Recommendation: **Approval with Conditions**

PROJECT DESCRIPTION

The project proposes the demolition of the existing one-story building containing a seismic retrofitting business and the construction of a 65-foot tall, six-story mixed-use building containing sixty-six (66) rental dwelling units (12 studio units, 9 one-bedroom units, 31 two-bedroom units and 14 three-bedroom units), twenty-six (26) off-street vehicular parking spaces, seventy-five (75) bicycle parking spaces and two ground floor commercial spaces totaling approximately 3,528 square feet. Usable open space for the dwelling units would be provided in an interior courtyard on the second floor and on a rooftop deck.

SITE DESCRIPTION AND PRESENT USE

The project is located on the southeast corner of Divisadero and Grove Streets, Block 1202, Lot 002B. The property is located within the Divisadero Street NCT (Neighborhood Commercial Transit) District, the Fringe Financial Restricted Use District and a 65-A height and bulk district. The property is developed with an approximately 14,500 square-foot, one-story building formerly occupied by an automobile repair garage and is currently occupied by a seismic retrofitting business. The subject property is a corner lot, with approximately 100 feet of frontage on Divisadero Street and 125 feet of frontage on Grove Street. The lot is 100% covered by the subject building and has no rear yard.

SURROUNDING PROPERTIES AND NEIGHBORHOOD

The project site is located in a neighborhood commercial district with a variety of neighborhood-serving commercial uses, mixed use buildings and larger commercial and residential buildings within the Western Addition neighborhood. Generally, the commercial establishments characterizing the neighborhood include a mixture of retail stores, personal services uses, restaurants, auto repair uses, and entertainment uses. The majority of lots are fully covered by buildings. The Independent concert hall is located immediately to the south of the subject building. Directly across Divisadero Street from the subject property is a one-story restaurant and several 3-story mixed-use (residential over ground floor commercial) buildings. Directly across Grove Street from the subject property is a seven-story residential building with ground floor parking. Immediately to the east of the subject property is a four-story residential building.

ENVIRONMENTAL REVIEW

On January 13, 2017 the Project was determined to be exempt from the California Environmental Quality Act ("CEQA") as a Class 32 Categorical Exemption under CEQA as described in the determination contained in the Planning Department files for this Project.

HEARING NOTIFICATION

TYPE	REQUIRED PERIOD	REQUIRED NOTICE DATE	ACTUAL NOTICE DATE	ACTUAL PERIOD

Mailed Notice	20 days	January 6, 2017	January 6, 2017	20 days

The proposal requires a Section 312 neighborhood notification, which was conducted in conjunction with the Conditional Use Authorization notification process. The applicant also conducted a pre-application meeting prior to submission on August 15, 2014 and held a follow-up community meeting on September 16, 2015.

PUBLIC COMMENT/COMMUNITY OUTREACH

To date, the Department has received three email inquiries requesting additional information about the project, thirteen letters expressing support for the project, including 9 letters from residents of Webster Tower & Terrace located at 1489 Webster Street, another rental building developed and operated by the project sponsor. Planning Department staff also received one email that recommended minimizing the number of parking spaces and curb cuts and retaining some of the Mission-Spanish Revival architectural elements of the existing building. One email was received, from a nearby resident at 1261 Grove Street, that recommended tree-protection measures be added as a condition of approval to protect a large walnut tree within the rear yard of an adjacent property. One email was received from the owner of the property immediately adjacent to the north, at 1265 Grove Street, who opposes the project on the basis that the massing of the proposed building will result in a loss of light and views, and the potential for increased noise from the new residents of the proposed building. 103 additional emails were received from members of the community requesting that the Commission continue the item to a later date in order to

allow pending legislation, which proposes to increase the amount of required affordable housing units in this project, to be enacted by the Board of Supervisors.

ISSUES AND OTHER CONSIDERATIONS

- Development of Large Lots. The Project proposes the development of a 12,500 square foot lot. Planning Code Sections 121.1 and 746.11 require that new construction on lots in excess of 10,000 square feet in the Divisadero Street Neighborhood Commercial Transit (NCT) District shall be permitted only as Conditional Uses.
- Rear Yard Requirement in the NCT District. The project may substitute the required rear yard with an open area equal to 25 percent of the lot area, which in this instance would amount to approximately 3,125 square feet. The project proposes a rear yard of approximately 3,135 square feet in size in an interior corner of the lot. However, a portion of the rear yard does not meet the minimum 15-foot horizontal clearance requirement. As such, this area cannot be counted toward the calculation of the required rear yard and the qualifying rear yard space therefore amounts to approximately 2,839 square feet. The Zoning Administrator will consider a request to modify the rear yard requirements pursuant to Planning Code Section 134 concurrent with the Planning Commission hearing for this Conditional Use Authorization request.
- Bulk. The maximum length of a building in the 'A' Bulk District is 110 feet with a maximum diagonal dimension of 125 feet for the portion of the building above 40 feet in height. The Project proposes a building length of 109 feet and a diagonal dimension of 136 feet for the portion of the building above 40 feet in height. The diagonal dimension of the project at the 5th and 6th floors exceeds the maximum permitted by approximately 11 feet and therefore requires an exception from the bulk requirements of Planning Code Section 270.
- Dwelling Unit Density. The project proposes 66 dwelling units. Planning Code Section 746.91 states that in the Divisadero Street NCT District, residential density limits shall not apply.
- Dwelling Unit Exposure. Planning Code Section 140 states that in each dwelling unit, the windows of at least one room of 120-square-foot minimum dimensions shall face directly onto a public street, public alley at least 20 feet in width, side yard at least 25 feet in width, a Code-complying rear yard, or an open area which is unobstructed and is no less than 25 feet in every horizontal dimension for the floor at which the dwelling unit in question is located and the floor immediately above it, with an increase of five feet in every horizontal dimension at each subsequent floor. The project complies with the dwelling unit exposure requirement as every unit would face onto Divisadero Street, Grove Street, or the interior courtyard which would measure approximately 42 feet in depth and 68 feet in length.
- Dwelling Unit Mix. In order to ensure an adequate supply of family-sized units in existing and new housing stock, Planning Code Sections 207.6 and 746.91 require that no less than 40 percent of the total number of proposed dwelling units contain at least two bedrooms, or no less than 30 percent of the total number of proposed dwelling units contain at least three bedrooms. For the sixty-six (66) proposed dwelling units, the Project is required to provide at least twenty-six (26) two- or three-bedroom units or at least twenty (20) three-bedroom units. The Project would

provide thirty-one (31) two-bedroom units and fourteen (14) three-bedroom units. Therefore, the Project meets the requirements for dwelling unit mix.

- Off-Street Parking and Loading. Although the Planning Code does not require any off-street parking for the proposed residential portion of the building, twenty-six (26) parking spaces are proposed on the ground floor beneath the interior courtyard. The proposed retail uses do not require nor propose any off-street parking or loading. The proposed off-street parking does not exceed the maximum permitted by the Planning Code, and therefore complies.
- Inclusionary Affordable Housing Program. Planning Code Section 415.3 sets forth the requirements and procedures for the Inclusionary Affordable Housing Program for projects that consist of 10 or more units. The applicable percentage is dependent on the number of units in the project, the zoning of the property, and the date that the project submitted a complete Environmental Evaluation Application. A complete Environmental Evaluation Application was submitted on January 21, 2014; therefore, the Inclusionary Affordable Housing Program requirement for the On-site Affordable Housing Alternative is to provide 13.5% of the proposed dwelling units as affordable. Nine (9) units (2 studio, 2 one-bedroom, 3 two-bedroom, and 2 three-bedroom) of the total 66 units provided will be affordable units.
- Costa Hawkins Rental Housing Act. In order for a rental project to satisfy its Inclusionary Affordable Housing Program requirements by providing affordable units on-site, an exemption from the Costa Hawkins Rental Housing Act is required. In order to qualify for an exemption from the Costa Hawkins Rental Housing Act, a project must receive a development or density bonus, or other form of public assistance. The project would receive a development bonus, in the form of a bulk exception, which would allow for additional units above that which would be permitted by a Code-complying project.
- Entertainment Commission Outreach. The subject property is located immediately adjacent to the Independent, a concert hall which hosts numerous live performances. In addition to the standard "Recommended Noise Attenuation Conditions for Chapter 116 Projects", the Entertainment Commission has provided additional site-specific recommendations and asks that the Planning Commission adopt them along with the standard conditions, all of which are included as recommended conditions of approval in Exhibit A.

REQUIRED COMMISSION ACTION

In order for the project to proceed, the Commission must grant Conditional Use Authorization to allow the development of a lot in excess of 10,000 square feet and permit a bulk exception within the NCT (Divisadero Street Neighborhood Commercial Transit) District, Fringe Financial Services Restricted Use District and a 65-A Height and Bulk District, pursuant to Planning Code Sections 121.1, 271, 303, 746.10 and 746.11.

BASIS FOR RECOMMENDATION

- The proposed ground floor retail spaces will provide desirable goods and services to the neighborhood and would contribute to the dense, walkable, mixed-use character of the Divisadero Street Neighborhood Commercial Transit district.
- The Project would make use of an underutilized site in order to create sixty-six (66) new rental dwelling units including thirty-one (31) two-bedroom units and fourteen (14) three-bedroom units which would be suitable for families with children.
- The project will introduce new residents who will support existing businesses in the nearby Divisadero Street corridor.
- The project would satisfy its Inclusionary Affordable Housing Program requirements by providing nine (9) units (2 studio, 2 one-bedroom, 3 two-bedroom, and 2 three-bedroom) of the total 66 rental units as affordable units.
- One curb cut on the Divisadero Street frontage would be removed, which will allow for additional on-street parking and reduce potential pedestrian-vehicular conflicts.
- Other than the rear yard requirements for which a modification is being sought, the project meets all applicable requirements of the Planning Code and proposes land uses that are overall in greater conformity with the Planning Code.
- The project represents the sensitive redevelopment of an underutilized site and is desirable for, and compatible with the surrounding neighborhood.

ADOPTING FINDINGS RELATING TO THE APPROVAL OF CONDITIONAL USE AUTHORIZATION PURSUANT TO PLANNING CODE SECTIONS 121.1, 271, 303, 746.10 AND 746.11, TO PERMIT THE DEVELOPMENT OF A 6-STORY MIXED-USE BUILDING CONTAINING 66 RESIDENTIAL DWELLING UNITS ABOVE 26 GROUND FLOOR PARKING SPACES AND 3,528 SQUARE FEET OF COMMERCIAL USES WITHIN THE DIVISADERO STREET NEIGHBORHOOD COMMERCIAL TRANSIT (NCT) DISTRICT, THE FRINGE FINANCIAL SERVICES RESTRICTED USE DISTRICT AND A 65-A HEIGHT AND BULK DISTRICT.

PREAMBLE

On August 26, 2014, Warner Schmalz (hereinafter "Project Sponsor") filed an application with the Planning Department (hereinafter "Department") for Conditional Use Authorization under Planning Code Sections 121.1, 271, 303, 746.10 and 746.11 to permit the development of a 12,500 square-foot lot with a 6-story mixed-use building containing 66 residential dwelling units above 26 ground floor parking spaces and 3,528 square feet of commercial uses within the Divisadero Street Neighborhood Commercial Transit (NCT) District, the Fringe Financial Services Restricted Use District and a 65-A Height and Bulk District.

On January 13, 2017, the Project was determined to be exempt from the California Environmental Quality Act ("CEQA") as a Class 32 Categorical Exemption under CEQA as described in the determination contained in the Planning Department files for this Project.

On June 15, 2017, the San Francisco Planning Commission (hereinafter "Commission") conducted a duly noticed public hearing at a regularly scheduled meeting on Conditional Use Application No. 2013.1037C.

The Commission has heard and considered the testimony presented to it at the public hearing and has further considered written materials and oral testimony presented on behalf of the applicant, Department staff, and other interested parties.

MOVED, that the Commission hereby authorizes the Conditional Use requested in Application No. 2013.1037C, subject to the conditions contained in "EXHIBIT A" of this motion, based on the following findings:

FINDINGS

Having reviewed the materials identified in the preamble above, and having heard all testimony and arguments, this Commission finds, concludes, and determines as follows:

1. The above recitals are accurate and constitute findings of this Commission.
2. **Site Description and Present Use.** The project is located on the southeast corner of Divisadero and Grove Streets, Block 1202, Lot 002B. The property is located within the Divisadero Street NCT (Neighborhood Commercial Transit) District, the Fringe Financial Restricted Use District and a 65-A height and bulk district. The property is developed with an approximately 14,500 square-foot, one-story building formerly occupied by an automobile repair garage and is currently occupied by a seismic retrofitting business. The subject property is a corner lot, with approximately 100 feet of frontage on Divisadero Street and 125 feet of frontage on Grove Street. The lot is 100% covered by the subject building and has no rear yard.
3. **Surrounding Properties and Neighborhood.** The project site is located in a neighborhood commercial district with a variety of neighborhood-serving commercial uses, mixed use buildings and larger commercial and residential buildings within the Western Addition neighborhood. Generally, the commercial establishments characterizing the neighborhood include a mixture of retail stores, personal services uses, restaurants, auto repair uses, and entertainment uses. The majority of lots are fully covered by buildings. The Independent concert hall is located immediately to the south of the subject building. Directly across Divisadero Street from the subject property is a one-story restaurant and several 3-story mixed-use (residential over ground floor commercial) buildings. Directly across Grove Street from the subject property is a seven-story residential building with ground floor parking. Immediately to the east of the subject property is a four-story residential building.

4. **Project Description.** The project proposes the demolition of the existing one-story building containing a seismic retrofitting business and the construction of a 65-foot tall, six-story mixed-use building containing sixty-six (66) rental dwelling units (12 studio units, 9 one-bedroom units, 31 two-bedroom units and 14 three-bedroom units), twenty-six (26) off-street vehicular parking spaces, seventy-five (75) bicycle parking spaces and two ground floor commercial spaces totaling approximately 3,528 square feet. Usable open space for the dwelling units would be provided in an interior courtyard on the second floor and on a rooftop deck.
5. **Public Comment.** As of June 5, 2017, the Department has received three email inquiries requesting additional information about the project, 13 letters expressing support for the project, including nine letters from residents of Webster Tower & Terrace located at 1489 Webster Street, another rental building developed and operated by the project sponsor. Planning Department staff also received one email that recommended minimizing the number of parking spaces and curb cuts and retaining some of the Mission-Spanish Revival architectural elements of the existing building. One email was received, from a nearby resident at 1261 Grove Street, that recommended tree-protection measures be added as a condition of approval to protect a large walnut tree within the rear yard of an adjacent property. One email was received from the owner of the property immediately adjacent to the north, at 1265 Grove Street, who opposes the project on the basis that the massing of the proposed building will result in a loss of light and views, and the potential for increased noise from the new residents of the proposed building. 103 additional emails were received from members of the community requesting that the Commission continue the item to a later date in order to allow pending legislation, which proposes to increase the amount of required affordable housing units in this project, to be enacted by the Board of Supervisors.
6. **Planning Code Compliance:** The Commission finds that the Project is consistent with the relevant provisions of the Planning Code in the following manner:
 - A. **Neighborhood Notification.** Planning Code Section 312 requires notification to all owners and occupants within 150 feet of the subject property when new construction is proposed in the Neighborhood Commercial District.

The proposal is located in the Divisadero Street Neighborhood Commercial Transit (NCT) District which is considered a Neighborhood Commercial District pursuant to Planning Code Section 702.1. The project proposes the construction of a six-story, mixed-use building. This new construction requires Neighborhood Notification per Planning Code Section 312. Accordingly, notification was conducted in conjunction with the noticing for the Conditional Use Authorization. The applicant also conducted a pre-application meeting prior to submission on August 15, 2014 and held a follow-up community meeting on September 16, 2015.
 - B. **Development of Large Lots.** Planning Code Sections 121.1 and 746.11 state that in order to promote, protect, and maintain a scale of development which is appropriate to each district and compatible with adjacent buildings, new construction or significant enlargement of

existing buildings on lots in excess of 10,000 square feet in the Divisadero Street Neighborhood Commercial Transit (NCT) District shall be permitted only as conditional uses.

The Project proposes the development of a 12,500 square foot lot. The additional required findings are listed below under Subsection 8.

- C. **Use Size Limits.** Per Planning Code Sections 121.2 and 746.21, non-residential uses up to 3,999 square feet are permitted.

The Project proposes two ground floor retail spaces totaling approximately 3,528 square feet and is therefore compliant with this requirement.

- D. **Rear Yard Requirement in the NCT District.** Planning Code Section 134 requires that the project provide a rear yard equal to 25 percent of the total lot depth at the lowest level containing a residential unit, and at each succeeding level or story of the building, but in no case less than 15 feet. On a corner lot, the required rear yard may be substituted with an open area equal to 25 percent of the lot area which is located at the same levels as the required rear yard in an interior corner of the lot, an open area between two or more buildings on the lot, or an inner court, provided that the Zoning Administrator determines that each horizontal dimension of the open area shall be a minimum of 15 feet, the open area shall be wholly or partially contiguous to the existing midblock open space formed by the rear yards of adjacent properties, the open area will provide for the access to light and air to and views from adjacent properties, and the proposed new or expanding structure will provide for access to light and air from any existing or new residential uses on the subject property. Alternatively, the rear yard requirement in NC Districts may be modified or waived by the Zoning Administrator pursuant to the procedures which are applicable to variances, provided that residential uses are included in the new development and a comparable amount of usable open space is provided elsewhere within the development where it is more accessible to the residents of the development, and that the proposed new structure will not significantly impede the access of light and air to and views or adversely affect the interior block open space formed by the rear yards of from adjacent properties.

The subject property is a corner lot and may therefore substitute the required rear yard with an open area equal to 25 percent of the lot area, which in this instance would amount to approximately 3,125 square feet. The project proposes a rear yard of approximately 3,135 square feet in size in an interior corner of the lot. However, the portion of the rear yard on the eastern edge of the site which would be provided in order to match a lightwell on the adjacent building does not meet the minimum 15-foot horizontal clearance requirement. As such, this area cannot be counted toward to calculation of the required rear yard and the qualifying rear yard space therefore amounts to approximately 2,839 square feet. The Zoning Administrator will consider a request to modify the rear yard requirements pursuant to Planning Code Section 134 concurrent with the Planning Commission hearing for this Conditional Use Authorization request.

- E. **Building Height.** Per Planning Code Section 260, the maximum height limit for the subject property is 65 feet.

The Project proposes a building height of 65 feet and is therefore compliant with this requirement.

- F. **Bulk.** Planning Code Section 270 states that in the 'A' Bulk District, the maximum length of a building is 110 feet with a maximum diagonal dimension of 125 feet for the portion of the building above 40 feet in height.

The Project proposes a building length of 109 feet and a diagonal dimension of 136 feet for the portion of the building above 40 feet in height. The diagonal dimension of the project at the 5th and 6th floors exceeds the maximum permitted by approximately 11 feet and therefore requires an exception from the bulk requirements of Planning Code Section 270. The additional required findings are listed below under Subsection 9.

- G. **Basic Floor Area Ratio.** Planning Code Sections 124 and 764.20 state that the basic floor area ratio limit shall be 2.5 to 1 in an NCT district and shall not apply to dwellings or to other residential uses.

The maximum permitted floor area ratio would allow for a total of 31,250 square feet of non-residential uses. The Project proposes a total of 3,528 square feet of non-residential uses, and therefore complies with this requirement.

- H. **Usable Open Space.** Planning Code Section 135 requires that the project provide a minimum of 100 square feet of open space per dwelling unit, if not publically accessible. Further, any private usable open space shall have a minimum horizontal dimension of six feet and a minimum area of 36 square feet if located on a deck, balcony, porch or roof, and shall have a minimum horizontal dimension of 10 feet and a minimum area of 100 square feet if located on open ground, a terrace or the surface of an inner or outer court. Alternatively, common useable open space, at a rate of 133 square feet per dwelling unit, shall be at least 15 feet in every horizontal dimension and shall be a minimum of 300 square feet. Planning Code Section 135(d)(2) further states that for dwelling units that measure less than 350 square feet plus a bathroom, the minimum amount of usable open space provided for use by each bedroom shall be one-third the amount required for a dwelling unit as specified in Table 135A of the Planning Code.

Units 210, 211, 212 and 213 would each have private terraces ranging in size from approximately 141 square feet to 294 square feet. Unit 501 would have a private deck approximately 265 square feet in size. Fourteen (14) of the proposed dwelling units measure less than 350 square feet plus a bathroom, therefore a total of 621 square feet of common usable open space is required for those units. The remaining forty-seven (47) units would require a minimum of 6,251 square feet of common usable open space. The project proposes two common open space areas – one measuring approximately 1,932

square feet within the interior corner rear yard area on the second floor, and one measuring approximately 5,484 square feet on the rooftop deck, for a total of 7,416 square feet. As such, the Project would exceed the minimum amount of private usable open space by approximately 480 square feet and would exceed the minimum amount of common usable open space by approximately 544 square feet.

- I. **Dwelling Unit Density.** Planning Code Section 746.91 states that in the Divisadero Street NCT District, residential density limits shall not apply.

The project proposes sixty-six (66) dwelling units.

- J. **Dwelling Unit Exposure.** Planning Code Section 140 states that in each dwelling unit, the windows of at least one room of 120-square-foot minimum dimensions shall face directly onto a public street, public alley at least 20 feet in width, side yard at least 25 feet in width, a Code-complying rear yard, or an open area which is unobstructed and is no less than 25 feet in every horizontal dimension for the floor at which the dwelling unit in question is located and the floor immediately above it, with an increase of five feet in every horizontal dimension at each subsequent floor.

The project complies with the dwelling unit exposure requirement as every unit would face onto either Divisadero Street, Grove Street, or the interior courtyard which would measure approximately 42 feet in depth and 68 feet in length.

- K. **Dwelling Unit Mix.** In order to ensure an adequate supply of family-sized units in existing and new housing stock, new residential construction must include a minimum percentage of units of at least 2 bedrooms. Planning Code Sections 207.6 and 746.91 require that no less than 40 percent of the total number of proposed dwelling units contain at least two bedrooms, or no less than 30 percent of the total number of proposed dwelling units contain at least three bedrooms.

For the sixty-six (66) proposed dwelling units, the Project is required to provide at least twenty-six (26) two- or three-bedroom units or at least twenty (20) three-bedroom units. The Project would provide thirty-one (31) two-bedroom units and fourteen (14) three-bedroom units. Therefore, the Project meets the requirements for dwelling unit mix.

- L. **Off-Street Parking and Loading.** Planning Code Sections 151.1 and 746.94 state that no parking is required for residential uses in an NCT Zoning District, although residential off-street parking may be provided at a rate not exceeding 0.5 spaces per dwelling unit. Planning Code Sections 151.1 and 746.22 state that no parking is required for non-residential uses in an NCT Zoning District, but permits off-street parking to a maximum of 1 space per 1,500 square feet of occupied floor area. Planning Code Section 152 does not require any off-street loading spaces for non-residential uses with a gross floor area less than 10,000 square feet.

Although the proposed residential portion of the building does not require any off-street parking, twenty-six (26) parking spaces are proposed on the ground floor beneath the interior courtyard. The proposed retail uses do not require nor propose any off-street parking or loading. The proposed off-street parking does not exceed the maximum permitted by the Planning Code, and therefore complies.

- M. **Bicycle Parking.** Planning Code Section 155.2 requires the provision of at least one (1) Class 1 bicycle parking space per dwelling unit and one (1) Class 2 bicycle parking space per 20 dwelling units. Planning Code Section 155.2 also requires the provision of at least one (1) Class 2 bicycle parking space for every 2,500 square feet of occupied floor area, but no less than two, for retail sales and service uses.

The Project would provide a total of sixty-six (66) Class 1 bicycle parking spaces in an enclosed bicycle storage room on the ground floor for residential use. Nine (9) Class 2 bicycle parking spaces would be provided on both street frontages for use by visitors to the residential and retail portions of the building. As such, the Project would comply with the Planning Code requirements for bicycle parking.

- N. **Street Frontage in Neighborhood Commercial Districts.** Sections 145.1 and 746.13 of the Planning Code requires that within NC Districts, with the exception of space allowed for parking and loading access, building egress, and access to mechanical systems, space for active uses shall be provided within the first 25 feet of building depth on the ground floor and 15 feet on floors above from any facade facing a street at least 30 feet in width. In addition, the floors of street-fronting interior spaces housing non-residential active uses and lobbies shall be as close as possible to the level of the adjacent sidewalk at the principal entrance to these spaces. Building lobbies are considered active uses, so long as they do not exceed 40 feet or 25 percent of building frontage, whichever is larger. Frontages with active uses must be fenestrated with transparent windows and doorways for no less than 60 percent of the street frontage at the ground level and allow visibility to the inside of the building. The use of dark or mirrored glass shall not count towards the required transparent area. Off-street parking at street grade on a development lot must be set back at least 25 feet on the ground floor and at least 15 feet on floors above, from any facade facing a street at least 30 feet in width. Ground floor non-residential uses in all NCT districts shall have a minimum floor-to-floor height of 14 feet.

The proposed building has approximately 100 feet of frontage on Divisadero Street and, with the exception of a screened alcove for the building's gas meters and a doorway leading to a secondary egress corridor and trash room for the residential portion of the building, which are exempt from the requirements of Planning Code Section 145.1, the entire Divisadero Street frontage is occupied by retail uses which are considered active uses. The proposed building has approximately 125 feet of frontage on Grove Street and, with the exception of a 9-foot wide garage door leading to parking garage and a secondary egress corridor for the residential portion of the building, which are exempt from the requirements of Planning Code Section 145.1, the remainder of the Grove Street frontage is occupied

by retail uses, the residential lobby and two ground floor residential units, all of which are considered active uses. The floor-to-floor ground floor heights for the retail spaces would be approximately 17 feet.

- O. **Streetscape and Pedestrian Improvements.** Planning Code Sections 138.1 and 746.17 require one street tree for each 20 feet of street frontage of the property containing the development project, with any remaining fraction of 10 feet or more of frontage requiring an additional tree.

The subject property occupies a total frontage of 225 feet along both Divisadero and Grove Streets. There are two (2) existing street trees within the Divisadero Street right-of-way in front of the proposed building. The Project proposes an additional three (3) new street trees along the Divisadero Street right-of-way and six (6) new street trees along the Grove Street right-of-way.

