Planning
Information:
415.558.6377

PROJECT DESCRIPTION

The proposal is to establish a new Medical Cannabis Dispensary (dba “Green God’s Compassion”) at 100 Sickles Avenue. No physical expansion to the structure is proposed as part of the project. The proposed Medical Cannabis Dispensary (MCD) will sell cannabis and cannabis foodstuffs. It would not allow on-site smoking or vaporizing. The MCD will not grow cannabis on site. The MCD will also provide delivery services.

Planning Code Section 790.141 states that all MCDs are required to be heard by the Planning Commission, which will consider whether or not to exercise their discretionary review powers over the building permit application.

Green God’s Compassion has been formed with the purpose of providing safe access to medical cannabis for those suffering from debilitating illnesses. The MCD will focus on providing medical cannabis to underserved senior citizens and United States Veterans, and other patients with illnesses such as cancer and other ailments that require medical cannabis treatment. The Project Sponsor intends to fully comply with the comprehensive regulatory framework for MCDs in San Francisco.

SITE DESCRIPTION AND PRESENT USE

The project site is improved with two structures – a two-story mixed use building of approximately 3,800 square feet in the front containing a vacant commercial space on the ground floor and two residential units, and a smaller two-story building in the rear containing one residential unit. The commercial space is currently vacant and is located on the ground floor with direct access to Sickles Avenue. The proposed MCD would occupy approximately 730 square feet.

SURROUNDING PROPERTIES AND NEIGHBORHOOD

The subject property is located on the corner of Sickles Avenue and Huron Avenue in the Excelsior Outer Mission Street Neighborhood Commercial District (NCD).

The Excelsior Outer Mission Street Neighborhood Commercial District is located along Mission Street between Alemany Boulevard and the San Francisco-San Mateo county line. Outer Mission Street is mixed use, combining street-fronting retail businesses on the ground floor and housing on upper floors. The range of comparison goods and services offered is varied and often includes specialty retail stores, restaurants, and neighborhood-serving offices. The area is transit-oriented and the commercial uses serve residents of the area as well as residents and visitors from adjacent and other neighborhoods.

The Excelsior Outer Mission Street Neighborhood Commercial District is intended to provide convenience goods and services to the surrounding neighborhoods as well as limited comparison shopping goods for a wider market. Housing development in new buildings is encouraged above the second story. Existing residential units are protected by limitations on demolitions and upper-story conversions. Parking for residential and commercial uses is not required. Buildings range in height, with height limits generally allowing up to four stories. Lots vary in size, generally small- or medium-sized with some very large parcels.

The site is at the edge of the NCD and is adjacent to Residential (RH-1 and RH-2) Zoning Districts. The site is located one block from Mission Street and one block from the border with Daly City. The site is located one mile from the Daly City BART station and one block from MUNI stops on Mission Street.

On the other corners of Sickles and Huron Avenues, there is a gas station, an auto repair, and a two-story building containing residential and personal service uses. There are other similar commercial and light industrial uses located on Mission Street. Other buildings on the subject block contain residential uses.

ISSUES AND OTHER CONSIDERATIONS

An MCD cannot be located within 1,000 feet from a parcel containing a public or private elementary or secondary school; or a community facility and/or a recreation center that primarily serves persons under 18 years of age. Four sites within 1,000 feet of the project site require further discussion. One is the San Francisco Christian Center at 5845 Mission Street. The second is a non-profit, MAC's Children & Family Services located on the corner of Cayuga Avenue and Sickles Avenue. The third is Lincoln Park and Community Center located in Daly City on the block surrounded by Brunswick Street, Acton Street, Winchester Street, and Templeton Avenue. The fourth is the Lessing and Sears Mini Park located a couple of blocks away from the Project Site between Lessing and Sears Streets.

San Francisco Christian Center, a church located at 5845 Mission Street, provides a variety of programs to children, youth, adult men and women, and seniors. They have Sunday School and worship services on Sunday mornings, as well as group meetings/programs on Tuesday, Wednesday and Friday evenings. The church also provides after school and summer camp programs for children and youth. This

community facility does not primarily serve persons under the age of 18 but rather provides programs for all age groups and is thereby compliant.

MAC's Children & Family Services, a non-profit organization, provides 4 apartments used for transitional housing for women ages 16-18 at their location on the corner of Cayuga Avenue and Sickles Avenue. Transitional housing is not considered to be a community facility or a recreation center.

Lincoln Park and Community Center, an urban park located in Daly City, contains 2 basketball courts, grassy areas, and a children's playground. The Community Center offers social, educational, and recreational opportunities to all adults 50 years and older in an Active Adult program. No persons under the age of 18 are served in this community center.

The Lessing and Sears Mini Park is an approximately 6,500 square foot Rec Park property. The park features a path between Sears and Lessing Streets and a small children's play structure. There are no community facilities or recreation centers located at the park.

Within the Excelsior Outer Mission NCD, an MCD seeking to locate within 500 feet of another MCD use may be allowed as a conditional use. The Proposed Project Site is not located within 500 feet of another MCD, however, on July 6, 2016, the Planning Department received an application for a proposed MCD at 5978 Mission Street, however, this site is located approximately 650 feet from the Proposed Project Site.

The proposed dispensary complies with all relevant Planning Code requirements.

HEARING NOTIFICATION

TYPE	REQUIRED PERIOD	REQUIRED NOTICE DATE	ACTUAL NOTICE DATE	ACTUAL PERIOD
Posted Notice	30 days	June 21, 2016	January 4, 2016	199 days
Mailed Notice	30 days	June 21, 2016	January 4, 2016	199 days

PUBLIC COMMENT

	SUPPORT	OPPOSED	NO POSITION
Adjacent neighbor(s)			X
Other neighbors on the block or directly across the street	X	X	
Neighborhood groups or others	X	X	

Project Sponsor has been meeting on a one-on-one basis with as many neighbors as possible and has held outreach meetings with the surrounding neighborhood.

The Department has received letters and petitions in support to and in opposition of the proposed MCD use.

PROJECT ANALYSIS

MEDICAL CANNABIS DISPENSARY CRITERIA

Below are the six criteria to be considered by the Planning Commission in evaluating Medical Cannabis Dispensaries, per Planning Code Section 790.141:

1. That the proposed site is located not less than 1,000 feet from the parcel containing the grounds of an elementary or secondary school, public or private, or recreation buildings as defined by Section 221(e) of the Planning Code.

Project Meets Criteria

The subject parcel is not located within 1000' of an elementary or secondary school, public or private, or active recreation buildings or permitted community centers which primarily serve persons 18 years or less as defined by Section 790.141 of the Planning Code. An MCD on this block would therefore be a highly compatible use.

2. The parcel containing the MCD cannot be located on the same parcel as a facility providing substance abuse services that is licensed or certified by the State of California or funded by the Department of Public Health.

Project Meets Criteria

The subject parcel does not contain a facility providing substance abuse services that is licensed or certified by the State of California or funded by the Department of Public Health.

3. No alcohol is sold or distributed on the premises for on or off site consumption.

Project Meets Criteria

No alcohol is sold or distributed on the premises for on or off-site consumption.

4. If Medical Cannabis is smoked on the premises the dispensary shall provide adequate ventilation within the structure such that doors and/or windows are not left open for such purposes resulting in odor emission from the premises.

Criteria not Applicable

The establishment of a new MCD at the subject site would not include an on-site smoking area.

5. The Medical Cannabis Dispensary has applied for a permit from the Department of Public Health pursuant to Section 3304 of the San Francisco Health Code.

Project Meets Criteria

The applicant has applied for a permit from the Department of Public Health.

6. A notice shall be sent out to all properties within 300-feet of the subject lot and individuals or groups that have made a written request for notice or regarding specific properties, areas or Medical Cannabis Dispensaries. Such notice shall be held for 30 days.

Project Meets Criteria

A 30-day notice was sent to owners and occupants within 300-feet of the subject parcel identifying that a MCD is proposed at the subject property and that the building permit was subject to a Mandatory Discretionary Review Hearing.

GENERAL PLAN COMPLIANCE:

The Project is, on balance, consistent with the following Objectives and Policies of the General Plan:

COMMERCE AND INDUSTRY

Objectives and Policies

OBJECTIVE 1:

MANAGE ECONOMIC GROWTH AND CHANGE TO ENSURE ENHANCEMENT OF THE TOTAL CITY LIVING AND WORKING ENVIRONMENT.

Policy 1.1:

Assure that all commercial and industrial uses meet minimum, reasonable performance standards.

The location for the proposed MCD meets all of the requirements in Section 790.141 of the Planning Code.

OBJECTIVE 7:

ENHANCE SAN FRANCISCO'S POSITION AS A NATIONAL AND REGIONAL CENTER FOR GOVERNMENTAL, HEALTH, AND EDUCATIONAL SERVICES.

Policy 7.3: Promote the provision of adequate health and educational services to all geographical districts and cultural groups in the city.

The chronically ill patients who would be served by the proposed use are in great need of this type of medical service. By allowing the services provided by the MCD, its patients are assured to safe access to medication for their ailments.

SECTION 101.1 PRIORITY POLICIES

Planning Code Section 101.1 establishes eight priority policies and requires review of permits for consistency, on balance, with these policies. The Project complies with these policies as follows:

1. Existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses enhanced.

The proposed use is a neighborhood serving use. The location for the MCD is currently vacant so the new use will not displace a previous neighborhood serving use.

2. That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods.

The project occupies a ground floor commercial space and will adhere with all signage regulations defined in Article 33 of the Health Code to help preserve the existing neighborhood character. The proposed use would not adversely affect but would complement the existing neighborhood character.

3. That the City's supply of affordable housing be preserved and enhanced.

The proposed use will occupy a vacant commercial space and will not displace any affordable housing.

4. That commuter traffic not impede MUNI transit service or overburden our streets or neighborhood parking.

The site is close to multiple public transit lines and the immediate neighborhood provides sufficient short-term parking so the use will not impede transit operations or impact parking.

5. A diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced.

The commercial space is vacant and will not displace any industrial or service industry establishments.

6. The City achieves the greatest possible preparedness to protect against injury and loss of life in an earthquake.

The MCD will follow standard earthquake preparedness procedures and any construction would comply with contemporary building and seismic codes.

7. Landmarks and historic buildings be preserved.

The subject building will not alter the exterior of the building will not impact whether the existing building is a resource or not.

8. Parks and open space and their access to sunlight and vistas be protected from development.

The project will not restrict access to any open space or parks and will not impact any open space or park's access to sunlight or vistas.

ENVIRONMENTAL REVIEW

The Project is exempt from the California Environmental Quality Act ("CEQA") as a Class 1 categorical exemption.

BASIS FOR RECOMMENDATION

In 1996, California voters passed Proposition 215, known as the Compassionate Use Act, by a 56% majority. In San Francisco, Proposition 215 passed by a 78% majority. The legislation established the right of seriously ill Californians, including those suffering from illnesses such as AIDS, cancer and glaucoma, to obtain and use marijuana for medical purposes when prescribed by a physician.

MCDs began to be established in San Francisco shortly after Proposition 215 passed as a means of providing safe access to medical cannabis for those suffering from debilitating illnesses. At that time, San Francisco did not have any regulatory controls in place to restrict the placement and operations of the dispensaries. As a result, over 40 dispensaries were established in the city without any land use controls, often resulting in incompatible uses next to each other.

On December 30, 2005, the Medical Cannabis Act, as approved by the Board of Supervisors and Mayor, became effective. The Act, set forth in Ordinance 275-05 and supported by Ordinances 271-05 and 273-05, amended the Planning, Health, Traffic, and Business and Tax Regulation Codes in order to establish a comprehensive regulatory framework for MCDs in San Francisco.

The Act designates the Department of Public Health (DPH) as the lead agency for permitting MCDs. DPH conducts its own review of all applications and also refers applications to other involved City Agencies, including the Planning Department, in order to verify compliance with relevant requirements. The Planning Department's review is generally limited to the location and physical characteristics of MCDs.

- The MCD complies with all standards and requirements of the Planning Code and advances the objectives and policies of the General Plan.
- The subject site is well served by transit (one block from MUNI lines on Mission, one mile from Daly City BART station)
- The subject site is more than 1,000' from primary and secondary schools.
- The subject site is more than 1,000' from any active permitted community facility primarily serving persons under the age of 18.
- The project site will be fully renovated to provide a safe, well-lit environment for California Medical Marijuana Patients with proper identification cards.
- Patients will not be permitted to smoke or inhale product via vaporizers on site.
- To minimize the potential impact of the proposed use on the surrounding commercial area the following conditions are recommended for imposition on the project:
 1. The operator of the establishment shall maintain the main entrance and all sidewalks abutting the subject property in a clean condition. Such maintenance shall include, at

minimum, daily sweeping and litter pickup and disposal and washing or steam/pressure cleaning of the main entrance and abutting sidewalks at least once every month.

2. The project sponsor shall maintain appropriate odor control equipment to prevent any significant noxious or offensive odors from escaping the premises.
3. An enclosed garbage area shall be provided within the establishment. All garbage containers shall be kept within the building until pick-up by the disposal company.

Priority General Plan Policies Findings

Proposition M was adopted by the voters on November 4, 1986. It requires that the City shall find that proposed projects and demolitions are consistent with eight priority policies set forth in Section 101.1 of the City Planning Code. These eight policies are listed below. Please state how the project is consistent or inconsistent with each policy. Each statement should refer to specific circumstances or conditions applicable to the property. Each policy must have a response. IF A GIVEN POLICY DOES NOT APPLY TO YOUR PROJECT, EXPLAIN WHY IT DOES NOT.

1. That existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses enhanced;

See attached sheets (2)

2. That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods;

See attached sheets (2)

3. That the City's supply of affordable housing be preserved and enhanced;

See attached sheets (2)

4. That commuter traffic not impede Muni transit service or overburden our streets or neighborhood parking;

See attached sheets (2)

5. That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced;

See attached sheets (2)

6. That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake;

See attached sheets (2)

7. That landmarks and historic buildings be preserved; and

Application received by Planning Department:

By: _____

Date: 11/2/15

Question 1: The business plan for the proposed Medical Cannabis Dispensary;

Answer: Green Gods Compassion will focus on providing medical cannabis to our underserved senior citizens as well as United States Veterans and other patients with illnesses such as Cancer and other ailments that require medical cannabis treatment.

Green Gods Compassion will work with non-profit organizations in the Mission District and surrounding communities within San Francisco. Green Gods Compassion will focus on meeting the needs of patients with the medical conditions as described above. Due to the conditions of our patients we will also be providing delivery service.

Question 2: Specific factors which contribute to the compatibility and appropriateness of the Medical Cannabis Dispensary with the immediate neighborhood and broader city environment.;

Answer: As stated above, Green Gods Compassion will be located in a store front in the Mission District. The collective will be along a transportation corridor which includes 3 major bus lines between 2 BART Stations. The collective will be easily accessible to patients; Also, it will not be disruptive to any residential neighborhoods. This collective will be committed to working with local health, non-profit organizations and patients of the Mission District and SF County.

Question 3: Neighborhood outreach efforts made and the results/input from those efforts;

Answer: The outreach plan is forth coming. However, I am planning to seek patients from: hospitals, advertisements, clinics, expo's, conventions, doctor referrals, and Medicann etc.

Question 4: Any other circumstances applying to the property involved which you feel support your application.

Answer: The collective will be located in a commercial building which is in a commercial district. There are no schools or parks within 1,000 feet from the referenced property.

Priority General Plan Policies Findings

Question 1: That existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses enhanced;

Answer: The current impact of the economic critics relating to small businesses and non-profit organizations particularly in SF, is at a record high in regards to lack of employment opportunities to local residents.

Question 2: That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods;

Answer: Green Gods Compassion intends to hire staff locally which will ensure diversity within and around the neighborhood.

Question 3: That the City's supply of affordable housing be preserved and enhanced;

Answer: Green Gods Compassion will assist in preserving affordable housing for local residents by employing the residents of the community and by paying them the minimum wage which will enable residents to afford to stay in their community.

Question 4: That commuter traffic not impede Muni transit service or overburden our streets or neighborhood parking;

Answer: Since the majority of patients will take either Muni, BART, or bicycles, there should be no overburden on the neighborhood parking.

Question 5: That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced;

Answer: Does not apply.

Question 6: That the city achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake;

Answer: Based on my knowledge, the building which Green Gods Compassion will be located has no known structure problems, and built according to the highest earthquake standards. The collective will be committed to participating in any earthquake preparedness programs.

Question 7: That landmarks and historic buildings be preserved; and

Answer: N/A

Question 8: That our parks and open space and their access to sunlight and vistas be protected from development.

Answer: N/A

GREEN GODS COMPASSION (GGC) - MISSION

Conceptual drawing of interior – not final design

GGC is committed to providing safe, affordable, high-quality, laboratory tested medicine to patients seeking alternative healing methods. In addition, GGC is dedicated to serving a specific segment of the community: Veterans and seniors. GGC will be a wellness center providing not only medicinal cannabis in varying forms, but access to community-based health related services such as acupuncture, yoga and message. We are dedicated to offering wellness education and services that promote healthy living and community wellness.

GGC is dedicated to providing access for military veterans, low income patients, chronically ill patients and underserved senior communities. Our main focus is assisting veterans and aging adults to improve their quality of life. Due to the many misconceptions about medical cannabis among seniors, GGC will provide education about our products and services on an ongoing basis. We will offer free wellness education programs to share the benefits of using cannabis (such as liquid tinctures, topical ointments, edibles, and flowers). GGC will establish a multi-lingual hotline to be easily available to address specific questions, provide referrals to wellness services and resources and receive the feedback/input of our patients and our District neighbors.

GGC will create a center that is a progressive, green, model dispensary. We will provide a wide array of cutting edge cannabidiol (CBD) products for those patients seeking the benefits of cannabis medicine without the psychoactive effects of traditional delivery methods. As mentioned above, GGC will offer a variety of products for seniors and veterans for purchase onsite. GGC will operate as a retail service with delivery to patients who register and participate in our orientation which includes product use, and wellness education and referral to additional wellness services in the community. GGC's product mix will be approximately 45-50% topicals such as oils, abstracts, tinctures, pills and bath salts; 10-15% edible products, and 40% flowers. There will be no onsite ingestion of either edible products or flower-medicinals.

GGC's services will help seniors address a myriad of health issues such arthritis. The tinctures and rubs are applied to legs, knees, or wherever the patient is having arthritic pain. It also aids the patient in getting a healthy night's sleep. Seniors are looking for ways to manage pains such as pains caused by fibromyalgia, and nerve damage, caused by chemotherapy or diabetes. Our staff will receive annual and continue education classes, to best serve client needs.

Approximately 14% of the nation's population is over-65 yet they account for more than 30 percent of all prescription drugs, including painkillers which are known to be highly addictive. Many of these drugs are known to have side-effects that can lead to more critical health issues. Medical cannabis has the potential to either replace opioid uses or at least lessen the need for them offering the patient a chance to live a more fulfilling life. However lingering stereotypes and perceived stigmas by seniors prevents many who can benefit most from MC from securing a medical card and visiting an MCD. GGC is creating a wellness environment that removes the perceived stigmas and stereotypes and provides a comfortable place for seniors to purchase products.

GGC is deeply committed to serving those who have served our country. Many returning Veterans suffer from PTSD, and other combat-related illnesses. Many such as amputees need medication not only for stress but for managing pain. Without access to medical cannabis, many Vets will spiral down a path of addiction to pain medication further complicating the challenges they are attempting to manage.

Congress recently cleared the way to allow VA doctors to prescribe cannabis for vets. Many veterans suffer from opioid abuse. Sadly, there is a high rate of suicide among veterans. Our veterans are suffering from PTSD, chronic pain, traumatic brain injury, and other conditions which respond well to medical cannabis, allowing our veterans a path to a normal healthy lifestyle.

GGC's CEO founded GGC in memory of her father, Plas Upshaw Jr., a combat veteran who suffered with combat related illnesses. GGC is committed to offering services which enhance their access to care and promote a higher quality of life. GGC is dedicated to healing our wounded warriors and remains in communications with veteran groups working to connect veterans to holistic healthcare, such as Weed For Warriors.

GGC will coordinate with groups like Weed For Warriors to provide specialized care and services to those with PTSD and other service-related illnesses. Veterans and seniors will receive free mind and body services including massage, meditation classes and acupuncture services through our community partnerships with neighborhood organizations. Veterans and seniors will also receive an 8% discount on all GGC products. In addition, GGC will coordinate with the growing number of medicinal cannabis groups forming in local senior housing complex to provide education for seniors seeking relief through medical cannabis.

GGC is perfectly suited for our location at 100 Sickles. While community concern speaks to the number of existing MCD's in the District, none cater specifically to veterans and seniors. For this reason our center will be unique, attract a narrowly define market segment, and provide a much needed health service to patients who are far less likely to visit other MCD's in the District. Patients outside of our client profile will continue to utilize the services of the other District MCD's. GGC will also form a neighborhood consortium and will meet regularly to keep the neighbors informed of center activities and get input from neighbors on issues and concerns. GGC will also present as requested before neighborhood and merchant associations to ensure the connection with community communication remains open and strong at all times.

