OTHER LANDMARK DESIGNATION WORK PROGRAM ITEMS

Plaque Program. The Department received 39 applications for a historic landmark plaque. During the first phase of this pilot program, 25 individual landmark property owners will receive plaques. The remaining applicants have been placed on a waiting list to receive a plaque in the future as funding allows. Staff has written text for all 25 of the pilot program plaques and is working with the manufacturer to produce a sample plaque and is conducting site visits to work with property owners on an appropriate plaque mounting location for each building.

Four plaques have been manufactured and those property owners have been notified that they will need to file a sign permit to install the plaque. Text for eight additional plaques has been sent to manufacturer and staff is proofreading the artwork before approving it for manufacture.

Swedish American Hall submitted a sign permit for the plaque around 2/24. The ACOA was approved on 3/22. Permit can be approved by Planning on April 10 after a 20 day hold.

PERFORMANCE MEASURES

This report also includes recently adopted performance measures to track Article 10 Landmark designations and Article 11 Changes of Designation. The goal of the following performance measures, along with other process-based improvements, is to present a clearer picture of the Department's work on the HPC's Landmark Designation Work Program.

A Performance Measures Report is not attached to this document. Due to the transition to the Department's new PPTS project tracking system, an accurate report could not be created. Past data cannot be accounted for, but Survey Team staff continues to work with the Finance team to develop a method for tracking this information for the current quarter.

1. Prepare and process individual Article 10 Landmark designations (from report to case closure) within staff 150 hours.

When this measure was established, the previous five individual Article 10 designations (Nos. 261-266) were within a range of 114 to 200 hours from the preparation of the report to the final Board of Supervisors hearing. While each designation is unique, Department preservation staff has set a goal to complete the average individual designation within 150 hours.

Staff time for the most recent 6 designations was:

- 166 hours for the Cowell House, Landmark No. 270
- 115 hours for the Bourdette Building, No. 271
- 113 hours for the Alemany Health Building, Landmark No. 272
- 105 hours for Ingleside Presbyterian Church and *The Great Cloud of Witnesses*, Landmark No. 273
- 37 hours for the V.C. Morris Gift Shop.

2. Prepare an Article 10/11 designation application outlining designation requirements, process, and fees by the end of the 2014 calendar year.

At the February 18, 2015 hearing, the HPC approved the Article 10/11 Designation Application. The application was uploaded to the Planning Department's website on April 6, 2015.

3. Provide comments to the applicant regarding the application's completeness and/or schedule HPC initiation hearings for all community/property-owner sponsored Landmark Designation Reports within 30 calendar days of receipt.

The Department will track performance and response time with owners and community members that submit nominations outside of the HPC's Work Program. The goal is to provide the HPC and the public with a timely response regarding requests for nomination submitted by the public. Tracking information will be included in the Performance Measures Report. One application was brought to the HPC:

- **2731-35 Folsom Street, Private Residence** (received August 23, 2016, HPC adopted resolution to initiate Landmark Designation on March, 15, 2017)

Two applications will be brought to the HPC once completed:

- **449 Fourteenth Street, Former Welsh Presbyterian Church** (received March 1, 2017, staff currently preparing comments for sponsor)
- **6301 3rd Street, Arthur H. Coleman Medical Center** (received August 22, 2016, staff spoke with and provided written comments to applicant in October 2016. Since then,

applicant has been in communication with property owner and the two decided to take a pause on the application due to time constraints)

- 4. Submit and present a Landmark Designation Work Program status report to the HPC every three months.**

The next quarterly report will be presented to the HPC at its July 19, 2017 hearing.

LANDMARK DESIGNATION PROCESS

In order to provide the HPC and the public with a better understanding of the steps involved in landmark designation, the Department has developed a brief outline of the notification, hearings, and follow-up processes. Writing or reviewing a Landmark Designation Report is the first step in an expanded process that involves multiple hearings and continuous property owner and stakeholder engagement, including:

2. Engage and notify property owner, tenants, district Supervisor, and other stakeholders
3. Write a Case Report and Resolution for HPC Initiation Hearing (Hearing #1)
 - a. Department presentation

11. First Read at Board of Supervisors (Hearing #5)
 - a. Department attends, available for questions
12. Second Read at Board of Supervisors (Hearing #6)
 - a. Department attends on a case-by-case basis
13. Mayoral signing (occasionally involves a signing ceremony)
14. Press release, website and Property Information Map updates

Landmark Designation Work Program Administration

Reporting Quarter Hours: 38.5

FY 16/17 Hours: 248.5

FY 16/17 Budgeted Hours: 320 (Note: The FY 2016/2017 Budget allotted .15 FTE for the HPC's Landmark Designation Work Program, the equivalent of 320 hours.)

Tasks: Respond to public inquiries and suggestions regarding Landmark designations; provide initial report scoping to interested applicants; develop informational presentations for the HPC; develop Landmark hearing schedules; Work Program-related meetings; and prepare Work Program Quarterly Reports.

LANDMARK DESIGNATION WORK PROGRAM

The following list of designations has been prioritized, per the HPC's comments at the August 17, 2016 hearing and has been slightly updated based on progress made and expected hearing date. In addition, this list seeks to correct previous LDWP Quarterly Reports, which due to a formatting issue removed several properties to be considered for Article 10 designation. Properties identified in the draft Central SoMa Plan for adoption under Article 10 did not appear on August 2016, September 2016, or January 2017 LDWP Quarterly Reports. These include the Piledrivers, Bridge, and Structural Ironworkers Union Hall (457 Bryant Street), 228-248 Townsend Street, and 645 Harrison Street. Two properties – the Central Hotel (566-586 3rd Street) and 480 5th Street – were misidentified in the previous reports and will be designated under Article 11 instead of Article 10. This report has been updated to reflect these changes.

National Register Nomination/Article 10 Landmark Nomination

The property is now the home of Nihonmachi Little Friends school.

Article 10 Landmark District Designation

<i>Significance:</i>	Significant for its association with the events of counter-culture movement - when this area of San Francisco served as the nation's epicenter for "hippies" their anti-establishment lifestyle that included psychedelic drugs, rock music, free love, and an anti-war ethos. Defined by the Summer of Love in 1967, the period of significance for social associations could span through the 1960s and 70s. Architectural significance, due to the high concentration of intact Victorian-era architecture, begins with the original construction (c. 1880s) spanning through the 1970s to include many extant counter-culture-era alterations to the district.