- P. **Shadow.** Planning Code Section 295 restricts net new shadow, cast by structures exceeding a height of 40 feet, upon property under the jurisdiction of the Recreation and Park Commission. Any project in excess of 40 feet in height and found to cast net new shadow must be found by the Planning Commission, with comment from the General Manager of the Recreation and Parks Department, in consultation with the Recreation and Park Commission, to have no adverse impact upon the property under the jurisdiction of the Recreation and Park Commission.

Based upon a shadow analysis, the Project does not cast any net new shadow upon property under the jurisdiction of the Recreation and Parks Commission.

- Q. **Transportation Demand Management (TDM) Plan.** Pursuant to Planning Code Section 169 and the TDM Program Standards, the Project shall finalize a TDM Plan prior Planning Department approval of the first Building Permit or Site Permit. As currently proposed, the Project must achieve a target of 14 points.

The Project submitted a completed Environmental Evaluation Application prior to September 4, 2016. Therefore, the Project must only achieve 50% of the point target established in the TDM Program Standards, resulting in a required target of 7 points. As currently proposed, the Project will achieve its required 12 points through the following TDM measures:

- *Unbundled Parking*
- *Parking Supply*
- *Bicycle Parking (Option A)*
- *Car-share Parking (Option A)*
- *On-Site Affordable Housing*

- R. **Entertainment Commission Outreach.** Planning Code Section 314 requires that the Planning Department and Planning Commission consider the compatibility of uses when approving residential uses adjacent to or near existing permitted Places of Entertainment and shall take all reasonably available means through the City's design review and approval processes to

ensure that the design of such new residential development project takes into account the needs and interests of both the Places of Entertainment and the future residents of the new development.

The subject property is located immediately adjacent to the Independent, a concert hall which hosts numerous live performances. The Project Sponsor presented the project to the Entertainment Commission on February 2, 2016, hearing. In addition to the standard "Recommended Noise Attenuation Conditions for Chapter 116 Projects", the Entertainment Commission has provided additional site-specific recommendations and asks that the Planning Commission adopt them along with the standard conditions, all of which are included as recommended conditions of approval in Exhibit A.

- S. **Transportation Sustainability Fee.** Planning Code Section 411A is applicable to any development project that results in the construction of more than twenty (20) new dwelling units.

The Project proposes the construction of sixty-six (66) new dwelling units and is therefore subject to the Transportation Sustainability Fee. These fees must be paid prior to the issuance of the first construction document.

- T. **Inclusionary Affordable Housing Program.** Planning Code Section 415 sets forth the requirements and procedures for the Inclusionary Affordable Housing Program. Under Planning Code Section 415.3, these requirements apply to projects that consist of 10 or more units. The applicable percentage is dependent on the number of units in the project, the zoning of the property, and the date that the project submitted a complete Environmental Evaluation Application. A complete Environmental Evaluation Application was submitted on January 21, 2014; therefore, pursuant to Planning Code Section 415.3 the Inclusionary Affordable Housing Program requirement for the On-site Affordable Housing Alternative is to provide 13.5% of the proposed dwelling units as affordable. This requirement is subject to change under a proposed legislative amendment (File No. 151258) introduced by Supervisor Breed and pending further action by the Land Use and Transportation Committee. The proposed ordinance would apply to projects within the Fillmore and Divisadero Street NCT Districts that were submitted to the Planning Department prior to January 12, 2016 and that also received an increase in density of 50% or more from the 2015 rezoning set forth in Ordinance Nos. 126-15 and 127-15. For those projects, the proposed ordinance would remove the existing grandfathering provisions and would apply a higher inclusionary affordable housing requirement.

The Project Sponsor has demonstrated that it is eligible for the On-Site Affordable Housing Alternative under Planning Code Section 415.5 and 415.6, and has submitted an 'Affidavit of Compliance with the Inclusionary Affordable Housing Program: Planning Code Section 415,' to satisfy the requirements of the Inclusionary Affordable Housing Program by providing the affordable housing on-site instead of through payment of the Affordable Housing Fee. In order for the Project

Sponsor to be eligible for the On-Site Affordable Housing Alternative, the Project Sponsor must submit an 'Affidavit of Compliance with the Inclusionary Affordable Housing Program: Planning Code Section 415,' to the Planning Department stating that any affordable units designated as on-site units shall be sold as ownership units and will remain as ownership units for the life of the project or submit to the Department a contract demonstrating that the project's on- or off-site units are not subject to the Costa Hawkins Rental Housing Act, California Civil Code Section 1954.50 because, under Section 1954.52(b), the Project Sponsor has entered into an agreement with a public entity in consideration for a direct financial contribution or any other form of assistance specified in California Government Code Sections 65915 et seq. and submits an Affidavit of such to the Department. All such contracts entered into with the City and County of San Francisco must be reviewed and approved by the Mayor's Office Housing and Community Development and the City Attorney's Office. The Project Sponsor has indicated the intention to enter into an agreement with the City to qualify for a waiver from the Costa-Hawkins Rental Housing Act based upon the proposed density bonus and concessions provided by the City and approved herein. The Project Sponsor submitted such Affidavit on December 28, 2016. The applicable percentage is dependent on the total number of units in the project, the zoning of the property, and the date that the project submitted a complete Environmental Evaluation Application. A complete Environmental Evaluation Application was submitted on January 21, 2014; therefore, pursuant to Planning Code Section 415.3 the Inclusionary Affordable Housing Program requirement for the On-site Affordable Housing Alternative is to provide 13.5% of the total proposed dwelling units as affordable. Nine (9) units (2 studio, 2 one-bedroom, 3 two-bedroom, and 2 three-bedroom) of the total 66 units provided will be affordable units. If the Project becomes ineligible to meet its Inclusionary Affordable Housing Program obligation through the On-site Affordable Housing Alternative, it must pay the Affordable Housing Fee with interest, if applicable.

- U. **First Source Hiring.** The Project is subject to the requirements of the First Source Hiring Program as they apply to permits for residential development (Section 83.4(m) of the Administrative Code), and the Project Sponsor shall comply with the requirements of this Program as to all construction work and on-going employment required for the Project. Prior to the issuance of any building permit to construct or a First Addendum to the Site Permit, the Project Sponsor shall have a First Source Hiring Construction and Employment Program approved by the First Source Hiring Administrator, and evidenced in writing. In the event that both the Director of Planning and the First Source Hiring Administrator agree, the approval of the Employment Program may be delayed as needed.

The Project Sponsor submitted a First Source Hiring Affidavit and prior to issuance of a building permit will execute a First Source Hiring Memorandum of Understanding and a First Source Hiring Agreement with the City's First Source Hiring Administration.

- V. **Child Care Fee.** Planning Code Section 414A requires payment of a child care impact fee for a project that results in one net new dwelling unit.

The Project proposes sixty-six (66) new dwelling units and will be required to pay a fee of \$0.91 for each net new gross square foot of residential development. These fees must be paid prior to the issuance of the first construction document.

7. **Conditional Use Authorization Findings.** Planning Code Section 303 establishes criteria for the Planning Commission to consider when reviewing applications for Conditional Use approval. On balance, the project does comply with said criteria in that:

- A. The proposed new uses and building, at the size and intensity contemplated and at the proposed location, will provide a development that is necessary or desirable, and compatible with, the neighborhood or the community.

The size of the proposed mixed-use building is necessary and desirable as it will provide 66 dwelling units to the City's housing stock. The height, density and massing of the building is compatible with the surrounding Western Addition neighborhood and the Divisadero Street NCT Zoning District, as the project is reflective of the uses and density found in the immediate neighborhood. The proposed project would also replace the currently underutilized one-story seismic retrofitting business with more pedestrian-oriented commercial uses.

- A. The proposed project will not be detrimental to the health, safety, convenience or general welfare of persons residing or working in the vicinity. There are no features of the project that could be detrimental to the health, safety or convenience of those residing or working the area, in that:

- i. Nature of proposed site, including its size and shape, and the proposed size, shape and arrangement of structures;

The proposed size, shape and arrangement of the proposed building would not be detrimental to persons residing or working in the vicinity, as the building, in general, is consistent with the massing and height of other buildings found within the immediate vicinity, within the Divisadero Street Neighborhood Commercial Transit District and the wider Western Addition neighborhood. The proposed design features a lower building height and bay windows that reduce the scale of the building to respond to the neighboring low-density residential buildings along Grove Street, while building up to a larger scale within the allowable height limit that responds to the comparatively taller, denser buildings along Divisadero Street.

- ii. The accessibility and traffic patterns for persons and vehicles, the type and volume of such traffic, and the adequacy of proposed off-street parking and loading;

The Project is located in a Neighborhood Commercial Transit district. The proposed off-street parking would be less than one space per dwelling unit and will address the need for adequate off-street parking for new residents without generating an oversupply. No parking or loading is proposed or required for the commercial uses. Secure bicycle parking will be provided on the ground floor of the building in excess of minimum code requirements. One curb cut along Divisadero Street would be eliminated and one existing curb cut on Grove Street would be

relocated further from the intersection. The project is not anticipated to have any negative impacts on surrounding street traffic and pedestrian safety is expected to be greatly improved.

- iii. The safeguards afforded to prevent noxious or offensive emissions such as noise, glare, dust and odor;

The project is not expected to cause any negative noise, glare, dust or odor impacts.

- iv. Treatment given, as appropriate, to such aspects as landscaping, screening, open spaces, parking and loading areas, service areas, lighting and signs;

The Project would provide open space for its residents by means of a common rooftop deck and landscaped interior courtyard. Proposed public realm improvements including the removal of an existing curb cut, new commercial storefronts, the installation of bicycle racks and street trees planted on both streets will greatly contribute to a more active streetscape.

- B. That the use as proposed will comply with the applicable provisions of the Planning Code and will not adversely affect the General Plan.

The Project complies with all relevant requirements and standards of the Planning Code and is consistent with objectives and policies of the General Plan as detailed below.

- C. That the use as proposed would provide development that is in conformity with the purpose of the applicable Neighborhood Commercial Transit District.

Consistent with the Divisadero Street Neighborhood Commercial Transit (NCT) District objectives, neighborhood-serving businesses are strongly encouraged and new commercial development is permitted on the ground floor. The Project, with retail uses on the ground floor would provide convenience goods and services to the surrounding neighborhoods as well as limited comparison shopping goods for a wider market. The proposed residential use meets the general intent of the Divisadero Street NCT District objectives in that it would contribute to the dense, walkable, mixed-use character of the neighborhood and would provide adequate open space for its future residents.

- 8. **Development of Large Lots.** In addition to the criteria of Section [303\(c\)](#) of the Planning Code, as it pertains to the development of large lots, the City Planning Commission shall consider the extent to which the following criteria are met:

- A. The mass and facade of the proposed structure are compatible with the existing scale of the district.

At six stories, the massing and façade of the proposed mixed-use building will be compatible with the existing scale of the surrounding area, which is characterized primarily by mixed-use and residential buildings ranging from 2 to 7 stories in height.

- B. The facade of the proposed structure is compatible with design features of adjacent facades that contribute to the positive visual quality of the district.

The height and façade treatment of the proposed building will be in keeping with the facades of other residential buildings fronting Grove Street as well as the mixed-use character of buildings fronting Divisadero Street. The Grove Street facade will feature three vertical series of 4-story projecting bay windows to reinforce the prevailing 4-story residential building typology immediately to the east of the subject property along Grove Street as well as two ground floor dwelling units with direct access to the street. The façade treatment along Divisadero Street will feature 5-story projecting bay window series and an aluminum storefront window system on the ground floor to reflect the more mixed-use character of this part of the district.

9. **Bulk Exception Findings.** Pursuant to Planning Code Section 270, the “A” Bulk District shall have a maximum length of 110 feet and a maximum diagonal dimension of 125 feet for the portion of a building greater than 40 feet in height.

The Project proposes a building length of 109 feet and a diagonal dimension of 136 feet for the portion of the building above 40 feet in height. The diagonal dimension of the project at the 5th and 6th floors exceeds the maximum permitted by approximately 11 feet and therefore requires an exception from the bulk requirements of Planning Code Section 270.

Planning Code Section 271 establishes criteria to allow exceptions to the Bulk limit with Conditional Use Approval. On balance, the project does comply with said criteria in that:

- a. The appearance of the bulk in the building, structure or development shall be reduced by means of at least one and preferably a combination of the following factors, so as to produce the impression of an aggregate of parts rather than a single building mass.
- i. Major variations in the planes of wall surfaces, in either depth or direction, that significantly alter the mass;

The entire 6th floor façade is set back almost 1 foot from the building’s main plane on both the Divisadero Street and Grove Street facades. Additional façade articulations measuring approximately 5 feet are provided at corners of the building on the 5th and 6th floors which reduce the overall massing of the building.

- ii. Significant differences in the heights of various portions of the building, structure or development that divide the mass into distinct elements;

There is a height difference of approximately 20 feet between the four-story portion of the building fronting Grove Street and the six-story portion at the corner of Grove Street and Divisadero Street.

This design breaks up the Grove Street façade into two distinct portions – the east of which forms an appropriate transition in scale to the adjacent four-story building to the east.

- iii. Differences in materials, colors or scales of the facades that produce separate major elements;

A portion of the 5th and the entire 6th floor façade will be treated with a different finish and color in order to distinguish them from the lower portion of the building, giving the upper portion a lighter, more subordinate appearance.

- iv. Compensation for those portions of the building, structure or development that may exceed the bulk limits by corresponding reduction of other portions below the maximum bulk permitted; and

The 5th and 6th floors have been set back almost 18 feet from the adjacent four-story building to the east which compensates for the increased bulk elsewhere on the upper floors.

- v. In cases where two or more buildings, structures or towers are contained within a single development, a wide separation between such buildings, structures or towers.

This criterion is not applicable as only one tower is proposed.

- b. In every case the building, structure or development shall be made compatible with the character and development of the surrounding area by means of all of the following factors:

- i. A silhouette harmonious with natural land-forms and building patterns, including the patterns produced by height limits;

The building height and silhouette follows the sloping terrain along Grove Street and is harmonious with the surrounding topography on the Divisadero Street corridor.

- ii. Either maintenance of an overall height similar to that of surrounding development or a sensitive transition, where appropriate, to development of a dissimilar character;

The height, setbacks and placement of architectural detailing references the building heights and scale in the surrounding neighborhood.

- iii. Use of materials, colors and scales either similar to or harmonizing with those of nearby development; and

The proposed building's color scheme and selection of finishing materials is compatible with existing buildings nearby and respects the mixed-use character of the neighborhood.

- iv. Preservation or enhancement of the pedestrian environment by maintenance of pleasant scale and visual interest.

The pattern of continuous commercial ground floor uses is maintained along Divisadero Street and the removal of the one existing curb cut along the Divisadero Street frontage will enhance the pedestrian realm.

- 10. **General Plan Compliance.** The Project is, on balance, consistent with the following Objectives and Policies of the General Plan:

HOUSING

Objectives and Policies

OBJECTIVE 1:

IDENTIFY AND MAKE AVAILABLE FOR DEVELOPMENT ADEQUATE SITES TO MEET THE CITY'S HOUSING NEEDS, ESPECIALLY PERMANENTLY AFFORDABLE HOUSING.

Policy 1.2:

Focus housing growth and infrastructure necessary to support growth according to community plans. Complete planning underway in key opportunity areas.

Policy 1.10:

Support new housing projects, especially affordable housing, where households can easily rely on public transportation, walking and bicycling for the majority of daily trips.

The proposed mixed-use building would be located in a Neighborhood Commercial Transit (NCT) District, which has been identified as an area where public transit infrastructure can support residential growth. Future residents of and visitors to the proposed building will be able to rely on public transit, walking and bicycling for the majority of their daily trips.

OBJECTIVE 4:

FOSTER A HOUSING STOCK THAT MEETS THE NEEDS OF ALL RESIDENTS ACROSS LIFESTYLES.

Policy 4.1:

Develop new housing, and encourage the remodeling of existing housing, for families with children.

The Project will provide thirty-one (31) two-bedroom units and fourteen (14) three-bedroom units which would be suitable for families with children.

OBJECTIVE 11:

SUPPORT AND RESPECT THE DIVERSE AND DISTINCT CHARACTER OF SAN FRANCISCO'S NEIGHBORHOODS.

Policy 11.1:

Promote the construction and rehabilitation of well-designed housing that emphasizes beauty, flexibility, and innovative design, and respects existing neighborhood character.

Policy 11.2:

Ensure implementation of accepted design standards in project approvals.

Policy 11.3:

Ensure growth is accommodated without substantially and adversely impacting existing residential neighborhood character.

The Project would make use of an underutilized site in order to create sixty-six (66) new dwelling units and is appropriately scaled to enhance the residential character of the street and surrounding neighborhood.

OBJECTIVE 12:

BALANCE HOUSING GROWTH WITH ADEQUATE INFRASTRUCTURE THAT SERVES THE CITY'S GROWING POPULATION.

Policy 12.1:

Encourage new housing that relies on transit use and environmentally sustainable patterns of movement.

Policy 12.2:

Consider the proximity of quality of life elements, such as open space, child care, and neighborhood services, when developing new housing units.

Policy 12.3:

Ensure new housing is sustainably supported by the City's public infrastructure systems.

The proposed mixed-use building is already adequately served by the City's water, and sewer systems, electricity and gas utilities, MUNI public transit, will receive solid waste collection and is near public open spaces such as Alamo Square.

OBJECTIVE 13:

PRIORITIZE SUSTAINABLE DEVELOPMENT IN PLANNING FOR AND CONSTRUCTING NEW HOUSING.

Policy 13.3:

Promote sustainable land use patterns that integrate housing with transportation in order to increase transit, pedestrian, and bicycle mode share.

The residential portion of the proposed building would provide sixty-six (66) secure, weather-protected bicycle parking spaces for its residents and nine (9) sidewalk bicycle parking spaces to encourage bicycling, and is located within walking distance to Divisadero Street where there are several public transit lines.

GENERAL/CITYWIDE COMMERCE

Objectives and Policies

OBJECTIVE 1:

MANAGE ECONOMIC GROWTH AND CHANGE TO ENSURE ENHANCEMENT OF THE TOTAL CITY LIVING AND WORKING ENVIRONMENT.

Policy 1.1:

Encourage development which provides substantial net benefits and minimizes undesirable consequences. Discourage development that has substantial undesirable consequences that cannot be mitigated.

Policy 1.2:

Assure that all commercial and industrial uses meet minimum, reasonable performance standards.

Policy 1.3:

Locate commercial and industrial activities according to a generalized commercial and industrial land use plan.

The proposed ground floor retail spaces will provide desirable goods and services to the neighborhood and will provide resident employment opportunities to those in the community. Further, the Project site is located within a Neighborhood Commercial District and is thus consistent with activities in the commercial land use plan. The retail spaces would operate within the business hours permitted per Section 746.27 of the Planning Code.

NEIGHBORHOOD COMMERCE

Objectives and Policies

OBJECTIVE 6:

MAINTAIN AND STRENGTHEN VIABLE NEIGHBORHOOD COMMERCIAL AREAS EASILY ACCESSIBLE TO CITY RESIDENTS.

Policy 6.1:

Ensure and encourage the retention and provision of neighborhood-serving goods and services in the city's neighborhood commercial districts, while recognizing and encouraging diversity among the districts.

Policy 6.2:

Promote economically vital neighborhood commercial districts which foster small business enterprises and entrepreneurship and which are responsive to the economic and technological innovation in the marketplace and society.

While the existing seismic retrofitting business would no longer operate on the site, the owner has decided to cease operations and is not being displaced. In its place, the project proposes two retail spaces totaling approximately 3,528 square feet which would provide neighborhood-serving goods and services.

TRANSPORTATION ELEMENT

Objectives and Policies

OBJECTIVE 2:

USE THE TRANSPORTATION SYSTEM AS A MEANS FOR GUIDING DEVELOPMENT AND IMPROVING THE ENVIRONMENT.

Policy 2.1:

Use rapid transit and other transportation improvements in the city and region as the catalyst for desirable development, and coordinate new facilities with public and private development.

The Divisadero Street corridor has been identified as one with significant public transit infrastructure and one major objective of the Neighborhood Commercial Transit (NCT) zoning is to maximize residential and commercial opportunities on or near major transit services. The development of the proposed mixed-use building along this corridor would take advantage of these improvements to rapid transit in the area.

OBJECTIVE 28:

PROVIDE SECURE AND CONVENIENT PARKING FACILITIES FOR BICYCLES.

Policy 28.1:

Provide secure bicycle parking in new governmental, commercial, and residential developments.

Policy 28.3:

Provide parking facilities which are safe, secure, and convenient.

The project will provide sixty-six (66) Class 1 bicycle parking spaces in a secure room on the ground floor and nine (9) Class 2 bicycle parking spaces that will accommodate both employees and patrons of the building's uses.

OBJECTIVE 34:

RELATE THE AMOUNT OF PARKING IN RESIDENTIAL AREAS AND NEIGHBORHOOD COMMERCIAL DISTRICTS TO THE CAPACITY OF THE CITY'S STREET SYSTEM AND LAND USE PATTERNS.

Policy 34.1:

Regulate off-street parking in new housing so as to guarantee needed spaces without requiring excesses and to encourage low auto ownership in neighborhoods that are well served by transit and are convenient to neighborhood shopping.

Policy 34.3:

Permit minimal or reduced off-street parking supply for new buildings in residential and commercial areas adjacent to transit centers and along transit preferential streets.

Policy 34.5:

Minimize the construction of new curb cuts in areas where on-street parking is in short supply and locate them in a manner such that they retain or minimally diminish the number of existing on-street parking spaces.

The proposed ground floor retail uses do not require nor propose any off-street parking or loading, and is therefore consistent with the objectives of the General Plan for commercial areas along transit preferential streets.

The residential portion of the project does not require any off-street parking, however twenty-six (26) parking spaces are proposed on the ground floor behind the retail uses and residential lobby. The proposed off-street parking does not exceed the maximum permitted by the Planning Code, and one of the existing curb cuts is proposed to be removed, thereby increasing the space available for on-street parking along Divisadero Street.

URBAN DESIGN

Objectives and Policies

OBJECTIVE 3:

MODERATION OF MAJOR NEW DEVELOPMENT TO COMPLEMENT THE CITY PATTERN, THE RESOURCES TO BE CONSERVED, AND THE NEIGHBORHOOD ENVIRONMENT.

Policy 3.1:

Promote harmony in the visual relationships and transitions between new and older buildings.

Policy 3.6:

Relate the bulk of buildings to the prevailing scale of development to avoid an overwhelming or dominating appearance in new construction.

Policy 3.7:

Recognize the special urban design problems posed in development of large properties.

The subject site, while large, has frontage on two streets, allowing both facades to respond to the surrounding context in terms of bulk and massing. The Grove Street facade will feature two ground floor

dwelling units with direct access to the street and will be limited to four stories in height along the easternmost portion of the site for approximately 18 feet in order to reinforce the prevailing four-story residential building typology immediately to the east of the subject property along Grove Street. The façade treatment along Divisadero Street will feature 5-story projecting bay window series and an aluminum storefront window system on the ground floor to reflect the denser, mixed-use character of this street.

11. **Planning Code Section 101.1(b)** establishes eight priority-planning policies and requires review of permits for consistency with said policies. On balance, the project does comply with said policies in that:

- A. That existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses be enhanced.

The proposal would enhance the district by providing two ground floor retail spaces in place of a seismic retrofitting business which is not a neighborhood-serving retail use.

- B. That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods.

The existing housing units in the surrounding neighborhood would not be adversely affected. The proposed retail uses would operate within the permitted hours of operation so as to mitigate noise concerns.

- C. That the City's supply of affordable housing be preserved and enhanced,

The Project proposes to add sixty-six (66) new dwelling units to the city's housing stock, including nine (9) below market rate (BMR) units.

- D. That commuter traffic not impede MUNI transit service or overburden our streets or neighborhood parking.

The Project is located within a Neighborhood Commercial Transit (NCT) district and is well served by public transit. It is presumable that the employees and patrons of the proposed ground floor retail spaces would arrive by transit, bicycling and walking, thereby mitigating possible effects on street parking. Twenty-six (26) off-street parking spaces are proposed, and it is not anticipated that the sixty-six (66) dwelling units will overburden MUNI transit service or generate a significant demand for neighborhood parking.

- E. That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced.

The Project will not displace any service or industry establishment with a commercial office use. The proposed ground floor retail spaces are more in keeping with the neighborhood commercial character of the area.

- F. That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake.

The Project is designed and will be constructed to conform to the structural and seismic safety requirements of the City Building Code. This proposal will not impact the property's ability to withstand an earthquake.

- G. That landmarks and historic buildings be preserved.

A landmark or historic building does not occupy the Project site.

- H. That our parks and open space and their access to sunlight and vistas be protected from development.

The project will have no negative impact on existing parks and open spaces. The Project does not cast any net new shadow on any property under the jurisdiction of the Recreation and Park Commission and will not have an impact on open spaces.

12. The Project is consistent with and would promote the general and specific purposes of the Code provided under Section 101.1(b) in that, as designed, the Project would contribute to the character and stability of the neighborhood and would constitute a beneficial development.
13. The Commission hereby finds that approval of the Conditional Use authorization would promote the health, safety and welfare of the City.

DECISION

That based upon the Record, the submissions by the Applicant, the staff of the Department and other interested parties, the oral testimony presented to this Commission at the public hearings, and all other written materials submitted by all parties, the Commission hereby **APPROVES Conditional Use Application No. 2013.1037C** subject to the following conditions attached hereto as "EXHIBIT A" in general conformance with plans on file, dated March 10, 2017, and stamped "EXHIBIT B", which is incorporated herein by reference as though fully set forth.

APPEAL AND EFFECTIVE DATE OF MOTION: Any aggrieved person may appeal this Conditional Use Authorization to the Board of Supervisors within thirty (30) days after the date of this Motion No. XXXXX. The effective date of this Motion shall be the date of this Motion if not appealed (After the 30-day period has expired) OR the date of the decision of the Board of Supervisors if appealed to the Board of Supervisors. For further information, please contact the Board of Supervisors at (415) 554-5184, City Hall, Room 244, 1 Dr. Carlton B. Goodlett Place, San Francisco, CA 94102.

Protest of Fee or Exaction: You may protest any fee or exaction subject to Government Code Section 66000 that is imposed as a condition of approval by following the procedures set forth in Government Code Section 66020. The protest must satisfy the requirements of Government Code Section 66020(a) and must be filed within 90 days of the date of the first approval or conditional approval of the development referencing the challenged fee or exaction. For purposes of Government Code Section 66020, the date of imposition of the fee shall be the date of the earliest discretionary approval by the City of the subject development.