GGC is an advocate for policy reform in the interest of patient access and implementation of best practices of medicinal cannabis. GGC remains committed to its mission of providing the best medicine to seniors and veterans. In the advent of State-wide legislation our mission and commitment will remain unchanged. With the passage of AUMA, GGC will seek to expand our services to include seniors and veterans who do not have or wish to have a MCD card, but will not expand into recreational use. We will continue to provide alternative care and educational resources to our target market with retail-only sales and patient delivery services. GGC is not creating a center that can grow to become a recreational facility. We are creating a place of health and healing that will serve the greater community of seniors and veterans in District 11.

Laboratory testing for safety and consistency

GGC will test all medical cannabis for harmful pathogens like mold, fungus and pesticides using third party testing facilities such as Steep Hill labs that have a reputation for going above and beyond the average industry testing protocols. This is vitally important for immune-suppressed patients who cannot risk being exposed to fungal spores or bacteria. We will conduct lab analysis that screens for contaminants while also providing data on the genetics and potency of various strains of cannabis. This will allow members to make safe, informed decisions and GGC will work with patients to educate them of treatment options relative to their condition so they can maximize the benefits of medical cannabis. GGC is committed to furthering the science of cannabis medicine and to provide patients with as much knowledge as possible about their treatment options.

Free holistic mind & body management services

GGC patients will receive top of the line access to alternative health services absolutely free of charge. These services include meditation workshops, massage therapy and acupuncture treatments. GGC will offer these free services to clients as well as to neighbors as a way to build strong community relationships and improve overall neighborhood wellness. As a center for neighborhood healing, GGC will create a safe environment, mitigating neighbor concerns of loitering and giving them a sense of ownership in the health and wellness of the community.

Industry education / Employment Development for disadvantaged communities

As an organization lead by a woman of color, GGC is dedicated to uplifting and empowering disadvantaged communities of color, especially those disproportionately impacted by the criminalization of cannabis. GGC will teach the business leaders of tomorrow how the industry works, and job and career opportunities available. GGC will mentor young adults with the educational resources and tools needed to become successful entrepreneurs in a billion dollar industry.

TIKISHA ONG, CEO GREEN GODS COMPASSION

Tikisha Ong is a San Francisco Bay Area native and entrepreneur with a deep passion for health and wellness. Her professional experience includes providing medical caregiver services to elderly and disabled patients and she's a vocal advocate of a holistic approach to patient care.

She has personally witnessed the restorative power of cannabis medicine and she's committed to providing San Francisco with a truly unique healthcare facility. She will ensure that GGC does more than provide one of a kind medical services.

Ong's family connections to the city and her lifelong commitment to community service have culminated in a mission to become the First Black woman to own a medical cannabis dispensary in San Francisco. Ong inherited a strong sense of duty from her loving parents. She is dedicating Green Gods Compassion to the memory of her father, **Plas Upshaw Jr.**, a Vietnam Veteran who served in the 101st Airborne Unit of the U.S. Army and worked in **San Francisco as a cable car driver**. Like many returning

veterans, Ong's father struggled with combat related illnesses, giving her a deep personal understanding of the challenges facing vets.

Ong is committed to sharing the healing power of holistic medicine she learned while caring for her father. And in honoring his service in the military, she's steadfast in her mission to get wounded warriors the compassionate care they need.

A MODEL OF SERVICE

GGC's Unique Service Model

GGC is not a traditional MCD and will be vastly different in the services provided and the clientele served than all the other neighborhood serving MCDs. All product will be retail with no on-site consumption. GGC's product mix will be approximately 45-50% topicals such as oils, abstracts, tinctures, pills and bath salts; 10-15% edible products, and 40% flowers. There will be no onsite ingestion of either edible products or flower-medicinals.

GGC will provide a boutique-like environment of alternative medical care providing top grade medical cannabis to patients suffering from cancer, anxiety, sleeping disorders, PTSD, glaucoma, Parkinson's disease, Crohn's disease, arthritis and a myriad of other ailments.

Holistic health, wellness strategies, pain management techniques and other alternative health practices will be provided to GGC clients at neighboring organizations and community centers. GGC has developed relations with community organizations that provide services such as massage and acupuncture; and yoga. GGC's client profile are seniors and veterans looking for methods to manage pain and techniques to help lead more productive lives. GGC will promote delivery services to clients who are either homebound, or do not have access to transportation. With the retail-only center and the specific client focus, GGC anticipates serving a generally underserved segment of clients, alleviating neighbor concerns of loitering and parking.

Product and Services

Primary Client Profile

- ✓ Veterans
- ✓ Seniors

Products Offered

- | | |
|-------------|-------------------|
| ✓ oils | ✓ bath salts |
| ✓ abstracts | ✓ edible products |
| ✓ tinctures | ✓ flowers. |
| ✓ pills | ✓ Delivery |

Wellness Options Referral Services

- | | |
|-------------------------|----------------|
| ✓ Massage | ✓ Yoga |
| ✓ Pain Management | ✓ Acupuncture |
| ✓ Health Education | ✓ Hypnotherapy |
| ✓ Nutritional Education | |

This mix of services and GGC's priority of care to veterans and seniors will cater to a very specific segment of the market. GGC will not be attract the market served by the other District MCD's and will provide a supportive and comforting environment for seniors who have heretofore been reluctant to visit and use an MCD.

RESPONSIVE TO OUR COMMUNITY

GGC has been thorough in our outreach to the community. We continue to respond to community concerns and demonstrate how GGC's facility will meet the highest standards of safety for the District. GGC is located in a "Green Zone" area within District 11. Understandably the community is concerned about the number of MCD in the area and the potential of clustering facilities there. GGC outreached and continues to outreach to neighbors, businesses, associations and any groups or individuals who want to hear about GGC.

In executing our community outreach plan, we identified and began to reach out to the different community organizations that best represent the Excelsior and Outer Mission communities. GGC's outreach involved introducing ourselves and our application to operate an MCD via letters, phone, email, and through attendance at community organization's meetings. During these meetings, GGC presented our plans for the facility, shared our commitment to partnering with the community, and addressed any concerns brought forth by the organization's membership. We spoke with those in support and in opposition to our project. A list of the community organizations we have connected with include:

1. Cayuga Improvement Association
2. Mission Economic Development Association
3. OMI Neighbors in Action
4. Sunnyside Neighborhood Association
5. D11 Democratic Club
6. D11 Council
7. Ingleside Police Station,
8. OMI Family Resource Center
9. Asian American Association

SAFETY

GGC has developed a comprehensive safety plan for our facility. This includes:

- ✓ Security staff which included off-duty/retired police officers
- ✓ Outside security most specifically during times of school children present
- ✓ Cameras inside and around perimeter of facility
- ✓ State of the art security-alarm system

GGC will track frequency of purchased amounts of medicine by members in help prevent possible resale. If purchases seem out of the norm, GGC has the right to refuse purchase. GGC will work with other dispensaries in the District to help prevent abusive purchasing behaviors.

Monitoring

GGC's security monitoring will be an extensive number of cameras within the premises monitoring all business activities and more cameras located outside monitoring the front and side of the property which is a corner lot. Video equipment and all video recordings will be in a secured location with recordings saved for a minimum of 10 days. GGC's full security plan will be presented to the District Station Captain for review. The full scope of the system will be shared only with the police, preventing any chance for a security breach by staff or patients who become familiar with the operation.

Security Personal

GGC will have 3 guards on duty at all times. At least one will be an off-duty/retired police officer. Armed security will be inside only. In addition to the off-duty/retire police, GGC will contract with a licensed and insured security company to ensure our security force is well trained and certified as required by California's Department of Consumer Affairs Bureau of Security and Investigative Services.

GGC BUSINESS PLAN

GREEN GODS COMPASSION

GGC

*- Care, Compassion and
Community is who we are*

Green Gods Compassion

100 Sickles Ave, San Francisco, CA 94112

Phone: (510) 812 - 3096

GGCompassion@gmail.com

Mission

Green Gods Compassion's mission is to contribute to the advancement of the successful treatment of serious illnesses through medical cannabis. We will provide our members with access to affordable, lab tested, high quality cannabis as well as health and education services.

GGC will strive to be a progressive, green, model dispensary. In addition to cannabis, we will also specialize in cannabinoid (CBD) sprays, oils, tinctures, CBD vaporizer pen cartridges, and a wide array of edible products.

GGC will utilize Post Consumer Waste products, biodegradable cleaners and compact fluorescent lights in the facility. We will use Energy star rated products: appliances, electronics, hvac, computers, lighting. We will also enroll in PG&E's Solar Choice program. We plan to purchase 100% of our electricity from solar power and support the renewable energy movement.

We aim to educate our members about cannabis treatments and additional alternative health approaches to supplement their medicine. GGC advocates for government change. We will be a voice for the implementation of best practices for the regulation and taxation of medical cannabis. GGC will focus primarily on serving low-income patients suffering from chronic and terminal illnesses.

Access for Chronically Ill, Low-Income Patients

Green Gods Compassion is committed to delivering medicine and services to members who are too ill to visit our physical location. We will provide cannabis free of charge to qualified low-income patients that are seriously ill in hospitals, nursing homes, hospices (or released from hospices), and also for patients who are housebound, bedridden, or have limited mobility. We will work closely with healthcare-facility administrators to maintain appropriate protocols to safeguard cannabis access.

Laboratory Testing for Scientific Consistency and Safety

GGC will test all medical cannabis for harmful pathogens, such as mold, fungus, and pesticides. This is particularly important for immune-suppressed patients who cannot risk being exposed to fungus or bacteria, which are not controlled-for in the current system of medical-cannabis production. Patients will have access to medical cannabis that has defined levels of therapeutic compounds and is free from harmful pathogens. We conduct laboratory analysis that screens for contaminants while also providing data on the genetics and potency of various kinds of cannabis, which allows members to make safe, well-informed decisions when selecting a medicine. Our products will include labels that list the predominant active ingredients in each strain of medical cannabis. GGC will cater specific strains to a member's particular medical need, to limit unwanted side effects as part of a patient's treatment.

Quality is usually determined by the amount of symptom relief that a medicine provides and the reliability of the medicine to produce the desired effect. In addition to measuring the amount of tetrahydrocannabinol (THC) in each strain we offer, we will use standard analytical techniques to assay for the presence of other therapeutically significant cannabinoids, such as cannabidiol (CBD).

Our packaging will list the percentage of THC and CBD concentrations for each strain, allowing our members to select the right medicine for their health needs. Our long-term goal is to develop a scientific approach that includes the possibility of documenting and researching which plant variations and horticultural practices can be combined to maximize the healing qualities of specific strains. The primary and immediate focus of GGC is to perform testing of medical cannabis to guarantee safety and quality for our members. There are 700 variations of cannabis—have the best treatment value for different medical conditions. Important healing and pain-relief components in medical cannabis vary from plant to plant.

Engaging Our Community

There's a lot to being a good neighbor: communication, understanding, and respect. Green Gods Compassion strives to be a good neighbor our community.

On December 20, 2015 Green Gods Compassion will launch a community outreach and engagement plan to understand the challenges and needs of the neighborhood of the proposed location at 100 Sickles Avenue. Our goal is not only to inform neighbors of the proposal, but also gather feedback about the proposal and neighbors' concerns.

After opening, GGC's community engagement will include but not limited to joining community groups, participating in community meetings and events, and connecting with our neighbors. At Green Gods Compassion our mission is to not only be a part of the community, our mission is to help make community.

Outreach Plan

We are committed to current and future efforts of further developing relationships with our immediate neighbors and all community organizations. As an incoming member of the community, we felt it important to meet with our neighbors, residents and businesses alike, to inform them of our intentions, and welcome any feedback they may have in order to best serve the community.

- On 11/11/2015 we went to every door within 300 feet of our proposed location and talked to our neighbors. Introduction letters were left for our neighbors who weren't home. These letters were written in English, Mandarin, Spanish and Tagalog.
- On 11/11/2015 we mailed out another letter inviting our neighbors and community organizations to a local site, 5925 Mission Street for a community meeting. The meeting is set for December 20, 2015 from 1:00pm-4:00pm.

Samples of the community meeting invitation are on the following pages

GREEN GODS COMPASSION
CARE, COMPASSION, & COMMUNITY IS WHO WE ARE

Hello,

We are **Green Gods Compassion** (GGC), a non-profit organization who with your support will be establishing a licensed medical cannabis dispensary at 100 Sickles Ave, San Francisco, CA 94112.

Our mission is to make a positive difference in the lives of medical cannabis patients and our local community. We will provide an extraordinary environment of alternative medical care providing top grade medical cannabis to patients suffering from cancer, anxiety, sleeping disorders, PTSD, glaucoma, Parkinson's disease, Crohn's disease, arthritis and a myriad of other ailments. Our vision includes enhancing and protecting the safety, tranquility and cleanliness of our community. GGC also brings a certified security plan that has been documented and proven to reduce neighborhood crime.

The purpose for this letter is not only to introduce GGC, but to also take in your support and concerns in part of community outreach program. We are holding a meeting on **December 20, 2015 at 5925 Mission Street from 1 – 4PM**. There will be a Spanish, Tagalog, Mandarin, and English interpreter present. If you for any reason are unable to attend I can be reached by email or phone at GGCCompassion@gmail.com or 510.812.3096.

Thank you, and we look forward to being a positive part of this community!

Sincerely,

Tikisha Ong
Director and CEO of Green Gods Compassion

GGCCompassion@gmail.com

Connecting with Community Organizations

In executing our community outreach plan, we identified and began to reach out to the 10 different community organizations that best represent the Excelsior and Outer Mission communities. The process of reaching out will involve introducing ourselves and our application to operate an MCD via letters, phone, email, and by attending the community organization's meetings. During these meetings, GGC presented our intentions, shared our desire to become community partners, and addressed any concerns of the 5420 application brought forth by the organizations membership. A list of the community organizations we have reached out to is listed below:

- Cayuga Improvement Association
- Mission Economic Development Association
- OMI Neighbors in Action
- Sunnyside Neighborhood Association
- D11 Democratic Club
- D11 Council
- Ingleside Police Station,
- OMI Family Resource Center
- Asian American Association

Each of these community organizations have and will receive letters, emails, and phone calls, and will be invited to attend the community meeting at 5925 Mission Street on December 20, 2015.

Community Support (Businesses & Residents)

In addition to our letters of support of our application to operate we will also have a petition circulating the neighborhood in support of our application. These letters of support and petition signatures will be provided at the time of the hearing.

Safety & Security Plans

Safety and Security for Everyone

The safety and security of our employees, members, and neighbors is an unwavering priority. Our Safety and Security approach starts having the highest standards for member interaction, community engagement, and neighborly relations. We will implement a safe and secure environment of the dispensary, while maintaining a visible and strong, yet friendly and approachable, presence in the community. We will achieve the above by the following means:

- Accurate checking of documentation and identification, and admission of only qualified individuals into the dispensary; individuals lacking the necessary qualifications for entry are identified and denied access.
- Strict safety and security policies and procedures for employees.
- Active development of an open relationship with neighbors and community, enabling better ability to protect the area, members, and staff.
- Trained, experienced security guards from diverse backgrounds: trained in de-escalation, active listening, and communication; able to provide excellent security without being overbearing or excessive.
- Proactive enforcement of a comprehensive Member Code of Conduct, including actively enforcing restrictions on the redistribution of medicine, consumption, drinking, loitering, illegal parking, and other nuisance activity.
- State-of-the-art security camera and DVR system for 24-hour monitoring coverage of interior and exterior.
- Sophisticated security-alarm system with 24-hour response and ability to immediately and discreetly alert police and emergency personnel in the event of an emergency.
- Private, third-party security company that provides additional support, including afterhours camera monitoring, after-hours alarm response, and patrol quality checks.
- Fire-alarm system.
- Emergency action plans developed for various emergency situations.
- CPR and AED training for Safety and Management Teams.
- Having an Injury and Illness Prevention Plan (IIPP).
- Protecting and safeguarding employees and members from potential accidents and hazards.
- Conducting regular, thorough monthly safety inspections to identify and correct unsafe working conditions, equipment, and work practices.
- Conducting routine safety orientation and training for all new hires, as well as ongoing training and annual refreshers for all employees.
- Fire-pull stations
- Fire extinguishers
- Emergency exits
- First-aid kits
- Eyewash stations

Emergency Planning

We will have emergency action plans for:

- Fire emergencies
- Earthquake
- First-aid emergencies
- Robbery
- Critical incidents

All new hires will be trained with Emergency Action Plans policies.

Critical Incidents

Simple routines are often an effective way to diminish the likely hood of certain problems.

- Regularly clear debris and trash from outside the front and surrounding premises prior to opening and periodically during daily operating hours.
- Ensuring that the sidewalk is open to pedestrian traffic at all times.
- Politely discourage loitering, solicitors, or people obstructing the sidewalk without lawful reason.
- Politely discourage double parking and blocking of sidewalks, streets, and other roadways.
- Enforcing a comprehensive member code of conduct.
- Preventing unnecessary nuisance activity within close proximity such as loitering, consumption of alcohol or drugs within
- 500 feet, noise, illegal parking, etc...
- Place appropriate calls to help maintain a clean and orderly appearance of the dispensary and surrounding area.

Proposal/Contract

DATE: 12/02/15
 INVOICE#: 835-15
 CLIENT: Green Gods Compassion Contact: Tiki Ong
 LOCATION: 100 Sickles San Francisco Ca. 94112
 PROJECT: CCTV System / Alarm/ Protective Glass

Description of Materials:Surveillance System:

11-SDI HD IR Dome Cameras HDSD-1048VFID	11 @ \$180.00	\$ 2,850.00
- 2.1 Mega Pixel 1400 TVL resolution		
- Auto Iris / Vari-focal lens / Night Vision		
1- CVI-HD-DVR8816- 16 channels CVI Proprietary DVR		\$ 1,650.00
- 4 TB HDD (Approx. 1 month video Capture)		
- Network Software iPhone and Droid ready		

1- 18 Channel Power Supply	\$ 75.00
2- Flat screen mount	\$ 35.00
Hardware straps and supports	\$ 85.00
Siamese CCTV Cable	\$ 255.00
Security Lock Box	\$ 200.00

Alarm:

Altronix Main Panel	
3- Motion Sensors	
6- Remote Control Units (Necklace)	
1- Interior Siren	
2- Exterior Siren	
1-Panic Button	\$ 950.00

Protective Glass:

- 4X8 2.25 in Plexi Bullet Proof Partions	
o 2 Person Work Station	
o Transfer Station through 2 Person Work Station	\$2,800.00

Description of Labor:Surveillance System:

- Install 11 new CCTV Cables to designated locations
- Install all camera equipment and hardware to designated locations
 - o Replace all existing camera hardware with new CVI-HD CCTV system
 - Main Entrance Facial
 - Main Lobby
 - Main Service Counter
 - Customer Check-In
 - Rear Man Door
 - Service Area (Back of House)
 - Sickles North View
 - Sickles South View

 Green Gods Compassion Management

Member Agreements

Member Agreement: Rules and Policies

Medical cannabis is dispensed to patients and caregivers, hereafter referred to as “members”, in accordance with Health and Safety Code Section 11362.7 et seq. Physician recommendation or approval for use of medical cannabis (e.g. state identification cards) must be kept current at all times. Members are responsible for knowing when their recommendation or approval expires and submitting renewals or other new paperwork prior to said expiration. All recommendations and approvals, both initial and renewals will be verified. Submission of false or intentionally misleading forms, documents, and/or records may be grounds for expulsion from Green Gods Compassion, the San Francisco Patient and Resource Center, hereafter referred to as “the Collective”, and cancellation of membership. Medical cannabis obtained through the Collective is for personal medical use of members only, and may not be redistributed to any other person for any purpose. Such redistribution is grounds for expulsion from the Collective to use a copy of their state identification card or a copy of their doctor’s recommendation to support the Collective’s cultivation of medical cannabis. If member documentation is used to support cultivation, identifying information on a doctor’s recommendation will be deleted in order to protect patient privacy.

All members must be respectful and cognizant of other members, employees, and neighbors at all times. No abusive or offensive conduct, loitering, loud noise, or littering is allowed in the Collective facility. None of these activities are allowed in the vicinity of the Collective. Violation of this rule may be grounds for expulsion from the Collective and cancellation of membership. No medical cannabis may be smoked, ingested, or otherwise consumed in the public right of way within 100 feet of the Collective. Any member violating this provision may have their membership revoked. Only members may enter the dispensary. The member agrees to reimburse the Collective for actual cost of cultivation or acquisition of medical cannabis. In addition, each member agrees to contribute to the maintenance and expenses of the Collective. Maintenance and expenses of the Collective may include, but are not limited to, rent, salaries, insurance, utilities, social services, and expenses incurred by the Collective as a direct result of providing for the member’s medical needs.

The Collective (GGC) reserves the right to suspend or rescind the membership of a member for any reason.

I hereby agree to the Collective’s above stated rules and policies.

Green Gods Compassion Members Code of Conduct

Please read carefully and sign below. Assistance is available on request.

Green Gods Compassion (GGC) believes that each member acts an ambassador for our entire collective as well as the medical cannabis community. We strive to maintain a diverse collective membership and we do not discriminate based on race, gender, gender identity, sexual orientation, religion, income, or national origin. We want our patients to feel cared for, safe, secure, to be recognized as important members of our community, and to leave our facility inspired and empowered to be a positive voice for medical cannabis.

