OTHER LANDMARK DESIGNATION WORK PROGRAM ITEMS

Plaque Program. The Department received 39 applications for a historic landmark plaque. During the first phase of this pilot program, 25 individual landmark property owners will receive plaques. The remaining applicants have been placed on a waiting list to receive a plaque in the future as funding allows. Staff has written text for all 25 of the pilot program plaques and is working with the manufacturer to produce a sample plaque and conducting site visits to work with property owners on an appropriate plaque mounting location for each building. The first five plaques are expected to be delivered by October. (*Previously scheduled for September; due to manufacturing issues.*)

PERFORMANCE MEASURES

This report also includes recently adopted performance measures to track Article 10 Landmark designations and Article 11 Changes of Designation. The goal of the following performance measures, along with other process-based improvements, is to present a clearer picture of the Department's work on the HPC's Landmark Designation Work Program.

A Performance Measures Report is not attached to this document. Due to the transition to the Department's new PPTS project tracking system, an accurate report could not be created. Past data cannot be accounted for, but Survey Team staff continues to work with the Finance team to develop a method for tracking this information for the current quarter.

1. Prepare and process individual Article 10 Landmark designations (from report to case closure) within staff 150 hours.

When this measure was established, the previous five individual Article 10 designations (Nos. 261-266) were within a range of 114 to 200 hours from the preparation of the report to the final Board of Supervisors hearing. While each designation is unique, Department preservation staff has set a goal to complete the average individual designation within 150 hours.

Staff time for the most recent 3 designations was: 166 hours for the Cowell House, Landmark No. 270; 115 hours for the Bourdette Building, No. 271; and 113 hours for the Alemany Health Building, Landmark No. 272.

2. Prepare an Article 10/11 designation application outlining designation requirements, process, and fees by the end of the 2014 calendar year.

At the February 18, 2015 hearing, the HPC approved the Article 10/11 Designation Application. The application was uploaded to the Planning Department's website on April 6, 2015.

3. **Provide comments to the applicant regarding the application's completeness and/or schedule HPC initiation hearings for all community/property-owner sponsored Landmark Designation Reports within 30 calendar days of receipt.**

The Department will track performance and response time with owners and community members that submit nominations outside of the HPC's Work Program. The goal is to provide the HPC and the public with a timely response regarding requests for nomination submitted by the public. Tracking information will be included in the Performance Measures Report.

- **Woodward Street Landmark District**, Calendar Days: 36

This item was submitted to Staff on June 18, 2015; on March 16, 2016, following several months of edits, Staff brought the application, in its current form, to the HPC, at which time it was added to the LDWP, and the applicant was directed to work with Staff to complete the designation report. Staff has since met with the applicant to identify areas and provide additional comments to strengthen the proposed district.

Two Landmark Designation Applications were submitted during this reporting quarter: When the applications are complete, staff will bring them to the HPC for review.

- 1970 Ocean Avenue, the El Rey Theater
- 2731-35 Folsom Street

4. **Submit and present a Landmark Designation Work Program status report to the HPC every six months.**

The next quarterly report will be presented to the HPC at its January 18, 2016 hearing.

LANDMARK DESIGNATION PROCESS

In order to provide the HPC and the public with a better understanding of the steps involved in landmark designation, the Department has developed a brief outline of the notification, hearings, and follow-up processes.  Architect: Julia Morgan

National Register Nomination/Article 10 Landmark Nomination

Staff: Susan Parks

Significance: Constructed in 1932, the Japantown YWCA was established by and for Japanese-American women, who were barred by segregationist policies from other YMCA facilities. Alien Land Laws prevented *Issei* (first generation) women from owning property, the SF YWCA owned the property in trust for the *Nikkei* (second generation). The community's efforts to maintain control of the YWCA showcased the ongoing social and economic vulnerability of Japantown and spurred a new generation of *Nihonmachi* (Japantown) activism. The property is now the home of Nihonmachi Little Friends school.

Gran Oriente was founded in the 1920s to provide low-income housing to the Filipino community. By the 1930s, the lodge was the most prominent Filipino fraternal organization. After Japanese immigration was stalled in the 1930s due to the Anti-Immigration Act, members of the Gran Oriente Lodge pooled their resources to purchase a hotel (104-106 South Park) and later two more residential buildings (41-43 South Park and 45-49 South Park). In 1951, the Lodge constructed the Gran Oriente Filipino Masonic Temple (95 Jack London Alley). The three properties represent the earliest properties owned by a Filipino organization in the city.