If the City has not previously given Notice of an earlier discretionary approval of the project, the Planning Commission's adoption of this Motion, Resolution, Discretionary Review Action or the Zoning Administrator's Variance Decision Letter constitutes the approval or conditional approval of the development and the City hereby gives **NOTICE** that the 90-day protest period under Government Code Section 66020 has begun. If the City has already given Notice that the 90-day approval period has begun for the subject development, then this document does not re-commence the 90-day approval period.

I hereby certify that the Planning Commission ADOPTED the foregoing Motion on June 15, 2017.

Jonas P. Ionin
Commission Secretary

AYES:

NAYS:

ABSENT:

ADOPTED: June 15, 2017

EXHIBIT A

AUTHORIZATION

This authorization is for a conditional use to permit the development of a 6-story mixed-use building containing 66 residential dwelling units above 26 ground floor parking spaces and 3,528 square feet of commercial uses located at 650 Divisadero Street, Block 1202, and Lot 002B, pursuant to Planning Code Sections 121.1, 271, 303, 746.10 and 746.11, within the Divisadero Street Neighborhood Commercial Transit (NCT) District, the Fringe Financial Services Restricted Use District and a 65-A Height and Bulk District; in general conformance with plans, dated March 10, 2017, and stamped "EXHIBIT B" included in the docket for Case No. 2013.1037C and subject to conditions of approval reviewed and approved by the Commission on June 15, 2017 under Motion No **XXXXXX**. This authorization and the conditions contained herein run with the property and not with a particular Project Sponsor, business, or operator.

RECORDATION OF CONDITIONS OF APPROVAL

Prior to the issuance of the building permit or commencement of use for the Project the Zoning Administrator shall approve and order the recordation of a Notice in the Official Records of the Recorder of the City and County of San Francisco for the subject property. This Notice shall state that the project is subject to the conditions of approval contained herein and reviewed and approved by the Planning Commission on June 15, 2017 under Motion No **XXXXXX**.

PRINTING OF CONDITIONS OF APPROVAL ON PLANS

The conditions of approval under the 'Exhibit A' of this Planning Commission Motion No. **XXXXXX** shall be reproduced on the Index Sheet of construction plans submitted with the site or building permit application for the Project. The Index Sheet of the construction plans shall reference to the Conditional Use authorization and any subsequent amendments or modifications.

SEVERABILITY

The Project shall comply with all applicable City codes and requirements. If any clause, sentence, section or any part of these conditions of approval is for any reason held to be invalid, such invalidity shall not affect or impair other remaining clauses, sentences, or sections of these conditions. This decision conveys no right to construct, or to receive a building permit. "Project Sponsor" shall include any subsequent responsible party.

CHANGES AND MODIFICATIONS

Changes to the approved plans may be approved administratively by the Zoning Administrator. Significant changes and modifications of conditions shall require Planning Commission approval of a new Conditional Use authorization.

Conditions of Approval, Compliance, Monitoring, and Reporting

PERFORMANCE

1. **Validity.** The authorization and right vested by virtue of this action is valid for three (3) years from the effective date of the Motion. The Department of Building Inspection shall have issued a Building Permit or Site Permit to construct the project and/or commence the approved use within this three-year period.

For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org

2. **Expiration and Renewal.** Should a Building or Site Permit be sought after the three (3) year period has lapsed, the project sponsor must seek a renewal of this Authorization by filing an application for an amendment to the original Authorization or a new application for Authorization. Should the project sponsor decline to so file, and decline to withdraw the permit application, the Commission shall conduct a public hearing in order to consider the revocation of the Authorization. Should the Commission not revoke the Authorization following the closure of the public hearing, the Commission shall determine the extension of time for the continued validity of the Authorization.

For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org

3. **Diligent pursuit.** Once a site or Building Permit has been issued, construction must commence within the timeframe required by the Department of Building Inspection and be continued diligently to completion. Failure to do so shall be grounds for the Commission to consider revoking the approval if more than three (3) years have passed since this Authorization was approved.

For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org

4. **Extension.** All time limits in the preceding three paragraphs may be extended at the discretion of the Zoning Administrator where implementation of the project is delayed by a public agency, an appeal or a legal challenge and only by the length of time for which such public agency, appeal or challenge has caused delay.

For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org

5. **Conformity with Current Law.** No application for Building Permit, Site Permit, or other entitlement shall be approved unless it complies with all applicable provisions of City Codes in effect at the time of such approval.

For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org

ENTERTAINMENT COMMISSION – NOISE ATTENUATION CONDITIONS

Chapter 116 Residential Projects. The Project Sponsor shall comply with the “Recommended Noise Attenuation Conditions for Chapter 116 Residential Projects,” which were recommended by the Entertainment Commission on August 25, 2015. These conditions state:

1. **Community Outreach.** Project Sponsor shall include in its community outreach process any businesses located within 300 feet of the proposed project that operate between the hours of 9PM-5AM. Notice shall be made in person, written or electronic form.
2. **Sound Study.** Project sponsor shall conduct an acoustical sound study, which shall include sound readings taken when performances are taking place at the proximate Places of Entertainment, as well as when patrons arrive and leave these locations at closing time. Readings should be taken at locations that most accurately capture sound from the Place of Entertainment to best of their ability. Any recommendation(s) in the sound study regarding window glaze ratings and soundproofing materials including but not limited to walls, doors, roofing, etc. shall be given highest consideration by the project sponsor when designing and building the project.
3. **Design Considerations.**
 - a. During design phase, project sponsor shall consider the entrance and egress location and paths of travel at the Place(s) of Entertainment in designing the location of (a) any entrance/egress for the residential building and (b) any parking garage in the building.
 - b. In designing doors, windows, and other openings for the residential building, project sponsor should consider the POE’s operations and noise during all hours of the day and night.
4. **Construction Impacts.** Project sponsor shall communicate with adjacent or nearby Place(s) of Entertainment as to the construction schedule, daytime and nighttime, and consider how this schedule and any storage of construction materials may impact the POE operations.
5. **Communication.** Project Sponsor shall make a cell phone number available to Place(s) of Entertainment management during all phases of development through construction. In addition, a line of communication should be created to ongoing building management throughout the occupation phase and beyond.

In addition to these standard recommendations, at a hearing held on February 2, 2016, the Entertainment Commission made a motion to recommend that the Planning Commission adopt these site-specific conditions into the development approval for this project:

6. **Design Considerations.**
 - a. Project sponsor shall make the windows inoperable at the property line closest to the Independent.
 - b. Project sponsor shall make best efforts to avoid placing bedrooms nearest the property line facing the Independent.
 - c. Project sponsor shall design and use at least gas-filled double paned windows.

7. **Construction Impacts.** Construction vehicles shall not encumber ingress or egress of the Independent at any time.

DESIGN – COMPLIANCE AT PLAN STAGE

1. **Garbage, composting and recycling storage.** Space for the collection and storage of garbage, composting, and recycling shall be provided within enclosed areas on the property and clearly labeled and illustrated on the building permit plans. Space for the collection and storage of recyclable and compostable materials that meets the size, location, accessibility and other standards specified by the San Francisco Recycling Program shall be provided at the ground level of the buildings.

For information about compliance, contact the Case Planner, Planning Department at 415-575-9087, www.sf-planning.org

2. **Rooftop Mechanical Equipment.** Pursuant to Planning Code 141, the Project Sponsor shall submit a roof plan to the Planning Department prior to Planning approval of the building permit application. Rooftop mechanical equipment, if any is proposed as part of the Project, is required to be screened so as not to be visible from any point at or below the roof level of the subject building.

For information about compliance, contact the Case Planner, Planning Department at 415-575-9087, www.sf-planning.org

3. **Transformer Vault.** The location of individual project PG&E Transformer Vault installations has significant effects to San Francisco streetscapes when improperly located. However, they may not have any impact if they are installed in preferred locations. Therefore, the Planning Department recommends the following preference schedule in locating new transformer vaults, in order of most to least desirable:

- a. On-site, in a basement area accessed via a garage or other access point without use of separate doors on a ground floor façade facing a public right-of-way;
- b. On-site, in a driveway, underground;
- c. On-site, above ground, screened from view, other than a ground floor façade facing a public right-of-way;
- d. Public right-of-way, underground, under sidewalks with a minimum width of 12 feet, avoiding effects on streetscape elements, such as street trees; and based on Better Streets Plan guidelines;
- e. Public right-of-way, underground; and based on Better Streets Plan guidelines;
- f. Public right-of-way, above ground, screened from view; and based on Better Streets Plan guidelines;
- g. On-site, in a ground floor façade (the least desirable location).

Unless otherwise specified by the Planning Department, Department of Public Work's Bureau of Street Use and Mapping (DPW BSM) should use this preference schedule for all new transformer vault installation requests.

For information about compliance, contact Bureau of Street Use and Mapping, Department of Public Works at 415-554-5810, <http://sfdpw.org>

4. **Overhead Wiring.** The Property owner will allow MUNI to install eyebolts in the building adjacent to its electric streetcar line to support its overhead wire system if requested by MUNI or MTA.

For information about compliance, contact San Francisco Municipal Railway (Muni), San Francisco Municipal Transit Agency (SFMTA), at 415-701-4500, www.sfmta.org

5. **Noise.** Plans submitted with the building permit application for the approved project shall incorporate acoustical insulation and other sound proofing measures to control noise.

For information about compliance, contact the Case Planner, Planning Department at 415-575-9087, www.sf-planning.org

6. **Odor Control Unit.** In order to ensure any significant noxious or offensive odors are prevented from escaping the premises once the project is operational, the building permit application to implement the project shall include air cleaning or odor control equipment details and manufacturer specifications on the plans if applicable as determined by the project planner. Odor control ducting shall not be applied to the primary façade of the building.

For information about compliance, contact the Case Planner, Planning Department at 415-575-9087, www.sf-planning.org

PARKING AND TRAFFIC

1. **Parking for Affordable Units.** All off-street parking spaces shall be made available to Project residents only as a separate “add-on” option for purchase or rent and shall not be bundled with any Project dwelling unit for the life of the dwelling units. The required parking spaces may be made available to residents within a quarter mile of the project. All affordable dwelling units pursuant to Planning Code Section 415 shall have equal access to use of the parking as the market rate units, with parking spaces priced commensurate with the affordability of the dwelling unit. Each unit within the Project shall have the first right of refusal to rent or purchase a parking space until the number of residential parking spaces are no longer available. No conditions may be placed on the purchase or rental of dwelling units, nor may homeowner’s rules be established, which prevent or preclude the separation of parking spaces from dwelling units.
For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org
2. **Car Share.** Pursuant to Planning Code Section 166, no fewer than one (1) car share space shall be made available, at no cost, to a certified car share organization for the purposes of providing car share services for its service subscribers.
For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org
3. **Bicycle Parking.** Pursuant to Planning Code Sections 155.1, 155.4, and 155.5, the Project shall provide no fewer than 71 bicycle parking spaces (66 Class 1 spaces and 3 Class 2 spaces for the residential portion of the Project and 2 Class 2 spaces for the commercial portion of the Project).
For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org
4. **Parking Maximum.** Pursuant to Planning Code Section 151.1, the Project shall provide no more than thirty (30) off-street parking spaces.
For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org
5. **Managing Traffic During Construction.** The Project Sponsor and construction contractor(s) shall coordinate with the Traffic Engineering and Transit Divisions of the San Francisco Municipal Transportation Agency (SFMTA), the Police Department, the Fire Department, the Planning Department, and other construction contractor(s) for any concurrent nearby Projects to manage traffic congestion and pedestrian circulation effects during construction of the Project.
For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org

6. **Transportation Demand Management (TDM) Program.** Pursuant to Planning Code Section 169, the Project shall finalize a TDM Plan prior to the issuance of the first Building Permit or Site Permit to construct the project and/or commence the approved uses. The Property Owner, and all successors, shall ensure ongoing compliance with the TDM Program for the life of the Project, which may include providing a TDM Coordinator, providing access to City staff for site inspections, submitting appropriate documentation, paying application fees associated with required monitoring and reporting, and other actions.

Prior to the issuance of the first Building Permit or Site Permit, the Zoning Administrator shall approve and order the recordation of a Notice in the Official Records of the Recorder of the City and County of San Francisco for the subject property to document compliance with the TDM Program. This Notice shall provide the finalized TDM Plan for the Project, including the relevant details associated with each TDM measure included in the Plan, as well as associated monitoring, reporting, and compliance requirements.

For information about compliance, contact the Case Planner, Planning Department at 415-575-9087, www.sf-planning.org

PROVISIONS

1. **Anti-Discriminatory Housing.** The Project shall adhere to the requirements of the Anti-Discriminatory Housing policy, pursuant to Administrative Code Section 1.61.
For information about compliance, contact the Case Planner, Planning Department at 415-575-9087, www.sf-planning.org
2. **First Source Hiring.** The Project shall adhere to the requirements of the First Source Hiring Construction and End-Use Employment Program approved by the First Source Hiring Administrator, pursuant to Section 83.4(m) of the Administrative Code. The Project Sponsor shall comply with the requirements of this Program regarding construction work and on-going employment required for the Project.
For information about compliance, contact the First Source Hiring Manager at 415-581-2335, www.onestopSF.org
3. **Transportation Sustainability Fee.** The Project is subject to the Transportation Sustainability Fee (TSF), as applicable, pursuant to Planning Code Section 411A.
For information about compliance, contact the Case Planner, Planning Department at 415-575-9087, www.sf-planning.org
4. **Child Care Fee - Residential.** The Project is subject to the Residential Child Care Fee, as applicable, pursuant to Planning Code Section 414A.
For information about compliance, contact the Case Planner, Planning Department at 415-575-9087, www.sf-planning.org

INCLUSIONARY AFFORDABLE HOUSING PROGRAM

Affordable Units. The following Inclusionary Affordable Housing Requirements are those in effect at the time of Planning Commission action. In the event that the requirements change, the Project Sponsor shall comply with the requirements in place at the time of issuance of first construction document.

- 1. Number of Required Units.** Pursuant to Planning Code Section 415.3, the Project is required to provide 13.5% of the proposed dwelling units as affordable to qualifying households, but is subject to change under a proposed legislative amendment (File No. 151258) introduced by Supervisor Breed and pending further action by the Land Use and Transportation Committee. The Project contains 66 units; therefore, 9 affordable units are currently required. The Project Sponsor will fulfill this requirement by providing the 9 affordable units on-site. If the Project is subject to a different requirement if the legislative amendment is approved and new legislative requirements take effect, the Project will comply with the applicable requirements at the time of compliance. If the number of market-rate units change, the number of required affordable units shall be modified accordingly with written approval from Planning Department staff in consultation with the Mayor's Office of Housing and Community Development ("MOHCD").
For information about compliance, contact the Case Planner, Planning Department at 415-575-9087, www.sf-planning.org or the Mayor's Office of Housing and Community Development at 415-701-5500, www.sf-moh.org.
- 2. Unit Mix.** The Project contains 12 studios, 9 one-bedroom, 30 two-bedroom, and 15 three-bedroom units; therefore, the required affordable unit mix is 2 studios, 2 one-bedroom, 3 two-bedroom, and 2 three-bedroom units, or the unit mix that may be required if the inclusionary housing requirements change as discussed above. If the market-rate unit mix changes, the affordable unit mix will be modified accordingly with written approval from Planning Department staff in consultation with MOHCD.
For information about compliance, contact the Case Planner, Planning Department at 415-575-9087, www.sf-planning.org or the Mayor's Office of Housing and Community Development at 415-701-5500, www.sf-moh.org.
- 3. Unit Location.** The affordable units shall be designated on a reduced set of plans recorded as a Notice of Special Restrictions on the property prior to the issuance of the first construction permit.
For information about compliance, contact the Case Planner, Planning Department at 415-558-6378, www.sf-planning.org or the Mayor's Office of Housing and Community Development at 415-701-5500, www.sf-moh.org.
- 4. Phasing.** If any building permit is issued for partial phasing of the Project, the Project Sponsor shall have designated not less than thirteen-and-a-half percent (13.5%), or the applicable percentage as discussed above, of the each phase's total number of dwelling units as on-site affordable units.

For information about compliance, contact the Case Planner, Planning Department at 415-575-9087, www.sf-planning.org or the Mayor's Office of Housing and Community Development at 415-701-5500, www.sf-moh.org.

5. **Duration.** Under Planning Code Section 415.8, all units constructed pursuant to Section 415.6, must remain affordable to qualifying households for the life of the project.

For information about compliance, contact the Case Planner, Planning Department at 415-575-9087, www.sf-planning.org or the Mayor's Office of Housing and Community Development at 415-701-5500, www.sf-moh.org.

6. **Other Conditions.** The Project is subject to the requirements of the Inclusionary Affordable Housing Program under Section 415 et seq. of the Planning Code and City and County of San Francisco Inclusionary Affordable Housing Program Monitoring and Procedures Manual ("Procedures Manual"). The Procedures Manual, as amended from time to time, is incorporated herein by reference, as published and adopted by the Planning Commission, and as required by Planning Code Section 415. Terms used in these conditions of approval and not otherwise defined shall have the meanings set forth in the Procedures Manual. A copy of the Procedures Manual can be obtained at the MOHCD at 1 South Van Ness Avenue or on the Planning Department or MOHCD websites, including on the internet at:

<http://sf-planning.org/Modules/ShowDocument.aspx?documentid=4451>. As provided in the Inclusionary Affordable Housing Program, the applicable Procedures Manual is the manual in effect at the time the subject units are made available for sale.

For information about compliance, contact the Case Planner, Planning Department at 415-575-9087, www.sf-planning.org or the Mayor's Office of Housing and Community Development at 415-701-5500, www.sf-moh.org.

- a. The affordable unit(s) shall be designated on the building plans prior to the issuance of the first construction permit by the Department of Building Inspection ("DBI"). The affordable unit(s) shall (1) reflect the unit size mix in number of bedrooms of the market rate units, (2) be constructed, completed, ready for occupancy and marketed no later than the market rate units, and (3) be evenly distributed throughout the building; and (4) be of comparable overall quality, construction and exterior appearance as the market rate units in the principal project. The interior features in affordable units should be generally the same as those of the market units in the principal project, but need not be the same make, model or type of such item as long they are of good and new quality and are consistent with then-current standards for new housing. Other specific standards for on-site units are outlined in the Procedures Manual.
- b. If the units in the building are offered for rent, the affordable unit(s) shall be rented to low-income households, as defined in the Planning Code and Procedures Manual. The initial and subsequent rent level of such units shall be calculated according to the Procedures Manual. Limitations on (i) occupancy; (ii) lease changes; (iii) subleasing, and; are set forth in the Inclusionary Affordable Housing Program and the Procedures Manual.

- c. The Project Sponsor is responsible for following the marketing, reporting, and monitoring requirements and procedures as set forth in the Procedures Manual. MOHCD shall be responsible for overseeing and monitoring the marketing of affordable units. The Project Sponsor must contact MOHCD at least six months prior to the beginning of marketing for any unit in the building.
- d. Required parking spaces shall be made available to initial buyers or renters of affordable units according to the Procedures Manual.
- e. Prior to the issuance of the first construction permit by DBI for the Project, the Project Sponsor shall record a Notice of Special Restriction on the property that contains these conditions of approval and a reduced set of plans that identify the affordable units satisfying the requirements of this approval. The Project Sponsor shall promptly provide a copy of the recorded Notice of Special Restriction to the Department and to MOHCD or its successor.
- f. The Project Sponsor has demonstrated that it is eligible for the On-site Affordable Housing Alternative under Planning Code Section 415.6 instead of payment of the Affordable Housing Fee, and has submitted the *Affidavit of Compliance with the Inclusionary Affordable Housing Program: Planning Code Section 415* to the Planning Department stating the intention to enter into an agreement with the City to qualify for a waiver from the Costa-Hawkins Rental Housing Act based upon the proposed density bonus and concessions (as defined in California Government Code Section 65915 et seq.) provided herein. The Project Sponsor has executed the Costa Hawkins agreement and will record a Memorandum of Agreement prior to issuance of the first construction document or must revert payment of the Affordable Housing Fee.
- g. If the Project Sponsor fails to comply with the Inclusionary Affordable Housing Program requirement, the Director of DBI shall deny any and all site or building permits or certificates of occupancy for the development project until the Planning Department notifies the Director of compliance. A Project Sponsor's failure to comply with the requirements of Planning Code Section 415 et seq. shall constitute cause for the City to record a lien against the development project and to pursue any and all available remedies at law.
- h. If the Project becomes ineligible at any time for the On-site Affordable Housing Alternative, the Project Sponsor or its successor shall pay the Affordable Housing Fee prior to issuance of the first construction permit. If the Project becomes ineligible after issuance of its first construction permit, the Project Sponsor shall notify the Department and MOHCD and pay interest on the Affordable Housing Fee and penalties, if applicable.

MONITORING - AFTER ENTITLEMENT

1. **Enforcement.** Violation of any of the Planning Department conditions of approval contained in this Motion or of any other provisions of Planning Code applicable to this Project shall be subject to the enforcement procedures and administrative penalties set forth under Planning Code Section 176 or Section 176.1. The Planning Department may also refer the violation complaints to other city departments and agencies for appropriate enforcement action under their jurisdiction.

For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org

2. **Revocation due to Violation of Conditions.** Should implementation of this Project result in complaints from interested property owners, residents, or commercial lessees which are not resolved by the Project Sponsor and found to be in violation of the Planning Code and/or the specific conditions of approval for the Project as set forth in Exhibit A of this Motion, the Zoning Administrator shall refer such complaints to the Commission, after which it may hold a public hearing on the matter to consider revocation of this authorization.

For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org

OPERATION

1. **Garbage, Recycling, and Composting Receptacles.** Garbage, recycling, and compost containers shall be kept within the premises and hidden from public view, and placed outside only when being serviced by the disposal company. Trash shall be contained and disposed of pursuant to garbage and recycling receptacles guidelines set forth by the Department of Public Works.
For information about compliance, contact Bureau of Street Use and Mapping, Department of Public Works at 415-554-5810, <http://sfdpw.org>
2. **Sidewalk Maintenance.** The Project Sponsor shall maintain the main entrance to the building and all sidewalks abutting the subject property in a clean and sanitary condition in compliance with the Department of Public Works Streets and Sidewalk Maintenance Standards.
For information about compliance, contact Bureau of Street Use and Mapping, Department of Public Works, 415-695-2017, <http://sfdpw.org>
3. **Noise Control.** The premises shall be adequately soundproofed or insulated for noise and operated so that incidental noise shall not be audible beyond the premises or in other sections of the building and fixed-source equipment noise shall not exceed the decibel levels specified in the San Francisco Noise Control Ordinance.
For information about compliance with the fixed mechanical objects such as rooftop air conditioning, restaurant ventilation systems, and motors and compressors with acceptable noise levels, contact the Environmental Health Section, Department of Public Health at (415) 252-3800, www.sfdph.org
For information about compliance with the construction noise, contact the Department of Building Inspection, 415-558-6570, www.sfdbi.org
For information about compliance with the amplified sound including music and television contact the Police Department at 415-553-0123, www.sf-police.org
4. **Odor Control.** While it is inevitable that some low level of odor may be detectable to nearby residents and passersby, appropriate odor control equipment shall be installed in conformance with the approved plans and maintained to prevent any significant noxious or offensive odors from escaping the premises.
For information about compliance with odor or other chemical air pollutants standards, contact the Bay Area Air Quality Management District, (BAAQMD), 1-800-334-ODOR (6367), www.baaqmd.gov and Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org
5. **Community Liaison.** Prior to issuance of a building permit to construct the project and implement the approved use, the Project Sponsor shall appoint a community liaison officer to deal with the issues of concern to owners and occupants of nearby properties. The Project Sponsor shall provide the Zoning Administrator with written notice of the name, business address, and telephone number of the community liaison. Should the contact information change, the Zoning Administrator shall be made aware of such change. The community liaison shall report to the Zoning Administrator what issues, if any, are of concern to the community and what issues have not been resolved by the Project Sponsor.

For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org

6. **Lighting.** All Project lighting shall be directed onto the Project site and immediately surrounding sidewalk area only, and designed and managed so as not to be a nuisance to adjacent residents. Nighttime lighting shall be the minimum necessary to ensure safety, but shall in no case be directed so as to constitute a nuisance to any surrounding property.

For information about compliance, contact Code Enforcement, Planning Department at 415-575-6863, www.sf-planning.org

SAN FRANCISCO PLANNING DEPARTMENT

Certificate of Determination Exemption from Environmental Review

Case No.: 2013.1037E
Project Title: 650 Divisadero Street
Zoning: NCT (Divisadero Street Neighborhood Commercial Transit) District
Fringe Financial RUD (Restricted Use District)
65-A Height and Bulk District
Block/Lot: 1202/002B
Lot Size: 12,500 square feet
Project Sponsor: Warner Schmalz, Forum Design
(415) 252-7063
Staff Contact: Jenny Delumo – (415) 575-9146
Jenny.Delumo@sfgov.org

1650 Mission St.
Suite 400
San Francisco,
CA 94103-2479

Reception:

Fax:
415.558.6409

Planning
Information:
415.558.6377

PROJECT DESCRIPTION:

The project site is an approximately 12,500-square-foot (sf) corner lot in the Western Addition neighborhood and within the Divisadero Street Neighborhood Commercial Transit District. The project site is on the block bounded by Divisadero Street to the west, Scott Street to the east, Grove Street to the north, and Hayes Street to the south. The lot is currently developed with an approximately 14,500-gross-square-foot (gsf), one-story-plus-mezzanine building, which was formerly occupied by an automobile repair shop and is currently occupied by a seismic retrofitting company. Vehicular access to an existing garage in the existing building is provided via an approximately 12-foot-long curb cut on Divisadero Street and an approximately 12-foot-wide curb cut on Grove Street. The existing building was constructed in 1922.

[Continued on next page]

EXEMPTION STATUS:

Categorical Exemption, Class 32 (California Environmental Quality Act (CEQA) Guidelines Section 15332). See page 3.

DETERMINATION:

I do hereby certify that the above determination has been made pursuant to State and local requirements.

Lisa M. Gibson
Acting Environmental Review Officer

Date

cc: Warner Schmalz, Project Sponsor
Christopher May, Current Planner
Jonathan Lammers, Preservation Planner

Supervisor London Breed, District 5 (via Clerk of the Board)
Historic Preservation Distribution List
Virna Byrd, M.D.F.