Green Gods Compassion is located in a dynamic area and we hope to be a positive influence in our community. GGC developed this Code of conduct to maintain a strong and positive relationship with our surrounding neighbors and neighborhood and to ensure that all members and employees are safe, secure, and are treated with respect, dignity, and compassion. Each GGC collective member is required to comply fully and unequivocally with this Code of Conduct. GGC reserves the right to terminate membership for any violation of the Code of Conduct. The Code of Conduct includes, but is not limited to the following:

Code of Conduct

- Reselling or otherwise distributing medicine obtained at GGC to any individual IS STRICTLY FORBIDDEN.
- No double parking in front or side of the dispensary. Members in violation will be asked to move vehicles.
- Cannabis may not be consumed inside or outside of the building within 500 feet of the exterior of the dispensary.
- There is no smoking or vaporizing of tobacco or cannabis inside the dispensary.
- Cellphone and electronic use IS permitted inside the dispensary for checking time, texting, personal music with headphones at a non-disruptive volume, calculator use, checking bank accounts, internet research, showing photos, game playing, etc.
- Taking photos, video and electronic recordings, disruptive music, and talking on cellphones IS NOT permitted inside the dispensary. Furthermore, any use of an electronic device deemed inappropriate IS NOT permitted.
- We request that all members treat fellow members and staff with respect at all times. Offensive, abusive, threatening, hostile, or derogatory language will not be tolerated in the dispensary.
- For your safety, please place all medicine out of site before exiting the dispensary.
- No removal of unauthorized or not purchased GGC property.

- Please no loitering or littering in front or alongside of our building.
- No eating, sleeping, or soliciting is allowed inside the dispensary.
- By law, only qualified patients with a valid doctor's recommendation or state-issued ID card who become members of the GGC collective may access the dispensary. Please do not bring non-patients or patients who do not have required documentation to the dispensary.
- Members must ensure that they are in compliance with all applicable state and local limits for the possession and cultivation of medical cannabis. GGC accepts no responsibility for any violations of applicable statutes.
- All packages, bags, backpacks, purses, etc. brought into the dispensary are subject to search at any time.
- No alcohol, other controlled substances, or weapons are allowed inside the dispensary.

Be a Good Neighbor

Green Gods Compassion (GGC) is located in a dynamic area and we hope to be a positive force in our community. GGC strives to maintain a strong and positive relationship with our surrounding neighbors, the City of San Francisco, and the Police department. As a member of GGC's community, we ask that you be mindful of our neighbors' property, privacy, and rights.

Help us keep our commitments to our community by following our Code of Conduct and not creating an unnecessary nuisance. These simple precautions will help keep GGC's neighbor and community relationships in good standing.

I hereby agree to the Collective's above stated rules and policies.

Good-Neighbor Agreement

As a member of Green Gods Compassion (GGC), you are a representative of our Collective. To memorialize this, you are required to sign this Good-Neighbor Contract, in addition to our Membership Agreement.

These rules are to be observed at all times. Any violations of the rules may result in the termination of your membership.

Respect our community. When entering or leaving GGC, please be quiet for, mindful of, and polite to our neighbors.

- Respect your fellow members and GGC employees. No abusive language or offensive conduct will be tolerated.
- No double-parking. Do not double-park or block any of our neighbors' driveways or businesses. We provide 4 parking spaces at the ARCO gas station across the street. Any violation may result in termination of your membership.
- No littering. Collective members will not tolerate littering outside our premises. GGC is committed to keeping our neighborhood clean.
- Do not medicate and drive. GGC does not condone driving under the influence. We reserve the right to disallow a patient from medicating on-site if their ability to operate a motor vehicle will be impaired.
- Do not redistribute, resell, or share. Any redistribution will result in the termination of your membership.
- No loitering. Be respectful to our neighbors. Please do not congregate in front of or adjacent to the dispensary. It is important to our neighbors that the sidewalk be maintained as an open space.

Green Gods Compassion reserves the right to suspend or rescind the membership of a member for any reason.

I hereby agree to the Collective's above stated rules and policies.

Services for Our Members

Social Services

Green Gods Compassion will be offering a full array of staff-supported community services to our members. These include social services, educational programs, and community-building activities that break the sense of isolation experienced by many ill patients. Our program offered will include new member orientations, women's support groups, HIV/AIDS support groups, harm-reduction groups, and weekly social events. We will have benefit counselors that offer one-on-one consultation with patients and assist with referrals to outlying professional services.

GGC will have information and recommendations on:

- HIV/AIDS
- Medical Use of Cannabis
- Referrals to Services: Contact information for doctors, care providers, lawyers, and other professional services is provided to members
- New-Member Orientation: New members are educated about the legal structure and mission of our collective
- Educational Classes on cultivating your own medicine
- Community Action: GGC will be starting a Community Participation Program where employees and members alike join with community forces to beautify our neighborhoods and keep our streets clean

Education

Sensible Cannabis Use

The information below is reprinted from the Cannabis Action Network (www.cannabisactionnetwork.org).

Like any medicine, cannabis can be misused. Excessive or inappropriate use can contribute to problems, including sleepiness, overeating, and time-management issues. Due to the political climate surrounding cannabis-use research, clinical studies have produced widely conflicting conclusions about the true benefits and potential side effects of cannabis use. Always listen to the advice of your doctor and use good judgment when using medical cannabis. These guidelines help identify ways of using medical cannabis in a positive way.

- Adults should use cannabis only as part of a healthy, balanced, and responsible lifestyle.
- The decision to use cannabis should be made freely and not as a result of social pressure.
- Cannabis users should be well informed about its effects on themselves and others. These effects include legal risks, health risks, and personal consequences.
- Never use cannabis as an excuse for antisocial or irresponsible behavior.
- Cannabis users should model and reward responsible use, particularly with new users.
- Develop sensible cannabis-use limits for yourself based on personal, health, situational, and cultural factors. It is important to be objective about your personal cannabis use and listen to the constructive advice of others.
- Avoid cannabis use that puts you or others at risk, such as when driving, at work, or in public places. Remember, personal use of cannabis is still illegal under federal law, and penalties are stiff.
- Use of cannabis by children is inappropriate and should be discouraged.
- Cannabis use should contribute to, rather than detract from, a patient's health, well-being, creativity, work relationships, and social obligations.

Methods of Consumption

Smoking

When smoking dried cannabis, the patient will most likely feel the medicine take effect immediately, and depending on the particular strain and its strength, it can last anywhere from an hour to several hours. Regularly smoking any plant material can have a negative impact and Patients should use vaporizers or edible forms of medicine whenever possible.

Vaporizing

A vaporizer is a device that is able to extract the therapeutic ingredients in the plant material, called cannabinoids, at a much lower temperature than is required for burning. This allows patients to inhale the active ingredients as a vapor instead of a smoke, and spares them the irritating effects of smoking and its toxic byproducts.

Types of Cannabis Medicine

Flowers and Leaves

Commonly referred to as “buds,” the flowers of the cannabis plant are the most potent for medicinal properties.

Hash

Hash can be somewhat powdery or more solid and sticky, depending on exactly how it was processed.

Kief

Kief is just the dried trichomes without any further processing. It comes as a dry powder that can be smoked, vaporized, or used to make edibles.

Cannabis Sativa

Cannabis sativa is a tall, slower-growing and –maturing plant that typically has long, thin leaves that vary in color from light to darker greens. The medicating effect of cannabis sativa is often characterized as uplifting and energetic, and the effects are mostly cerebral with a feeling of optimism and well-being. Sativa also provides a good measure of pain relief for certain symptoms.

Cannabis Indica

Cannabis indica is a short- to moderate-height bushy plant, typically between three and six feet tall, and its leaves have short, broad fingers. The medicating effect of cannabis indica is most often described as a pleasant “body buzz.” Indicas are best for relaxation, stress relief, and an overall sense of calm and serenity. Cannabis indica is also effective for overall body-pain relief and often used in the treatment of insomnia.

Education on uses of Cannabis

The scientific case for medical cannabis: A better healing alternative to some pharmaceutical drugs.

“The evidence is overwhelming that marijuana can relieve certain types of pain, nausea, vomiting, and other symptoms caused by such illnesses as multiple sclerosis, cancer, and AIDS—or by the harsh drugs sometimes used to treat them. And it can do so with remarkable safety. Indeed, marijuana is less toxic than many of the drugs that physicians prescribe every day.”

– Dr. Joycelyn Elders, former Surgeon General under President Clinton

Know Your Rights

GGC will operate under the provisions of the California Health and Safety Code 11362.5 and 11362.7 and the San Francisco Health Code (Medical Cannabis Act). However, some local jurisdictions may place additional restrictions on the rights of medical-cannabis patients. We encourage our members to determine what their local guidelines are. Until federal law catches up with California’s progressive stance, possession of medical cannabis remains illegal under federal law. We will encourage our members to be mindful of this when possessing, transporting, or using medical cannabis on Federal Government property, including San Francisco’s Presidio and Golden Gate National Recreation Areas.

Hours of Operation and Operating Procedures

Monday:	9:00am – 8:00pm
Tuesday:	9:00am – 8:00pm
Wednesday:	9:00am – 8:00pm
Thursday:	9:00am – 8:00pm
Friday:	9:00am – 8:00pm
Saturday:	10:00am – 8:00pm
Sunday:	10:00am – 8:00pm

A member of our security team will be onsite 30 minutes before opening, and 30 minutes after closing each day. Security personnel will be in front of our location ensuring there is no loitering or double parking. Security will also be directing patients to our designated parking area where we have leased 3 - 5 parking spaces from the neighboring Auto Body Shop. This security guard will also be responsible for checking prescription cards before allowing patients to enter our facility.

Upon entry, there will be another member of our security team to greet the patient and escort them to our waiting room. At this point, all prescriptions will be verified. Upon verification, the patient will then be escorted into the dispensary section of our facility where they will be allowed to purchase medication. Once the transaction is complete, the employee will then be escorted back to the exit (entrance) to leave the facility.

Green Gods Compassion will be a model dispensary and will strive to be the most educated discreet and safe MCD in California. Our primary goal will be providing the best laboratory tested cannabis and extracts, as well as educating our patients on the right medication and responsible usage that would best feel their ailment.

Our goal is to earn the trust, respect and loyalty of our patients so that we may focus on our delivery service. Our delivery service will make it more convenient for our patients, as well as our neighbors as it will alleviate foot-traffic and loitering concerns in the neighborhood.

Good-Neighbor Agreement

As a member of Green Gods Compassion (GGC), you are a representative of our Collective. To memorialize this, you are required to sign this Good-Neighbor Contract, in addition to our Membership Agreement.

These rules are to be observed at all times. Any violations of the rules may result in the termination of your membership.

Respect our community. When entering or leaving GGC, please be quiet for, mindful of, and polite to our neighbors.

Respect your fellow members and GGC employees. No abusive language or offensive conduct will be tolerated.

No double-parking. Do not double-park or block any of our neighbors' driveways or businesses. We provide 4 parking spaces at the ARCO gas station across the street. Any violation may result in termination of your membership.

No littering. Collective members will not tolerate littering outside our premises. GGC is committed to keeping our neighborhood clean.

Do not medicate and drive. GGC does not condone driving under the influence. We reserve the right to disallow a patient from medicating on-site if their ability to operate a motor vehicle will be impaired.

Do not redistribute, resell, or share. Any redistribution will result in the termination of your membership.

No loitering. Be respectful to our neighbors. Please do not congregate in front of or adjacent to the dispensary. It is important to our neighbors that the sidewalk be maintained as an open space.

Green Gods Compassion reserves the right to suspend or rescind the membership of a member for any reason.

I hereby agree to the Collective's above state rules and policies.

GGC LETTERS OF SUPPORT

58 Brighton Ave
San Francisco, Ca 94112

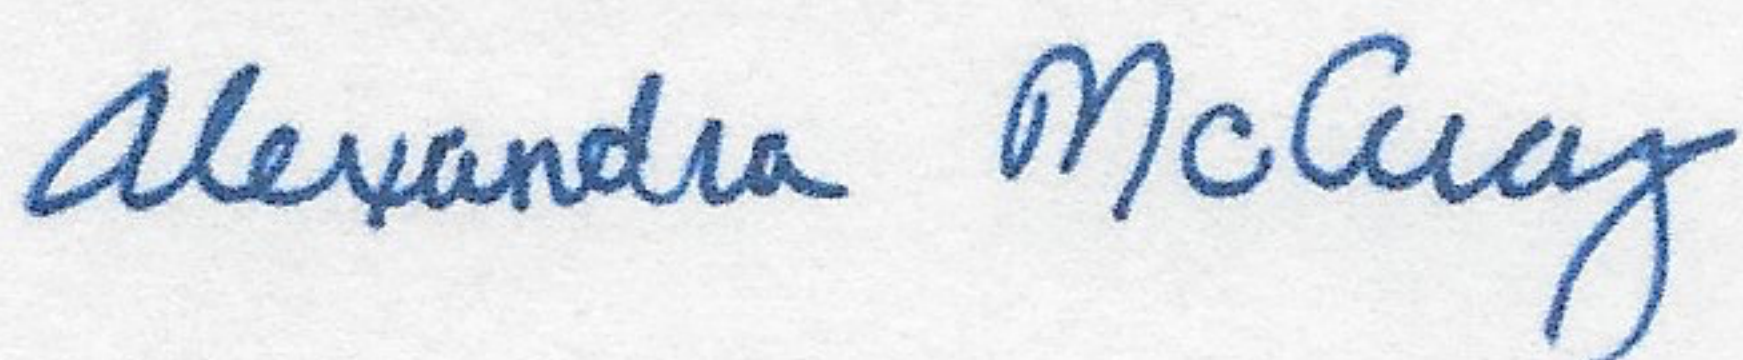

To whom it may concern:

It is a difficult time to watch a loved one suffer from cancer. Lung cancer has become one of the most common diseases in the US. There are over 200,000 cases per year. In many cases surgical removal of the cancerous tumor, chemotherapy and or radiation are used to treat patients. However the side effects of treatments can cause an individual to suffer and experience loss of appetite, nausea, vomiting, diarrhea, and sometimes chronic pain. As a result many patients turn to therapeutic cannabis, which is why I'm writing this letter in support of opening the "Green Gods Compassion" dispensary, in the outer Mission District 11 of San Francisco, Ca. I have been a resident of San Francisco Ca for over 25 years and have passed this vacant building many of times.

My mother suffered from lung cancer and eventually passed. Prior to her passing I took on the responsibility of being her caregiver. This was not an easy task, especially during times when there was nothing I can do for her. As I stated before, treatment for cancer can lead to other complications and with my mother it led to loss of appetite, nausea, vomiting and chronic pain. Therapeutic cannabis assisted my mother by increasing her appetite which stopped her from losing a tremendous amount of weight at once. My mother was prescribed a variety of antiemetic or antinausea medications while many of them failed to do their job, medicinal cannabis never let her down. It always eased her upset stomach and body aches, while putting a smile on her face.

If my mother was still alive, having a dispensary in the outer Mission District 11 would have been and still is an idea location. The site is also located in the green zone and over a mile away from the nearest dispensary. Not only is the location idea, the future owner, Tikisha Upshaw-Ong is a trustworthy, dependable, black woman who has taken the time out to focus on patient care rather than profit. The fact there is a lack of minority and women owned dispensary also helps me support her in opening Green Gods Compassion Dispensary on 100 Sickles Ave, San Francisco, Ca. Please consider my recommendation.

Thank you in Advance

Alexandra McCray

To Whom it May Concern,

It is with great pleasure that I support Tikisha Ong's application for a medical cannabis dispensary in San Francisco at 100 Sickles Avenue. I believe that Ms. Ong's plan fills a void in cannabis care in the city of San Francisco and would be an asset to the city's older adult and physically and financially vulnerable population.

As the former chairwoman of the Medical Cannabis Commission for the city of Berkeley and a current Commissioner for the city of Oakland, I am very familiar with the needs of medical cannabis patients and the impact that dispensaries have on communities. I was also the Director of Research and Patient Services at Berkeley Patients Group where I oversaw their charitable giving program and ancillary health services. From these experiences, I have noted the unique relationship between seniors and vulnerable patients and the use of medical cannabis.

Unlike their younger counterparts for whom cannabis is a part of the culture, for older adults, the needs extend beyond just having access. Seniors need additional education, information and products that might be different than those used by younger folks. Older adults might require more alternatives to smoking, lower potency products, and more alternative methods of consumption, such as topical treatments. While the current dispensaries do offer these products, the culture of youth that pervades them might turn off older patients. The facility proposed by Ms. Ong would be geared towards the older population, opening up the world of cannabis as a potential substitute for more harmful prescription drugs.

Furthermore, by offering alternative health services, this facility will provide much needed care to those who might not be able to access it elsewhere, adding to the overall health of the community. Research supports that medical cannabis dispensaries are not associated with increased neighborhood crime and in fact can provide security measures that add to the safety of the communities they inhabit.

It is also important to look at the landscape of who owns cannabis businesses. Unsurprisingly, as cannabis business begins to operate like other American industries, those in charge start to mirror other industries as well. Namely, white men dominate the field. San Francisco as always been on the forefront of social and racial justice and this is no different. The city of San Francisco has a responsibility to lead by example by having a diverse group of business owners.

I have been involved in the cannabis industry for nearly 15 years in many various roles. The Bay Area continues to be a leader in the responsible regulation of medical cannabis. As medical cannabis as a treatment has matured, so has the way we view access, leadership and patients. I firmly believe that Ms. Ong presents the plan that will move the city forward on this issue in the best way possible. I support her 100%.

Best,

Amanda Reiman, PhD MSW

San Francisco Planning Commissioners

To Whom It May Concern:

As California looks to legalize medical cannabis, let's take this opportunity to open the door for minorities to enter. GGC is a perfect opportunity. I support Tikisha Ong-Upshaw and GGC's proposed location at 100 Sickles Avenue, San Francisco, CA 94112.

Please contact me if you have any questions.

Thank you,

San Francisco Planning Commissioners

To Whom It May Concern:

I support GGC proposed location at 100 Sickles Avenue, San Francisco, CA 94112.

There is a disparity of Black owned and women owned companies in this industry. Estimates are that only 1% of all businesses are owned by minorities in this industry. GGC is a great start to address this disparity.

A vote for GGC is a vote toward equality.

I urge you to support GGC today and give minorities a chance.

Sincerely,

DocuSigned by:

Dear Planning Commissioners,

I support Green God's Compassion being granted a license for a Medical Cannabis Dispensary.

In my capacity as the President of the 100 Black Men of the Bay Area I have had the opportunity to interact with Green God's Compassion's CEO Tikisha Ong. Her commitment to our community and business acumen are indeed impressive. Furthermore, having served as the chair of Oakland's Workforce Investment Board (WIB) and having served as a board member on the Alameda County WIB, I am acutely aware of the positive employment impact that Green God's Compassion will have on African American and other minority job seekers.

I encourage you to grant Green God's Compassion a license.

Re: Thank You For Your Support

Fannie,

Thank you so much. I greatly appreciate all your support. I hope it is not too much trouble for you, but are you able to forward me the emails you sent to the Planning Commission? I like to keep a log of what has been sent. Again, thank you so much!

San Francisco Planning Commissioners
1650 Mission Street, Suite 400
San Francisco, CA 94103

To Commissioner President Fong:

I support Green God's Compassion (GGC)'s proposed location at 100 Sickles Avenue, San Francisco, CA 94112.

I live in the area of Mission and Lowell. This location is over a mile from the nearest dispensary, in a green zone and close to public transportation. This is a needed addition in this part of the neighborhood. I support GGC and Tikisha Upshaw-Ong as she has proven to be trustworthy and her plan for security, mind and body services will benefit the neighborhood. GGC will also serve veterans and seniors which is sorely needed for our community.

GGC has shown that they are unique and genuinely focused on patient care. The fact that they are offering free acupuncture, massage, and meditation services shows that they are truly in the business for care, not just for cash.

As California looks to legalize medical cannabis, let us please take this opportunity to open the door for minorities to enter. Furthermore, there is a disparity of Black owned and women owned companies in this industry. Estimates are that only 1% of all businesses are owned by minorities in this industry. GGC is a great start to address this disparity.

I urge you to support GGC today and give minorities a chance.

Thank you for your kind attention and consideration.

Sincerely,
Fannie Siu

April 20, 2016

President Fong & members of the Planning Commission,

I am writing this letter of Support for Ms. Tikisha Ong. I have served 12 years as a Board member and Real Estate chair of the Mission Economic Development Association, Inc. (MEDA). During my tenor I have assisted specifically with the acquisition and development of Plaza Adelante and MEDA current portfolio of 600 affordable housing units, in the San Francisco Mission District. In addition to the design, planning, funding and implementation of the Mission Promise Neighborhood Program.

MEDA's primary mission is rooted in the pursuit of economic equality and social justice. We believe that investing in asset building and promoting community development are the best tools for achieving those goals. We see business owned by people of color like Green Gods Compassion as vital engines of prosperity for the Mission and we unreservedly support it. We urge the Planning Commission to approve all necessary permits for GGC without delay.

