018

Jeff Horn, Senior Planner 1650 Mission Street, Suite 400, San Francisco, CA 94103

RE: 143 Corbett Ave

Dear Mr. Horn:

We Live at 149 Corbett Avenue. We oppose the granting of the CUA or Variance to the sponsors of the project at 143 Corbett Avenue. We also oppose the sanctioning of the horizontal expansion as it sets a precedent for other neighbors to expand and or enclose their decks creating a lack of privacy and light.

CHN recently passed the Corona Heights Large Residential SUD and we want to make sure that we send a message to all future sponsors that long standing unpermitted work will not be rewarded retroactively. Particularly neighbors that so blatantly and irresponsibly excavated and rebuilt a home using 19 over-the-counter permits to hide what they were doing.

Thank you for your time.

Sincerely,

Stephanie and Steven Moomjian 149 Corbett Ave.