PROJECT DESCRIPTION (continued):

The proposed project would demolish the existing building and construct an approximately 57,342-gsf, six-story, mixed-use building. The proposed 65-foot-tall (up to 82 feet with elevator and stair penthouses) building would be comprised of approximately 48,803 gsf of residential space, 3,528 gsf of commercial space, and a 5,011-sf parking garage with a bike room and utility space (i.e., mechanical and trash). The residential component of the proposed project would provide 66 residential dwelling units. The proposed project would include approximately 7,853 sf of open space, which would be comprised of a common rear yard on the second level, and a common roof deck. The commercial space would be divided into two separate units of approximately 1,629 gsf and 1,899 gsf. The entrance to the residential portion of the building would be located on Grove Street. The commercial space would be located on the ground floor with pedestrian access provided on the Divisadero Street frontage. The ground-level interior parking garage and bike room would provide space for approximately 26 vehicles (12 two-car parking stackers, one car share space, and one Americans with Disabilities Act space) and 66 Class I bicycle parking spaces. The garage would be accessed via a new approximately 10-foot-wide curb cut on Grove Street. The proposed project would remove the existing curb cuts on Divisadero and Grove Streets.

The proposed project would include excavation of approximately 517 cubic yards of material to a maximum depth of seven feet below grade. Up to nine Class II bicycle parking spaces would be installed on Divisadero and Grove Streets. The project would provide eleven new street trees, six along the Grove Street frontage and five along the Divisadero Street frontage.

Project Approvals

The proposed project is subject to notification under Section 312 of the City and County of San Francisco (the City) *Planning Code* and would require the following approvals:

- **Conditional Use Authorization:** Conditional Use Authorization from the Planning Commission for the lot size pursuant to *Planning Code* Sections 121.1 and 746.11.
- **Rear Yard Modification:** Authorization from the Zoning Administrator for a rear yard modification pursuant to *Planning Code* Section 134(e).
- **Site Permit:** The proposed project would require issuance of a site permit from the Department of Building Inspection (DBI).

Approval Action: Approval of a Conditional Use Authorization by the Planning Commission is the Approval Action for the project. The Approval Action date establishes the start of the 30-day appeal period for this CEQA exemption determination pursuant to Section 31.04(h) of the San Francisco *Administrative Code*.

EXEMPTION STATUS (continued):

CEQA Guidelines Section 15332, or Class 32, provides an exemption from environmental review for in-fill development projects that meet the following conditions. As discussed below, the proposed project satisfies the terms of the Class 32 exemption.

- a) *The project is consistent with applicable general plan designations and policies as well as with applicable zoning designations.*

The San Francisco General Plan articulates the objectives and policies that guide the City's decision making as it pertains to, among other issues, environmental protection, air quality, urban design, transportation, housing, and land use. Permits to construct, alter or demolish buildings may not be issued unless the project conforms to the *Planning Code*, or an exemption is granted pursuant to provisions of the *Planning Code*. The project site is comprised of a developed lot located in the Divisadero Street Neighborhood Commercial Transit (Divisadero Street NCT) District and a 65-A Height and Bulk District. The proposed uses (residential with commercial on the ground floor) and height (65 feet tall) of the proposed building conform to the use and height requirements for these districts.

The proposed project would introduce new uses to the subject property, as the proposal is to convert the existing industrial space into residential and commercial space. The change from industrial uses to residential and commercial uses is principally permitted within NCT districts, pursuant to *Planning Code* Section 746 and subject to Planning Commission approval. In the Divisadero Street NCT District residential density is restricted by controls on height, bulk, setbacks, open space, exposure, dwelling unit mix, and other applicable controls and guidelines. Thus, the proposed residential density is permitted within the Divisadero Street NCT District.

The proposed project requires a Conditional Use Authorization from the Planning Commission, and authorization from the Zoning Administrator for a rear yard modification:

- *Conditional Use Authorization:* Pursuant to *Planning Code* Section 746, in the Divisadero Street NCT District the principally permitted lot area for new construction or expansion of existing development is 9,999 sf; lots 10,000 sf or greater are conditionally permitted. As the project site is approximately 12,500 sf, a Conditional Use Authorization is required for the proposed project.
- *Rear Yard Modification:* Pursuant to *Planning Code* Sections 130(b) and 134(a)(1) the proposed project must provide a rear yard that is equal to 25 percent of the lot depth and extends the full width of the lot. The proposed project would provide a rear yard that does not extend the full width of the lot. *Planning Code* Section 134(e) permits a modification of the rear yard requirement in NC Districts, including the Divisadero Street NCT, subject to applicable criteria and the Zoning Administrator's approval. Therefore, the proposed project would

require authorization from the Zoning Administrator for a rear yard modification as prescribed in *Planning Code* Section 134(e).

The proposed lot size and rear yard are provisionally permitted within the Divisadero Street NCT District. As such the proposed project would not conflict with *Planning Code* requirements. In light of the above, the proposed project would not conflict with General Plan objectives or policies, and would meet applicable controls for the area. Therefore, the proposed project would be consistent with General Plan designations and policies and applicable zoning designations.

- b) *The development occurs within city limits on a site of less than five acres surrounded by urban uses.*

The project site is an approximately .29-acre (12,500 sf) lot located within a densely developed area of San Francisco. The lots directly adjacent to the project site are fully developed and serve residential and commercial uses. Multi-story apartment buildings, retail stores, restaurants, The Independent music venue, and Hayes Convalescent Hospital are located within the immediate vicinity of the project site. Therefore, the proposed project would be appropriately characterized as in-fill development of fewer than five acres, surrounded by urban uses.

- c) *The project site has no habitat for endangered, rare or threatened species.*

The project site was formerly occupied by Alouis Auto Radiator and Air Conditioning, Inc., an auto body repair facility, and is currently occupied by a seismic retrofitting company. The project site is located within a developed urban area, and features minimal street-front landscaping. The project site does not contain any known rare or endangered plant or animal species, or habitat for such species. Therefore, the project site has no value as a habitat for endangered, rare, or threatened species.

- d) *Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality.*

Transportation

On March 3, 2016, in anticipation of the future certification of revised CEQA Guidelines pursuant to Senate Bill 743, the San Francisco Planning Commission adopted State Office of Planning and Research's recommendation in the Revised Proposal on Updates to the CEQA Guidelines on Evaluating Transportation Impacts in CEQA¹ to use the Vehicle Miles Traveled (VMT) metric instead of automobile delay to evaluate the transportation impacts of projects (Resolution 19579). (Note: the VMT metric does not apply to the analysis of impacts on non-automobile modes of travel such as riding transit, walking, and bicycling.) Accordingly, this categorical exemption does not contain a separate discussion of automobile delay (i.e., traffic) impacts. The topic of automobile delay, nonetheless, may be considered by decision-makers,

¹ California Office of Planning and Research, *Revised Proposal on Updates to the CEQA Guidelines on Evaluating Transportation Impacts in CEQA*, January 2016. Available at https://www.opr.ca.gov/s_sb743.php, accessed March 8, 2016.

independent of the environmental review process, as part of their decision to approve, modify, or disapprove the proposed project. Instead, a VMT analysis is provided within.

Many factors affect travel behavior. These factors include density, diversity of land uses, design of the transportation network, access to regional destinations, distance to high-quality transit, development scale, demographics, and transportation demand management. Typically, low-density development at great distance from other land uses, located in areas with poor access to non-private vehicular modes of travel, generate more automobile travel compared to development located in urban areas, where a higher density, mix of land uses, and travel options other than private vehicles are available.

Given these travel behavior factors, San Francisco has a lower VMT ratio than the nine-county San Francisco Bay Area region. In addition, some areas of the City, expressed geographically through transportation analysis zones (TAZs), have lower VMT ratios than other areas of the City. The Planning Department has prepared a Geographic Information System database (the Transportation Information Map) with current and projected 2040 per capita VMT figures for all TAZs in the City, in addition to regional daily average figures.²

The State Office of Planning and Research's (OPR) Revised Proposal on Updates to the CEQA Guidelines on Evaluating Transportation Impacts in CEQA³ ("proposed transportation impact guidelines") recommend screening criteria to identify types, characteristics, or locations of projects that would not result in significant impacts to VMT. If a project meets one of the three screening criteria provided (Map-Based Screening, Small Projects, or Proximity to Transit Stations), then it is presumed that VMT impacts would be less than significant for the project and a detailed VMT analysis is not required. Map-Based Screening is used to determine if a project site is located within a TAZ in the City that exhibits low levels of VMT; Small Projects are projects that would generate fewer than 100 vehicle trips per day; and the Proximity to Transit Stations criterion includes projects that are within a half mile of an existing major transit stop, have a floor area ratio (FAR) of greater than or equal to 0.75, vehicle parking that is less than or equal to that required or allowed by the Planning Code without conditional use authorization, and are consistent with the applicable Sustainable Communities Strategy.

The proposed project at 650 Divisadero Street would include construction of an approximately 57,342-gsf mixed-use development with approximately 66 residential units above approximately 3,528-sf of ground-floor retail. For residential projects, a project would generate substantial additional VMT if it exceeds the regional household VMT per capita minus 15 percent.⁴ For retail projects, the Planning Department uses a VMT efficiency metric approach: a project would generate substantial additional VMT if it exceeds the regional VMT per retail employee minus

² San Francisco Planning Department Transportation Information Map, accessed March 9, 2016. Available online at <http://sftransportationmap.org>.

³ This document is available online at: https://www.opr.ca.gov/s_sb743.php.

⁴ OPR's proposed transportation impact guidelines states a project would cause substantial additional VMT if it exceeds both the existing City household VMT per capita minus 15 percent and existing regional household VMT per capita minus 15 percent. In San Francisco, the City's average VMT per capita is lower (8.4) than the regional average (17.2). Therefore, the City average is irrelevant for the purposes of the analysis.

15 percent. This approach is consistent with CEQA Section 21099 and the thresholds of significance for other land uses recommended in OPR's proposed transportation impact guidelines. For mixed-use projects, each proposed land use is evaluated independently, per the significance criteria described above.

Vehicle Miles Traveled Analysis – Residential

Existing average daily household VMT per capita is 5.1 for the transportation analysis zone the project site is located in (TAZ 610). The existing regional average daily household VMT is 17.2. Fifteen percent below the regional average daily household VMT is 14.6. As the project site is located in an area where existing VMT is more than 15 percent below the existing regional average, the proposed project's residential uses would not result in substantial additional VMT. Furthermore, the project site meets the Proximity to Transit Stations screening criterion, which also indicates that the proposed project's residential uses would not cause substantial additional VMT.⁵

San Francisco 2040 cumulative conditions were projected using the San Francisco Chained Activity Modeling Process (SF-CHAMP), using the same methodology as outlined for existing conditions, but includes residential and job growth estimates and reasonably foreseeable transportation investments through 2040. Projected 2040 average daily household VMT per capita is 4.7 for the transportation analysis zone the project site is located in. Projected 2040 regional average daily household VMT is 16.1. Fifteen percent below the projected 2040 regional average daily household VMT is 13.7. Given the project site is located in an area where VMT is greater than 15 percent below the projected 2040 regional average, the proposed project's residential uses would not result in substantial additional VMT.

Vehicle Miles Traveled Analysis – Retail

According to the Transportation Information Map, the existing average daily retail employee VMT per capita is 8.0 for the transportation analysis zone the project site is located in (TAZ 610). The existing regional average daily retail employee VMT is 14.9. Fifteen percent below the regional average daily retail employee VMT is 12.6. As the project site is located in an area where existing VMT is more than 15 percent below the existing regional average, the proposed project's retail uses would not result in substantial additional VMT. Furthermore, the project site meets the Proximity to Transit Stations screening criterion, which also indicates that the proposed project's retail uses would not cause substantial additional VMT.⁶

Projected 2040 average daily retail employee VMT per capita is 8.0 for the transportation analysis zone the project site is located in. The projected 2040 regional average daily retail employee VMT is 14.6. Fifteen percent below the projected 2040 regional average daily retail employee VMT is 12.4. Given that the project site is located in an area where VMT is greater

⁵ San Francisco Planning Department, *Eligibility Checklist: CEQA Section 21099 – Modernization of Transportation Analysis for 650 Divisadero Street*, March 9, 2016. This document (and all other documents cited in this report, unless otherwise noted), is available for review at 1650 Mission Street, Suite 400, San Francisco, CA, as part of Case No. 2013.1037E.

⁶ Ibid.

than 15 percent below the projected 2040 regional average, the proposed project's retail uses would not result in substantial additional VMT.

Induced Automobile Travel Analysis

A project would have a significant effect on the environment if it would substantially induce additional automobile travel by increasing physical roadway capacity in congested areas (i.e., by adding new mixed-flow lanes) or by adding new roadways to the network. OPR's proposed transportation impact guidelines includes a list of transportation project types that would not likely lead to a substantial or measureable increase in VMT. If a project fits within the general types of projects (including combinations of types), then it is presumed that VMT impacts would be less than significant and a detailed VMT analysis is not required.

The proposed project is not a transportation project. However, the proposed project would include features that would alter the transportation network. The approximately 12-foot-long curb cut on Divisadero Street and approximately 12-foot-long curb cut on Grove Street would be restored, and a new approximately 10-foot-long curb cut is proposed for Grove Street. In addition, the project proposed would install nine Class II bicycle parking spaces on Divisadero Street. These features fit within the general types of projects that would not substantially induce automobile travel.

In light of the above, the proposed project would not result in significant transportation impacts individually or under cumulative conditions.

Noise

Ambient noise levels in the vicinity of the project site are typical of neighborhoods in San Francisco, which are dominated by vehicular traffic, including Muni vehicles, trucks, cars, emergency vehicles, and land use activities, such as commercial businesses. An approximate doubling in traffic volumes in the area would be necessary to produce an increase in ambient noise levels. The proposed project is estimated to add 331 daily vehicle trips. As described above, the proposed project would not double traffic volumes.⁷ Therefore, the proposed project would not result in significant noise impacts from traffic.

Construction Noise

Construction would occur during the working hours of 7:00 a.m. to 4:00 p.m. Monday through Saturday. The main sources of construction noise from this project would be from construction equipment and noise generated by the demolition process, including the breakdown of materials on site and earthmoving processes. Noise would also be generated from mobile equipment moving about the site. The daily variations in noise beyond the site would diminish as the building envelope is closed up and the perimeter walls complete.

Although some increase in noise would be associated with the construction phase of the project, such occurrences would be limited to certain hours of day and would be temporary and intermittent in nature. Construction noise is regulated by the San Francisco Noise Ordinance

⁷ San Francisco Municipal Transportation Authority, *SFMTA Traffic Count Data 1993-2013*, March 25, 2014.

(Article 29 of the City Police Code). Section 2907 of the Police Code requires that noise levels from individual pieces of construction equipment, other than impact tools, not exceed 80 decibels (dBA) at a distance of 100 feet from the source. Impact tools (such as jackhammers and impact wrenches) must have both intake and exhaust muffled to the satisfaction of the Director of Public Works. Section 2908 of the Police Code prohibits construction work between 8:00 p.m. and 7:00 a.m. if noise would exceed the ambient noise level by 5 dBA at the project property line, unless a special permit is authorized by the Director of Public Works. Therefore, the proposed project would not result in significant construction noise impacts.

Operational Noise

The proposed project includes the addition of new residences, commercial activities, and the construction of private open spaces (as applicable), which would generate some additional noise that may be considered an annoyance by occupants of nearby properties. Section 2909 of the San Francisco Noise Ordinance regulates residential and commercial property noise limits. Residential noise is limited to no more than 5 dBA above the ambient noise level. Commercial noise is limited to no more than 8 dBA above the local ambient noise level at any point outside of the property plane. The Department of Public Health may investigate and take enforcement action on any noise complaints received from the proposed project. Therefore, the proposed project would not result in significant operational noise impacts.

Based on mandatory compliance with all applicable state and municipal codes and the limited duration of construction activities, the proposed project would not result in a significant impact with respect to noise.

Air Quality

In accordance with the state and federal Clean Air Acts, air pollutant standards are identified for the following six criteria air pollutants: ozone, carbon monoxide (CO), particulate matter (PM), nitrogen dioxide (NO₂), sulfur dioxide (SO₂) and lead. These air pollutants are termed criteria air pollutants because they are regulated by developing specific public health- and welfare-based criteria as the basis for setting permissible levels. To assist lead agencies, the Bay Area Air Quality Management District (BAAQMD), in their CEQA Air Quality Guidelines (May 2011), developed screening criteria to determine if projects would violate an air quality standard, contribute substantially to an air quality violation, or result in a cumulatively considerable net increase in criteria air pollutants within the San Francisco Bay Area Air Basin. The proposed project would not exceed the criteria air pollutant screening levels for construction and operation of a mixed-use residential development with ground floor retail. The proposed project would provide approximately 66 residential units and 3,528 gsf of retail space. The screening criterion level for an "apartment, mid-rise (three to ten floors) is 494 dwelling units for operation and 240 dwelling units for construction. The screening criterion level for a "fast food restaurant without a drive through" is 8,000 sf for operations and 277,000 sf for construction.⁸ The

⁸ The project sponsor anticipates the proposed retail spaces would be used as a neighborhood grocery, pet store, or café. A "fast food restaurant without drive through" would operate at similar hours as the proposed retail uses and this land use category is one

proposed project meets the screening criteria, and therefore neither the construction nor operation of the project would result in significant criteria air pollutant impacts.⁹

In addition to criteria air pollutants, individual projects may emit toxic air contaminants (TACs). TACs collectively refer to a diverse group of air pollutants that are capable of causing chronic (i.e., of long-duration) and acute (i.e., severe but of short-term) adverse effects to human health, including carcinogenic effects. In an effort to identify areas of San Francisco most adversely affected by sources of TACs, San Francisco partnered with the BAAQMD to inventory and assess air pollution and exposures from mobile, stationary, and area sources within San Francisco. Areas with poor air quality, termed the "Air Pollutant Exposure Zone," were identified based on health-protective criteria. Land use projects within the Air Pollutant Exposure Zone require special consideration to determine whether the project's activities would expose sensitive receptors to substantial air pollutant concentrations. The project site is not located within an Air Pollutant Exposure Zone. Nor would the proposed project include the operation of stationary sources of air pollution. Furthermore, the proposed project's net increase of 331 daily vehicle trips¹⁰ would be a minor, low-impact source that BAAQMD considers not to pose a significant health impact even in combination with other sources.¹¹ Therefore, the operation of the proposed project would not result in a significant impact with respect to exposure of sensitive receptors to substantial levels of air pollution.

Though the proposed project would require construction activities for the approximate 12-month construction phase, construction emissions would be temporary and variable in nature and would not be expected to expose sensitive receptors to substantial air pollutants. In addition, the proposed project would be subject to, and comply with, California regulations limiting idling to no more than five minutes,¹² which would further reduce nearby sensitive receptors exposure to temporary and variable TAC emissions. Therefore, construction period TAC emissions would result in a less than significant impact with respect to exposing sensitive receptors to substantial levels of air pollution. The proposed project would not include the operation of stationary sources of air pollution.

The proposed project is also subject to the Construction Dust Control Ordinance (Article 22B of the San Francisco *Health Code*). The intent of the Construction Dust Control Ordinance is to reduce the quantity of fugitive dust generated during site preparation, demolition, and construction work in order to protect the health of the general public and of on-site workers, minimize public nuisance complaints, and to avoid orders to stop work by DBI. Project-related construction activities would result in construction dust, primarily from ground-disturbing activities. DBI will not issue a building permit without written notification from the Director of Public Health that the applicant has a site-specific Dust Control Plan, unless the Director waives

of the most restrictive uses for a small retail space, providing for a conservative analysis of the proposed project's retail uses impacts on criteria air pollutants.

⁹ Bay Area Air Quality Management District, *CEQA Air Quality Guidelines*, Updated May 2011. Table 3-1.

¹⁰ San Francisco Planning Department, *Transportation Calculations*, 650 Divisadero Street, December 20, 2016.

¹¹ Bay Area Air Quality Management District, *Recommended Methods for Screening and Modeling Local Risks and Hazards*, May 2012. Page 11.

¹² California Code of Regulations, Title 13, Division 3, § 2485.

the requirement. The regulations and procedures set forth by the San Francisco Dust Control Ordinance would ensure that project-specific construction dust impacts would not be significant.

In light of the above, the proposed project would not result in significant air quality impacts.

Water Quality

The project site is currently developed with a former auto body garage and covered with impervious surfaces. The proposed project would increase permeable surface area through the introduction of a rear yard with flow-through planters, landscaped roof deck, and 11 new street trees. Wastewater and storm water discharge not captured by these features would flow into the City's combined sewer system and be treated to the standards of the City's National Pollutant Discharge Elimination System Permit prior to discharge to a receiving water body.

In addition, Article 4.2 of the San Francisco *Public Works Code* requires any project that involves ground disturbance of 5,000 square feet or greater to implement enhanced measures for the management of construction site runoff (Construction Site Runoff Ordinance, Section 146 of Article 4.2) and stormwater management (Stormwater Management Ordinance, Section 147 of Article 4.2). The proposed project would meet this threshold and is therefore subject to the City's Construction Site Runoff Ordinance and Stormwater Management Ordinance.

Projects subject to the Construction Site Runoff Ordinance are required to obtain a Construction Site Runoff Control Permit. In order to receive this permit, the project sponsor must prepare an Erosion and Sediment Control Plan (ESCP) demonstrating how the project will adhere to the best management practices provided in the San Francisco Public Utilities Commission's (SFPUC) *Construction Best Management Practices Handbook*. Compliance with the Construction Site Runoff Ordinance would prevent construction-related runoff, materials, wastes, spills, or residues from entering the storm drain system or receiving waterbodies. Pursuant to the Stormwater Management Ordinance, the project sponsor is also required to prepare a Stormwater Control Plan demonstrating how the project will adhere to the performance measures outlined in the SFPUC's *Stormwater Design Guidelines* (the Guidelines) including reduction in total volume and peak flow rate of stormwater for areas in combined sewer systems. The Guidelines also require a signed maintenance agreement to ensure proper care of the necessary stormwater controls. Compliance with the Stormwater Management Ordinance requires the project to maintain or reduce the existing volume and rate of stormwater runoff at the subject property by retaining runoff onsite, promoting stormwater reuse, and limiting site discharge entering the combined sewer system.

SFPUC's Wastewater Enterprise, Urban Watershed Management Program is responsible for review and approval of the Construction Site Runoff Control Permit and Stormwater Control Plan. Without issuance of a Construction Site Runoff Control Permit and approval of a Stormwater Control Plan, no site or building permits can be issued. Compliance with the Construction Site Runoff Ordinance and Stormwater Management Ordinance would ensure that the proposed project would not substantially alter existing groundwater quality or surface flow conditions and would not result in significant water quality impacts.

Therefore, the proposed project would not substantially alter existing groundwater quality or surface flow conditions and would not result in significant water quality impacts.

- e) *The site can be adequately served by all required utilities and public services.*

The project site is located in a dense urban area where all public services and utilities are currently available, and the proposed building would be able to connect to the City's water, wastewater, and electricity services. While the proposed project would potentially increase demand on public services and utilities, that demand is not anticipated to exceed the capacity provided for this area. Therefore, the proposed project would be adequately served by all required utilities and public services.

DISCUSSION OF OTHER ENVIRONMENTAL ISSUES

CEQA Guidelines Section 15300.2 establishes exceptions to the application of a categorical exemption for a project. None of the established exceptions applies to the proposed project. Guidelines Section 15300.2, subdivision (c), provides that a categorical exemption shall not be used for an activity where there is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances. As discussed above, there is no possibility of a significant effect on the environment due to unusual circumstances. In addition, the proposed project would not have a significant effect on the environment due to unusual circumstances for other environmental topics, including those discussed below.

CEQA Guidelines Section 15300.2, subdivision (f), provides that a categorical exemption shall not be used for a project that may cause a substantial adverse change in the significance of a historical resource. For the reasons discussed below under "Historical Resources," there is no possibility that the proposed project would have a significant effect on a historic resource.

Historical Resources. Under CEQA Section 21084.1, a property may be considered a historic resource if it is "listed in, or determined to be eligible for listing in, the California Register of Historical Resources" (CRHR). The project site is developed with a one-story-plus-mezzanine auto body garage. The existing building, which was constructed in 1922, is designed in the Mediterranean Revival style and is located within one block of the Alamo Square Landmark District. The existing building has not been listed in any prior surveys, nor listed in any local, state, or national registries. Based on the age of the property, the proposed project was subject to historical resources review. A qualified historic resources consultant was retained to prepare a Historic Resource Evaluation (HRE) of the property.¹³ The Planning Department reviewed the HRE and provided a determination in a Historic Resource Evaluation Response (HRER).¹⁴ The findings from the historic resource determination are summarized below.

The historic resource determination applied the criteria set forth by the CRHR to the analysis of the historical background of the property, its architecture, and the neighborhood in which it is located. The

¹³ Garavaglia Architecture, Inc., *650 Divisadero Street: Historic Resource Evaluation Report – Final*, September 3, 2013.

¹⁴ San Francisco Planning Department, *Historic Resource Evaluation Response, 650 Divisadero Street, San Francisco, CA*, March 10, 2014.

CRHR stipulates that a property may be considered a historic resource if the property is associated with a historically significant event (Criterion 1), person (Criterion 2), or architectural style (Criterion 3), or if there is potential to gather historically significant information from the site (Criterion 4). Properties must also possess historic integrity with respect to location, design, setting, workmanship, materials, aesthetics, and historic events or people associated with the subject property. The historic resource determination found that the building is not an early or influential example of a parking garage, and does not appear to be significant for its auto repair function. Therefore, it is not eligible for listing on the California register individually or as a contributor to a potential historic district under Criterion 1. As the property is not associated with a historically significant person, it is ineligible for inclusion, individually or as a contributor, under Criterion 2. The *Van Ness Auto Row Support Structure: A Survey of Automobile Related Buildings Along the Van Ness Avenue* (Van Ness Auto Row Survey) categorized auto-related facilities into different levels of significance, the most important group being automobile show rooms. The second most important group includes multiple-use auto facilities and public garages, such as the subject property. While the building was not surveyed in the Van Ness Auto Row Survey, based on the historical use and age of the building it is a moderately early example of the second most important group of auto-related facilities established by the study. In addition, the building was referenced in two prior publications, *The Architect & Engineer* and *The Early Public Garages of San Francisco*. Thus, the building appears to be a significant individual resource under Criterion 3. However, the historic resource determination found that the building does not appear to relate to a potential historic district as the building uses and architectural styles found in the site vicinity do not provide the substantial cohesiveness necessary to establish a potential historic district. As such, the building does not appear eligible for inclusion as a contributor to a potential historic district under Criterion 3. The historic resource determination found that the building is unlikely to provide information important to history or related to prehistory, making the building ineligible for inclusion on the CRHR under Criterion 4. To be a resource for purposes of CEQA, a property must not only be shown to be significant under the CRHR criteria, but must also have integrity. Due to alterations to the building's original features, including the vehicle entrance, windows, and circulation pattern, the historic resource determination concludes that the building lacks sufficient historical integrity. As the building does not retain historical integrity, it does not warrant a discussion of character defining features.

