9. Commission Comments/Questions

Commissioner Richards:

Interestingly enough in this morning's Chronicle in the business section, page one, the headline caught me, "Connecting Citizens with City Hall" and I thought wow, let me read this article. It sounds kind of neat and it was about this company called Accela. I believe it is the Accela that we actually contracted with for online building permitting and planning and there's 2,000 municipalities now using Accela and now doing an off the shelf version so I can't wait for April 12 to get an update on how the Accela project is going here with us.

11. Review of Past Events at the Board of Supervisors, Board of Appeals and Historic Preservation Commission

LAND USE COMMITTEE:

- **180078 Planning Code - Landmark Designation - Wall at the Intersection of Diamond Heights Boulevard and Clipper Street (aka Diamond Heights Safety Wall). Sponsor: Sheehy. Staff: Smith.**

First on the land use agenda was the landmark designation of the Diamond Heights Safety Wall. The wall is a public sculpture located on the south side of Diamond Heights Boulevard at Clipper Street. It is significant for its association with the Diamond Heights Redevelopment Project, a planning effort led by the San Francisco Redevelopment Agency from 1961 to 1978.

The sculpture was nominated for Landmark Designation through a community-sponsored Landmark Application submitted by Bob Pullum to the Department on May 1, 2017. On November 1, 2017, the Historic Preservation Commission initiated landmark designation and on December 20, 2017, voted unanimously to recommend approval of designation to the Board of Supervisors.

At the land use hearing, Bob Pullum, and members of the Diamond Heights Community Association testified in support of the designation. One member of the public who indicated he was a member of the Libertarian party testified against the designation.

The Supervisors had questions about ownership and maintenance responsibility of the sculpture since it has not been maintained over the decades. Staff informed the committee members that the sculpture is located on a City-owned easement but that correspondence to the Real Estate Department to confirm this was left unanswered. The DPW's representative who was in attendance stated that the Safety Wall is not currently on their maintenance plan and that prior to Planning's outreach, DPW was unaware of the Safety Wall.

The committee voted to move the item forward to the full BOS without a recommendation, citing the lack of clarity around who is responsible for maintenance, and requested that that information be provided to them prior to the Board meeting next Tuesday.

Since then, The Planning Department received acknowledgement from the Real Estate Department that the City owns the property and that DPW is the party responsible for its maintenance.

- **170755 Planning Code - Landmark Designation - 2117-2123 Market Street (aka New Era Hall). Sponsor: Sheehy. Staff: Smith.**

Last on the Land Use agenda was the landmark designation for 2117 Market Street, also known as the New Era Hall. This building is significant as the work of master architect, August Nordin, and for its associations with the rebuilding of San Francisco after 1906, the establishment of Upper Market Street as a commercial corridor, and the Visalia Stock Saddle Company, a pioneering custom saddle business.

The property was initially identified in the planning process for the Market Octavia Plan, and the HPC unanimously voted to recommend landmark designation on April 19, 2017.

Zory Karah of the Academy of Ballet, a long-time tenant of the building, provided testimony in support of landmark designation. He highlighted the fact that the Academy has been operating out of this building for 65 years and that he hopes the property is preserved because there are few spaces in the city that can accommodate dance studios like theirs.

After public comment, committee members had a few questions about ownership and if the owner supported the landmark designation. Staff affirmed that they did support the designation and then the Committee voted to recommend the designation to the Full Board.

HISTORIC PRESERVATION COMMISSION:

Tim Frye, Preservation Officer:

I'm here to share with you a couple of items from yesterday's Historic Preservation Commission hearing. The Commission voted unanimously in support of its recommendation to locally designate the Phillips & Van Orden Building at 246 First Street to Article 10 of the Planning Code. This is the largest Art Deco industrial loft building in San Francisco and it is the work of master architects, Meyers and Klinkhardt. The building was added to the HPC's Landmark Designation Work Program back in 2012 as part of the Transit Center Area Plan rezoning effort. This was the second hearing that the Commission held so this recommendation will be forwarded to the Board of Supervisors and scheduled at a future date. The owners are in support of the designation.

One other item to mention to you is that the Planning Department staff was in attendance at San Francisco History Days this year; we often have a table along with the Historic Preservation Fund Committee, the Mayor's Office of Employment and Workforce

Development, and the California Historical Society in the same room towards the front. We always have a great response to our table and the items that we share related to the city's Historic Preservation Program. This year, we focused on the Mills Act Program, the Legacy Business Program and some of the Preservation policies and designations outlined in the Central SOMA Area Plan which you will be acting on soon. I just wanted to let you know that we are always very happy to participate in History Days and we'll keep you posted if any other outreach events that occur related to History Days in the future. Thank you.

Commissioner Richards:

I have one question. Interestingly enough, both Mr. Starr and Mr. Frye said something about when landmark is either designated via work program or community initiated one, the property owner is asked whether they support it. What happens when they don't?

Tim Frye, Preservation Officer:

There is nothing in our local ordinances that prohibit the Board of Supervisors for taking action and landmarking a building without owner consent. However, it is always our goal to provide some sort of collaboration on landmark designations.

Commissioner Richards:

Thank you.