We reject opposing statements that imply there's "no room" for GGC in the neighborhood. Not only is there a serious need for more community representation that these statements either ignore or fail to grasp, there is also a de facto epidemic of blighted storefronts, especially in the Outer Mission. We *need* more businesses like GGC now, not shuttered businesses that act as magnets for crime.

We need real economic growth in our community, and that can't happen if we empower a small group of naysayers to tell visionary entrepreneurs like Ms. Tikisha Ong not to even try. Her vision for Green Gods Compassion doesn't just belong to the immediate neighborhood or even the city, it belongs to everyone who's ever faced discrimination and dismissal in the pursuit of their dreams.

We unreservedly support Ms. Ong, GGC and the larger struggle for recognition and acceptance of women of color in all industries in San Francisco. We believe especially in our neighborhood, which has bared the brunt of an economic downturn, it's time to spread some of the revenue streaming in from the medical cannabis industry.

Ms. Ong has done everything required by law and more to open her business and it's fundamentally wrong to allow a few obstructionist voices to undermine her invaluable contribution to San Francisco. We urge the Planning Commission to approve her permits without delay

Respectfully,

303 Hegenberger Rd. Suite 308

To whom it may concern,

My name is Jad Mubayed and i own A&J auto body across the street from 100 sickles the proposed mcd location.

I wanted to express my support for them to open as well as lease them 3-5 parking spaces to alleviate any parking issues they might have. I also feel it will help the neighboring businesses as well as take care of the abandoned green building that has been an i sore.

Sincerely,
Jad Mubayed

Jonathan Banks
32 Seal Rock Dr
San Francisco, CA 94121

Dear San Francisco Planning Commission:

As a patient I Jonathan Banks would like to express my strongest support for the Gods Green Compassion dispensary project at the proposed location in Outer Mission District 11.

This project is important to the community because we can alleviate and substitute prescription drugs with cannabis thousands of people can't even afford the prescription drugs specifically because the prices are so high for Californian patients. Plus we could alleviate all the side affects from prescription pills with cannabis that would be more beneficial for patients

I am extremely grateful that Green Gods Compassion LLC., is providing us with an opportunity and an open outlet to share our support. If I may be of any other assistance, please contact me at jonathanbanks84@yahoo.com

Sincerely,

A handwritten signature in blue ink, appearing to read 'Jonathan Banks', with a stylized, cursive script.

Proposed dispensary at 100 Sickles Ave

1 message

Big City Design & Print <sales@bigcitydesignandprint.com>

Tue, Dec 1, 2015 at 4:35 PM

To: GGCompassion@gmail.com

To Whom it May Concern:

I support the opening of the Green Gods Compassion Dispensary around the corner from my store front at 5818 Mission Street. I have been here for more than 10 years, and for almost that entire time the store front at 100 Sickles has been a boarded up blight. It would be better to have a thriving business there, and Tikisha Ong impressed me as very responsible and I look forward to having her as my neighbor.

Sincerely,
Karen Boudreaux

SF NAACP DECRIES BLACK EXCLUSION FROM LUCRATIVE MEDICAL CANNABIS INDUSTRY

SF chapter president says overwhelmingly white medical cannabis industry is “another table we are not invited to sit at” in San Francisco

SAN FRANCISCO, Calif. — SF NAACP president, Dr. Amos Brown says *he and the membership of that organization are dissatisfied with the lack of racial diversity in the city’s medical cannabis industry and demanding greater representation for Black communities.*

In an open letter addressed to the San Francisco Planning Commission, Brown highlights the city’s toxic history of racist enforcement of drug laws and says its racially homogenous cannabis industry is an extension of that painful legacy.

“The cruel irony is that African Americans are disproportionately affected by the criminalization of marijuana but also excluded from the economic opportunities presented by its decriminalization,” Brown said. “Even in a city like San Francisco that prides itself on a governing philosophy of racial equality and inclusion, we see yet another lucrative industry growing without almost no input from our community — another table we are not invited to sit at.”

The letter goes on to *endorse Green Gods Compassion founder and CEO Tikisha Ong for her efforts to become the only Black woman to own a dispensary in the city.*

“We are also proud to endorse [Tikisha’s] crucial individual effort in the larger fight to reinvigorate the African American business community and reverse the toxic legacy of prohibition in African American neighborhoods.”

For additional information about the Green Gods Compassion project contact Tikisha Ong or visit www.greengodscompassion.com to learn more.

San Francisco Planning Commissioners

To Whom It May Concern:

I support GGC proposed location at 100 Sickles Avenue, San Francisco, CA 94112.

As California looks to legalize medical cannabis, let's take this opportunity to open the door for minorities to enter. Furthermore, there is a disparity of Black owned and women owned companies in this industry. Estimates are that only 1% of all businesses are owned by minorities in this industry. GGC is a great start to address this disparity.

Sincerely,

DocuSigned by:

Dear President Fong and the San Francisco Planning Commission:

We, the membership of the NAACP, encourage you to join us in supporting Ms. Tikisha Ong as she strives to open Green Gods Compassion in the Bayview Hunters Point area of San Francisco. In our judgment, she possesses the qualifications essential to be an effective, knowledgeable and successful business owner.

In our continued effort to endorse letting states set their own marijuana policies, we see this California establishment as another way in which resources spent on prohibition can be better spent on education and other services. We are pleased to endorse efforts in providing patient access to an affordable, yet high quality dispensary as well as health and education services. Specifically, GGC would support underserved seniors in the community by providing delivery to their homes.

Additionally, the unique qualities of GGC's owner cannot be overlooked: Ms. Ong is a San Francisco/Bay area native, an African-American woman, an Electrical Engineering graduate of San Jose State, and has been involved with the medical cannabis industry for over 20 years.

Finally, we are all aware of San Francisco's reputation for diversity and entrepreneurship opportunities. By, granting the opening of Green Gods Compassion, a dispensary run by a female person of color, that reputation would be reinforced and celebrated locally, nationally, and internationally.

Thanking you in advance for your consideration,

Endorsement letter DRAFT

Dear Tikisha,

Having met with you to see and discuss your business plan, I'd say that I support it since it would be a local business that would address community concerns while serving a growing need. I believe that your plan would prevent problems that similar businesses have had and be an upgrade to 100 Sickels Ave. Many big corporations are looking to get into this business, especially when it inevitably becomes legal, and I don't think they would have the concern and positive involvement with the community that you would. I say this as a long time resident of SF's District 11 and member of neighborhood organizations.

Your good plan, integrity and success would be an inspiration to other minorities and people of color as well.

Sincerely,
Roger Underhill

SAN FRANCISCO BRANCH

NAACP

March 11, 2016

President Fong & members of the San Francisco Planning Commission:

Speaking for myself as president of the San Francisco NAACP and on behalf of the full membership of our organization, I enthusiastically endorse Ms. Tikisha Ong and urge you to support her efforts to bring much-needed African American community representation to the city's medical cannabis industry.

Ms. Ong exemplifies the traits of a community and business leader. We are confident the establishment of GGC will do more than revitalize a long-neglected corner in an underdeveloped part of our city. It will also open career pathways for African Americans in a burgeoning industry where we find ourselves woefully underrepresented.

The California State Conference NAACP has supported legalizing marijuana, since 2010. Our organization sees cannabis prohibition as a civil rights issue, and with good reason. As state NAACP president Alice Huffman, said:

"We have empirical proof that the application of the marijuana laws has been unfairly applied to our young people of color."

The cruel irony is that African Americans are disproportionately affected by the criminalization of marijuana but also excluded from the economic opportunities presented by its decriminalization. Even in a city like San Francisco that prides itself on a governing philosophy of racial equality and inclusion, we see yet another lucrative industry growing without almost no input from our community — another table we are not invited to sit at.

We are pleased to endorse the sincere efforts of Ms. Ong. Not only her efforts to provide cannabis patients access to affordable, high-quality medicine, or her pledges to provide free health & education services to the neighborhood and support underserved seniors with medicine delivery. We are also proud to endorse her crucial individual effort in the larger fight to reinvigorate the African American business community and reverse the toxic legacy of prohibition in African American neighborhoods.

It's time for women of color like Ms. Ong to have a voice in this growing industry. We urge you to approve GGC as a licensed MCD without delay.

Sincerely,

Dr. Amos Brown,
President, NAACP San Francisco Branch

Hi Tiki!

Hope you are doing well! Here is my letter of support for GGC. Let me know if you'd like me to send it directly to them. I apologize for taking so long, it's been a crazy week! How is everything going with GGC? Let me know if you need anything else!

Best,
Stephany

February 9, 2016

Dear SF Planning Commission:

As a patient, local business, and San Francisco native, I would like to express my unwavering support for the Green Gods Compassion dispensary project in District 11 Outer Mission.

This project is important to me as an SF resident, patient and part of the cannabis community specifically because there is a serious dearth of quality dispensaries focused on clean, safe medicine free of chemicals and solvents. I am quite familiar with all of the dispensaries in the area, and in my experience, none of them have many options for patients outside of smoking potent flower, very strong sugary edibles, or hashes produced with butane. Very few carry affordable options on a regular basis, and often the affordable option tends to be of dismal quality.

There is not a single dispensary- and especially in the Outer Mission- I could think of where I would feel comfortable sending my mother, or grandmother, and know that they would be taken care of and be made to feel welcome. The fact that GGC will be renovating a building that has been sitting vacant and forgotten for 8 years is also something that I believe will help to revitalize the neighborhood in a healthy and inclusive way.

I am also a producer of medical cannabis edibles and topicals, focusing on low-dose, organic and CBD-rich products. We have been told my many, many dispensaries across the City and beyond that they prefer to carry extremely high dose, sugary junk foods- because that's what sells. In my opinion, however, that is not what heals, and there are very few options for patients who are truly ill and may have dietary restrictions...or just don't want to eat a brownie that may or may not ruin their day as their medicine daily. GGC will provide an outlet for products like ours, and create a space where patients who truly need them will be able to get them and be

educated on how to use them effectively and safely.

I am extremely and indescribably grateful that Green Gods Compassion LLC., is providing us with an opportunity and an open outlet to share our support. If I may be of any other assistance, please contact me at: hello@flourchild.org or 415-261-3541.

Sincerely,

Stephany Gocobachi

March 17, 2016

Tsion Lencho, Esq.
600 William Street #430
Oakland, CA 94612

Dear San Francisco Planning Commission:

As a member of the greater Bay Area cannabis community, and co-founder of Supernova, an organization for women of color in cannabis, I would like to express my unwavering support for the Gods Green Compassion dispensary project at the proposed location in Outer Mission District 11.

This project is the brainchild of a woman committed to building a sustainable cannabis business, who embodies the qualities I believe are critical to business success including a commitment to employee health and wellness, a plan for minimizing negative impacts on the surrounding community, and a proactive attitude seeking feedback on her business plan from stakeholders to help iterate as she continues to build her dream business.

Having witnessed firsthand the drive, passion, and enthusiasm Tikisha Ong has for Green Gods Compassion LLC, I believe that the city would greatly benefit from having her as a medical cannabis licensee. Having had years to gain experience in the industry, observing its challenges, weaknesses and opportunities will continue to inform Ms. Ong's operations as she builds out her dispensary in the Outer Mission District 11. I understand that there is a balancing of interests in every licensing decision, however, I believe Ms. Ong should have the opportunity to prove that she can and will develop her business in a way that not only benefits medical cannabis patients she serves, but also the community at large.

Warmly,

Tsion E. Lencho

February 22, 2016

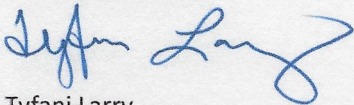

To whom it may concern:

It is my pleasure to write a letter in support of opening the "Green Gods Compassion" dispensary, in the outer Mission District 11 of San Francisco, Ca. The building has been vacant for the past nine years and would be an ideal location for customers to access services. The site is also located in the green zone and over a mile away from the nearest dispensary. Most importantly, future owner Tikisha Upshaw-Ong will be the first black woman owned dispensary in San Francisco, Ca. With the lack of minority and women owned business having her as the first black woman owned dispensary may inspire others to follow their dreams of becoming an entrepreneur.

As a patient and advocate, I would like to first express how Therapeutic Cannabis has changed my life. For many years I suffered from gastrointestinal problems (GI). The most common symptoms of GI I struggled with were: nausea, vomiting, and irregular bowels, which always resulted in acute abdominal pain. The times when I suffered from the disorder, I would be hospitalized for pain and uncontrollable vomiting, and a loss of appetite, which eventually led to weight loss and lack of nutrients. These episodes would go on for a few days or at the most five. The doctors treated my condition with antiemetic pills; which are most effective against vomiting and nausea. Some antiemetic drugs prescribed to me were also prescribed for chemotherapy patients. After a while, I began to feel as if medications stop working, created other health issues, such as constipation and still had no appetite. So I researched other options and was led to Therapeutic Cannabis.

Therapeutic Cannabis is prescribed to control: chronic anxiety, reduce pain associated with arthritis and recurrent muscle issues, nausea and an appetite enhancer for patients suffering from eating disorders or other disorders that affect an individual's appetite. With that being said, medicinal cannabis has helped treat many of the symptoms I suffered from with GI disorder. Being there are many other patients out there who suffer from much more terminal illnesses than I, also supports the fact a dispensary in Mission District 11 should not be turned down. People should have a chose in deciding how they would like to be treated or cured. If it's ok to use prescription pills, which are created in a lab for treatment, then prescribing a natural herb should be no different. Please consider my recommendation in support of opening Green Gods Compassion Dispensary on 100 Sickles Ave, San Francisco Ca.

Thank you in Advance

Tyfani Larry

AN OPEN LETTER TO THE EXCELSIOR INGLESIDE OUTER MISSION COMMUNITY:

Dear Neighbor:

My name is Tikisha Ong, and I am the individual behind the proposal to open a Medical Cannabis Dispensary at 100 Sickels Avenue.

I have been passionate about the Medical Cannabis issue for decades. I watched how cannabis helped my father through his PTSD after his service in Vietnam. I've also seen other family members with cancer benefit from using cannabis. These personal experiences are a big part of why I would like to open a dispensary.

We've heard from some members of the community that this location is not ideal for a dispensary. While I understand your concerns, I'd like to share some of my reasons for proposing this location:

- The storefront is vacant and has been an eyesore in the community for a number of years. We believe we can improve the site and contribute to the neighborhood.
- It is located in a Neighborhood Commercial District within the City's Green Zone.
- We have a landlord that is willing to sign a 30-year lease.

Some of you have already provided feedback about ways we could lessen our perceived impacts to the neighborhood including traffic congestion and crime. In order to mitigate those concerns, we are proposing a profit sharing plan, with money from the dispensary placed into a Neighborhood Improvement Fund to be administered by the community.

These funds could be used towards a private neighborhood patrol, traffic calming measures, pedestrian lighting and other beautification efforts like graffiti abatement. The fund could also be used throughout the neighborhood and not be limited to just the area around 100 Sickles. Ultimately, it would be up to the community to decide how the funds should be used.

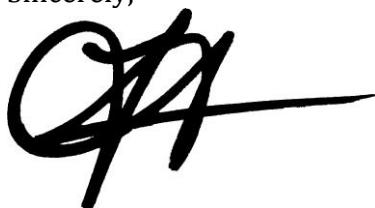

We're hosting an community meeting to review these issues and discuss our plans to address the issues we have heard with the community.

Please join us at our community meeting to hear our proposal.

May 19th from 6:00pm-8:00pm
The Ingleside Police Station
1 Sgt John V Young Ln, San Francisco, CA 94112

I truly look forward to becoming a contributing member of this community.

Sincerely,

A handwritten signature in black ink, appearing to be 'Tikisha Ong', with a long horizontal stroke extending to the right.

Tikisha Ong
Green Gods Compassion

GREEN GODS COMPASSION
CARE, COMPASSION, & COMMUNITY IS WHO WE ARE

Hello,

We are **Green Gods Compassion** (GGC), a non-profit organization who with your support will be establishing a licensed medical cannabis dispensary at 100 Sickles Ave, San Francisco, CA 94112.

Our mission is to make a positive difference in the lives of medical cannabis patients and our local community. We will provide an extraordinary environment of alternative medical care providing top grade medical cannabis to patients suffering from cancer, anxiety, sleeping disorders, PTSD, glaucoma, Parkinson's disease, Crohn's disease, arthritis and a myriad of other ailments. Our vision includes enhancing and protecting the safety, tranquility and cleanliness of our community. GGC also brings a certified security plan that has been documented and proven to reduce neighborhood crime.

The purpose for this letter is not only to introduce GGC, but to also take in your support and concerns in part of community outreach program. We are holding a meeting on **December 20, 2015 at 5925 Mission Street from 1 – 4PM**. There will be a Spanish, Tagalog, Mandarin, and English interpreter present. If you for any reason are unable to attend I can be reached by email or phone at GCCCompassion@gmail.com or 510.812.3096.

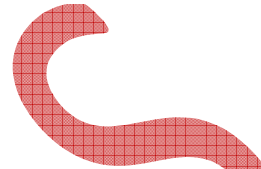

Thank you, and we look forward to being a positive part of this community!

Sincerely,
Tikisha Ong
Director and CEO of Green Gods Compassion

Medical Cannabis Dispensary Plans Unveiled for Outer Mission Location

By [Alexander Mullaney](#)

Posted on March 12, 2016

SHARES

At the standing-room-only meeting of the Outer Mission Merchants and Residents Association in February, community members voiced their concerns about a proposed medical cannabis dispensary opening in the neighborhood.

Tikisha Ong gave a 45-minute presentation about her plan to open Green Gods Compassion on the 100 block of Sickles Avenue. All proposed MCDs must hold

public meetings to notify neighbors about their intentions in order to acquire conditional use permits from City Hall.

Green Gods Compassion is applying to become the fourth MCD to operate in the neighborhood where community groups' opposition blocked Sparc from opening a second location in the neighborhood last year. The Planning Commission denied Sparc its application to open despite the company having the support of District 11 Supervisor John Avalos and a successful location in the South of Market after receiving many letters and testimony in opposition from neighbors.

Ong said that her business would be markedly different than the existing MCDs. She would participate in the gun buyback program; hire locals; focus sales on seniors and people with disabilities. For security, there would be eleven cameras and two guards. There would be no tolerance of any customers who double park, litter or smoke near the premises.

Ong, who is in her thirties, said she has been in MCD business her entire life and knew the importance of medical cannabis based on her grandparents' use when battling cancer. If she were granted permission to open, Green Gods Compassion would be the first MCD in San Francisco owned and operated by a woman of color.

Ong said she would like to help the neighborhood by

occupying a long-vacant storefront. She would like to personally move into the neighborhood if possible, too.

OMMRA President Joelle Kenealey said she was concerned that given the MCD's proximity to the county border, Green Gods Compassion would be serving residents of San Mateo County, which does not permit the sale of cannabis. Other neighbors expressed concern over the smell of cannabis in the neighborhood.

At the January meeting of the District 11 Council, Supervisor Avalos said he was opposed to a fourth MCD opening in the neighborhood.

"I'm opposed to new MCD on 100 Sickles. I've heard pretty loud and clear from members of the community and the Planning Commission," Avalos said. "I think the last one"—Sparc—"I wasn't opposed to. I didn't see it as a horrible thing for the neighborhood, especially compared to the existing ones. It would've probably have put one of those out."

OMMRA is **[petitioning Mayor Ed Lee and members of the Planning Commission via change.org](#)** to oppose Green God's Compassion. As of March 12, there were 210 supporters.

Ong has tentatively scheduled a comprehensive community meeting for Saturday, March 19. For more information, email ggcompassion@gmail.com.

GGC - CARE, COMPASSION, & COMMUNITY IS WHO WE ARE

Dear President Fong and Planning Commissioners,

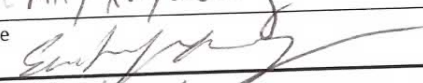

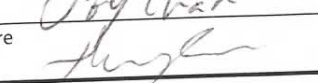

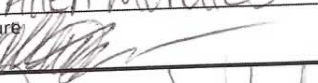

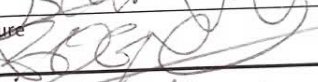

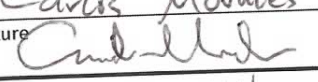

My signature below represents my support for Green God's Compassion (GGC) to open a medicinal cannabis dispensary at 100 Sickles Avenue in San Francisco. I welcome GGC's plans to renovate a dilapidated building that has been vacant for over 8 years, and replace it with a model cannabis dispensary. GGC will provide it's members with access to affordable, high quality, lab tested cannabis in addition to specializing in a wide array of CBD extracts, topicals, and edibles. GGC will be a 100% Green Business and is committed to providing health and educational services. I support GGC and I strongly encourage you to approve GGC's application.

GGC - CARE, COMPASSION, & COMMUNITY IS WHO WE ARE

Dear President Fong and Planning Commissioners,

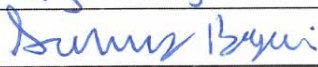

My signature below represents my support for Green God's Compassion (GGC) to open a medicinal cannabis dispensary at 100 Sickles Avenue in San Francisco. I welcome GGC's plans to renovate a dilapidated building that has been vacant for over 8 years, and replace it with a model cannabis dispensary. GGC will provide it's members with access to affordable, high quality, lab tested cannabis in addition to specializing in a wide array of CBD extracts, topicals, and edibles. GGC will be a 100% Green Business and is committed to providing health and educational services. I support GGC and I strongly encourage you to approve GGC's application.