The historic resource determination concluded that the subject property is not eligible for listing in the CRHR or local listing as an individual or contributory historical resource. Therefore, the proposed project would not have a significant adverse impact upon historic resources.

Hazardous Materials. The proposed project would include the disturbance of greater than 50 cubic yards of soil on a property currently and historically associated with industrial uses. The project is therefore subject to Article 22A of the San Francisco *Health Code*, also known as the Maher Ordinance. The Maher Ordinance is administered and overseen by the Department of Public Health (DPH). To comply with the Maher Ordinance the project sponsor submitted a Maher Application to DPH¹⁵ and retained the services of a consultant to conduct a Phase I Environmental Assessment (ESA).¹⁶ Phase I ESAs are used to

¹⁵ Divco Group, L.L.C., Property Owner. *Maher Program Application*, December 13, 2013.

¹⁶ AEI Consultants, *Phase I Preliminary Environmental Site Assessment, 650 Divisadero Street, San Francisco, California, AEI Project No. 305002*, March 7, 2012.

determine the potential for site contamination and level of exposure risk associated with the project. The Phase I ESA for the subject property consisted of an examination of current conditions at the project site and properties within the immediate vicinity of the site, review of historical and present environmental activity on the site, review of pertinent government records and data, and analysis of all findings.

During site reconnaissance, the following was identified: (1) containers of hazardous substances and petroleum products; (2) electrical or mechanical equipment likely to contain contaminate fluids; (3) interior stains; (4) an oil/water separator; and (5) obsolete construction materials.¹⁷ The report notes that hazardous materials and waste were stored appropriately and no drains or other subsurface conduits were observed near the materials. Overall, no evidence of environmental impairment due to the management of hazardous substances was found during site reconnaissance. Regarding fluid-containing electrical and mechanical equipment, one pole-mounted transformer, owned and operated by Pacific Gas and Electric (PG&E), was found on the project site. Due to the age of the transformer, it may contain polychlorinated biphenyls (PCBs). If any materials release were to occur, PG&E would be responsible for cleanup, in accordance with federal regulations. There was no evidence of leakage or staining from the four hydraulic, above-grade lifts located on the property. While minor surface staining was observed, the report found that it is not anticipated to constitute an environmental concern. The oil/water separator found on the property has likely been in use since 1985. Oil/water separators may act as a conduit for hazardous materials to reach to the subsurface. Given existing and historic uses on the site, the report found that, if the separator system was compromised, there is the potential for subsurface contamination. Due to the age of the structure asbestos-containing building materials may be present on the project site. The subject property once contained two 300-gallon underground storage tanks (UST) which were used to store gasoline for onsite use. The USTs were removed on March 14, 2002. Soil sampling and testing conducted as part of closure activities revealed no detectible presence of total petroleum hydrocarbons (TPHg), benzene, toluene, ethylbenzene, and xylene (BTEX), fuel oxygenates, or lead. No evidence of potential environmental concerns was found on adjacent properties.

The report concludes that the presence of the oil/water separator constitutes a Recognized Environmental Condition (REC)¹⁸ on the subject property, and the former USTs constitute a Historical Recognized Environmental Condition (HREC).¹⁹ Based on the presence of an REC, the report concludes that a Phase II ESA (i.e., subsurface investigation) should be undertaken for the subject property.

¹⁷ Obsolete construction materials include building materials and electrical and lighting equipment typically used in the construction of structures prior to 1980. These materials may include asbestos, lead, and PCBs.

¹⁸ A recognized environmental condition is one where the presence or likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material release of any hazardous substances or petroleum products into structures on the property or into the ground, ground water, or surface water or the property.

¹⁹ Historical Recognized Environmental Condition - the past release of any hazardous substances or petroleum products that has occurred in connection with the subject property that has been remediated and given regulatory closure with no restrictions on land use.

A Phase II ESA was subsequently conducted.²⁰ The subsurface investigation consisted of two exploratory borings, soil collection, and laboratory analysis of select samples. The soil samples did not reveal evidence of a substantial release of hazardous materials from the oil/water separator. Thus, the report concluded that further environmental investigation and analysis is not required. However, the report does recommend that the property owner seal any drain holes connected to the oil/water separator and that the device should be appropriately maintained as prescribed by state and federal laws. Pursuant to the Maher Ordinance, DPH will review the results of the Phase I and Phase II ESAs and determine if additional analysis is required. Should additional analysis reveal the presence of contaminated soil or groundwater, DPH would require the project sponsor to submit a Site Mitigation Plan and remediate any contamination in accordance with Article 22A of the Health Code. Thus, the proposed project would not result in a significant hazard to the public or the environment through the release of hazardous materials.

As discussed in the Phase I ESA, the existing structure was constructed in 1922 and therefore may contain hazardous construction materials such as asbestos and lead. Pursuant to Section 19827.5 of the *California Health and Safety Code*, the project sponsor must demonstrate compliance with notification requirements under applicable Federal regulations regarding hazardous air pollutants, such as asbestos, prior to issuance of a demolition or alteration permit. In addition, *Building Code* Section 3427 (Asbestos Information and Notice) requires the project sponsor to place a notice on the project site at least three days prior to commencement and for the duration of any asbestos-related work. Pursuant to California law, DBI would not issue the required permit until the applicant has complied with applicable noticing requirements. Section 3426 of the *Building Code* (Work Practices for Lead-Based Paint on Pre-1979 Buildings and Steel Structures) regulates any work that could disturb or remove lead paint on a building constructed on or prior to December 31, 1978 and steel structures. Section 3426 requires specific notification and performance standards, and identifies prohibited work methods and penalties. Section 3426 contains provisions regarding inspection and sampling for compliance by DBI, and enforcement, and describes penalties for non-compliance with the requirements of the ordinance. These regulations and procedures, already established as a part of the permit review process, would ensure that the proposed project would not result in significant impacts with respect to asbestos and lead.

Geology and Soils. A geotechnical investigation was conducted on the site and the findings are summarized in this section.²¹ The geotechnical investigation involved a subsurface investigation, examination of surface soils, site and vicinity reconnaissance, a review of pertinent geologic and geotechnical data and literature, laboratory testing of boring samples, and geotechnical analysis of all findings. One exploratory boring was drilled at the project site to a depth of approximately 23 feet below grade. The project site has a soil mantel consisting of medium dense sand with clay to a depth of approximately four feet, underlain with loose to medium dense sand to a depth of approximately 18 feet and very stiff sandy, lean clay to the maximum depth explored. Free ground water was encountered at approximately 18 feet below grade.

²⁰ AEI Consultants, *Subsurface Investigation Report*, 650 Divisadero Street, San Francisco, California, AEI Project No. 306558, April 16, 2012.

²¹ H. Allen Gruen, *Geotechnical Investigation, Planned Development at 650 Divisadero Street*, San Francisco, California, December 7, 2014.

Based on these findings, primary geotechnical concerns include founding the proposed structure in competent soils, supporting temporary slopes and adjacent properties, and seismic shaking. Per Planning Department records, the subject property is not located in a Seismic Hazard Zone,²² nor is it located within an active Earthquake Fault Zone. In addition, as previously discussed, surface soils range from medium dense sand to very stiff sandy, lean clay. Therefore, the report concludes that the potential risk of surface ruptures, liquefaction, lateral spreading, and land sliding is low.

The geotechnical report concludes that the site is suitable for construction of the proposed building, provided their recommendations are incorporated into the design and implementation of the project.²³ The report recommends that: (1) the building foundation should be supported on a mat foundation; (2) any shoring or underpinning may be accomplished using drilled piers; (3) temporary slopes should be employed during site excavation. Additional specifications for site preparation and grading, foundation and slab-on-grade engineering and installation, retaining walls, and surface drainage are included in the report.

The proposed project would be required to conform to the City's *Building Code*, which ensures the safety of all new construction in the City. Decisions about appropriate foundation and structural design are considered as part of the DBI permit review process. DBI would review background information, including geotechnical and structural engineering reports, to ensure that the security and stability of adjoining properties and the subject property is maintained during and following construction. Therefore, potential damage to structures from geologic hazards on the project site would be addressed through the DBI requirement for a geotechnical report and review of the building permit application pursuant to its implementation of the *Building Code*. In light of the above, the proposed project would not result in a significant effect related to seismic and geologic hazards.

Neighborhood Concerns. A "Notification of Project Receiving Environmental Review" was mailed on March 4, 2015 to owners and occupants of properties within a 300 foot radius of the project site and other interested parties. The project sponsor revised the scope of the proposed project and submitted revised application materials on August 4, 2015. The Planning Department sent a second Notification of Project Receiving Environmental Review with an updated project description on November 25, 2016 to owners and occupants of properties within a 300 foot radius of the project site and other interested parties. The purpose of the second notice was to inform recipients of changes to the proposed project and provide an opportunity to share concerns pertaining to the potential environmental effects of the revised project proposal. Overall, concerns and issues raised by the public in response to both notices were taken into consideration and incorporated in this Certificate of Determination ("Certificate") as appropriate for CEQA analysis.

A concern was raised regarding how the potential physical environmental effects of the proposed project would be analyzed. This concern is addressed in the *Exemption Status* section of this Certificate. A concern was raised regarding the notification process for situations where a project's proposed scope of work has

²² A Liquefaction Hazard Zone or Landslide Hazard Zone.

²³ H. Allen Gruen, *Geotechnical Consultation, Proposed Development at 650 Divisadero Street, San Francisco, California*, November 12, 2015.

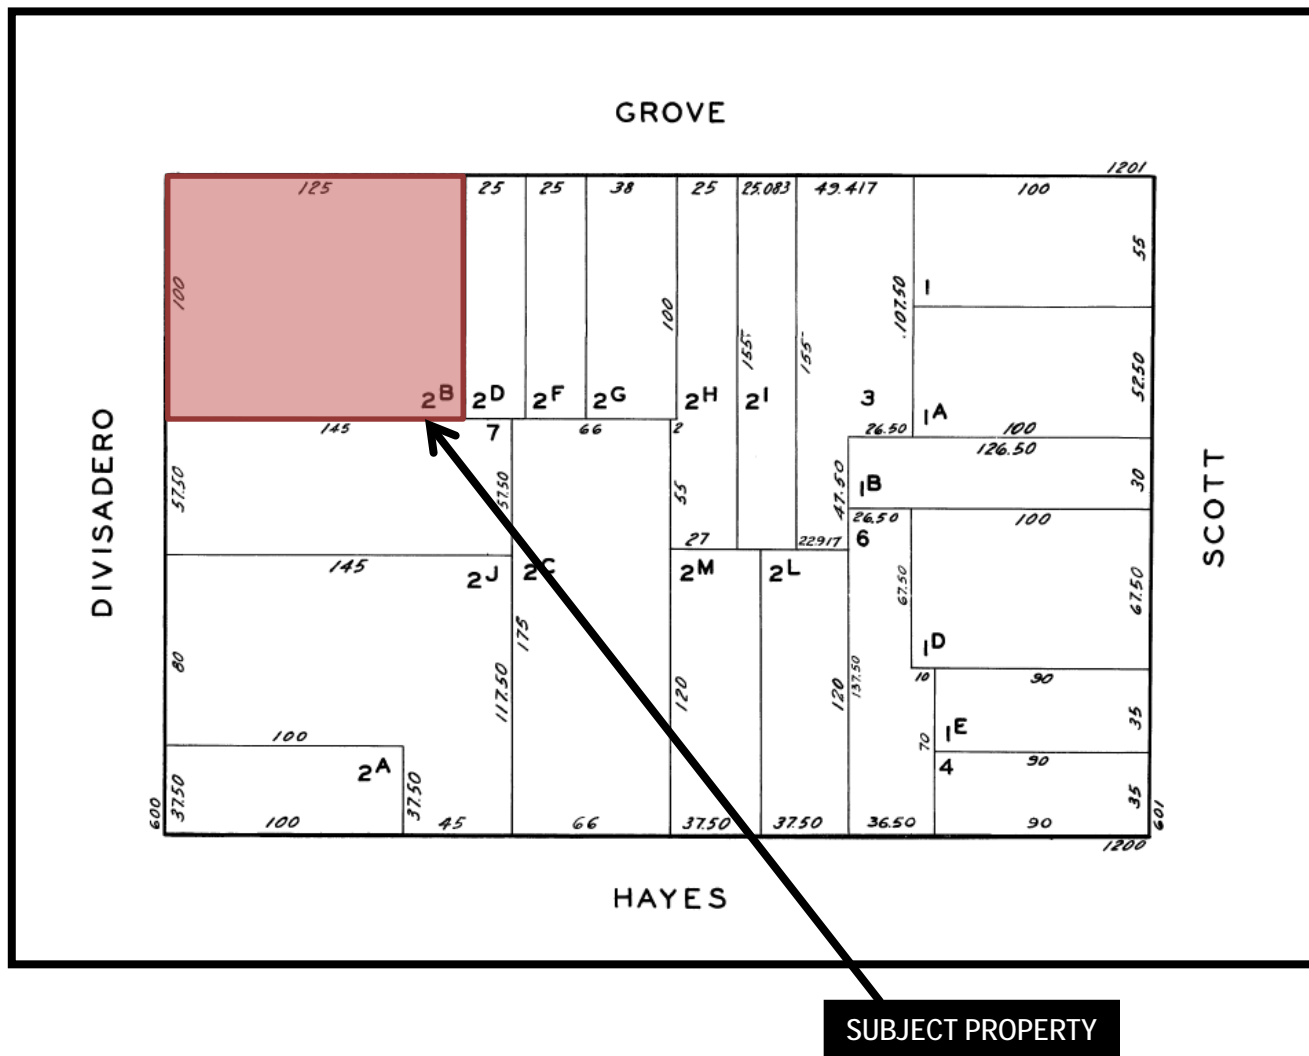

changed since the Notification of Project Receiving Environmental Review was mailed. This concern is addressed in the preceding paragraph. An additional concern was raised regarding the analysis of potential displacement within the environmental review process. The proposed mixed-use development would replace an existing auto repair use. Since there are no residential units on the project site the proposed project would not displace substantial numbers of existing housing units, necessitating the construction of replacement housing elsewhere. Thus, the proposed project would not result in a significant adverse impact with regards to displacement. Commenters also requested information about the proposed project. This information was provided during the environmental review process.

Comments that do not pertain to physical environmental issues and comments on the merits of the proposed project will be considered in the context of project approval or disapproval, independent of the environmental review process. While local concerns or other planning considerations may be grounds for modifying or denying the proposed project, in the independent judgment of the Planning Department, there is no substantial evidence of unusual circumstances surrounding the proposed project or that the project would have a significant effect on the environment.

CONCLUSION

The proposed project satisfies the criteria for an exemption under the above-cited classification(s). In addition, none of the CEQA Guidelines Section 15300.2 exceptions to the use of a categorical exemption applies to the proposed project. For the above reasons, the proposed project is appropriately exempt from environmental review.

Subject: 650 Divisadero and protecting the Walnut Tree

Please forward to the San Francisco Planning Commissioners

April 3, 2017

Dear Planning Commissioners,

I am an adjacent property owner at 1261 Grove and need to ask for your help with the following:

Please require a tree protection plan for the Walnut tree at 1265 Grove to be included in the Conditional Use Permit for 650 Divisadero Street.

This old growth black walnut was planted in the 1920s making it over 90 years old. It is 4 stories tall, has a canopy that spans 3 building wide, and is a significant tree that needs to be considered when approving this proposed development. The trunk measures 12 feet in circumference and its root system has grown against and under the existing radiator building that will be demolished for under grade parking and the open space terrace at the corner of the rear property lines. The tree provides a park like aesthetics for our properties, as well as the nursing home and other residential buildings on Hayes that share this rear yard block. Our buildings at 1265 and 1261 Grove do not have much back yard open space so the Tree provides that for us. It is the reason I purchased my rear unit in November 2016.

As you consider approving the modification to rear yard setback, please remember that if the rear yard was being proposed on the first floor as required, (since there are residential units on the first floor,) this tree root system would be better protected. Perhaps a couple of the parking spots in the critical root zone need to be modified. **I request that professional tree protection arborist be consulted on the excavation for under grade stackable parking and footings within 35 feet of the trunk.**

We met with the development team for this project last week to discuss our concerns about the damage to the tree and light issues to the adjacent building. A couple of mitigation solutions that were presented involved keeping the existing radiator buildings wall that goes 7 feet under grade in the back corner where the tree is (the existing building is 10 feet from the trunk, please see attached pictures) and using a shot Crete construction method for the new wall and footings. Also the possibility of moving the ride share parking spot to this location as it will not be a stackable spot. These sounds like great suggestions, and we are thankful that the architect and owner offered these. We would like these and other mitigations that a tree professional suggests to become a requirement of the CUP. (i.e. arborist on site during construction to protect and cut roots, types of excavation techniques that are root sparing, and if necessary changing the parking configuration) The Development team indicated to us, that they are open to working with an arborist, but to ensure this will really happen, it should be a requirement of the CUP.

Since a damaged tree does not die overnight, we would like to request that a **Tree Bond** be required of the developer for 5 years. Thank you for helping save this tree, we all benefit by its continued presence!!

Sincerely,

Heike Kilian

SUBJECT PROPERTY - 650 DIVISADERO

The Independent

Tuesday, March 28th, 2017

Planning Commissioners;

I am writing in regards to the proposed development at 650 Divisadero Street and their desire to turn an underutilized space into 66 rental units and additional retail space. As a business owner operating down the street at 531 Divisadero Street, and as a board member of The Golden Gate Restaurant Association and a nearby Hayes Valley resident, I, along with my entire organization fully support their efforts.

We know the developer to be very professional, with a proven track record of successful projects in the City and that their building will bring tremendous value to the neighborhood ecosystem that is NoPa.

We collectively were so delighted to hear that this project is continuing to gain momentum, especially at that specific site. The need for additional housing and retail along this dynamic, developing corridor is evident, and we feel strongly that this will be a viable, long-term benefit for the community.

I wish to place my personal support and the support of the entire Souvla organization behind their efforts.

I will make myself available for any additional inquiries or questions. Please do not hesitate to reach me directly via email.

Sincerely,

A handwritten signature in black ink, appearing to read "Charles S. Billies". The signature is stylized with large, sweeping loops and a prominent vertical stroke.

TO: San Francisco Planning Commission

RE: Support for onsite BMR units at the 650 Divisadero St project

Our neighborhood strongly appreciates the severity and destructiveness of the current housing crisis in our city. This crisis is the result of a decades-long policy of our city not to approve the construction of new housing in the city's neighborhoods. This has made it very difficult, and in most cases impossible, for lower or middle class newcomers to buy or rent places to live in our neighborhood due to the very high cost. This has contributed enormously to the the gentrification and loss of diversity in the Western Addition.

The Board of Directors of the Alamo Square Neighborhood Association supports the construction of new housing, both rental and owner occupied, in our neighborhood. We are especially supportive of such housing along transit dense streets such as Fillmore St. and Divisadero St.

ASNA board of directors supports the onsite BMR rental units at 650 Divisadero St. with a *maximum of BMR units onsite*. Our neighborhood needs more BMR units particularly along dense transit corridors.

We are opposed to offsite BMR units. We are very sensitive to the impact of cloistering affordable housing in selected areas of the city and we believe BMR units should be located throughout the city.

We encourage you to approve 650 Divisadero Street with a maximum number of BMR units onsite.

Very truly yours,

A handwritten signature in blue ink, appearing to read 'Lisa Zahner', with a stylized flourish at the end.

Lisa Zahner, President
Alamo Square Neighborhood Association

Subject: Concerns Regarding 650 Divisadero
Date: Monday, January 23, 2017 10:01:52 PM

Hello Planning Commission,

I oppose the approval of 650 Divisadero as proposed, since it does not include enough on-site affordable units. I ask that you continue this hearing until new requirements are in place for affordable units on Divisadero.

We must all work together to ensure a diverse and prosperous San Francisco by ensuring we continue the fight for affordable housing.

Thank you,
Jared Stewart

Date: Monday, January 23, 2017 9:53:31 PM

As a graduate student at UCSF, I oppose the approval of 650 Divisadero as proposed, since it **does not include enough on-site affordable units**. I ask that you continue this hearing until new requirements are in place for affordable units on Divisadero.

We need housing for all, including hardworking students like me and my peers. Affordable housing ensures we keep the best in SF, even if we don't work in tech!

From: [Dan Federman](#)

Subject: Please approve 650 Divisadero
Date: Monday, January 23, 2017 10:02:54 PM

To whom it may concern,

I strongly **support** 650 Divisadero as proposed. We need more housing, period. San Francisco will not get less expensive until we build more housing – efforts to delay 650 Divis will incur increased costs for the developer, which will in turn continue to make housing more expensive. I ask that you please do not delay this project with more hearings.

Best,
- Dan Federman

1650 Mission Street, Suite 400
San Francisco, CA 94103
via email to: tina.chang@sfgov.org; commissions.secretary@sfgov.org

Dear President Rodney Fong and Members of the Planning Commission:

My name is Andrea Crawford and I've been a resident of San Francisco for 6 years. My husband and I have two children attending public elementary schools in the city. We are a middle/moderate-income family and we have made San Francisco our home. We hope to purchase a home here rather than renting, but the current housing market has made this impossible for us and many families like us.

I support the approval of the development at 650 Divisadero as proposed. I believe that building additional housing inventory throughout the city will help to alleviate the housing crisis in San Francisco and make housing in the city more affordable for families like ours.

Thank you,
Andrea M. Crawford

January 22, 2017

Rodney Fong
Planning Commission President
Room 400, City Hall
1 Dr. Carlton B. Goodlett Place
San Francisco, CA 94102-4689

Re. 650 Divisadero Street

Dear President Fong:

The Sierra Club urges the Planning Commission to postpone approval of the proposed project at 650 Divisadero Street until legislation is passed to substantially increase the required amount of on site affordable housing or to substantially increase the in lieu fee. The San Francisco Planning Commission has already recommended passage of legislation to this effect. That legislation has been written and calls for 25 percent on site affordable housing construction or a 33 percent in lieu fee (Planning Code -- Affordable Housing Requirement and Fee in Divisadero and Fillmore Neighborhood Commercial Transit Districts).

The SF Bay Chapter Environmental Justice in Housing and Transportation position is as follows: "The Bay Chapter supports affordable housing throughout the Bay Area. When people can afford to live near where they work — particularly in transit-rich, walkable, urban areas — there is an aggregate reduction of sprawl and greenhouse-gas emissions. Multi-unit housing sited compactly within urban areas requires fewer resources for construction than do suburban single-family houses. An ongoing Chapter effort is making sure that new housing is distributed equitably in all parts of the Bay Area and not just concentrated in areas of high minority population, leading to increased segregation of housing and transportation."

Sincerely,
Susan Vaughan

To Whom It May Concern:

I oppose the approval of 650 Divisadero as proposed, since it does not include enough on-site affordable units. I ask that you continue this hearing until new requirements are in place for affordable units on Divisadero.

If the developer gets to increase his total number of units by more than four times, shouldn't the community in return get at least the same percentage of on-site affordable units?

Sincerely,

Dina Wilson

31-year SF resident

Subject: 650 Grove Street
Date: Thursday, July 07, 2016 6:35:40 PM

I am a resident of 1290 Hayes Street and live on the same block as the 650 Grove Street development at the former Alois Radiator shop. I am writing in support of the modifications up for a conditional use and variance and believe that this project is vital to SF's growing population. I would further push for the project to match the height of the building across the street from it at the intersection of Divisadero and Grove to achieve more units in this space.

Best,
Thushan

Subject: Case No. 2013-1037CV. 650 Divisadero Street Comments
Date: Thursday, July 21, 2016 11:02:04 AM

I will not be able to attend today's hearing but please consider my two comments at the hearing.

- To mitigate impacts to the neighborhood, the project should be restricted to one curb cut driveway as a maximum. Grove Street already has multiple curb cuts and Divisadero parking is often at a premium. By restricting the project to a maximum of one curb cut, it would benefit the future tenants and the existing residents who might have motoring guests, or be ZipCar or Carshare users. Additionally if new parklets or bikeshare pods are considered, it would allow for more public use of the curb space by allowing more of the public curb face to be publicly accessed. Ideally, no curb cuts would be pursued. And I would support that, if that was the direction the project sponsors were willing to pursue.

- Distinguishing features along the front of the building should be preserved. There is an architectural language between 705 Divisadero (bbq establishment), 1290 Grove (residential) and the project site. All have elements (tile roof/Mission-Spanish revival) that reflect a character for this developing corridor. The Divisadero facing facade height and features would blend more with the neighbor if the existing elements were retained, rather than the more generic structural style that seems to have populated the Mission and Upper Castro. While not glamorous, it helps preserve some of the history of this neighborhood...from horse services to auto services in the early to mid part of the last century....with 1336 Grove still retaining the horse lunette.

Thank you in advance for including these considerations as Conditions of Use.

Best Regards,

Oliver Gajda
Resident 1290 Grove Street

To Whom It May Concern:

I am a tenant of apartment 1405 at Webster Tower & Terrace, 1489 Webster Street, San Francisco since July of 2016. Ever since I moved in I have been treated with the utmost respect and courtesy for every need and request. We live in a converted 3 BR unit and we are VERY satisfied with the arrangements – we feel that we are able to maximize the space and all have very comfortable and private living conditions, both the outwards facing bedrooms and the interior-facing bedroom. We have found that the interior-facing bedroom actually made our lives much easier, as there's no way we could've found a 3 BR at a reasonable price and if we'd have gone with a 2 BR we would've had to build a divider ourselves just to have some privacy, which Webster has provided to us at such a fair price. The additional perks of laundry, garbage, and a streamlined payment system have made it super convenient for us.

Even more importantly, the apartment building is always kept clean, secure, and presentable, which is above and beyond anything we could've expected. And the staff has been responsive throughout, addressing every maintenance request and question in a very timely and professional manner. I have and continue to thoroughly enjoy my stay at Webster Tower & Terrace, and I definitely support the same developer for the project at **650 Divisadero Street**, San Francisco. I will gladly answer any additional questions upon request.

Best,

David,

I recently moved in to Webster Tower & Terrace (1489 Webster Street, San Francisco) in October 2016. The service I experienced before moving in, during the move-in and after has been courteous, secure and prompt. My apartmentmates and I enjoy the arrangement and the remodeled floor plans. Although the apartment has interior-facing bedrooms, we enjoy our separated bedrooms with great quality and great prices. I love my living arrangement at Webster Tower and would support the same developer, based on my current experiences, for the project at 650 Divisadero Street, San Francisco.

Thanks,
Gina

Hi David,

I am Vi Tran, a tenant at Webster Tower & Terrace on 1489 Webster Street in San Francisco since for half a year. I am writing to share with you my great experience while having lived here. The management team is professional, friendly, and efficient. They've helped me work through all my questions when I was searching for apartments, and was very upfront and clear with all the apartment amenities. Because I trusted the team, I also convinced friends and family to move into the building as well. My roommates and friends who live in the building with interior facing bedrooms said they have enjoyed their overall living experience. All the amenities, easy communication with management team, and fair pricing are key reasons we've continued and look forward to staying with Webster Tower. I wholeheartedly support the project at 650 Divisadero Street.

Best,
Vi Tran

Dear SF Planning Commission,

I oppose the approval of 650 Divisadero as proposed at this time. The project as proposed does not include enough affordable units. The Planning Commission should not vote on the project until the Divisadero-Fillmore legislation, which was approved at the Planning Commission last year, is finalized at the Board of Supervisors. I ask that the Planning Commission continue this item to a later date.

A building of this size with only 9 affordable units is not a reasonable interpretation of "increasing affordability" on Divis. This city is being taken over by the wealthy, tech industry, and corporate interests, and it is saddening to say the least. Please help do your part to keep San Francisco affordable for more than just the wealthy. Affordable housing is an important part of keeping the city diverse and maintaining its core character - as a champion for ALL.

Thank you,
Tracey Holland

The re-zoning of this area should have never happened and if any of you lived near this area, I live 1/2 a block away, you would understand that it is already overcrowded with people, cars and consequent noise not to mention crime that will most certainly be exacerbated by this building, the Harding Theater project, a proposed brewery, etc.
Enough.

Subject: Oppose approval of 650 Divisadero
Date: Friday, January 13, 2017 9:56:00 AM

Dear SF Planning Commission,

I oppose the approval of 650 Divisadero as proposed at this time. The project as proposed does not include enough affordable units. As someone who has lived in this neighborhood for over a decade (probably considered a "long time resident" these days!) and has recently started a family I know first hand how important affordable housing is to our community. We love our neighborhood and hope we can continue living here but as we look to find an affordable 2 bedroom apartment we are realizing that we are better off talking about leaving The Bay Area altogether. We need MORE affordable housing to protect residents who are continually being priced out of their homes and The Bay Area at large. We are working class citizens and members of the community who love this city and would like to continue working, living, and loving here. The Planning Commission should not vote on the project until the Divisadero-Fillmore legislation, which was approved at the Planning Commission last year, is finalized at the Board of Supervisors. I ask that the Planning Commission continue this item to a later date.

Thank you,
Hailee Cooper

Subject: Please forward this
Date: Tuesday, October 04, 2016 11:45:41 AM

Dear Mr. May,

Would you please forward this to the Planning commissioners for me? I am mailing it, but fear it may not be received and this is a very important issue for my tenants. My tenants will be working during the commissions' hearing and will have no voice in the matter. I will be out of town, because I was unable to reschedule my flight.

Thank you sincerely,

Donna Thomson

Conditional Use & Variance

<!--[if !supportEmptyParas]--> <!--[endif]-->
Project Address: 650 Divisadero St

Cross Street: Grove St

Block/Lot No: 1202 / 002B

Zoning District: Divisadero St NCT

<!--[if !supportEmptyParas]--> <!--[endif]-->

Dear Sirs:

<!--[if !supportEmptyParas]--> <!--[endif]-->

<!--[if !supportEmptyParas]--> <!--[endif]-->

I came before the Planning commission on July 21st and requested that the commission not delay the matter at hand until October 20th because my husband and I own the property at 1265 Grove St, just behind the proposed building site and are the most adversely impacted by the proposed project. We will be on vacation at that time and our situation needs to be heard by the commission. It was suggested that I explain everything in writing.

<!--[if !supportEmptyParas]--> <!--[endif]-->

The land owners originally proposed a 16 unit building with 16 parking spaces as well as 3 commercial spaces on the ground floor. They proposed to build a 6 story building to the west of my 4 story building, up against the property line and mimicking our existing light well at 1265 Grove street. This light well is shallow, because it was designed with a single story building in front of it. With a building 2 full stories above our building, we not only lose light, and views facing west, we lose passive solar heat, which our rent controlled tenants enjoyed, because they saved on heating costs. With a light well that is only as large as ours, my tenants will be lucky to get any sun at all on the west side of the building, except when the sun is directly overhead for about half an hour. I know you don't really consider the loss of sunset views, but what about light?

<!--[if !supportEmptyParas]--> <!--[endif]-->

They also proposed to place their garage door directly next door to my building, so the opening and closing of the door late at night would disturb my tenants, along with the noise created when pulling out garbage cans. Does the garage door have to be directly next door to our building?

<!--[if !supportEmptyParas]--> <!--[endif]-->

After the Divisadero Street NCT decision passed your commission 9 to 0, and it was decided that density would benefit the city, even during a major period of drought, the owners proposed 52 units instead of the original 16, with 16 parking spaces. The only benefit to our property was that there would be a rear yard setback on the south eastern side of their property, that would allow

our building to receive more light. Now they propose a 60 unit building with 16 parking spaces and are asking for a "modification to the rear yard requirements pursuant to Planning Code Section 134". I have no idea how begging will come across in a letter, but I implore you to not grant this modification. My tenants need sunlight. It's bad enough that my tenants 2 kitchen windows with face bathroom windows and decks from the proposed project. Instead of a sunset view they could possibly be subjected to decks becoming impromptu storage space. Every one of our tenants rented our apartments because the kitchens were so bright and sunny, even those on the first floor.

<!--[if !supportEmptyParas]--> <!--[endif]-->

When a meeting occurred in the neighborhood, most neighbors asked if more parking could be considered, since most families have 2 cars and with the loss of many spaces due to bike paths, parklets (3 within 2 blocks taking up 9 spaces), new red zones on corners that serve no obvious purpose, City Car Share and Zip Car spaces being taken away from the neighbors and a parking problem that existed before all these losses happened; the new building was going to be adding to the problem, especially if their commercial tenants bring in people from all over the city. The owners seemed to believe that if they took away the existing driveway, the extra 2 spaces would alleviate the concern. They also commented that in order to put in more parking they would have to petition the city to do so, as if that were a difficulty. We would like you to consider requiring more parking for the 52 units. It is most obvious that the owners will be renting to anyone willing to pay the rent, regardless of whether or not they own vehicles that will burden this neighborhood that is already suffering from the density of the city. Do you know what it is like to try and find parking late at night, then passing 3 spaces that were replaced by a coffee shop parklet? A coffee shop that closed at 6:00 p.m.?

<!--[if !supportEmptyParas]--> <!--[endif]-->

If you cannot consider my building, please, at the very least consider the neighborhood and the parking problem that will be acerbated by a 52-60 unit building with only 16 parking spaces.

<!--[if !supportEmptyParas]--> <!--[endif]-->

Sincerely,

<!--[if !supportEmptyParas]--> <!--[endif]-->

<!--[if !supportEmptyParas]--> <!--[endif]-->

Date: Friday, January 13, 2017 11:20:31 AM

Good morning SF Planning Commission,

My family whole heartedly OPPOSES the approval of 650 Divisadero as proposed at this time.

The project as proposed does NOT include enough affordable units. This is shameful. 9 measly units!?. Ridiculous banter. What happened to your promise of AT LEAST a quarter. Marginalizing our local Western Addition pre-school teachers, creativity, educators, my black & brown faced neighbors, and young families is wrong. Remember: budgets are moral documents.

The Planning Commission should NOT vote on the project until the Divisadero-Fillmore legislation, which was approved at the Planning Commission last year, is finalized at the Board of Supervisors. I ask that the Planning Commission continue this item to a later date.

Thank you,
Fennel (and Fabricio) Doyle

Dear SF Planning Commission,

I've lived across the street from the proposed development at the Alouis Radiator shop for 8 years. I've received at least 10 planning commission letters over the last few years. Each time the development is LARGER. It's a bad fit for the neighborhood. No one who currently lives in the neighborhood can afford to move into the proposed units.

I've watched development after development across the City. All soulless and gentrified. Don't make Divis the next Hayes Valley!!!!

Why not make the building 166 units, or 566 units? That would make the developers happy. More money!

Furthermore, I love living near the Independent. The proposed development will result in noise complaints and closure of a neighborhood gem. Would you rather live across the street from a fantastic music venue or a corporate complex?

One of the reasons I moved to my eccentric neighborhood was the access to live music and the diverse menagerie of characters that live nearby. Don't homogenize and dumb down my home!

Please stop approving larger and larger plans. If memory serves, this development started at 16 units!

I vote and I will make my opinion heard.

Also, please listen to my neighbors. There is a tight knit community along Divis that takes care of each other.

Justin

Dear SF Planning Commission,
I oppose the approval of 650 Divisadero as proposed at this time. The project as proposed greatly expands the number of units without allocating an appropriate number of affordable units. The Planning Commission should not vote on the project until the Divisadero-Fillmore legislation, which was approved at the Planning Commission last year, is finalized at the Board of Supervisors. I ask that the Planning Commission continue this item to a later date. Moving forward on the project as is would be in direct opposition to the stated goal of increasing affordable housing, which is desperately needed and must be included in all new projects.

Thank you,

Subject: Please approve the development at 650 Divisadero St.

Honorable President and Members of the Planning Commission,

I've been a resident of San Francisco for over 7 years and I support the approval of 650 Divisadero as proposed.

We need more housing in San Francisco to address the current shortage that is causing stresses all over the city. San Francisco will continue to be one the most attractive cities in United States and more people will move here. If we don't build units, we will continue to see gentrification and raising rents.

650 Divisadero is perfectly positioned in the Divisadero corridor on a corner lot. Tenants will be able to live there without owning a car and use public transportation. The building has an outstanding design and will fit perfectly into the neighborhood.

Please do not delay further the building of much needed housing units!

Dear SF Planning Commision,

I support the approval of 650 Divisadero as proposed. It adds more affordable housing and more housing overall, and San Francisco is in dire need of increased housing density.

Thank you,

Charles Whitfield
San Francisco Resident

Subject: Feedback on the 650 Divisadero project

Hello,

My name is Theodore, and I'm a long-time resident of the Excelsior district. I could not come to the meeting today, so I'm sending this feedback about 650 Divisadero:

I am disappointed in the commission for Continuing the project and not approving it. As one of his last acts as supervisor, David Campos threw a tantrum and demanded that projects in the Mission consider the risk of displacement in their EIR. I think that is an undue burden on developers, but the Planning Commission should keep in mind:

Every time you delay a project and add restrictions to it, you increase the risk of displacement in the whole city. Already, we have the most difficult approval process in the country. Only the biggest, most corrupt developers can succeed in this environment. You have the opportunity to fix it.

A vote to delay is not a vote to preserve. A vote to delay is a vote to gentrify.

San Francisco Planning Commission
1650 Mission Street, Suite 400
San Francisco, CA 94103

Dear Planning Commissioners,

I am writing to support the project located at 650 Divisadero. The Project would provide relief for San Francisco's desperate need for more rental housing. This neighborhood project would develop a currently underutilized site and provide 66 rental units and retail spaces that will further complement and enhance the NOPA neighborhood.

During the neighborhood outreach and project planning process, I found the development team to be very clear and transparent in their project goals, extremely responsive and receptive to my questions and concerns, and sincere in their intention to being great community partners.

I strongly support and encourage you to approve the 650 Divisadero Project for the following reasons:

- This project will provide affordable rental units for low and middle income residents in the Western Addition.
- The project sponsor has voluntarily increased the on-site affordable rental units.
- The on-site affordable units will provide a neighborhood preference to existing District 5 residents.
- The Project will provide retail space to further enhance the Divisadero corridor and bring more employment opportunities to the neighborhood.
- The project design is aesthetically pleasing, thoughtful, and incorporates design elements that complement the existing neighborhood.
- The San Francisco based developer has a 30+ year proven track record of successful projects and a consistent history of being a prominent supporter of District 5 businesses and non-profits.

Thank you for your consideration.

Sincerely,

Sam Mogannam

Thanks,

Sam Mogannam

I oppose 650 Divisadero for not including enough on-site affordable housing. Without sufficient affordable units, this project is neither necessary nor desirable for our neighborhood. I also oppose Supervisor Breed's latest Divisadero-Fillmore legislation, which requires only 6% on-site units to be affordable to low income households. We want more affordable housing for people who need it, not less! The parking requirements for this site are ridiculous, considering the new density allowed under recent legislation. I am already towing 1-5 vehicles out of my driveway every week now.

Hello,

I oppose 650 Divisadero for not including enough on-site affordable housing. Without sufficient affordable units, this project is neither necessary nor desirable for our neighborhood.

I also oppose Supervisor Breed's latest Divisadero-Fillmore legislation, which requires only 6% on-site units to be affordable to low income households. This is outrageously low and a giveaway to developers and a takeaway from those who can least afford it.

We want more affordable housing for people who need it, not less! Please do the right thing, and do NOT allow this to happen!

Thank you,

Subject: just not this version of 650 divisadero
Date: Saturday, April 01, 2017 11:20:18 AM

hello board of supervisors & planning commission.

there's simply not enough on-site affordable housing in the 650 divisadero plan.

we can do better. clearly the change in zoning has been a generous gift to these developers and they in turn can be more generous in their ration of on-site affordable units.

we must balance business profits with the needs of our citizenry and that's why i oppose 650 divisadero for not including enough on-site affordable housing.

without more affordable units the change in our neighborhood is irreparable. study after study shows that a mix of diversity in income levels benefit the most vulnerable in our society. we must stop building silos of wealth and silos of public housing. they must be integrated together.

& i strongly oppose Supervisor Breed's latest divisadero-fillmore legislation, which is a retraction of her campaign promises (in a reelection so close it should cause a reevaluation of policy), requiring a paltry 6% on-site units to be affordable to low income households.

again, we can do better. we want more affordable housing for people who need it and help all citizens.

thank you for your time and attention. see you thursday.

regards,
aida jones

d5 resident

ps: why was fillmore upzoned and what plans are in the works there?

Subject: Proposed 650 Divisadero Development & Fillmore/Divisadero Corridors PI an
Date: Saturday, April 01, 2017 7:54:25 PM

Re: 650 Divisadero Development proposal on April 6 Planning Commission Agenda

and Re: Fillmore/Divisadero Corridors proposal item on April 2 Board of Supervisors Land Use Committee Agenda

This should be continued until such time as the affordable units are increased to at least 23 percent for this grandfathered development as promised to the community by Supervisor Breed as per her original Fillmore/Divisadero corridor plan. And for any future residential developments, the Corridors plan should be in alignment with the Inclusionary Housing guidelines under 2016 Prop. C. The building of luxury units at 650 Divisadero, which the community sees no need for, can only be justified by the inclusion of sufficient affordable units to actually meet the community's needs.

Thank you
Lorraine Petty
District 5 voter

We want more affordable housing for people who need it, not less!

The neighborhood is rapidly changing and people who don't have a large cash surplus are left behind. I work hard everyday to pay my rent and bills but i am blessed to have affordable housing. Most of my long time neighbors were not so lucky. Most have moved away.

In the most true San Francisco fashion, i try to be open minded and welcoming to all people from all walks of life. But As hard as i try, i can't help but feel alienated in this "New SF", because it feels like the city has big plans that don't include people like me.

I strongly feel like This new plan will only deepen the divide that is already impossible to ignore in the city. The working class pays taxes, and we deserve the help we need.

Dear Supervisors and Commissioners,

As a District 5 neighbor who has lived at Hayes and Divisadero since 2008, I am writing to express my opposition to 650 Divisadero for not including enough on-site affordable housing. Without sufficient affordable units, this project is neither necessary nor desirable for our neighborhood. I worry for both the character of the area -- which is increasingly catering to high-income residents in the gentrification spiral we've all become so familiar with -- and also the needs of low-income San Francisco residents.

I also oppose Supervisor Breed's latest Divisadero-Fillmore legislation, which requires only 6% on-site units to be affordable to low income households. This is ridiculously low, and while middle-class people also need support in the city, it should not come at the expense of lower-income people. I myself am middle-income, clocking in at about the AMI, and while I do not know how I could find housing in the city if I had to leave my rent-controlled apartment, I would cringe at the thought of taking away benefits from someone who has to struggle more than I.

We want more affordable housing for people who need it, not less!

Thanks for considering this note.

We hear a lot of talk from our elected officials about the increasing inequality between the rich and the not well off but when it comes time to do something about it, the developers always are the winners.

As a long time resident of the this neighborhood, I strongly oppose 650 Divisadero for not including enough on-site affordable housing. Without sufficient affordable units, this project is neither necessary nor desirable for our neighborhood. What we love about San Francisco is fast becoming nostalgia.

I also oppose Supervisor Breed's latest Divisadero-Fillmore legislation, which requires only 6% on-site units to be affordable to low income households.

I oppose 650 Divisadero for not including enough on-site affordable housing. Without sufficient affordable units, this project is neither necessary nor desirable for our neighborhood.

I also oppose Supervisor Breed's latest Divisadero-Fillmore legislation, which requires only 6% on-site units to be affordable to low income households.

We want more affordable housing for people who need it, not less!

Thank you.

Subject: I support 650 Divisadero
Date: Monday, April 03, 2017 8:28:13 PM

To whom it may concern,

As a resident of San Francisco's District 5, I fully support more housing. I think that the Divisadero Project should go forward, and is the only way we can make headway into having enough housing that market prices become affordable for everyone. I am opposed to stopping projects to reach arbitrary affordability limits - as long as some is provided, I am satisfied. Instead, I believe we should focus on more, quality housing: the buildings that are built now will last a long time, and we must ensure that the units are large enough to provide actually comfortable housing, and that there are enough that we are adequately increasing the housing supply.

I recognize that this city is filled with special interests, but I encourage you, the leaders, to have a vision that will ultimately provide for us all in the long term. This means supporting development: we cannot afford to continue to stymie the infrastructure investments we need in both the public and private sectors.

Subject: [650 Divisadero building] Concerns regarding living conditions during construction
Date: Monday, April 03, 2017 9:30:03 PM

Dear Mr. May and Mr. Ionin,

We would like to express our concern related to some aspects of planned construction of the 650 Divisadero building. We live in the building next door (1265 Grove Street, apartment 202) and the planned construction will have direct impact on our living conditions during this time.

We would appreciate carrying the construction work only during the workweek (Monday-Friday). Given that we try to rest from intense work during the weekends, the construction noise would be highly disturbing and affect quality of life in our current apartment.

We would appreciate leaving as is the tree at the back of our building. This is actually one of the reasons we like living at 1265 Grove Street so much. Please do not remove it or make any changes to it.

I hope you will take into consideration our point of view as we are concerned about the quality of our life in this apartment during and after construction period.

Best regards,
Marta Grzymala & Rafael Rodriguez Calvo

I also oppose Supervisor Breed's latest Divisadero-Fillmore legislation, which requires only 6% on-site units to be affordable to low income households.

We want more affordable housing for people who need it, not less!

Finally, with the overwhelming use of services like Uber and tech commuter buses, I am also afraid that this larger building will make the double parking, traffic and larger vehicle traffic even worse on our already narrow, overwhelmed street/corridor. As an avid cyclist and pedestrian, care and concern to the transportation needs need to be fully taken care of.

Thanks,
Russell Howze

Subject: 650 Divisadero and protecting the Walnut Tree
Date: Wednesday, April 05, 2017 10:42:09 AM
Attachments: [photo.PNG](#)

Please forward to the San Francisco Planning Commissioners

April 3, 2017

Dear Planning Commissioners,

I am an adjacent property owner at 1261 Grove and need to ask for your help with the following:

Please require a tree protection plan for the Walnut tree at 1265 Grove to be included in the Conditional Use Permit for 650 Divisadero Street.

This old growth black walnut was planted in the 1920s making it over 90 years old. It is 4 stories tall, has a canopy that spans 3 building wide, and is a significant tree that needs to be considered when approving this proposed development. The trunk measures 12 feet in circumference and its root system has grown against and under the existing radiator building that will be demolished for under grade parking and the open space terrace at the corner of the rear property lines. The tree provides a park like aesthetics for our properties, as well as the nursing home and other residential buildings on Hayes that share this rear yard block. Our buildings at 1265 and 1261 Grove do not have much back yard open space so the Tree provides that for us. It is the reason I purchased my rear unit in November 2016.

As you consider approving the modification to rear yard setback, please remember that if the rear yard was being proposed on the first floor as required, (since there are residential units on the first floor,) this tree root system would be better protected. Perhaps a couple of the parking spots in the critical root zone need to be modified. **I request that professional tree protection arborist be consulted on the excavation for under grade stackable parking and footings within 35 feet of the trunk.**

We met with the development team for this project last week to discuss our concerns about the damage to the tree and light issues to the adjacent building. A couple of mitigation solutions that were presented involved keeping the existing radiator buildings wall that goes 7 feet under grade in the back corner where the tree is (the existing building is 10 feet from the trunk, please see attached pictures) and using a shotcrete construction method for the new wall and footings. Also the possibility of moving the ride share parking spot to this location as it will not be a stackable spot. These sound like great suggestions, and we are thankful that the architect and owner offered these. We would like these and other mitigations that a tree professional suggests to become a requirement of the CUP. (i.e. arborist on site during construction to protect and cut roots, types of excavation techniques that are root sparing, and if necessary changing the parking configuration) The Development team indicated to us, that they are open to working with an arborist, but to ensure this will really happen, it should be a requirement of the CUP.

Since a damaged tree does not die overnight, we would like to request that a **Tree Bond** be required of the developer for 5 years. Thank you for helping save this tree, we all benefit by its continued presence!!

Sincerely,

Heike Kilian

Hello,

I'm a home owner and member of the North of Panhandle community. I've been following along with the 650 Divisadero developments through the NOPNA newsletter.

I'm sure you get many emails from people expressing negative opinions about this development. I want to provide a positive one. San Francisco needs to increase its housing stock. As a neighbor, I support the exception on bulk restrictions for this project.

Regards,
Luke Duncan

Subject: I am a resident of 1265 Grove Street, San Francisco
Date: Monday, May 08, 2017 1:40:25 PM

Good afternoon:

My name is Jessica Coville and I am a resident of 1265 Grove Street in San Francisco. My understanding is that the intention for construction for 650 Divisadero Street is planned for 7 days a week. This is unacceptable. This is a residential street; this is not downtown living. There are so many reasons why this 6-story building -- the only one I see that's new along the Divisadero corridor -- is troublesome and upsetting, but it is entirely unacceptable for our weekends to be disrupted by construction. I am asking you and the planning commission to limit construction to 5 days per week.

This building -- and its false promises of "affordable housing" -- is an egregious example of the erosion of the wonderful communities in San Francisco. And if you think this is one more NIMBY complaining, you're right. This is my back yard. This land grab by realtors and AirBNBs in San Francisco marks a significant end. And as the city planning commission allows this construction to homogenize San Francisco with sameness, realize that you are also complicit in the end of what makes this city special.

Sincerely,
Jessica Coville

Subject: I oppose 650 Divisadero

To the Planning Commission and the Board of Supervisors:

I am a resident and owner on Divisadero and Fulton. Affordable housing is an issue in SF. To create only 4 affordable housing units in a 66 unit building is too low. The affordable units should not be shoe boxes either.

There are many factors to consider and the cost of construction and labor is high as is the risk of building and financing a large project. I understand the need to maximize profits for the builder/investors. For each affordable unit made available, the other market price units will have to some degree cover the costs of the lost revenue of those units.

Please make sure there is enough parking in the structure. People who spend over 1 million dollars on an apartment/condo will most likely have or need a car. Not everyone can use or rely on the public transit system. Simply not providing parking spaces will not deter them from owning a car and there is already very limited parking for the current residences and their guests.

I oppose 650 Divisadero for not including enough on-site affordable housing.

I also oppose Supervisor Breed's latest Divisadero-Fillmore legislation, which requires only 6% on-site units to be affordable to low income households.

We want more affordable housing for people who need it and we just need more quality housing.

The board may want to consider phasing out rent control and other artificial restrictions on a free housing market as there are thousands of unused and empty rental properties where the

landlord/owners deem the risk of renting too great with the current pro tenant legislation and therefore keep the units empty.

Best regards,

Kai Tiltmann

Hi Chris,

Please find my letter attached regarding the construction of 650 Divisadero. This project is literally like putting the nail in the coffin to a neighborhood I have called home for so long. I thought when Brothers BBQ left, that was the end but I guess it was just the beginning.

Thanks for your consideration,
Kelly Winter

San Francisco Planning Commission
1650 Mission Street, Suite 400
San Francisco, CA 94103

Dear Planning Commissioners,

I am writing to support the project located at 650 Divisadero. The project would provide much needed rental housing and complete the transformation of this block.

The 650 Divisadero Project should be approved for several reasons:

- This project will provide affordable rental units for low and middle income residents in the Western Addition which are in short supply.
- The San Francisco based developer has a proven record of successful projects and is voluntarily offering to increase the number of on-site affordable units.
- The Project will provide retail space to complete this important block of Divisadero Street and bring more employment to the neighborhood.

Sincerely,

Michael Klestoff

Dear Richard and Nicky,
I wish both of you a very Happy
New Year!!!

I had extremely appreciated your
renting me such a wonderful apart-
ment for 21 years.

I also thanks you very much for
your presenting me a nice dinner
at a restaurant on the North Beach.
It was just before my departure
from San Francisco a year ago.
I recall happy days spent in
your property with your staff
and both of you. Now, I have
settled in a cozy condominium
here, while my daughter still
lives on Quintara Street of the
city. I just enjoyed dancing at
a Christmas party at IKUTA Dance
Sports Academy.