GGC - CARE, COMPASSION, & COMMUNITY IS WHO WE ARE

Dear President Fong and Planning Commissioners,

My signature below represents my support for Green God's Compassion (GGC) to open a medicinal cannabis dispensary at 100 Sickles Avenue in San Francisco. I welcome GGC's plans to renovate a dilapidated building that has been vacant for over 8 years, and replace it with a model cannabis dispensary. GGC will provide it's members with access to affordable, high quality, lab tested cannabis in addition to specializing in a wide array of CBD extracts, topicals, and edibles. GGC will be a 100% Green Business and is committed to providing health and educational services. I support GGC and I strongly encourage you to approve GGC's application.

GGC - CARE, COMPASSION, & COMMUNITY IS WHO WE ARE

Dear President Fong and Planning Commissioners,

My signature below represents my support for Green God's Compassion (GGC) to open a medicinal cannabis dispensary at 100 Sickles Avenue in San Francisco. I welcome GGC's plans to renovate a dilapidated building that has been vacant for over 8 years, and replace it with a model cannabis dispensary. GGC will provide it's members with access to affordable, high quality, lab tested cannabis in addition to specializing in a wide array of CBD extracts, topicals, and edibles. GGC will be a 100% Green Business and is committed to providing health and educational services. I support GGC and I strongly encourage you to approve GGC's application.

GGC - CARE, COMPASSION, & COMMUNITY IS WHO WE ARE

Dear President Fong and Planning Commissioners,

My signature below represents my support for Green God's Compassion (GGC) to open a medicinal cannabis dispensary at 100 Sickles Avenue in San Francisco. I welcome GGC's plans to renovate a dilapidated building that has been vacant for over 8 years, and replace it with a model cannabis dispensary. GGC will provide it's members with access to affordable, high quality, lab tested cannabis in addition to specializing in a wide array of CBD extracts, topicals, and edibles. GGC will be a 100% Green Business and is committed to providing health and educational services. I support GGC and I strongly encourage you to approve GGC's application.

GGC - CARE, COMPASSION, & COMMUNITY IS WHO WE ARE

Dear President Fong and Planning Commissioners,

My signature below represents my support for Green God's Compassion (GGC) to open a medicinal cannabis dispensary at 100 Sickles Avenue in San Francisco. I welcome GGC's plans to renovate a dilapidated building that has been vacant for over 8 years, and replace it with a model cannabis dispensary. GGC will provide it's members with access to affordable, high quality, lab tested cannabis in addition to specializing in a wide array of CBD extracts, topicals, and edibles. GGC will be a 100% Green Business and is committed to providing health and educational services. I support GGC and I strongly encourage you to approve GGC's application.

GGC - CARE, COMPASSION, & COMMUNITY IS WHO WE ARE

Dear President Fong and Planning Commissioners,

My signature below represents my support for Green God's Compassion (GGC) to open a medicinal cannabis dispensary at 100 Sickles Avenue in San Francisco. I welcome GGC's plans to renovate a dilapidated building that has been vacant for over 8 years, and replace it with a model cannabis dispensary. GGC will provide it's members with access to affordable, high quality, lab tested cannabis in addition to specializing in a wide array of CBD extracts, topicals, and edibles. GGC will be a 100% Green Business and is committed to providing health and educational services. I support GGC and I strongly encourage you to approve GGC's application.

GGC - CARE, COMPASSION, & COMMUNITY IS WHO WE ARE

Dear President Fong and Planning Commissioners,

My signature below represents my support for Green God's Compassion (GGC) to open a medicinal cannabis dispensary at 100 Sickles Avenue in San Francisco. I welcome GGC's plans to renovate a dilapidated building that has been vacant for over 8 years, and replace it with a model cannabis dispensary. GGC will provide it's members with access to affordable, high quality, lab tested cannabis in addition to specializing in a wide array of CBD extracts, topicals, and edibles. GGC will be a 100% Green Business and is committed to providing health and educational services. I support GGC and I strongly encourage you to approve GGC's application.

To whom it may concern:

It is a difficult time to watch a loved one suffer from cancer. Lung cancer has become one of the most common diseases in the US. There are over 200,000 cases per year. In many cases surgical removal of the cancerous tumor, chemotherapy and or radiation are used to treat patients. However the side effects of treatments can cause an individual to suffer and experience loss of appetite, nausea, vomiting, diarrhea, and sometimes chronic pain. As a result many patients turn to therapeutic cannabis, which is why I'm writing this letter in support of opening the "Green Gods Compassion" dispensary, in the outer Mission District 11 of San Francisco, Ca. I have been a resident of San Francisco Ca for over 25 years and have passed this vacant building many of times.

My mother suffered from lung cancer and eventually passed. Prior to her passing I took on the responsibility of being her caregiver. This was not an easy task, especially during times when there was nothing I can do for her. As I stated before, treatment for cancer can lead to other complications and with my mother it led to loss of appetite, nausea, vomiting and chronic pain. Therapeutic cannabis assisted my mother by increasing her appetite which stopped her from losing a tremendous amount of weight at once. My mother was prescribed a variety of antiemetic or antinausea medications while many of them failed to do their job, medicinal cannabis never let her down. It always eased her upset stomach and body aches, while putting a smile on her face.

If my mother was still alive, having a dispensary in the outer Mission District 11 would have been and still is an idea location. The site is also located in the green zone and over a mile away from the nearest dispensary. Not only is the location idea, the future owner, Tikisha Upshaw-Ong is a trustworthy, dependable, black woman who has taken the time out to focus on patient care rather than profit. The fact there is a lack of minority and women owned dispensary also helps me support her in opening Green Gods Compassion Dispensary on 100 Sickles Ave, San Francisco, Ca. Please consider my recommendation.

Thank you in Advance

Alexandra McCray

San Francisco Planning Commissioners

To Whom It May Concern:

I support GGC proposed location at 100 Sickles Avenue, San Francisco, CA 94112.

There is a disparity of Black owned and women owned companies in this industry. Estimates are that only 1% of all businesses are owned by minorities in this industry. GGC is a great start to address this disparity.

A vote for GGC is a vote toward equality.

I urge you to support GGC today and give minorities a chance.

Sincerely,

Monica Lo

To Whom it May Concern:

I support the opening of the Green Gods Compassion Dispensary around the corner from my store front at 5818 Mission Street. I have been here for more than 10 years, and for almost that entire time the store front at 100 Sickles has been a boarded up blight. It would be better to have a thriving business there, and Tikisha Ong impressed me as very responsible and I look forward to having her as my neighbor.

Sincerely,
Karen Boudreaux

To whom it may concern,

My name is Jad Mubayed and i own A&J auto body across the street from 100 sickles the proposed mcd location.

I wanted to express my support for them to open as well as lease them 3-5 parking spaces to alleviate any parking issues they might have. I also feel it will help the neighboring businesses as well as take care of the abandoned green building that has been an eye sore.

Sincerely,
Jad Mubayed

February 9, 2016

Dear SF Planning Commission:

As a patient, local business, and San Francisco native, I would like to express my unwavering support for the Green Gods Compassion dispensary project in District 11 Outer Mission.

This project is important to me as an SF resident, patient and part of the cannabis community specifically because there is a serious dearth of quality dispensaries focused on clean, safe medicine free of chemicals and solvents. I am quite familiar with all of the dispensaries in the area, and in my experience, none of them have many options for patients outside of smoking potent flower, very strong sugary edibles, or hashes produced with butane. Very few carry affordable options on a regular basis, and often the affordable option tends to be of dismal quality.

There is not a single dispensary- and especially in the Outer Mission- I could think of where I would feel comfortable sending my mother, or grandmother, and know that they would be taken care of and be made to feel welcome. The fact that GGC will be renovating a building that has been sitting vacant and forgotten for 8 years is also something that I believe will help to revitalize the neighborhood in a healthy and inclusive way.

I am also a producer of medical cannabis edibles and topicals, focusing on low-dose, organic and CBD-rich products. We have been told my many, many dispensaries across the City and beyond that they prefer to carry extremely high dose, sugary junk foods- because that's what sells. In my opinion, however, that is not what heals, and there are very few options for patients who are truly ill and may have dietary restrictions...or just don't want to eat a brownie that may or may not ruin their day as their medicine daily. GGC will provide an outlet for products like ours, and create a space where patients who truly need them will be able to get them and be educated on how to use them effectively and safely.

I am extremely and indescribably grateful that Green Gods Compassion LLC., is providing us with an opportunity and an open outlet to share our support. If I may be of any other assistance, please contact me at: hello@flourchild.org or 415-261-3541.

San Francisco, CA

To whom it may concern:

This is a letter of support for Green Gods Compassion's application to start a Medicinal cannabis dispensary in San Francisco, CA.

CannaBizWatch believes that Green Gods Compassion will substantially help to meet such a widespread need for patient access within the community and secure the much-needed patient continuity of holistic care.

In addition, CannaBizWatch considers Green Gods Compassion a partner in the fight to ensure equitable, just, and progressive policies/practices in the cannabis industry.

CannaBizWatch is the cannabis industries watchdog. We engage both consumers & businesses to push the industry towards more equitable & just practices.

CannaBizWatch offers (3) FREE programs to our members:

1. Canna Grow - we teach members how to cultivate cannabis
2. Canna Heal - we teach members how to make salves & tinctures
3. Canna Activism - we teach members about the local cannabis ordinances & help them execute a member led campaign for progressive policy.

Green Gods Compassion will be a great addition to the medicinal cannabis community in San Francisco, in our opinion we believe that in no time Green Gods Compassion will be a model of what community/business relations should reflect.

Sincerely,

Lanese Martin

To whom it may concern:

It is my pleasure to write a letter in support of opening the "Green Gods Compassion" dispensary, in the outer Mission District 11 of San Francisco, Ca. The building has been vacant for the past nine years and would be an ideal location for customers to access services. The site is also located in the green zone and over a mile away from the nearest dispensary. Most importantly, future owner Tikisha Upshaw-Ong will be the first black woman owned dispensary in San Francisco, Ca. With the lack of minority and women owned business having her as the first black woman owned dispensary may inspire others to follow their dreams of becoming an entrepreneur.

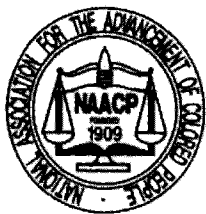

As a patient and advocate, I would like to first express how Therapeutic Cannabis has changed my life. For many years I suffered from gastrointestinal problems (GI). The most common symptoms of GI I struggled with were: nausea, vomiting, and irregular bowels, which always resulted in acute abdominal pain. The times when I suffered from the disorder, I would be hospitalized for pain and uncontrollable vomiting, and a loss of appetite, which eventually led to weight loss and lack of nutrients. These episodes would go on for a few days or at the most five. The doctors treated my condition with antiemetic pills; which are most effective against vomiting and nausea. Some antiemetic drugs prescribed to me were also prescribed for chemotherapy patients. After a while, I began to feel as if medications stop working, created other health issues, such as constipation and still had no appetite. So I researched other options and was led to Therapeutic Cannabis.

Therapeutic Cannabis is prescribed to control: chronic anxiety, reduce pain associated with arthritis and recurrent muscle issues, nausea and an appetite enhancer for patients suffering from eating disorders or other disorders that affect an individual's appetite. With that being said, medicinal cannabis has helped treat many of the symptoms I suffered from with GI disorder. Being there are many other patients out there who suffer from much more terminal illnesses than I, also supports the fact a dispensary in Mission District 11 should not be turned down. People should have a chose in deciding how they would like to be treated or cured. If it's ok to use prescription pills, which are created in a lab for treatment, then prescribing a natural herb should be no different. Please consider my recommendation in support of opening Green Gods Compassion Dispensary on 100 Sickles Ave, San Francisco Ca.

Thank you in Advance

SAN FRANCISCO BRANCH

NAACP

March 11, 2016

President Fong & members of the San Francisco Planning Commission:

Speaking for myself as president of the San Francisco NAACP and on behalf of the full membership of our organization, I enthusiastically endorse Ms. Tikisha Ong and urge you to support her efforts to bring much-needed African American community representation to the city's medical cannabis industry.

Ms. Ong exemplifies the traits of a community and business leader. We are confident the establishment of GGC will do more than revitalize a long-neglected corner in an underdeveloped part of our city. It will also open career pathways for African Americans in a burgeoning industry where we find ourselves woefully underrepresented.

The California State Conference NAACP has supported legalizing marijuana, since 2010. Our organization sees cannabis prohibition as a civil rights issue, and with good reason. As state NAACP president Alice Huffman, said:

"We have empirical proof that the application of the marijuana laws has been unfairly applied to our young people of color."

The cruel irony is that African Americans are disproportionately affected by the criminalization of marijuana but also excluded from the economic opportunities presented by its decriminalization. Even in a city like San Francisco that prides itself on a governing philosophy of racial equality and inclusion, we see yet another lucrative industry growing without almost no input from our community — another table we are not invited to sit at.

We are pleased to endorse the sincere efforts of Ms. Ong. Not only her efforts to provide cannabis patients access to affordable, high-quality medicine, or her pledges to provide free health & education services to the neighborhood and support underserved seniors with medicine delivery. We are also proud to endorse her crucial individual effort in the larger fight to reinvigorate the African American business community and reverse the toxic legacy of prohibition in African American neighborhoods.

It's time for women of color like Ms. Ong to have a voice in this growing industry. We urge you to approve GGC as a licensed MCD without delay.

Sincerely,

Dr. Amos Brown,
President, NAACP San Francisco Branch

Oakland, CA 94612

Dear San Francisco Planning Commission:

As a member of the greater Bay Area cannabis community, and co-founder of Supernova, an organization for women of color in cannabis, I would like to express my unwavering support for the Gods Green Compassion dispensary project at the proposed location in Outer Mission District 11.

This project is the brainchild of a woman committed to building a sustainable cannabis business, who embodies the qualities I believe are critical to business success including a commitment to employee health and wellness, a plan for minimizing negative impacts on the surrounding community, and a proactive attitude seeking feedback on her business plan from stakeholders to help iterate as she continues to build her dream business.

Having witnessed firsthand the drive, passion, and enthusiasm Tikisha Ong has for Green Gods Compassion LLC, I believe that the city would greatly benefit from having her as a medical cannabis licensee. Having had years to gain experience in the industry, observing its challenges, weaknesses and opportunities will continue to inform Ms. Ong's operations as she builds out her dispensary in the Outer Mission District 11. I understand that there is a balancing of interests in every licensing decision, however, I believe Ms. Ong should have the opportunity to prove that she can and will develop her business in a way that not only benefits medical cannabis patients she serves, but also the community at large.

Warmly,

Tsion E. Lencho

Daisy Ozim

POWERFUL WOMEN OF THE BAY

March 30, 2016

Dear President Fong & members of the Planning Commission,

Powerful Women of the Bay celebrates women that are passionate about educating, empowering, and connecting with women in business and in the community. Our past honorees have included entrepreneurs, corporate executives and both community and civic leaders that have made major sacrifices to make a difference in their communities, that have contributed time and money to enrich the lives of others.

Powerful Women of the Bay celebrates remarkable women like Tikisha Ong and we fully support her fight to bring racial diversity to San Francisco's medical cannabis community. Our organization's membership is largely comprised of women of color, and as such, we are no strangers to the unjust barriers to progress and prosperity industry pioneers like Ms. Ong face.

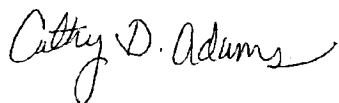

We are especially sensitive to statements by her opponents that there is simply "no room" for her business in the neighborhood she's investing in. However such statements are intended by those making them, they smack of the exclusionary attitudes and policies that have stifled the professional aspirations of women of color for far too long.

We reject that attitude. We say if a city like San Francisco, which prides itself on a governing philosophy of justice and equality, doesn't have room for the only woman of color in a billion dollar a year industry then it's past time for it to make room. Words are not enough.

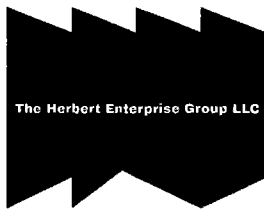

We need real economic growth in our community, and that can't happen if we empower a small group of naysayers to tell visionary entrepreneurs like Ms. Ong not to even try. Her vision for Green Gods Compassion doesn't just belong to the immediate neighborhood or even the city, it belongs to everyone who's ever faced discrimination and dismissal in the pursuit of their dreams.

We unreservedly support Ms. Ong, GGC and the larger struggle for recognition and acceptance of women of color in all industries in San Francisco. Ms. Ong has done everything required by law and more to open her business and it's fundamentally wrong to allow a few obstructionist voices to undermine her invaluable contribution to San Francisco. We urge the Planning Commission to approve her permits without delay

Respectfully,

Cathy Adams Founder & Event Producer

April 20, 2016

President Fong & members of the Planning Commission,

I am writing this letter of Support for Ms. Tikisha Ong. I have served 12 years as a Board member and Real Estate chair of the Mission Economic Development Association, Inc. (MEDA). During my tenor I have assisted specifically with the acquisition and development of Plaza Adelante and MEDA current portfolio of 600 affordable housing units, in the San Francisco Mission District. In addition to the design, planning, funding and implementation of the Mission Promise Neighborhood Program.

MEDA's primary mission is rooted in the pursuit of economic equality and social justice. We believe that investing in asset building and promoting community development are the best tools for achieving those goals. We see business owned by people of color like Green Gods Compassion as vital engines of prosperity for the Mission and we unreservedly support it. We urge the Planning Commission to approve all necessary permits for GGC without delay.

We reject opposing statements that imply there's "no room" for GGC in the neighborhood. Not only is there a serious need for more community representation that these statements either ignore or fail to grasp, there is also a de facto epidemic of blighted storefronts, especially in the Outer Mission. We *need* more businesses like GGC now, not shuttered businesses that act as magnets for crime.

We need real economic growth in our community, and that can't happen if we empower a small group of naysayers to tell visionary entrepreneurs like Ms. Tikisha Ong not to even try. Her vision for Green Gods Compassion doesn't just belong to the immediate neighborhood or even the city, it belongs to everyone who's ever faced discrimination and dismissal in the pursuit of their dreams.

We unreservedly support Ms. Ong, GGC and the larger struggle for recognition and acceptance of women of color in all industries in San Francisco. We believe especially in our neighborhood, which has bared the brunt of an economic downturn, it's time to spread some of the revenue streaming in from the medical cannabis industry.

Ms. Ong has done everything required by law and more to open her business and it's fundamentally wrong to allow a few obstructionist voices to undermine her invaluable contribution to San Francisco. We urge the Planning Commission to approve her permits without delay

Respectfully,

Jabari J. Herbert

Subject: Medical Cannabis Dispensary Proposal

Dear Tikisha,

Having met with you to see and discuss your business plan, I'd say that I support it since it would be a local business that would address community concerns while serving a growing need. I believe that your plan would prevent problems that similar businesses have had and be an upgrade to 100 Sickels Ave. Many big corporations are looking to get into this business, especially when it inevitably becomes legal, and I don't think they would have the concern and positive involvement with the community that you would. I say this as a long time resident of SF's District 11 and member of neighborhood organizations.

Your good plan, integrity and success would be an inspiration to other minorities and people of color as well.

Sincerely,
Roger Underhill

1650 Mission Street, Suite 400
San Francisco, CA 94103

To Commissioner Secretary:

I support Green God's Compassion (GGC)'s proposed location at 100 Sickles Avenue, San Francisco, CA 94112.

I live in the area of Mission and Lowell. This location is over a mile from the nearest dispensary, in a green zone and close to public transportation. This is a needed addition in this part of the neighborhood. I support GGC and Tikisha Upshaw-Ong as she has proven to be trustworthy and her plan for security, mind and body services will benefit the neighborhood. GGC will also serve veterans and seniors which is sorely needed for our community.

GGC has shown that they are unique and genuinely focused on patient care. The fact that they are offering free acupuncture, massage, and meditation services shows that they are truly in the business for care, not just for cash.

As California looks to legalize medical cannabis, let us please take this opportunity to open the door for minorities to enter. Furthermore, there is a disparity of Black owned and women owned companies in this industry. Estimates are that only 1% of all businesses are owned by minorities in this industry. GGC is a great start to address this disparity.

I urge you to support GGC today and give minorities a chance.

Thank you for your kind attention and consideration.

Sincerely,
Fannie Siu

RE: Project Address: 100 Sickles Avenue, San Francisco CA 94112
Case No.: 2015-013891DRM
Building Permit: 2013.09.24.7657
Hearing Date: Thursday, July 21, 2016

Dear President Fong and Commissioners,

I am writing this letter on behalf of the board and members of the Outer Mission Merchants and Residents Association (OMMRA) regarding the Project Address 100 Sickles Avenue. We ask you and other members of the Planning Commission take Discretionary Review and oppose this project.

There is precedent for the Planning Commission in taking Discretionary Review and opposing the project. At the December 11, 2014 Planning Commission hearing, our organization and numerous representatives of District 11, testified against SPARC medical cannabis dispensary which was proposed for 5420 Mission Street.

This opposition is not about medical cannabis. Instead the community's disapproval is that "God's Green Compassion" at 100 Sickles will negatively impact the neighborhood with increased vehicle traffic. This particular section on Sickles Avenue is considered a **Vision-Zero High Injury Corridor** and is the highest ranked corridor in District 11 with twice as many severe/fatal injuries per mile as 1.25 mile section of Mission from Trumbull to Niagara. (See map included in packet). Keep in mind this is a heavily traveled corridor with children walking to nearby schools and using local recreation centers. Sickles Avenue is also the main road for residents to connect to Highway 280 and provides access to the west-side of San Francisco.

President Rodney Fong
Project Address: 100 Sickles Avenue
July 10, 2016
Page Two

In February 2012, the Planning Commission approved three medical cannabis dispensaries in District 11 located at 4218, 5234 and 5258 Mission Street. If approved this latest medical cannabis dispensary, also known as "God's Green Compassion", would be a 5 minute walk from Mission Organics located at 5258 Mission Street, less than 350 feet from the San Mateo County line and with easy access to Highway 280. For those who may not know, San Mateo County does not allow medical cannabis storefront dispensaries! There would also be five medical cannabis dispensaries located within a half-mile radius. (See map)

In the Spring of 2014, OMMRA testified at a Planning Commission hearing regarding the report **"Evaluating the Planning Code's Medical Cannabis Dispensaries Locational Requirements"**. The Planning Commission approved this report, which had been requested by Supervisor Avalos. One of the recommendations in the report is to expand the "Green Zone" so that clustering does not take place.

Unfortunately because this recommendation in particular has NOT been acted upon by the Board of Supervisors, neighborhoods such as the Outer Mission are being impacted by the number of medical cannabis clubs operating within close proximity to each other.

OMMRA is very aware there are two additional medical cannabis clubs that would like to open at 4130 Mission Street and 5978 Mission Street. To my knowledge, there is no other district in the City in recent years that has had this many medical cannabis dispensaries approved in a short amount of time. Having three medical cannabis dispensaries approved in one night is not a memory I will soon forget! Has District 11 reached the saturation point? OMMRA believes we have.

No one in the public can accuse OMMRA of being NIMBYs. Our community is currently dealing with the challenges and issues with the three existing medical cannabis dispensaries. It has not been an easy transition going from zero dispensaries to three in a very short period of time. However, OMMRA is working with the MCDs already in operation. As President of OMMRA, I meet with representatives from all three MCDs on a regular basis. However, OMMRA's position regarding the addition of any NEW MCDs is: ENOUGH IS ENOUGH!

Once again, we ask the Planning Commissioners take Discretionary Review and oppose this project. Thank you for your time. I would be happy to discuss further with you any concerns expressed in this letter. I can be reached at 415-305-6065 or by email at sfommra@gmail.com.

Regards,

Joelle A. Kenealey

City and County of San Francisco

JOHN AVALOS

Memorandum

To: Planning Commission

From: John Avalos 

Date: May 24, 2016

RE: **100 Sickles Ave; Proposed MCD (d.b.a. God's Green Compassion)**

I write to you regarding a request for a building application to establish a Medical Cannabis Dispensary (MCD) (d.b.a. God's Green Compassion) on the ground floor of 100 Sickles Avenue which is before your consideration. I understand that, as a new MCD, they have a mandatory Discretionary Review hearing and I urge you to deny this application.

Because of opposition from District 11 residents, the Planning Commission denied SPARC's application in December 2014. Neighborhood opposition to MCDs is still strong and while I have supported MCDs in District 11, I believe there is growing voice of concern from neighbors regarding the clustering of MCDs in District 11 and an oversaturation in our "green zone". As the Planning Commission is aware, to address these neighborhood concerns over clustering, I passed legislation requiring Conditional Use authorization of any MCD seeking to locate within 500 feet of another. However, although this proposed MCD is not within 500 feet of another MCD, it still fails to meet the Conditional Use standard in addition to not meeting the needs and desires of the community.

I urge you to disapprove this application as the community has clearly spoken out that it is neither necessary nor desirable. Thank you for your consideration.

RE: Project Address: 100 Sickles Avenue
Building Permit: 2013.09.24.7657
Case No. : 2015-013891DRM

Dear President Fong and Commissioners,

I'm writing you today to voice my opposition to a proposed cannabis club at 100 Sickles Avenue. At present, San Francisco regulations prohibit cannabis clubs from opening within 1,000 feet of a school or any other structure used primarily by people under the age of 18.

Daly City is less than a half-block from the location of the proposed cannabis club and we have Lincoln Park which is a couple hundred feet away. The services offered at our park's on-site Rec Center may vary by season, year, and quite frankly the economy. Regardless of the services being offered at the park, children are seen often using the facilities. As Daly City continues to improve services to children, a cannabis club at 100 Sickles would limit the type of services we would in good conscience offer the community at our park. As I'm sure you're aware, District 11 in San Francisco has the highest population of school aged children. Daly City also has a high number of school aged children within our city limits. Sometimes, due to dual working households, children are forced to walk home by themselves. We don't feel small children should be exposed to the cannabis environment at a young age.

Another concern I share with colleagues in Daly City is the proximity of the proposed club to the county line and nearby freeway access. Many cannabis clubs typically deal in cash and are susceptible to theft. Although communication between our police departments continues to improve, tracking or apprehending a fleeing suspect from San Francisco into Daly City could prove most challenging. Also, the proposed location is three blocks away from the 280 onramp.

In essence, someone could rob the cash business and jump on to the freeway in less than 15 seconds. The head start a criminal would have on both our police departments would be insurmountable.

Furthermore, there are several facilities within San Francisco County that are less than 1,000 feet of the proposed cannabis club and primarily serve people under the age of 18. Mac's Family Services (Group Home/2 blocks away), Sears-Lessing Park (1 block away), and the San Francisco Christian Center (serves over 100 children daily with after-school care programs and services/1 block away) are enough reason as to why 100 Sickles Avenue is not a suitable location. San Francisco also has two schools (Longfellow Elementary and the San Francisco Christian School) that are just beyond 1,000 feet. Daly City also has Our Lady of Perpetual Help School (K-8) in relatively close proximity to the proposed club.

I ask you on behalf of all my constituents, please do not allow a cannabis club to open at 100 Sickles Ave. We both stand to lose too much should this business be allowed.

Thank you for your time and consideration.

Sincerely,

A handwritten signature in dark ink, appearing to read 'D. Canepa', with a stylized flourish at the end.

David Canepa

Re: The Proposed Marijuana Dispensary 100 Sickles Avenue

To the Planning Department:

Our church has been located at 5845 Mission St. since 1954 and we have served this community and communities throughout the Bay Area through various outreaches.

San Francisco Christian Center consists of three properties: the Sanctuary, 5825 Mission; the Educational Building 5845 Mission; a smaller multi-use building, 5833 Mission and two residential properties, 50 and 66 Oliver St.. Our Educational building is a 2 1/2 floor structure consisting of first floor office and meeting spaces; a second floor gymnasium/multifunction space and a third half floor consisting of five classrooms.

In 1987 our church established an after-school program, Our Kids First. This program utilizes the second and third floors of our Educational building. The program is open to all children in the community ages 5 through 11 and operates from 3:00 p.m. to 6:00 p.m. Monday through Friday. In the summer, there is a 6 week summer session, same age group, and the operating hours are from 8:30 a.m. to 6:00 p.m. Along with our after school program, our second floor gym is used 3 days a week by different schools for basketball practices from 6:00 p.m. to 7:45 p.m.; the age group is grades 1 through middle school.

Throughout the year our church sponsors several another for major outreach programs involving children. A Mother's Day Outreach with emphasis on Women/Mothers in homeless shelters and shelters for abused women and their children. Easter, we have an "Easter Egg Hunt" opened to all children in the community; Halloween we have "Life Night" again opened to all children in the community and the last major outreach is our "Angel Tree" Christmas Party and gift give away for children with incarcerated parents.

We strongly oppose the prospect of opening a marijuana dispensary at 100 Sickles Street and the close proximity to our programs and also to the other nearby schools and the impact that this dispensary would have on our community.

Very Truly Yours,

Cynthia K. Dillard
Administrator

RE: Project Address: 100 Sickles Avenue, San Francisco CA 94112
Case No.: 2015-013891DRM
Building Permit: 2013.09.24.7657
Hearing Date: Thursday, July 21, 2016

Dear President Fong and Commissioners,

I am writing this letter on behalf of the District 11 Council regarding the above project address of 100 Sickles Avenue. We ask the Planning Commissioners take Discretionary Review and oppose this project.

In February 2012, the Planning Commission approved three medical cannabis dispensaries in District 11, located at 4218, 5234 and 5258 Mission Street. This latest medical cannabis dispensary, also known as God's Green Compassion, would be less than 350 feet away from the San Mateo County line and with easy access to Highway 280. We believe this MCD is not for the benefit of residents in District 11 it's for the servicing of patients in San Mateo County.

It is the position of District 11 Council that permitting God's Green Compassion to open is asking merchants, residents and law enforcement personnel to bear a considerable burden, when the sole purpose benefits one merchant by circumventing the laws of another county. We also believe that the three medical cannabis dispensaries already in operation are serving the needs of District 11. We see no reason for a FOURTH medical cannabis dispensary to be permitted to open.

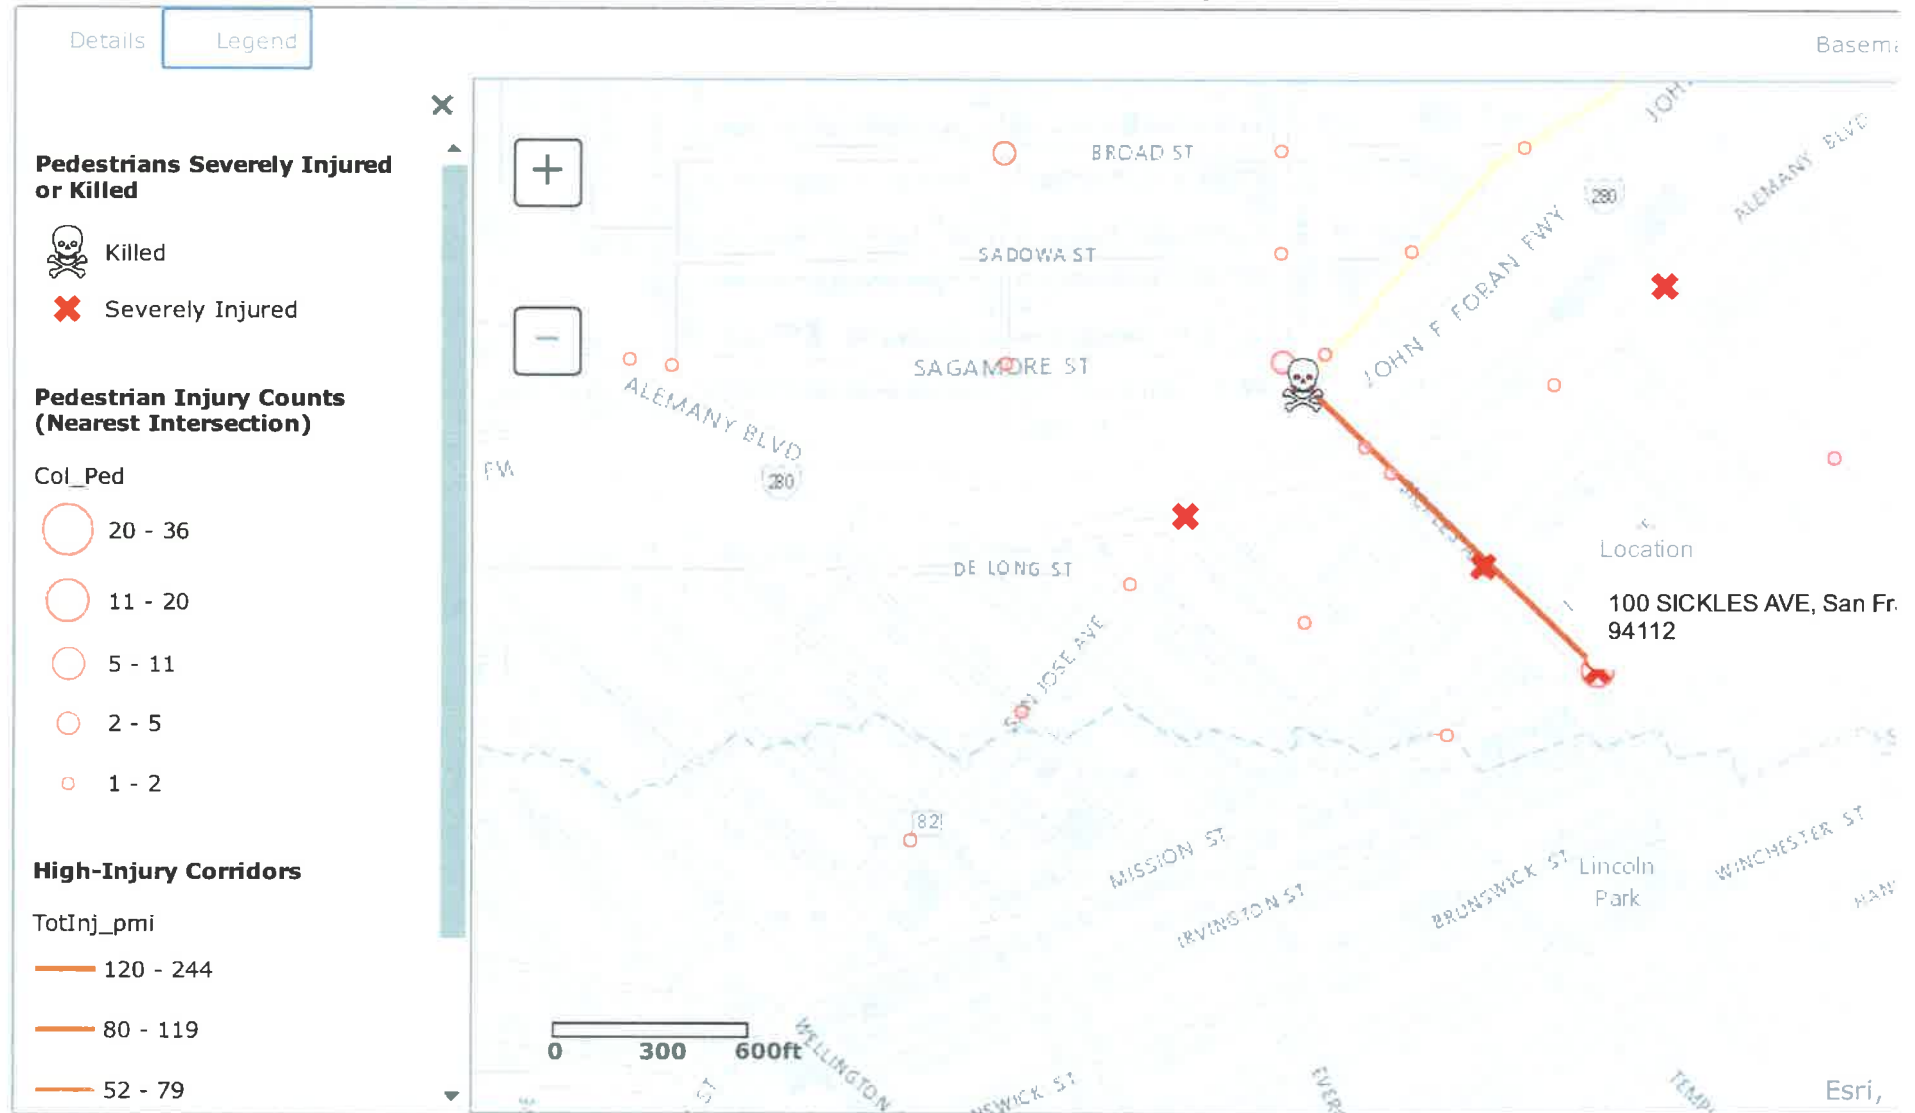

Once again, we ask the Planning Commissioners take Discretionary Review and oppose this project.