I wish every
possible good
luck in your
business as well
as in your living in the city.

San Francisco, CA 94103

To Whom It May Concern:

My name is Alan L. Glenn and I am the current Executive Director of the Economic Opportunity Council of San Francisco ("EOCSF" or "EOC"). The EOCSF is a non-profit organization headquartered in the Fillmore that has been a staple of San Francisco since 1964. The Agency's Mission "is to address the problem of poverty in San Francisco by focusing resources toward eliminating the causes, conditions and impacts of poverty." In that regard, EOCSF addresses the needs of the at-risk and most vulnerable residents of our communities, the poor and disenfranchised.

I am writing this letter on behalf of Richard Szeto, who I understand has submitted a request to develop a housing property project at the intersection of Divisadero Avenue and Grove Street. The EOC has been a tenant in a building owned and managed by Mr. Szeto since 2005. As an organization, we have found Mr. Szeto to be a kind, caring and responsive landlord. He has supported us as an entity, been extremely fair concerning our rent and been generous to the Agency and our cause. I support his efforts to secure and develop this project and other properties in the City. I believe he will be a positive addition to the landscape of that community and its residents.

If you have any questions regarding my letter of support, please don't hesitate to contact me via any of the means listed below.

Kindly,

Alan L. Glenn, Executive Director
Economic Opportunity Council of San Francisco

Subject: Please approve the development at 650 Divisadero St.

Honorable President and Members of the Planning Commission,

I've been a resident of San Francisco for over 7 years and I support the approval of 650 Divisadero as proposed.

We need more housing in San Francisco to address the current shortage that is causing stresses all over the city. San Francisco will continue to be one the most attractive cities in United States and more people will move here. If we don't build units, we will continue to see gentrification and raising rents.

650 Divisadero is perfectly positioned in the Divisadero corridor on a corner lot. Tenants will be able to live there without owning a car and use public transportation. The building has an outstanding design and will fit perfectly into the neighborhood.

Please do not delay further the building of much needed housing units!

Pierre-Andre Donzier

Dear President Rodney Fong and Members of the Planning Commission:

My name is Andrea Crawford and I've been a resident of San Francisco for 6 years. My husband and I have two children attending public elementary schools in the city. We are a middle/moderate-income family and we have made San Francisco our home. We hope to purchase a home here rather than renting, but the current housing market has made this impossible for us and many families like us.

I support the approval of the development at 650 Divisadero as proposed. I believe that building additional housing inventory throughout the city will help to alleviate the housing crisis in San Francisco and make housing in the city more affordable for families like ours.

Thank you,
Andrea M. Crawford

Subject: 650 Divisadero St. project

ASNA board members,

The hearing before the San Francisco Planning Commission for the project at 650 Divisadero St. is scheduled for 1/26/17. The project has changed a little from the last time we reviewed it.

The footprint of the building has not changed, but the interior has changed. The number of units in the project has increased from 60 to 66. The affordable units will be onsite and for rent. The number of large units has increased by 7. The number of 2BR units is now 23 vs. 26 in the previous plan. The number of 3BR units has increased from 5 to 15. The number of 1BR units is now 16 vs. 21 and the number of studio units is now 12 vs. 8. The number of affordable units is now 9 vs. 8 in the previous plan. Since the affordable units are in the same proportion as the units in the building, almost 60% of the affordable units will be 2BR and 3BR units.

We have drafted a letter of support for the project based on the plan with 60 units. I view the changes as very positive for the neighborhood especially the increase in affordable units and the fact that almost 60% of those units will be 2BR and 3BR units. I support sending a letter of support for the project to the SF Planning Commission before the hearing on 1/26/17. I am planning to attend the hearing and to testify in support of the project at the hearing. I would hope that as many of our board members who can attend the hearing would come and testify in support of the project as well.

If anyone has questions about the project, call me at 415 922 7485 and I will try to answer your questions.

Regards, Owen

Re: Application 650 Divisadero St. San Francisco

For 25 years this month Julie Wong and I we have provided our physical therapy services from our leased location at 1489 Webster St. We have experienced and witnessed growth and changes in the neighborhood that continue to provide opportunity to others. The challenges that the community has faced have required undying attention on the part of the owner/developer so that we can all succeed. Without their willingness to be flexible, overcome unforeseeable changes, and participate in improving the community we would not survive to so that others would have the opportunities. In short, our ability to help our patients, employ our staff, and fill the needs of the community has been aided by WCP.

It is my understanding that I might be able to lend perspective as a tenant in an existing application. Please contact me if I can be of further assistance. If there is an opportunity to work with them on a project I would hope our city fathers recognize the value of doing so. We would support such an endeavor.

Respectfully,

Charles Young, Director

COLLECTIVE IMPACT

January 24, 2017

San Francisco Planning Commission

To whom it may concern:

I am writing to support the developers of 650 Divisadero Street. They have been long time supporters of our programs and their financial support has been extremely helpful to us.

Collective Impact is the most active youth program in the Western Addition. We manage after school programs, tutorial, enrichment and a number of other youth activities. We also have an amazing summer learning program and to work with such a large number of youth would be impossible without a number of community partners and the Szeto family has been a true friend and partner to this organization.

Please look favorably upon their proposal and allow them to build this project so they can continue to support all the good efforts in this community,

Thank you for your time and attention.

Warm Regards,

E'rika Chambers
Executive Director

PO BOX 156853 San Francisco, CA 94115

Ella Hill Hutch Community Center (415) 567-0400 Hayes Valley Clubhouse (415) 771-7228
Collective Impact, a 501c3 tax-exempt organization. FEIN: #20-8964069

BROTHERS AGAINST GUNS INC.

Shawn M. Richard

January 19, 2017

To Whom It May Concern it has recently come to my attention that the planning commission is considering a development proposal at 650 Divisadero Street. I understand the developers are the Szeto family. Some years ago after losing my two brothers to street violence here in San Francisco I wanted to do something. I had no money and no location but I had an idea and friends. A couple of my friends introduced me to Mr. Richard Szeto and I told him what I was trying to do and he supported the idea and gave me my first office space over a pizza parlor on Fillmore street and our organization had our first home . That organization was and is Brothers Against Guns. From that humble beginning we are now a nationwide organization with chapters in 16 states. I will always be grateful to Mr. Richard Szeto and the Szeto Family for believing in me and giving us a chance. I trust you will look favorably on their application. These are the kind of people we need more in San Francisco. Thank you for your time and attention.

Sincerely

A handwritten signature in black ink, appearing to read 'Shawn M. Richard', with a large, sweeping flourish extending to the right.

Shawn M. Richard

Executive Director

Brothers Against Guns Inc.

To whom it may concern:

I have lived in the Western Addition Community for over twenty years and I am writing in support of the developers of the Divco project at 650 Divisadero Street. I know that these people are strong community advocates and have lent strong financial support to every worthy cause in this community. Please support them.

A handwritten signature in black ink, appearing to read "Tyler Hagen". The signature is written in a cursive, flowing style with a horizontal line extending from the start of the first name.

CHURCH WITHOUT WALLS

San Francisco Planning Commission:

Commissioners,

Our church has been in the Western Addition for almost 20 years and during that time we have had a close relationship with American Realty and Construction Company Inc. I understand that some of their principles are involved in a new venture at 650 Divisadero Street. We have worked closely with this group since our inception and we highly recommend that you support their efforts. They are people of high integrity and committed to this community.

Sincerely,

A large, stylized handwritten signature in black ink, consisting of several loops and a long horizontal stroke extending to the right.

Rev. H.L. Davis

Dear Planning Commissioners;

My name is Royal Scott and I am the owner of RoyaltyPro Painting. Some years ago

When I started my company I had just met the people who are involved in the 650 Divisadero project and they took a chance on me even though I was just starting out, now I am working on seven figure jobs and I know that would not have been possible without their support. Please give them your full consideration.

Sincerely'

Royal Scott

To whom it may concern :

Please vote favorably on the 650 Divisadero Project so they can continue their good and supportive work in our community.

Sincerely,

A handwritten signature in black ink that reads "Sharon L. Burke". The signature is written in a cursive style with a large, stylized 'S' and 'B'.

To Whom It May Concern:

I'm writing this letter on behalf of the proposed development located at 650 Divisadero St. San Francisco. These same developers developed and managed the building wherein I reside. I lived here for one year, and these landlords have been outstanding in their management and maintenance of our residences. For example, they renovate the layout of the house in a more understanding way and do a great job on maintenance. I have always been grateful for the peaceful and harmonious environment they have created in the building here at 1489 Webster. As an international student, this place makes me feel home, and I look forward to residing here into future. Based on my experience here I support wholeheartedly and would hope that you would give them fair consideration in their new venture at 650 Divisadero St.

Sincerely,

A handwritten signature in black ink, appearing to read "Yin Cheng Chien". The signature is fluid and cursive, with the first name "Yin" being more prominent.

December 13, 2016

Letter of support for 650 Divisadero St.

To: President Rodney Fong and members of the planning commission

My name is Kayron Banisalam and I have been a resident at 1489 Webster St. for 3.5 years.

I originally lived in unit #1203, which is a converted 3 bedroom apartment. The apartment was spacious and comfortable and I had a great experience.

I now live in a studio, #607, and the apartment is great in all aspects. Overall, I've had positive experiences while living in this building. The property management is courteous, the maintenance crew is prompt and helpful and the neighbors are great too. I hope nothing but the best for Richard and his staff moving forward.

Best,

Kayron Banisalam

David,

I recently moved in to Webster Tower & Terrace (1489 Webster Street, San Francisco) in October 2016. The service I experienced before moving in, during the move-in and after has been courteous, secure and prompt. My apartmentmates and I enjoy the arrangement and the remodeled floor plans. Although the apartment has interior-facing bedrooms, we enjoy our separated bedrooms with great quality and great prices. I love my living arrangement at Webster Tower and would support the same developer, based on my current experiences, for the project at 650 Divisadero Street, San Francisco.

Thanks,
Gina

Hi David,

I am Vi Tran, a tenant at Webster Tower & Terrace on 1489 Webster Street in San Francisco since for half a year. I am writing to share with you my great experience while having lived here. The management team is professional, friendly, and efficient. They've helped me work through all my questions when I was searching for apartments, and was very upfront and clear with all the apartment amenities. Because I trusted the team, I also convinced friends and family to move into the building as well. My roommates and friends who live in the building with interior facing bedrooms said they have enjoyed their overall living experience. All the amenities, easy communication with management team, and fair pricing are key reasons we've continued and look forward to staying with Webster Tower. I wholeheartedly support the project at 650 Divisadero Street.

Best,
Vi Tran

To Whom It May Concern:

I am a tenant of apartment 1405 at Webster Tower & Terrace, 1489 Webster Street, San Francisco since July of 2016. Ever since I moved in I have been treated with the utmost respect and courtesy for every need and request. We live in a converted 3 BR unit and we are VERY satisfied with the arrangements - we feel that we are able to maximize the space and all have very comfortable and private living conditions, both the outwards facing bedrooms and the interior-facing bedroom. We have found that the interior-facing bedroom actually made our lives much easier, as there's no way we could've found a 3 BR at a reasonable price and if we'd have gone with a 2 BR we would've had to build a divider ourselves just to have some privacy, which Webster has provided to us at such a fair price. The additional perks of laundry, garbage, and a streamlined payment system have made it super convenient for us.

Even more importantly, the apartment building is always kept clean, secure, and presentable, which is above and beyond anything we could've expected. And the staff has been responsive throughout, addressing every maintenance request and question in a very timely and professional manner. I have and continue to thoroughly enjoy my stay at Webster Tower & Terrace, and I definitely support the same developer for the project at **650 Divisadero Street**, San Francisco. I will gladly answer any additional questions upon request.

Best,

To whom it may concern:

I've attached my recommendation for Webster Tower's management and floor plans.

Best,

Alexander Danilychev Jr

To Whom It May Concern:

I have been living in Webster Tower (1489 Webster Street, San Francisco) since July 23rd, 2016. The building management have been great in the time we've lived here. I feel safe walking in and out of the building, and the management team is prompt with responding to complaints/requests. We were really excited about the apartment arrangement and floor plan we received. I liked having an apartment with an interior facing bedroom because it allowed me to have a separate bedroom (more privacy) at a reasonable cost. I didn't have to convert a living room into a bedroom, which meant a lot to me! I'm still loving life at Webster Tower and I whole heartedly support the same developer for the project at 650 Divisadero Street, San Francisco.

94103-9425

To: Applicants subject to Planning Code Section 415: Inclusionary
Affordable Housing Program

From: San Francisco Planning Department

Re: Compliance with the Inclusionary Affordable Housing Program

T: 415.558.6378
F: 415.558.6409

All projects that involve ten or more new dwelling units must participate in the *Inclusionary Affordable Housing Program* contained in Section 415 of the Planning Code. Every project subject to Section 415 must pay an Affordable Housing Fee that is equivalent to the applicable percentage of the number of units in the principal project, which is 20% of the total number of units proposed (or the applicable percentage if subject to different area plan controls or requirements).

A project may be eligible for an Alternative to the Affordable Housing Fee if the developer chooses to commit to sell the new on- or off-residential units rather than offer them as rental units. Second, the project may be eligible for an Alternative to the Affordable Housing Fee if it has demonstrated to the Planning Department that the affordable units are not subject to the Costa Hawkins Rental Housing Act. All projects that can demonstrate that they are eligible for an alternative to the Affordable Housing Fee must provide the necessary documentation to the Planning Department and the Mayor's Office of Housing. Additional material may be required to determine if a project is eligible to fulfill the Program's requirements through an alternative.

Before the Planning Department and/or Planning Commission can act on the project, this *Affidavit for Compliance with the Inclusionary Affordable Housing Program* must be completed.

Affidavit for Compliance with the Inclusionary Affordable Housing Program: Planning Code Section 415

☐ This project is 100% affordable.

- c. This project will comply with the Inclusionary Affordable Housing Program by:

☐ Payment of the Affordable Housing Fee prior to the first site or building permit issuance (Planning Code Section 415.5).

☒ On-site or Off-site Affordable Housing Alternative (Planning Code Sections 415.6 and 416.7).

Affidavit for Compliance with the Inclusionary Affordable Housing Program

- d. If the project will comply with the Inclusionary Affordable Housing Program through an **On-site or Off-site Affordable Housing Alternative**, please fill out the following regarding how the project is eligible for an alternative and the accompanying unit mix tables on page 4.

☐ **Ownership.** All affordable housing units will be sold as ownership units and will remain as ownership units for the life of the project.

☒ **Rental.** Exemption from Costa Hawkins Rental Housing Act.² The Project Sponsor has demonstrated to the Department that the affordable units are not subject to the Costa Hawkins Rental Housing Act, under the exception provided in Civil Code Sections 1954.50 through one of the following:

☐ Direct financial contribution from a public entity.

☒ Development or density bonus or other public form of assistance.

☐ Development Agreement with the City. The Project Sponsor has entered into or has applied to enter into a Development Agreement with the City and County of San Francisco pursuant to Chapter 56 of the San Francisco Administrative Code and, as part of that Agreement, is receiving a direct financial contribution, development or density bonus, or other form of public assistance.

- e. The Project Sponsor acknowledges that failure to sell the affordable units as ownership units or to eliminate the on-site or off-site affordable ownership-only units at any time will require the Project Sponsor to:

(1) Inform the Planning Department and the Mayor's Office of Housing and, if applicable, fill out a new affidavit;

(2) Record a new Notice of Special Restrictions; and

(3) Pay the Affordable Housing Fee plus applicable interest (using the fee schedule in place at the time that the units are converted from ownership to rental units) and any applicable penalties by law.

- f. The Project Sponsor must pay the Affordable Housing Fee in full sum to the Development Fee Collection Unit at the Department of Building Inspection for use by the Mayor's Office of Housing prior to the issuance of the first construction document, with an option for the Project Sponsor to defer a portion of the payment to prior to issuance of the first certificate of occupancy upon agreeing to pay a deferral surcharge that would be deposited into the Citywide Affordable Housing Fund in accordance with Section 107A.13.3 of the San Francisco Building Code.

- g. I am a duly authorized officer or owner of the subject property.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

**AGREEMENT TO PROVIDE ON-SITE AFFORDABLE HOUSING UNITS BETWEEN
THE CITY AND COUNTY OF SAN FRANCISCO AND DIVCO GROUP, LLC,
RELATIVE TO THE DEVELOPMENT KNOWN AS 650 DIVISADERO STREET**

THIS AGREEMENT TO PROVIDE ON-SITE AFFORDABLE HOUSING UNITS ("Agreement") dated for reference purposes only as of this ____ day of _____, 201_, is by and amongst the CITY AND COUNTY OF SAN FRANCISCO, a political subdivision of the State of California (the "City"), acting by and through its Planning Department, and DIVCO GROUP, LLC, a California limited liability company ("Developer"), with respect to the project approved for 650 Divisadero Street (the "Project"). City and Developer are also sometimes referred to individually as a "Party" and together as the "Parties."

RECITALS

This Agreement is made with reference to the following facts:

A. Code Authorization. Chapter 4.3 of the California Government Code directs public agencies to grant concessions and incentives to private developers for the production of housing for lower income households. The Costa-Hawkins Rental Housing Act (California Civil Code Sections 1954.50 et seq., hereafter "Costa-Hawkins Act") imposes limitations on the establishment of the initial and all subsequent rental rates for a dwelling unit with a certificate of occupancy issued after February 1, 1995, with exceptions, including an exception for dwelling units constructed pursuant to a contract with a public entity in consideration for a direct financial contribution or any other form of assistance specified in Chapter 4.3 of the California Government Code (Section 1954.52(b)). Pursuant to Civil Code Section 1954.52(b), the City's Board of Supervisors has enacted as part of the Inclusionary Affordable Housing Program, Planning Code Section 415 et seq, procedures and requirements for entering into an agreement with a private developer to memorialize the concessions and incentives granted to the developer and to provide an exception to the Costa-Hawkins Act for the inclusionary units included in the developer's project.

B. Property Subject to this Agreement. The property that is the subject of this Agreement consists of the real property in the City and County of San Francisco at Assessor's Block 1202, Lot 002B, located on the southeast corner of Divisadero Street and Grove Street (hereinafter "Property"). The Property is more particularly described in Exhibit A attached hereto. The Property is owned in fee by Developer.

C. Development Proposal: Intent of the Parties. The Developer proposes to demolish an existing one-story auto repair warehouse building at the Property and construct an approximately 57,342 gross square foot, 6-story mixed-use building, containing 66 dwelling units in a mix of studios, junior one-bedrooms, one-bedrooms, two-bedrooms, and three-bedrooms, with 3,528 square feet of ground floor commercial space. The proposed project would include open space in a common rear yard on the second level and on a common roof deck. A ground level parking garage and bike room would provide 24 residential automobile parking spaces and 66 Class 1 bike parking spaces. The dwelling units would be offered as rental units and the inclusionary affordable housing would be provided on-site. The Project would fulfill its inclusionary affordable housing requirement by providing 13.5% of the dwelling units, or 9 below-market rate (BMR) units, on-site, assuming that 66 residential units are constructed.

On _____, 2017, pursuant to Motion No. _____, the San Francisco Planning Commission issued a Conditional Use Authorization for the Project under Section 303 to allow the development of a 12,500 square foot lot pursuant to Planning Code Sections 121.1 and 746.11, and providing for an exception from the bulk requirements pursuant to Planning Code Sections 271 and 746.10 as well as a modification of the rear yard requirement pursuant to Planning Code Section 134. A Notice of Special Restrictions containing Conditions of Approval of the Conditional Use Authorization was recorded against the Property on _____, 2017 (NSR No. _____).

The Conditional Use Authorization is referred to herein as the "Project Approval". The dwelling units that are the subject of this Agreement are the Project's on-site inclusionary units representing thirteen and five-tenths percent (13.5%) of the Project's dwelling units, which assuming that 66 dwelling units are constructed, would total 9 inclusionary units (the "Inclusionary Units"). The dwelling units in the Project that are not Inclusionary Units, representing eighty-six and five-tenths percent (86.5%) of the Project's dwelling units, which assuming that 66 units are constructed would total 57 units, are referred to herein as the "Market Rate Units."

This Agreement is not intended to impose restrictions on the Market Rate Units, any portions of the Project other than the Inclusionary Units, or any future development at the Property that is not a part of the Project. This Agreement relates solely to the Inclusionary Units and shall have no legal effect in the event that the Project is not constructed. The Parties acknowledge that this Agreement is entered into in consideration of the respective burdens and benefits of the Parties contained in this Agreement and in reliance on their agreements, representations and warranties.

D. Inclusionary Affordable Housing Program. The Inclusionary Affordable Housing Program, San Francisco Planning Code Section 415 et seq. (the "Affordable Housing Program") provides that developers of any housing project consisting of ten or more units must pay an Affordable Housing Fee, as defined therein. The Affordable Housing Program provides that developers may be eligible to meet the requirements of the program through the alternative means of entering into an agreement with the City and County of San Francisco pursuant to Chapter 4.3 of the California Government Code, for concessions and incentives, pursuant to which the developer covenants to provide affordable on-site units as an alternative to payment of

the Affordable Housing Fee to satisfy the requirements of the Affordable Housing Program and in consideration of the City's concessions and incentives.

E. Developer's Election to Provide On-Site Units. Developer has elected to enter into this Agreement to provide the Inclusionary Units in lieu of payment of the Affordable Housing Fee in satisfaction of its obligation under the Affordable Housing Program and to provide for an exception to the rent restrictions of the Costa-Hawkins Act for the Inclusionary Units only.

F. Compliance with All Legal Requirements. It is the intent of the Parties that all acts referred to in this Agreement shall be accomplished in such a way as to fully comply with the California Environmental Quality Act (Public Resources Code Section 21000 et seq., "CEQA"), Chapter 4.3 of the California Government Code, the Costa-Hawkins Act, the San Francisco Planning Code, and all other applicable laws and regulations.

G. Project's Compliance with CEQA. Pursuant to section 15332 of the CEQA Guidelines (Class 32 – Infill Development Projects) and Chapter 31 of the San Francisco Administrative Code, the Planning Department published a Categorical Exemption Certificate ("CatEx") from Environmental Review for the Project on June 13, 2016. The Planning Commission subsequently reviewed and concurred with the information contained in the CatEx at a noticed public hearing on _____, 2017 (Motion No. _____).

H. General Plan Findings. This Agreement is consistent with the objectives, policies, general land uses and programs specified in the General Plan and any applicable area or specific plan, and the Priority Policies enumerated in Planning Code Section 101.1, as set forth in Planning Commission Motion No. _____.

AGREEMENT

The Parties acknowledge the receipt and sufficiency of good and valuable consideration and agree as follows:

1. GENERAL PROVISIONS

1.1 Incorporation of Recitals and Exhibits. The preamble paragraph, Recitals, and Exhibits, and all defined terms contained therein, are hereby incorporated into this Agreement as if set forth in full.

2. CITY'S DENSITY BONUS AND CONCESSIONS AND INCENTIVES FOR THE INCLUSIONARY UNITS.

2.1 Exceptions, Concessions and Incentives. The Developer has received the following exceptions, concessions and incentives for the production of the Inclusionary Units on-site.

2.1.1 Project Approval and Density Bonus. The Project Approval included the Conditional Use Authorization allowing an exception from the bulk requirements at the 5th and 6th floors pursuant to Planning Code Section 271. This Project Approval permitted development

of the Project at a greater density than would otherwise have been permitted under the Planning Code.

2.1.2 Waiver of Affordable Housing Fee. City hereby determines that the Developer has satisfied the requirements of the Affordable Housing Program by covenanting to provide the Inclusionary Units on-site, as provided in Section 3.1, and accordingly hereby waives the obligation of the Developer to pay the Affordable Housing Fee. City would not be willing to enter into this Agreement and waive the Affordable Housing Fee without the understanding and agreement that Costa-Hawkins Act provisions set forth in California Civil Code section 1954.52(a) do not apply to the Inclusionary Units as a result of the exemption set forth in California Civil Code section 1954.52(b). Upon completion of the Project and identification of the Inclusionary Units, Developer agrees to record a notice of restriction against the Inclusionary Units in the form required by the Affordable Housing Program.

2.2 Costa-Hawkins Act Inapplicable to Inclusionary Units Only.

2.2.1 Inclusionary Units. The parties acknowledge that, under Section 1954.52(b) of the Costa-Hawkins Act, the Inclusionary Units are not subject to the Costa Hawkins Act. Through this Agreement, Developer hereby enters into an agreement with a public entity in consideration for forms of concessions and incentives specified in California Government Code Sections 65915 et seq. The concessions and incentives are comprised of, but not limited to, the concessions and incentives set forth in Section 2.1.

2.2.2 Market Rate Units. The Parties hereby agree and acknowledge that this Agreement does not alter in any manner the way that the Costa-Hawkins Act or any other law, including the City's Rent Stabilization and Arbitration Ordinance (Chapter 37 of the San Francisco Administrative Code) apply to the Market Rate Units.

3. COVENANTS OF DEVELOPER

3.1 On-Site Inclusionary Affordable Units. In consideration of the concessions and incentives set forth in Section 2.1 and in accordance with the terms and conditions set forth in the Affordable Housing Program and the Project Approval, upon Developer obtaining its first certificate of occupancy for the Project, Developer shall provide thirteen and five-tenths percent (13.5%) of the dwelling units as on-site Inclusionary Units in lieu of payment of the Affordable Housing Fee. For example, based on the contemplated total of 66 units comprising the Project, a total of 9 Inclusionary Units would be required in the aggregate for the entire Project in lieu of payment of the Affordable Housing Fee.

3.2 Developer's Waiver of Rights Under the Costa-Hawkins Act Only as to the Inclusionary Units. The Parties acknowledge that under the Costa-Hawkins Act, the owner of newly constructed residential real property may establish the initial and all subsequent rental rates for dwelling units in the property without regard to the City's Residential Rent Stabilization and Arbitration Ordinance (Chapter 37 of the San Francisco Administrative Code). The Parties also understand and agree that the Costa-Hawkins Act does not and in no way shall limit or otherwise affect the restriction of rental charges for the Inclusionary Units because this Agreement falls within an express exception to the Costa-Hawkins Act as a contract with a

public entity in consideration for a direct financial contribution or other forms of assistance specified in Chapter 4.3 (commencing with section 65915) of Division 1 of Title 7 of the California Government Code including but not limited to the density bonus, concessions and incentives specified in Section 2. Developer acknowledges that the density bonus and concessions and incentives result in identifiable and actual cost reductions to the Project. Should the Inclusionary Units be deemed subject to the Costa-Hawkins Act, as a material part of the consideration for entering into this Agreement, Developer, on behalf of itself and all its successors and assigns to this Agreement, hereby expressly waives, now and forever, any and all rights it may have under the Costa-Hawkins Act with respect only to the Inclusionary Units (but only the Inclusionary Units and not as to the Market Rate Units) consistent with Section 3.1 of this Agreement. Without limiting the foregoing, Developer, on behalf of itself and all successors and assigns to this Agreement, agrees not to bring any legal or other action against City seeking application of the Costa-Hawkins Act to the Inclusionary Units for so long as the Inclusionary Units are subject to the restriction on rental rates pursuant to the Affordable Housing Program. The Parties understand and agree that the City would not be willing to enter into this Agreement without the waivers and agreements set forth in this Section 3.2.

3.3 Developer's Waiver of Right to Seek Waiver of Affordable Housing Program. Developer specifically agrees to be bound by all of the provisions of the Affordable Housing Program applicable to on-site inclusionary units with respect to the Inclusionary Units. Developer covenants and agrees that it will not seek a waiver of the provisions of the Affordable Housing Program applicable to the Inclusionary Units.

3.4 No Obligation to Construct. By entering into this Agreement, Developer is not assuming any obligation to construct the Project, and the covenants of Developer hereunder become operative only in the event Developer elects to proceed with construction of the Project.

4. MUTUAL OBLIGATIONS

4.1 Good Faith and Fair Dealing. The Parties shall cooperate with each other and act in good faith in complying with the provisions of this Agreement and implementing the Project Approval.

4.2 Other Necessary Acts. Each Party shall execute and deliver to the other all further instruments and documents as may be reasonably necessary to carry out this Agreement, the Project Approval, the Affordable Housing Program (as applied to the Inclusionary Units) and applicable law in order to provide and secure to each Party the full and complete enjoyment of its rights and privileges hereunder.

4.3 Effect of Future Changes to Affordable Housing Program. The City hereby acknowledges and agrees that, in the event that the City adopts changes to the Affordable Housing Program after the date this Agreement is executed by both Parties, nothing in this Agreement shall be construed to limit or prohibit any rights Developer may have to modify Project requirements with respect to the Inclusionary Units to the extent permitted by such changes to the Affordable Housing Program.

5. DEVELOPER REPRESENTATIONS, WARRANTIES AND COVENANTS.

5.1 Interest of Developer. Developer represents that it is the legal and equitable fee owner of the Property, that it has the power and authority to bind all other persons with legal or equitable interest in the Property to the terms of this Agreement, and that all other persons holding legal or equitable interest in the Inclusionary Units are to be bound by this Agreement. Developer is a limited liability company, duly organized and validly existing and in good standing under the laws of the State of California. Developer has all requisite power and authority to own property and conduct business as presently conducted. Developer has made all filings and is in good standing in the State of California.

5.2 No Conflict With Other Agreements; No Further Approvals; No Suits. Developer warrants and represents to the best of its knowledge that it is not a party to any other agreement that would conflict with the Developer's obligations under this Agreement. Neither Developer's articles of organization, bylaws, or operating agreement, as applicable, nor any other agreement which Developer is a party to in any way prohibits, limits or otherwise affects the right or power of Developer to enter into and perform all of the terms and covenants of this Agreement. To the best of Developer's knowledge, no consent, authorization or approval of, or other action by, and no notice to or filing with, any governmental authority, regulatory body or any other person is required for the due execution, delivery and performance by Developer of this Agreement or any of the terms and covenants contained in this Agreement. To Developer's knowledge, there are no pending or threatened suits or proceedings or undischarged judgments affecting Developer or any of its members before any court, governmental agency, or arbitrator which might materially adversely affect Developer's business, operations, or assets or Developer's ability to perform under this Agreement.

5.3 No Inability to Perform; Valid Execution. Developer warrants and represents that it has no knowledge of any inability to perform its obligations under this Agreement. The execution and delivery of this Agreement and the agreements contemplated hereby by Developer have been duly and validly authorized by all necessary action. This Agreement will be a legal, valid and binding obligation of Developer, enforceable against Developer in accordance with its terms.

5.4 Conflict of Interest. Through its execution of this Agreement, the Developer acknowledges that it is familiar with the provisions of Section 15.103 of the City's Charter, Article III, Chapter 2 of the City's Campaign and Governmental Conduct Code, and Section 87100 et seq. and Section 1090 et seq. of the California Government Code, and certifies that it does not know of any facts which constitute a violation of said provisions and agrees that it will immediately notify the City if it becomes aware of any such fact during the term of this Agreement.

5.5 Notification of Limitations on Contributions. Through execution of this Agreement, the Developer acknowledges that it is familiar with Section 1.126 of City's Campaign and Governmental Conduct Code, which prohibits any person who contracts with the City, whenever such transaction would require approval by a City elective officer or the board on which that City elective officer serves, from making any campaign contribution to the officer at any time from the commencement of negotiations for the contract until three (3) months after the

date the contract is approved by the City elective officer or the board on which that City elective officer serves. San Francisco Ethics Commission Regulation 1.126-1 provides that negotiations are commenced when a prospective contractor first communicates with a City officer or employee about the possibility of obtaining a specific contract. This communication may occur in person, by telephone or in writing, and may be initiated by the prospective contractor or a City officer or employee. Negotiations are completed when a contract is finalized and signed by the City and the contractor. Negotiations are terminated when the City and/or the prospective contractor end the negotiation process before a final decision is made to award the contract.

5.6 Nondiscrimination. In the performance of this Agreement, Developer agrees not to discriminate on the basis of the fact or perception of a person's, race, color, creed, religion, national origin, ancestry, age, height, weight, sex, sexual orientation, gender identity, domestic partner status, marital status, disability or Acquired Immune Deficiency Syndrome or HIV status (AIDS/HIV status), or association with members of such protected classes, or in retaliation for opposition to discrimination against such classes, against any City employee, employee of or applicant for employment with the Developer, or against any bidder or contractor for public works or improvements, or for a franchise, concession or lease of property, or for goods or services or supplies to be purchased by the Developer. A similar provision shall be included in all subordinate agreements let, awarded, negotiated or entered into by the Developer for the purpose of implementing this Agreement.

6. AMENDMENT; TERMINATION

6.1 Amendment or Termination. Except as provided in Sections 6.2 (Automatic Termination) and 8.3 (Remedies for Default), this Agreement may only be amended or terminated with the mutual written consent of the Parties.

6.1.1 Amendment Exemptions. No amendment of the Project Approval shall require an amendment to this Agreement. Upon approval, any such matter shall be deemed to be incorporated automatically into the Project and this Agreement (subject to any conditions set forth in the amendment). Notwithstanding the foregoing, in the event of any direct conflict between the terms of this Agreement and any amendment to the Project Approval, then the terms of this Agreement shall prevail and any amendment to this Agreement shall be accomplished as set forth in Section 6.1 above.

6.2 Automatic Termination. This Agreement shall automatically terminate in the event that the Inclusionary Units are no longer subject to regulation as to the rental rates of the Inclusionary Units and/or the income level of households eligible to rent the Inclusionary Units under the Affordable Housing Program, or successor program.

7. TRANSFER OR ASSIGNMENT; RELEASE; RIGHTS OF MORTGAGEES; CONSTRUCTIVE NOTICE

7.1 Agreement Runs With The Land. City acknowledges that Developer may assign or transfer its rights, duties and obligations under the Project Approval and this Agreement and/or convey any interest it owns in the Property to another person or entity without City consent. Any assignee or successor to Developer's rights to the Project Approval and/or

Property shall be referred to herein as a “Transferee”. Any Transferee may also subsequently assign or transfer its rights, duties and obligations under this Agreement and/or convey any interest it owns in the Property to another person or entity. As provided in Section 9.2, this Agreement runs with the land and any Transferee will be bound by all of the terms and conditions of this Agreement.

7.2 Rights of Developer. The provisions in this Section 7 shall not be deemed to prohibit or otherwise restrict Developer from (i) granting easements or licenses or similar agreements to facilitate development of the Property, (ii) encumbering the Property or any portion of the improvements thereon by any mortgage, deed of trust, or other device securing financing with respect to the Property or Project, (iii) granting one or more leasehold interests in all or any portion of the Property, or (iv) transferring all or a portion of the Property pursuant to a sale, transfer pursuant to foreclosure, conveyance in lieu of foreclosure, or other remedial action in connection with a mortgage. None of the terms, covenants, conditions, or restrictions of this Agreement or the Project Approval shall be deemed waived by City by reason of the rights given to the Developer pursuant to this Section 7.2. Furthermore, although the Developer initially intends to operate the Project on a rental basis, nothing in this Agreement shall prevent Developer from later selling all or part of the Project on a condominium basis, provided that such sale is permitted by, and complies with, all applicable City and State laws including, but not limited to that, with respect to any inclusionary units, those shall only be sold pursuant to the City Procedures for sale of inclusionary units under the Affordable Housing Program.

7.3 Developer’s Responsibility for Performance. If Developer transfers or assigns all or any portion of the Property or any interest therein to any other person or entity, Developer shall continue to be responsible for performing the obligations under this Agreement as to the transferred property interest until such time as there is delivered to the City a legally binding agreement pursuant to which the Transferee assumes and agrees to perform Developer’s obligations under this Agreement from and after the date of transfer of the Property (or an interest therein) to the Transferee (an “Assignment and Assumption Agreement”), but not thereafter. The City is entitled to enforce each and every such obligation assumed by the Transferee directly against the Transferee as if the Transferee were an original signatory to this Agreement with respect to such obligation. Accordingly, in any action by the City against a Transferee to enforce an obligation assumed by the Transferee, the Transferee shall not assert any defense against the City’s enforcement of performance of such obligation that is attributable to Developer’s breach of any duty or obligation to the Transferee arising out of the transfer or assignment, the Assignment and Assumption Agreement, the purchase and sale agreement, or any other agreement or transaction between the Developer and the Transferee. The transferor Developer shall remain responsible for the performance of all of its obligations under the Agreement prior to the date of transfer, and shall remain liable to the City for any failure to perform such obligations prior to the date of the transfer.

7.4 Release Upon Transfer or Assignment. Upon the Developer’s transfer or assignment of all or a portion of the Property or any interest therein, including the Developer’s rights and interests under this Agreement, the Developer shall be released from any obligations required to be performed from and after the date of transfer under this Agreement with respect to the portion of the Property so transferred; provided, however, that (i) the Developer is not then in default under this Agreement and (ii) the Transferee executes and delivers to the City the legally

binding Assignment and Assumption Agreement. Following any transfer, in accordance with the terms of this Section 7, a default under this Agreement by the Transferee shall not constitute a default by the Developer under this Agreement and shall have no effect upon the Developer's rights under this Agreement as to the remaining portions of the Property owned by the Developer. Further, a default under this Agreement by the Developer as to any portion of the Property not transferred or a default under this Agreement by the Developer prior to the date of transfer shall not constitute a default by the Transferee and shall not affect any of Transferee's rights under this Agreement.

7.5 Rights of Mortgagees: Not Obligated to Construct: Right to Cure Default.

7.5.1 Notwithstanding anything to the contrary contained in this Agreement (including without limitation those provisions that are or are intended to be covenants running with the land), a mortgagee or beneficiary under a deed of trust, including any mortgagee or beneficiary who obtains title to the Property or any portion thereof as a result of foreclosure proceedings or conveyance or other action in lieu thereof, or other remedial action, ("Mortgagee") shall not be obligated under this Agreement to construct or complete the Inclusionary Units required by this Agreement or to guarantee their construction or completion solely because the Mortgagee holds a mortgage or other interest in the Property or this Agreement. A breach of any obligation secured by any mortgage or other lien against the mortgaged interest or a foreclosure under any mortgage or other lien shall not by itself defeat, diminish, render invalid or unenforceable, or otherwise impair the obligations or rights of the Developer under this Agreement.

7.5.2 Subject to the provisions of Section 7.5.1, any person, including a Mortgagee, who acquires title to all or any portion of the mortgaged property by foreclosure, trustee's sale, deed in lieu of foreclosure, or otherwise shall succeed to all of the rights and obligations of the Developer under this Agreement and shall take title subject to all of the terms and conditions of this Agreement. Nothing in this Agreement shall be deemed or construed to permit or authorize any such holder to devote any portion of the Property to any uses, or to construct any improvements, other than the uses and improvements provided for or authorized by the Project Approval and this Agreement.

7.5.3 If City receives a written notice from a Mortgagee or from Developer requesting a copy of any Notice of Default delivered to Developer and specifying the address for service thereof, then City shall deliver to such Mortgagee, concurrently with service thereon to Developer, any Notice of Default delivered to Developer under this Agreement. In accordance with Section 2924 of the California Civil Code, City hereby requests that a copy of any notice of default and a copy of any notice of sale under any mortgage or deed of trust be mailed to City at the address shown on the first page of this Agreement for recording, provided that no Mortgagee or trustee under a deed of trust shall incur any liability to the City for any failure to give any such notice of default or notice of sale except to the extent the City records a request for notice of default and notice of sale in compliance with Section 2924b of the California Civil Code (a "Request for Special Notice") with respect to a specific mortgage or deed of trust and the Mortgagee or trustee fails to give any notice required under Section 2924b of the California Civil Code as a result of the recordation of a Request for Special Notice.

7.5.4 A Mortgagee shall have the right, at its option, but no obligation, to cure any default or breach by the Developer under this Agreement within the same time period as Developer has to remedy or cause to be remedied any default or breach, plus an additional period of (i) thirty (30) calendar days to cure a default or breach by the Developer to pay any sum of money required to be paid hereunder and (ii) ninety (90) days to cure or commence to cure a non-monetary default or breach and thereafter to pursue such cure diligently to completion; provided that if the Mortgagee cannot cure a non-monetary default or breach without acquiring title to the Property, then so long as Mortgagee is diligently pursuing foreclosure of its mortgage or deed of trust, Mortgagee shall have until ninety (90) days after completion of such foreclosure to cure such non-monetary default or breach. Mortgagee may add the cost of such cure to the indebtedness or other obligation evidenced by its mortgage, provided that if the breach or default is with respect to the construction of the improvements on the Property, nothing contained in this Section or elsewhere in this Agreement shall be deemed to permit or authorize such Mortgagee, either before or after foreclosure or action in lieu thereof or other remedial measure, to undertake or continue the construction or completion of the improvements (beyond the extent necessary to conserve or protect improvements or construction already made) without first having expressly assumed the obligation to the City, by written agreement reasonably satisfactory to the City, to complete in the manner provided in this Agreement the improvements on the Property or the part thereof to which the lien or title of such Mortgagee relates. Notwithstanding a Mortgagee's agreement to assume the obligation to complete in the manner provided in this Agreement the improvements on the Property or the part thereof acquired by such Mortgagee, the Mortgagee shall have the right to abandon completion of the improvement at any time thereafter.

7.5.5 If at any time there is more than one mortgage constituting a lien on any portion of the Property, the lien of the Mortgagee prior in lien to all others on that portion of the mortgaged property shall be vested with the rights under this Section 7.5 to the exclusion of the holder of any junior mortgage; provided that if the holder of the senior mortgage notifies the City that it elects not to exercise the rights sets forth in this Section 7.5, then each holder of a mortgage junior in lien in the order of priority of their respective liens shall have the right to exercise those rights to the exclusion of junior lien holders. Neither any failure by the senior Mortgagee to exercise its rights under this Agreement nor any delay in the response of a Mortgagee to any notice by the City shall extend Developer's or any Mortgagee's rights under this Section 7.5. For purposes of this Section 7.5, in the absence of an order of a court of competent jurisdiction that is served on the City, a then current title report of a title company licensed to do business in the State of California and having an office in the City setting forth the order of priority of lien of the mortgages shall be reasonably relied upon by the City as evidence of priority. Nothing in this Agreement shall impair the foreclosure rights of any mortgagee.

7.6 Constructive Notice. Every person or entity who now or hereafter owns or acquires any right, title or interest in or to any portion of the Project or the Property is and shall be constructively deemed to have consented and agreed to every provision contained herein, whether or not any reference to this Agreement is contained in the instrument by which such person acquired an interest in the Project or the Property.

8. ENFORCEMENT OF AGREEMENT; REMEDIES FOR DEFAULT; DISPUTE RESOLUTION

8.1 Enforcement. The only parties to this Agreement are the City and the Developer. This Agreement is not intended, and shall not be construed, to benefit or be enforceable by any other person or entity whatsoever.

8.2 Default. For purposes of this Agreement, the following shall constitute a default under this Agreement: the failure to perform or fulfill any material term, provision, obligation, or covenant hereunder and the continuation of such failure for a period of thirty (30) calendar days following a written notice of default and demand for compliance; provided, however, if a cure cannot reasonably be completed within thirty (30) days, then it shall not be considered a default if a cure is commenced within said 30-day period and diligently prosecuted to completion thereafter, but in no event later than one hundred twenty (120) days.

8.3 Remedies for Default. In the event of an uncured default under this Agreement, the remedies available to a Party shall include specific performance of the Agreement in addition to any other remedy available at law or in equity.

8.4 No Waiver. Failure or delay in giving notice of default shall not constitute a waiver of default, nor shall it change the time of default. Except as otherwise expressly provided in this Agreement, any failure or delay by a Party in asserting any of its rights or remedies as to any default shall not operate as a waiver of any default or of any such rights or remedies; nor shall it deprive any such Party of its right to institute and maintain any actions or proceedings that it may deem necessary to protect, assert, or enforce any such rights or remedies.

9. MISCELLANEOUS PROVISIONS

9.1 Entire Agreement. This Agreement, including the preamble paragraph, Recitals and Exhibits, constitute the entire understanding and agreement between the Parties with respect to the subject matter contained herein.

9.2 Binding Covenants; Run With the Land. From and after recordation of this Agreement, all of the provisions, agreements, rights, powers, standards, terms, covenants and obligations contained in this Agreement shall be binding upon the Parties, and their respective heirs, successors (by merger, consolidation, or otherwise) and assigns, and all persons or entities acquiring the Property, any lot, parcel or any portion thereof, or any interest therein, whether by sale, operation of law, or in any manner whatsoever, and shall inure to the benefit of the Parties and their respective heirs, successors (by merger, consolidation or otherwise) and assigns. Regardless of whether the procedures in Section 7 are followed, following recordation of this Agreement all of its provisions shall be enforceable during the term hereof as equitable servitudes and constitute covenants and benefits running with the land pursuant to applicable law, including but not limited to California Civil Code Section 1468.

9.3 Applicable Law and Venue. This Agreement has been executed and delivered in and shall be interpreted, construed, and enforced in accordance with the laws of the State of California. All rights and obligations of the Parties under this Agreement are to be performed in the City and County of San Francisco, and such City and County shall be the venue for any legal

action or proceeding that may be brought, or arise out of, in connection with or by reason of this Agreement.

9.4 Construction of Agreement. The Parties have mutually negotiated the terms and conditions of this Agreement and its terms and provisions have been reviewed and revised by legal counsel for both City and Developer. Accordingly, no presumption or rule that ambiguities shall be construed against the drafting Party shall apply to the interpretation or enforcement of this Agreement. Language in this Agreement shall be construed as a whole and in accordance with its true meaning. The captions of the paragraphs and subparagraphs of this Agreement are for convenience only and shall not be considered or referred to in resolving questions of construction. Each reference in this Agreement to this Agreement or the Project Approval shall be deemed to refer to the Agreement or the Project Approval as it may be amended from time to time pursuant to the provisions of the Agreement, whether or not the particular reference refers to such possible amendment.

9.5 Project Is a Private Undertaking: No Joint Venture or Partnership.

9.5.1 The development proposed to be undertaken by Developer on the Property is a private development. The City has no interest in, responsibility for, or duty to third persons concerning any of said improvements. The Developer shall exercise full dominion and control over the Property, subject only to the limitations and obligations of the Developer contained in this Agreement or in the Project Approval.

9.5.2 Nothing contained in this Agreement, or in any document executed in connection with this Agreement, shall be construed as creating a joint venture or partnership between the City and the Developer. Neither Party is acting as the agent of the other Party in any respect hereunder. The Developer is not a state or governmental actor with respect to any activity conducted by the Developer hereunder.

9.6 Signature in Counterparts. This Agreement may be executed in duplicate counterpart originals, each of which is deemed to be an original, and all of which when taken together shall constitute one and the same instrument.

9.7 Time of the Essence. Time is of the essence in the performance of each and every covenant and obligation to be performed by the Parties under this Agreement.

9.8 Notices. Any notice or communication required or authorized by this Agreement shall be in writing and may be delivered personally or by registered mail, return receipt requested. Notice, whether given by personal delivery or registered mail, shall be deemed to have been given and received upon the actual receipt by any of the addressees designated below as the person to whom notices are to be sent. Either Party to this Agreement may at any time, upon written notice to the other Party, designate any other person or address in substitution of the person and address to which such notice or communication shall be given. Such notices or communications shall be given to the Parties at their addresses set forth below:

To City:

John Rahaim
Director of Planning
San Francisco Planning Department
1650 Mission Street
San Francisco, California 94102

with a copy to:

Attn: John Kevlin

9.9 Severability. If any term, provision, covenant, or condition of this Agreement is held by a court of competent jurisdiction to be invalid, void, or unenforceable, the remaining provisions of this Agreement shall continue in full force and effect unless enforcement of the remaining portions of the Agreement would be unreasonable or grossly inequitable under all the circumstances or would frustrate the purposes of this Agreement.

9.10 MacBride Principles. The City urges companies doing business in Northern Ireland to move toward resolving employment inequities and encourages them to abide by the MacBride Principles as expressed in San Francisco Administrative Code Section 12F.1 et seq. The City also urges San Francisco companies to do business with corporations that abide by the MacBride Principles. Developer acknowledges that it has read and understands the above statement of the City concerning doing business in Northern Ireland.

9.11 Tropical Hardwood and Virgin Redwood. The City urges companies not to import, purchase, obtain or use for any purpose, any tropical hardwood, tropical hardwood wood product, virgin redwood, or virgin redwood wood product.

9.12 Sunshine. The Developer understands and agrees that under the City's Sunshine Ordinance (San Francisco Administrative Code, Chapter 67) and the State Public Records Law (Gov't Code Section 6250 et seq.), this Agreement and any and all records, information, and materials submitted to the City hereunder are public records subject to public disclosure.

9.13 Effective Date. This Agreement will become effective on the date that the last Party duly executes and delivers this Agreement. This Agreement shall remain in effect for the life of the Project.

IN WITNESS WHEREOF, the Parties hereto have executed this Agreement as of the day and year first above written.

Patent Pending

DERO DECKER™

- Lift-assist top trays
- Top trays fold vertically for easy loading
- Modular Single & Double-sided options

The Dero Decker™ takes bike parking to the next level — literally. By stacking bikes on a two-tiered system, capacity doubles. Unlike other double decker systems our lift-assist top trays slide down inches from the ground, thus requiring only minimal lifting of the bike into the tray. The front wheel safety locking lever and tray dampers provide safe lowering of upper trays. The vertical load trays also reduce the required aisle space, giving the Dero Decker™ the smallest footprint on the market.

The Dero Decker™ is modular and available in single and double-sided configurations. Call for a free layout today!

Visit our web site for videos and more product information.

ULTRA SPACE SAVER

Submittal Sheet

CAPACITY

Modular construction
1 Bike per arm

MATERIALS

Hanger is 1" diameter tube with 1/2" steel rod and retaining disk at each end.
Upright is 2" square tube.
Feet are AISI C3 x 4.1 galvanized steel channel.
Crossbeams are 1.25" sched. 40 galvanized pipe (1.660" OD)
Spacers are 2.375" OD plastic tubes with .218" wall thickness.

FINISHES

Black powder coat
Cross bars: hot dipped galvanized
Hanger rods: rubber coated
Spacers: plastic

☐ Powder Coat

Our powder coat finish assures a high level of adhesion and durability by following these steps:

1. Sandblast
2. Epoxy primer electrostatically applied (exterior only)
3. Final thick TGIC polyester powder coat

MOUNT OPTIONS

☐ **Floor Mount**

Ultra Space Savers have steel channel feet (30" for single sided and 56" for double sided units) which must be anchored to the floor.

☐ **Wall Mount**

A wall mounted unit which contains special brackets is also available.

☐ Include optional wheelstops

WHEEL STOPS

Estimating Your Bike Capacity

Estimating the maximum number of bikes you can park using an Ultra Space Saver in a typical rectangular space is usually fairly straight forward.

The Ultra Space Saver parks one bike every 16" with a typical bike extending out 40" from the wall. Leave a 36" aisle between rows. Add an 8" buffer on each end of a run to allow enough space for handlebars.

If you have a large space, you may be able to fit in double rows of Ultra Space Savers.

Let us Help! As a free service, Dero will provide a complete CAD layout of your space. Just send us the dimensions of your room, being sure to note the location of doors, columns, etc. and let us maximize your bike storage capacity.

As a general rule of thumb, this space can fit approximately 60 bicycles.

www.dero.com | 1-888-337-6729

© 2016 Dero

ULTRA SPACE SAVER

Installation Instructions

The Ultra Space Saver has several steps for installation. Note that the single and double sided setups and parts are different. Make sure you follow the instructions according to the model you ordered.

Recommended Base Materials:

Solid concrete is the best base material for installation. Make sure nothing is underneath the base material that could be damaged by drilling (i.e. post-tension cable). Use the $3/8"$ wedge anchors that are included to install the rack into the concrete (wall anchors are $3"$).

Installation:

Sort out the parts to the rack and identify each of them accordingly. The 1" carriage bolts are for assembly of the rack and the 3.75" wedge anchors are for mounting the rack to the floor.

Reading your Dero designed layout

Ultra Space Savers come in varying configurations, making it **very important** that you carefully follow the layout provided by Dero when installing the racks. If you do not follow the diagram, you may well end up short of parts. The length of each Ultra Space Saver unit is indicated by a number ranging from B²-B⁷ in the layout. This number corresponds to the length of crossbeams to be installed. In the example provided below the Ultra Space Saver is to be installed starting with two B⁴ units, which have 44" crossbeams, followed by a B⁵, which has 76" crossbeams.