Regards,

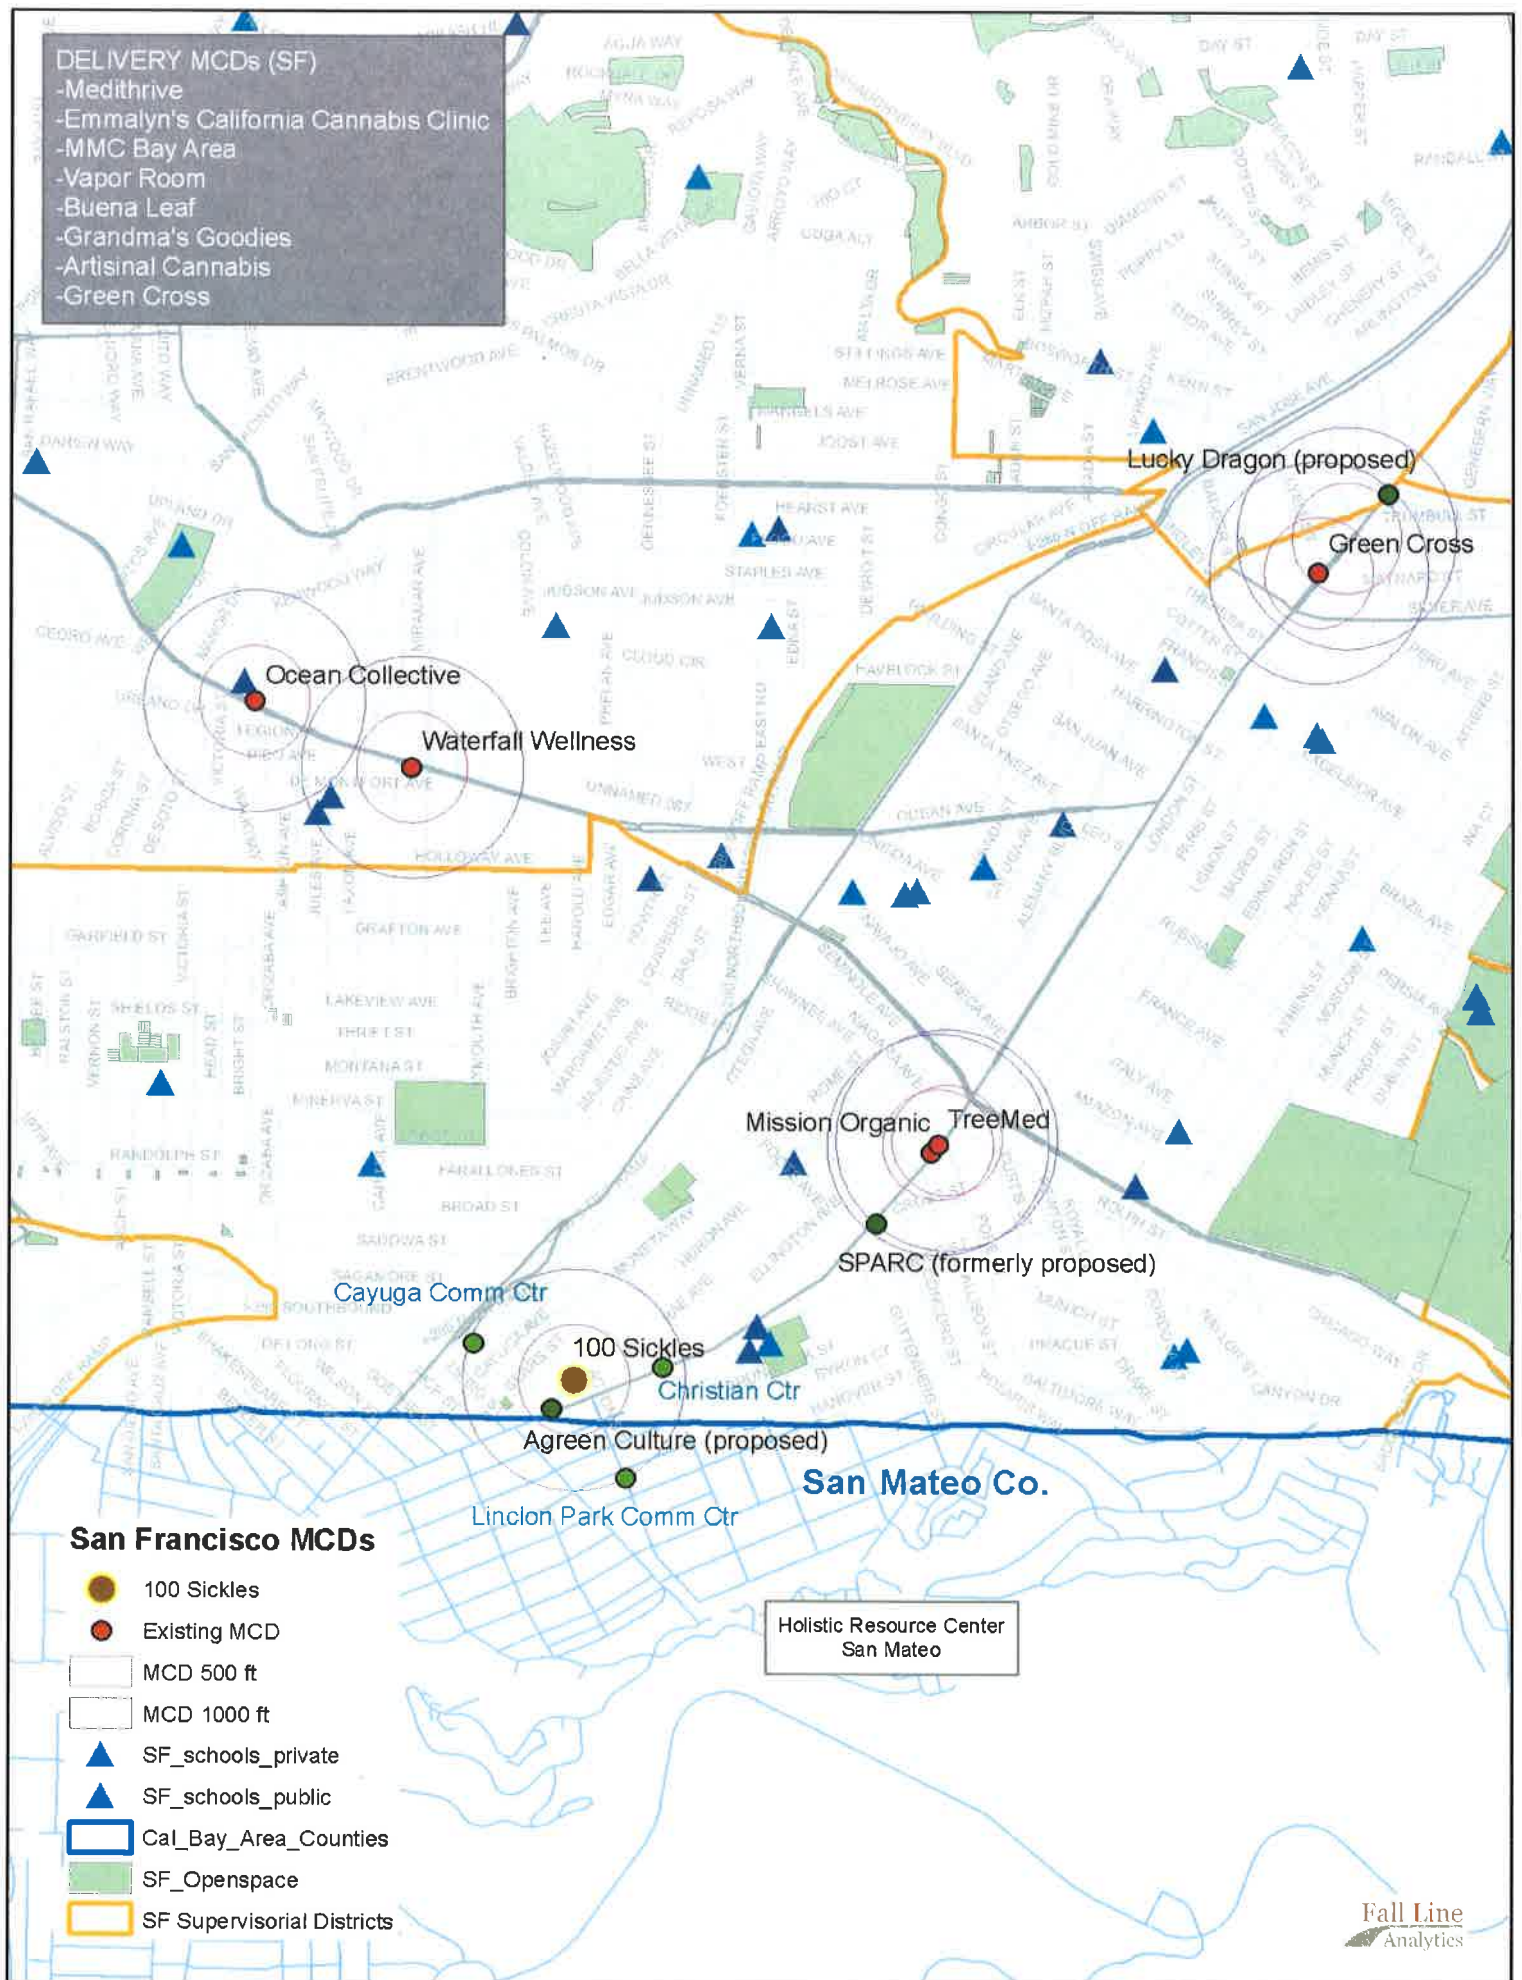

Mary Harris
President
District 11 Council

Case No.: 2015-013891DRM
Building Permit: 2013.09.24.7657
Hearing Date: Thursday, July 21, 2016

Dear President Fong and Commissioners,

I am writing this letter on behalf of the Newton-Morse-Curtis Neighborhood Watch regarding the Project Address 100 Sickles Avenue. We ask you and other members of the Planning Commission to take Discretionary Review and **oppose** this project.

We believe 3 MCDs in D11 is enough! We do not feel it is in the best interest of the southernmost San Francisco neighborhoods to add another one. This type of business increases, traffic, parking, litter and graffiti problems without increasing customers at other local establishments. In addition it creates a barrier to attracting new businesses that do serve the community.

Sincerely,

A handwritten signature in black ink, appearing to read 'Grace Breyley', with a long horizontal line extending to the right.

Case No.: 2015-013891DRM
Building Permit: 2013.09.24.7657
Hearing Date: Thursday, July 21, 2016

Dear President Fong, Vice President Richards, and Planning Committee Commissioners,

This letter is in regards to the proposed medicinal cannabis dispensary with project address at 100 Sickles Avenue. The Outer Mission/Crocker Amazon/Excelsior neighborhoods are already saturated with MCDs due to their proximity to the San Mateo/San Francisco county line. While serving a reasonable cause, these locations all seem to attract an unsavory, often criminal element to the Mission Street commercial corridor. Furthermore, this is a neighborhood (especially south of Geneva Avenue) with dozens of boarded up storefronts but few of the conveniences available in other commercial corridors in San Francisco: it's hard enough to find a decent cup of coffee, let alone books, groceries, pet supplies, music, or clothing, but it seems like we have amazing variety when it comes to medicinal marijuana.

As a concerned resident of this neighborhood who would like to see city government take action, I ask you and other members of the Planning Commission take Discretionary Review and oppose this project.

Thank you very much for your time and service!

Sincerely,

Charles Kaupp

San Francisco, Ca 94112

To Whom It May Concern:

I was born in district eleven, I have lived here all my life, and now own my home here. I am strongly opposed to any more Medicinal Cannabis Dispensaries within this district. There are already three MCD's here, very close to my home in the district. My quality of life has been negatively affected by these dispensaries. Furthermore, I believe our district is being taken advantaged of because we are a district of working class and largely immigrant families.

We may not be as politically organized as other districts, but that does not mean that we should be a dumping ground for MCD's. These existing dispensaries have not been good neighbors. I feel that our district has become overburdened by these dispensaries and the rest of San Francisco should share in that burden. When San Francisco has shown that they care about all the districts equally by promoting positive businesses in D11 (wholesome grocery stores, quality restaurants and cafes, clothing boutiques, etc.), then we can talk about additional MCDs.

I want a district 11 that is walkable, fun, convenient and safe. Right now it is not those things and MCDs will only make it worse. Please support working families by saying no to more Medicinal Cannabis Dispensaries in district eleven.

Sincerely,

Jaime and Mary Montti

Case No.: 2015-013891DRM
Building Permit: 2013.09.24.7657
Hearing Date: Thursday, July 21, 2016

Dear President Fong and Commissioners,

I am writing this letter regarding the proposed project at 100 Sickles Avenue: Green God's Compassion Medical Cannabis Dispensary. I ask you and other members of the Planning Commission to take Discretionary Review and **oppose this project**.

There are already 3 medical cannabis dispensaries (MCDs) in District 11. A neighborhood this size does not need 4 MCDs. Adding another MCD would not serve the interests of this district. We need to ask ourselves why this community is so attractive to MCDs and not other businesses that are under-represented and needed.

Approving this MCD project (or any others that may apply for a permit) condemns this neighborhood to being a hub for the cannabis business and all the problems that come with that. Let each district in San Francisco have 1-2 cannabis dispensaries to serve that specific neighborhood. This district should not bear the burden for outlying districts who do not allow MCDs.

Please do not allow this neighborhood to decay further. It is already challenged with crime, has boarded store fronts, and is not attractive to the businesses we really need. Adding more MCDs will only contribute to the existing blight and seediness.

Sincerely,

Stefanie Schneider

Case No.: 2015-013891DRM
Building Permit: 2013.09.24.7657
Hearing Date: Thursday, July 21, 2016

Dear President Fong and Commissioners,
I am writing this letter regarding the Project Address 100 Sickles Avenue. I ask you and other members of the Planning Commission to take Discretionary Review and *oppose* this project.

At the May outreach meeting Ms. Ong held at the Ingleside Community Room she said her MCD would be offering massage services at the 100 Sickles location, "something more like an enhanced spa treatment." Conspicuously there is no mention of this proposed service on the web site for this proposed MCD.

Have the appropriate facilities for massage employees and customers been documented in the plans as per Article 29 of the San Francisco Health Code Sections 1910 & 1911? Is there sufficient room in the existing retail space for the areas required by a massage facility? Has the additional change of use been filed for a health permit for massage? How much additional parking would the facility require to support this type of customer? Right now I am unaware of any confirmed dedicated parking associated with this proposal.

Even if the massage services are no longer a part of this proposal I do not want another MCD in D11, particularly one who's approach to getting approved is to throw the kitchen sink at it.

Sincerely,

Jay Towslee
149 Morse Street
San Francisco, 94112

NO MORE MEDICAL CANNABIS DISPENSARIES (MCDs) IN THE OUTER MISSION!

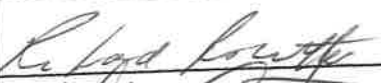

Petition summary and background

We already have 3 MCDs that service this community, and we should not be burdened by the opening of a 4th--especially in a location where there is already parking and traffic congestion. It is noted that the proposed MCD at 100 Sickles Avenue is less than **350 feet** from the San Mateo County line, and San Mateo County forbids the operation of MCD storefronts within its borders.

NO MORE MEDICAL CANNABIS DISPENSARIES (MCDs) IN THE OUTER MISSION!

Petition summary and background	We already have 3 MCDs that service this community, and we should not be burdened by the opening of a 4th--especially in a location where there is already parking and traffic congestion. It is noted that the proposed MCD at 100 Sickles Avenue is less than 350 feet from the San Mateo County line, and San Mateo County forbids the operation of MCD storefronts within its borders.

NO MORE MEDICAL CANNABIS DISPENSARIES (MCDs) IN DISTRICT 11

My signature confirms my opposition to another MCD

Petition summary and Background in English	We already have 3 MCDs that service this community, and we should not be burdened by the opening of another MCD in district 11--especially in a location where there is already parking and traffic congestion. My signature confirms my opposition to another MCD
Petition summary and background in Chinese	仅在外美慎社區內我們已有3間藥用大麻店為我們社區服務, 根本没有必要再開多一間在11區。特別是大麻店选址已有著混乱交通及拥挤停车等安全问题, 所以我们更不该被此计划建设的大麻店所影响。我反對大麻店的簽名確定我反對另一間大麻店的立場。
Petition summary and background in Spanish	Ya tenemos 3 MCD (Dispensario Medico de Marijuana) que dan servicio a la comunidad, y no tenemos por que soportar el peso de la apertura de una cuarta MCD-especialmente en un lugar donde ya hay dificultad con aparcamiento y la congestión del tráfico. Con mi firma declaro mi oposición a otro MCD.

PETITION TO OPPOSE A MEDICAL CANNABIS DISPENSARY (MCD) AT 100 SICKLES AVENUE AND ANYMORE MCD'S IN DISTRICT 11

Petition summary and background in English	We already have 3 MCDs that service this community, and we should not be burdened by the opening of a 4 th - especially in a location where there is already parking and traffic congestion. It is noted that the proposed MCD at 100 Sickles Avenue is less than 350 feet (½ block) from the San Mateo County line, and San Mateo County forbids the operation of MCD storefronts within its borders. My signature affirms my opposition to another MCD.
Petition summary and background in Chinese	仅在外美慎社區內我們已有3間藥用大麻店為我們社區服務, 没有必要再開多一間。而位于100 Sickles Ave.的第四間大麻店选址已有著混乱交通及拥挤停车等安全问题, 所以我们更不该被此计划建设的大麻店所影响。特别值得注意的是, 與100 Sickles Ave 僅僅相距350尺的聖馬刁縣(San Mateo County) 是全面禁止開設藥用大麻店。我反對大麻店的簽名確定我反對另一間大麻店的立場。
Petition summary and background in Spanish	Ya tenemos 3 MCD (Dispensario Medico de Marijuana) que dan servicio a la comunidad, y no tenemos por que soportar el peso de la apertura de una cuarta MCD- especialmente en un lugar donde ya hay dificultad con aparcamiento y la congestión del tráfico. Se hace notar que el MCD propuesto para el domicilio 100 de la avenida Sickles está a menos de 350 pies de la línea del Condado de San Mateo, y el Condado de San Mateo prohíbe el funcionamiento de MCD dentro de sus fronteras. Con mi firma declaro mi oposición a otro MCD.

NO MORE MEDICAL CANNABIS DISPENSARIES (MCDs) IN THE OUTER MISSION!

Petition summary and background	We already have 3 MCDs that service this community, and we should not be burdened by the opening of a 4th--especially in a location where there is already parking and traffic congestion. It is noted that the proposed MCD at 100 Sickles Avenue is less than 350 feet from the San Mateo County line, and San Mateo County forbids the operation of MCD storefronts within its borders.

NO MORE MEDICAL CANNABIS DISPENSARIES (MCDs) IN DISTRICT 11

My signature confirms my opposition to another MCD

Petition summary and Background in English	We already have 3 MCDs that service this community, and we should not be burdened by the opening of another MCD in district 11--especially in a location where there is already parking and traffic congestion. My signature confirms my opposition to another MCD
Petition summary and background in Chinese	仅在外美慎社區內我們已有3間藥用大麻店為我們社區服務。根本没有必要再開多一間在11區。特別是大麻店选址已有著混乱交通及拥挤停车等安全问题,所以我们更不该被此计划建设的大麻店所影响。我反對大麻店的簽名確定我反對另一間大麻店的立場。
Petition summary and background in Spanish	Ya tenemos 3 MCD (Dispensario Medico de Marijuana) que dan servicio a la comunidad, y no tenemos por que soportar el peso de la apertura de una cuarta MCD-especialmente en un lugar donde ya hay dificultad con aparcamiento y la congestión del tráfico. Con mi firma declaro mi oposición a otro MCD.

反對在第十一區再開設大麻店!

第十一區已有3間大麻店營業，我們社區需要更多不同種類小商業，不是一間又一間大麻店。大麻店為我們社區帶來不必要的交通，停車，治安等問題。100 Sickles 大道申請開設的大麻店距離San Mateo縣不到350尺，因San Mateo縣全面禁止大麻店，所以此大麻店會及引大量藥用大麻的人仕進入我們社區!

PETITION TO OPPOSE A MEDICAL CANNABIS DISPENSARY (MCD) AT 100 SICKLES AVENUE AND ANYMORE MCD'S IN DISTRICT 11

Petition summary and background in English	We already have 3 MCDs that service this community, and we should not be burdened by the opening of a 4 th - especially in a location where there is already parking and traffic congestion. It is noted that the proposed MCD at 100 Sickles Avenue is less than 350 feet (½ block) from the San Mateo County line, and San Mateo County forbids the operation of MCD storefronts within its borders. My signature affirms my opposition to another MCD.
Petition summary and background in Chinese	仅在外美慎社區內我們已有3間藥用大麻店為我們社區服務, 没有必要再開多一間。而位于100 Sickles Ave.的第四間大麻店选址已有著混乱交通及拥挤停车等安全问题, 所以我们更不该被此计划建设的大麻店所影响。特别值得注意的是, 與100 Sickles Ave 僅僅相距350尺的聖馬刁縣(San Mateo County) 是全面禁止開設藥用大麻店。我反對大麻店的簽名確定我反對另一間大麻店的立場。
Petition summary and background in Spanish	Ya tenemos 3 MCD (Dispensario Medico de Marijuana) que dan servicio a la comunidad, y no tenemos por que soportar el peso de la apertura de una cuarta MCD- especialmente en un lugar donde ya hay dificultad con aparcamiento y la congestión del tráfico. Se hace notar que el MCD propuesto para el domicilio 100 de la avenida Sickles está a menos de 350 pies de la línea del Condado de San Mateo, y el Condado de San Mateo prohíbe el funcionamiento de MCD dentro de sus fronteras. Con mi firma declaro mi oposición a otro MCD.

PETITION TO OPPOSE A MEDICAL CANNABIS DISPENSARY (MCD) AT 100 SICKLES AVENUE AND ANYMORE MCD'S IN DISTRICT 11

Petition summary and background in English	We already have 3 MCDs that service this community, and we should not be burdened by the opening of a 4 th - especially in a location where there is already parking and traffic congestion. It is noted that the proposed MCD at 100 Sickles Avenue is less than 350 feet (½ block) from the San Mateo County line, and San Mateo County forbids the operation of MCD storefronts within its borders. My signature affirms my opposition to another MCD.
Petition summary and background in Chinese	仅在外美慎社區內我們已有3間藥用大麻店為我們社區服務, 没有必要再開多一間。而位于100 Sickles Ave.的第四間大麻店选址已有著混乱交通及拥挤停车等安全问题, 所以我们更不该被此计划建设的大麻店所影响。特别值得注意的是, 與100 Sickles Ave 僅僅相距350尺的聖馬刁縣(San Mateo County) 是全面禁止開設藥用大麻店。我反對大麻店的簽名確定我反對另一間大麻店的立場。
Petition summary and background in Spanish	Ya tenemos 3 MCD (Dispensario Medico de Marijuana) que dan servicio a la comunidad, y no tenemos por que soportar el peso de la apertura de una cuarta MCD- especialmente en un lugar donde ya hay dificultad con aparcamiento y la congestión del tráfico. Se hace notar que el MCD propuesto para el domicilio 100 de la avenida Sickles está a menos de 350 pies de la línea del Condado de San Mateo, y el Condado de San Mateo prohíbe el funcionamiento de MCD dentro de sus fronteras. Con mi firma declaro mi oposición a otro MCD.

PETITION TO OPPOSE A MEDICAL CANNABIS DISPENSARY (MCD) AT 100 SICKLES AVENUE AND ANYMORE MCD'S IN DISTRICT 11

Petition summary and background in English	We already have 3 MCDs that service this community, and we should not be burdened by the opening of a 4 th - especially in a location where there is already parking and traffic congestion. It is noted that the proposed MCD at 100 Sickles Avenue is less than 350 feet (½ block) from the San Mateo County line, and San Mateo County forbids the operation of MCD storefronts within its borders. My signature affirms my opposition to another MCD.
Petition summary and background in Chinese	仅在外美慎社區內我們已有3間藥用大麻店為我們社區服務, 沒有必要再開多一間。而位于100 Sickles Ave.的第四間大麻店选址已有著混乱交通及拥挤停车等安全问题, 所以我们更不该被此计划建设的大麻店所影响。特别值得注意的是, 與100 Sickles Ave 僅僅相距350尺的聖馬刁縣(San Mateo County) 是全面禁止開設藥用大麻店。我反對大麻店的簽名確定我反對另一間大麻店的立場。
Petition summary and background in Spanish	Ya tenemos 3 MCD (Dispensario Medico de Marijuana) que dan servicio a la comunidad, y no tenemos por que soportar el peso de la apertura de una cuarta MCD- especialmente en un lugar donde ya hay dificultad con aparcamiento y la congestión del tráfico. Se hace notar que el MCD propuesto para el domicilio 100 de la avenida Sickles está a menos de 350 pies de la línea del Condado de San Mateo, y el Condado de San Mateo prohíbe el funcionamiento de MCD dentro de sus fronteras. Con mi firma declaro mi oposición a otro MCD.

PETITION TO OPPOSE A MEDICAL CANNABIS DISPENSARY (MCD) AT 100 SICKLES AVENUE AND ANYMORE MCD's IN DISTRICT 11

We already have 3 MCDs that service this community, and we should not be burdened by the opening of a 4th - especially in a location where there is already parking and traffic congestion. It is noted that the proposed MCD at 100 Sickles Avenue is less than 350 feet (½ block) from the San Mateo County line, and San Mateo County forbids the operation of MCD storefronts within its borders. My signature affirms my opposition to another MCD.

仅在外美慎社區內我們已有3間藥用大麻店為我們社區服務, 没有必要再開多一間。而位于100 Sickles Ave. 的第四間大麻店选址已有著混乱交通及拥挤停车等安全问题。所以我们更不该被此计划建设的大麻店所影响。特别值得注意的是, 與100 Sickles Ave 僅僅相距350尺的聖馬刁縣(San Mateo County) 是全面禁止開設藥用大麻店。我反對大麻店的簽名確定我反對另一間大麻店的立場。

Ya tenemos 3 MCD (Dispensario Medico de Marijuana) que dan servicio a la comunidad, y no tenemos por que soportar el peso de la apertura de una cuarta MCD- especialmente en un lugar donde ya hay dificultad con aparcamiento y la congestión del tráfico. Se hace notar que el MCD propuesto para el domicilio 100 de la avenida Sickles está a menos de 350 pies de la línea del Condado de San Mateo, y el Condado de San Mateo prohíbe el funcionamiento de MCD dentro de sus fronteras. Con mi firma declaro mi oposición a otro MCD.

NO MORE MEDICAL CANNABIS DISPENSARIES (MCDs) IN THE OUTER MISSION!

Petition summary and background	We already have 3 MCDs that service this community, and we should not be burdened by the opening of a 4th—especially in a location where there is already parking and traffic congestion. It is noted that the proposed MCD at 100 Sickles Avenue is less than 350 feet from the San Mateo County line, and San Mateo County forbids the operation of MCD storefronts within its borders.

NO MORE MEDICAL CANNABIS DISPENSARIES (MCDs) IN DISTRICT 11

My signature confirms my opposition to another MCD

Petition summary and Background in English	We already have 3 MCDs that service this community, and we should not be burdened by the opening of another MCD in district 11—especially in a location where there is already parking and traffic congestion. My signature confirms my opposition to another MCD
Petition summary and background in Chinese	仅在外美慎社區內我們已有3間藥用大麻店為我們社區服務, 根本没有必要再開多一間在11區。特別是大麻店选址已有著混乱交通及拥挤停车等安全问题, 所以我们更不该被此计划建设的大麻店所影响。我反對大麻店的簽名確定我反對另一間大麻店的立場。
Petition summary and background in Spanish	Ya tenemos 3 MCD (Dispensario Medico de Marijuana) que dan servicio a la comunidad, y no tenemos por que soportar el peso de la apertura de una cuarta MCD-especialmente en un lugar donde ya hay dificultad con aparcamiento y la congestión del tráfico. Con mi firma declaro mi oposición a otro MCD.

PETITION TO OPPOSE A MEDICAL CANNABIS DISPENSARY (MCD) AT 100 SICKLES AVENUE AND ANYMORE MCD'S IN DISTRICT 11

Petition summary and background in English	We already have 3 MCDs that service this community, and we should not be burdened by the opening of a 4 th - especially in a location where there is already parking and traffic congestion. It is noted that the proposed MCD at 100 Sickles Avenue is less than 350 feet (½ block) from the San Mateo County line, and San Mateo County forbids the operation of MCD storefronts within its borders. My signature affirms my opposition to another MCD.
Petition summary and background in Chinese	仅在外美慎社區內我們已有3間藥用大麻店為我們社區服務, 没有必要再開多一間。而位于100 Sickles Ave.的第四間大麻店选址已有著混乱交通及拥挤停车等安全问题, 所以我们更不该被此计划建设的大麻店所影响。特别值得注意的是, 與100 Sickles Ave 僅僅相距350尺的聖馬刁縣(San Mateo County) 是全面禁止開設藥用大麻店。我反對大麻店的簽名確定我反對另一間大麻店的立場。
Petition summary and background in Spanish	Ya tenemos 3 MCD (Dispensario Medico de Marijuana) que dan servicio a la comunidad, y no tenemos por que soportar el peso de la apertura de una cuarta MCD- especialmente en un lugar donde ya hay dificultad con aparcamiento y la congestión del tráfico. Se hace notar que el MCD propuesto para el domicilio 100 de la avenida Sickles está a menos de 350 pies de la línea del Condado de San Mateo, y el Condado de San Mateo prohíbe el funcionamiento de MCD dentro de sus fronteras. Con mi firma declaro mi oposición a otro MCD.

PETITION TO OPPOSE A MEDICAL CANNABIS DISPENSARY (MCD) AT 100 SICKLES AVENUE AND ANYMORE MCD's IN DISTRICT 11

We already have 3 MCDs that service this community, and we should not be burdened by the opening of a 4th - especially in a location where there is already parking and traffic congestion. It is noted that the proposed MCD at 100 Sickles Avenue is less than 350 feet (1/2 block) from the San Mateo County line, and San Mateo County forbids the operation of MCD storefronts within its borders. My signature affirms my opposition to another MCD.

仅在外美慎社區內我們已有 3 間藥用大麻店為我們社區服務, 没有必要再開多一間。而位于 100 Sickles Ave. 的第四間大麻店选址已有著混乱交通及拥挤停车等安全问题。所以我们更不该被此计划建设的大麻店所影响。特别值得注意的是, 與 100 Sickles Ave 僅僅相距 350 尺的聖馬刁縣(San Mateo County) 是全面禁止開設藥用大麻店。我反對大麻店的簽名確定我反對另一間大麻店的立場。

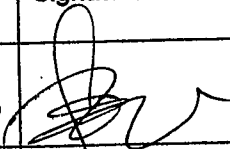

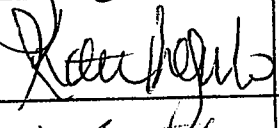

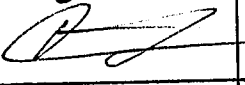

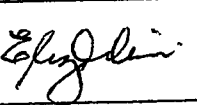

Ya tenemos 3 MCD (Dispensario Medico de Marijuana) que dan servicio a la comunidad, y no tenemos por que soportar el peso de la apertura de una cuarta MCD- especialmente en un lugar donde ya hay dificultad con aparcamiento y la congestión del tráfico. Se hace notar que el MCD propuesto para el domicilio 100 de la avenida Sickles está a menos de 350 pies de la línea del Condado de San Mateo, y el Condado de San Mateo prohíbe el funcionamiento de MCD dentro de sus fronteras. Con mi firma declaro mi oposición a otro MCD.

PETITION TO OPPOSE A MEDICAL CANNABIS DISPENSARY (MCD) AT 100 SICKLES AVENUE AND ANYMORE MCD's IN DISTRICT 11

We already have 3 MCDs that service this community, and we should not be burdened by the opening of a 4th - especially in a location where there is already parking and traffic congestion. It is noted that the proposed MCD at 100 Sickles Avenue is less than 350 feet (½ block) from the San Mateo County line, and San Mateo County forbids the operation of MCD storefronts within its borders. My signature affirms my opposition to another MCD.

仅在外美慎社區內我們已有 3 間藥用大麻店為我們社區服務, 没有必要再開多一間。而位于 100 Sickles Ave. 的第四間大麻店选址已有著混乱交通及拥挤停车等安全问题。所以我们更不该被此计划建设的大麻店所影响。特别值得注意的是, 與 100 Sickles Ave 僅僅相距 350 尺的聖馬刁縣(San Mateo County) 是全面禁止開設藥用大麻店。我反對大麻店的簽名確定我反對另一間大麻店的立場。

Ya tenemos 3 MCD (Dispensario Medico de Marijuana) que dan servicio a la comunidad, y no tenemos por que soportar el peso de la apertura de una cuarta MCD- especialmente en un lugar donde ya hay dificultad con aparcamiento y la congestión del tráfico. Se hace notar que el MCD propuesto para el domicilio 100 de la avenida Sickles está a menos de 350 pies de la línea del Condado de San Mateo, y el Condado de San Mateo prohíbe el funcionamiento de MCD dentro de sus fronteras. Con mi firma declaro mi oposición a otro MCD.

Petition summary and background in Chinese	仅在外美慎社區內我們已有3間藥用大麻店為我們社區服務, 没有必要再開多一間。而位于100 Sickles Ave.的第四間大麻店选址已有著混乱交通及拥挤停车等安全问题, 所以我们更不该被此计划建设的大麻店所影响。特别值得注意的是, 與100 Sickles Ave 僅僅相距350尺的聖馬刁縣(San Mateo County) 是全面禁止開設藥用大麻店。我反對大麻店的簽名確定我反對另一間大麻店的立場。
Petition summary and background in Spanish	Ya tenemos 3 MCD (Dispensario Medico de Marijuana) que dan servicio a la comunidad, y no tenemos por que soportar el peso de la apertura de una cuarta MCD- especialmente en un lugar donde ya hay dificultad con aparcamiento y la congestión del tráfico. Se hace notar que el MCD propuesto para el domicilio 100 de la avenida Sickles está a menos de 350 pies de la línea del Condado de San Mateo, y el Condado de San Mateo prohíbe el funcionamiento de MCD dentro de sus fronteras. Con mi firma declaro mi oposición a otro MCD.

PETITION TO OPPOSE A MEDICAL CANNABIS DISPENSARY (MCD) AT 100 SICKLES AVENUE AND ANYMORE MCD'S IN DISTRICT 11

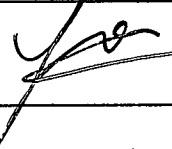

Petition summary and background in English	We already have 3 MCDs that service this community, and we should not be burdened by the opening of a 4 th - especially in a location where there is already parking and traffic congestion. It is noted that the proposed MCD at 100 Sickles Avenue is less than 350 feet (½ block) from the San Mateo County line, and San Mateo County forbids the operation of MCD storefronts within its borders. My signature affirms my opposition to another MCD.
Petition summary and background in Chinese	仅在外美慎社區內我們已有3間藥用大麻店為我們社區服務, 没有必要再開多一間。而位于100 Sickles Ave.的第四間大麻店选址已有著混乱交通及拥挤停车等安全问题, 所以我们更不该被此计划建设的大麻店所影响。特别值得注意的是, 與100 Sickles Ave 僅僅相距350尺的聖馬刁縣(San Mateo County) 是全面禁止開設藥用大麻店。我反對大麻店的簽名確定我反對另一間大麻店的立場。

NO MORE MEDICAL CANNABIS DISPENSARIES (MCDs) IN THE OUTER MISSION!

Petition summary and background	We already have 3 MCDs that service this community, and we should not be burdened by the opening of a 4th--especially in a location where there is already parking and traffic congestion. It is noted that the proposed MCD at 100 Sickles Avenue is less than 350 feet from the San Mateo County line, and San Mateo County forbids the operation of MCD storefronts within its borders.

Hi Erika Jackson,
I understand you are the person with knowledge of the proposed MCD on 100 Sickles.
Can you tell me if there are plans on file yet that we can review and when
the hearing will be held at the Planning Commission.
May we assume that the owner(s) have completed their background checks?
To whom should we address any letters against this proposed MCD?

Thank you in advance for your assistance.

Hi Scott and Erika,

Thanks for reply back and truly hope you oppose this plan of this dispensary in Sickles Ave. I remembered our district from non dispensaries to 5 now. Just from 2014, three approved and three more applying. I know there's a dispensary in Mission St that only like 10 blocks from this location. Especially Sickles Ave, lots of family have little children under 14 because of the park in Daly City and also there a mini park called Lessing and Sear Mini Park that's less than 1000 feet from this location.

Once, I found out the public hearing, I will be there. Really don't want our distract comes up with the news again that said the distract 11 is becoming a legal pot hotbed.

Thank you again,

Subject: Stop Marijuana Store

Hi,

Yesterday, my dad got an letter from Green Gods Compassion from the owner that only in English at 100 Sickles Ave, San Francisco, CA 94112.

After reading the letter I found out they used words and said non-profits tries to by pass the neighbors for opening the Marijuana Store.

The letter said is opening a medicine operating by non-profit and didn't mention any Marijuana drug. They used the word Cannabis. I do not know what is Cannabis and did a researched on the Internet that Cannabis is Marijuana. I lived next to this house, we have 3 children under 8. Also lot of neighbors that is Asia people. They only used English try to mislead people. If they have other language on the letter, lots of neighbors will come out said no to this Marijuana Store.

We do not want this store next our family and affects our neighbors. Also when the hearing out, please letter in other language.

Also, there is a Park near by that is under 1000 feet from the store. The park name Lincoln Park which is Daly City.

Please stop Marijuana store that will affect our kids.

Thanks,

Jackson, Erika

Hello Erika,

I've been in communication with Joelle Kenealey regarding the proposed cannabis club at 100 Sickles Ave. The proposed location is about 75 feet from the home I've owned for over 18+ years. I, along with several of my neighbors, intend to oppose a cannabis club at this location.

In recent days, I've asked Joelle about a letter of determination and whether or not one had been requested by the applicant. She was going to check with you and you've informed her that one hasn't been requested. You've also indicated that there aren't any schools or community facilities serving people under the age of 18 within a 1,000 feet of the proposed location. I feel there are such facilities within a 1,000 feet and as such have looped in Pastor Bill Betts of the S.F. Christian Center along with Prince Edmunds of MAC's Children & Family Services on the email chain. I spoke to both this week and asked if I could loop them in on the email chain to help clarify the services offered by each facility.

In speaking with Pastor Betts I was made aware that they house a high school on their premises. It's not a large high school but nonetheless it is a community serving facility for children under the age of 18. Also, they provide after school care for 100+ children every single day. I believe they're also a 501c3 which leads me to believe that a non-profit providing this type of service would make 100 Sickles not suitable for a cannabis club. Please feel free to visit their websites www.sfchristiancenter.org and www.sfchristianschool.org. Community services are provided at BOTH campuses, 25 Whittier (corner of Mission/Whittier) and 5845 Mission Street.

I've also been in communication with Mr. Edmunds regarding MAC's Children & Family Services. They've been serving the Bay Area for 20+ years and work with children in Foster Care. They house children in varying ages on site. MAC's facility at the corner of Cayuga & Sickles is a short two blocks away from 100 Sickles. The distance is much less than the minimum 1,000 feet that are required. I'm attaching a link to their website www.macs-services.org.

My reason for sending you these links and looping in folks on the email chain is so that we can open up the lines of communication. We're a bit confused as to why this location is even up for consideration considering the community serving facilities that are within short distance. We're available to meet with you to discuss the services provided by each facility and why this is not a suitable location.

Please feel free to contact us at your convenience so that we might further discuss. I can be reached at (415) 627-8106. Thank you.

Hello Tina,

I was informed recently that there's a new medical cannabis club application pending for 02/04/2016 public hearing. The location is on 100 Sickles Street and the cross street is Huron, not much away from Mission Street?

As a representative from AsianAmericanVoters.org, I strongly oppose to the opening of any new or additional MCDs in the OuterMission Business Corridors!

I'd appreciated if you can update and/or confirm me with this particular MCD. Thank you.

I would like to express my concern about the application for a MCD at 100 Sickle street.
I believe there are more then enough MCD in San Francisco.
Also could you confirm that a hearing is schedule for Feb 4th at CityHall?
Please include me on any e-mail list as to if any change on this schedule.
Also are the project sponsor require to post sing and mail to its neighbors?
We have not seen any sing post at that location and or any mail to its neighbor.

Dear Erika,

Today our neighbors attended the community meeting about the 100 sickles ave MCD. None of neighbors accepted the MCD store open. Because of us concerned if the MCD open will effect the children. The environment security will deteriorate. The MCD owner did not explain that why their open the MCD store is necessity.

This is the case for the whole conference.

Thank you

Respectfully

Jerry

The project sponsor is Tikisha Upshaw, 660 4th Street, #136, SF, CA 94107. Her email address is tikisha.ong@gmail.com

The Planning Commission hearing will be on February 4, 2016 starting at 12 noon at City Hall, Room 400.

Thanks,

Erika

Subject: 100 Sickles Avenue --- Proposed Cannabis Club

Hello Erika,

It was recently brought to my attention that the hearing scheduled for February 4, 2016 has been postponed until April 7, 2016. Can you confirm whether or not that is in fact the case? Why has it been postponed until a later date? Also, does the Planning Department have any intentions of notifying neighbors of the NEW hearing date? The lack of notification is of concern because several neighbors have requested time-off from work to go present testimony on 2/4 and they aren't aware the matter has been postponed. Unless they're properly notified by the Planning Department, they'll show up on 2/4 only to have lost that day's pay for no reason. Having said that, I think this may discourage neighbors from taking the time-off on 4/7 for fear that hearing may be postponed at the last moment without notification. Also, shouldn't information be posted on the building informing neighbors of the postponement?

Furthermore, I have concerns in general about the lack of proper notification about the Hearing in the first place. The City's Language Access Ordinance requires at this time that notifications about items such as a hearing be sent in 4 languages (English, Spanish, Tagalog, and Chinese). The Planning Department has failed to properly notify neighbors about the hearing in the required 4 languages. Also, the notice your department sent lacks proper translation and it doesn't mention the true reason for a hearing. Case in point, the Spanish translation reads as follows:

The attached document is in reference to the property at the following address: 100 Sickles Avenue - Green God's Compassion (2015-0138981DRM) ~ ESJ.

It is a requirement of the Planning Code to send you this notice. There is a possibility that a public hearing may occur to approve a project at this address. You have a right to review the file but it must be before: 2/4/2016.

To obtain more information in Spanish, call the following number (415) 575-9010. Please be mindful that we'll respond to your call within 24 hours.

No where in the Spanish translation does it state that the matter is regarding a proposed cannabis club. Also, the translation states that a hearing "may occur" when it in fact was already scheduled. I find it disturbing that members of the public weren't properly informed about the type of Hearing in the first place. The "improper notification" was only brought to my attention by a neighbor when I approached him to discuss the proposed business. He's not very fluent in English so he relied on the Spanish translation when the notice arrived. He was not aware of the type of business that wanted to open at 100 Sickles. The neighbor informed me that the translation made no mention of it being cannabis related. Upon reviewing the translation, I concur that the translation makes NO MENTION of the true purpose for the hearing. I'm sure of the authenticity of the Spanish

translation because I serve as a Spanish translator for SF Public Works. A neighbor should not become informed about a possible cannabis club when seeing me in passing on the street. The proper notification should of been performed by Planning. Many Spanish speaking neighbors probably weren't compelled to contact Planning because there was no mention of it being cannabis related and there was only a mention that a hearing "may occur." I question if the same is true of the translation in Chinese. Perhaps more neighbors would contact Planning to voice opposition to a club at this location or attend the hearing of 4/7 if they're properly informed about the type of business proposed for 100 Sickles Avenue.

Thank you.

Hi Erika,

Thank you for emailing the project plans to me. I hope I'm not too late with providing comments. I'm not concerned with medical marijuana dispensaries as a use. However, at this location, I wish there was better proposed use of that space that at least provides the neighborhood some vibrancy and interest.

I am also a little concerned with how parking will be addressed if this use is there. At this moment, parking is extremely difficult during morning and evening hours. There's no meters at this location, there are no parking limits (other than street cleaning), and there's basically no enforcement. Cars are parked for weeks in one spot without moving.

Thanks for your time.

-William

Subject: Language Access Concerns at Planning Department re: 100 Sickles

Dear Mayor Lee,

My name is Joelle Kenealey and I am President of the Outer Mission Merchants and Residents Association (OMMRA). Below is an email exchange between Alex Murillo, a member of OMMRA, and Ericka Jackson a planner from the San Francisco Planning Department in regards to a proposed medical cannabis dispensary at 100 Sickles.

I am quite alarmed by the response of the planner to Mr. Murrillo's questions regarding notification of this proposed project including:

1. When the hearing notice was sent out by Planning regarding 100 Sickles it was sent in English, Spanish and Chinese. However, it was not sent out in the fourth required language of Tagalog. This is not acceptable as there is a number of residents of Filipino descent who would have received the hearing notice and more than likely not be able to fully comprehend the information.
2. When the hearing notice was translated into Spanish and Chinese there is no mention that the business that wants to open is a medical cannabis dispensary. The name of the business is called "Green Gods Compassion". Someone with limited language capability could think this particular business was a proposed church. Mr. Murrillo's nearby neighbor, who isn't fluent in English, had no intention of opposing the business until he was made aware that the proposed business would be dispensing cannabis.
3. We have since learned the hearing on this proposed medical cannabis dispensary has been continued from Thursday, February 4th to Thursday, April 7. However, the Planning Department will not send out revised notices to the neighbors with the new hearing date nor the official notice located at 100 Sickles will be updated with the new hearing date. Shouldn't the public be properly notified of the new hearing date and in ALL the required languages?
4. With Planning NOT sending out revised notices to the Public or Residents is this fair? Residents are taking time off from work to attend the Planning Commission hearing on February 4, 2016 only to find out when arriving at City Hall that the matter has been continued - where is the transparency from the Planning Department? As Mr. Murillo indicated in his email to Planning, neighbors may be hesitant or simply might not be able to afford to taking additional days off from work to attend the continued hearing on April 7, 2016. The right thing to do would be for Planning to notify residents

that the matter has been continued from February 4th so that they don't unnecessarily take the time off from work.

I raise these issues as many residents are alarmed with a possible FOURTH medical cannabis dispensary being proposed for District 11. We need the process to be fair and equitable so that ALL residents and members of the public can participate in the process and especially we need the hearing notices to be very clear in ALL required languages regarding the type of business being proposed.

I am available to discuss further and can be reached at the above email address or by phone at 415-305-6065.

Regards,

Joelle Kenealey
President
Outer Mission Merchants and Residents Association

Hi Alex,

I heard back from someone on our Communications team about the City Language Access Ordinance. Here is her response to your questions:

The current language notice that the Department uses was approved by the Mayor's Office of Civic Engagement and Immigrant Affairs when the Department first implemented notices in the required languages (Spanish, Chinese and English) around 2012-2013. Right now, we're working on adding Filipino and we're in current discussion with OCEIA about updating our current notice layout to include more specific info on the type of proposed project at that location.

Thanks,

Erika

Re: 100 Sickles Ave, San Francisco, Ca 94112
Proposed MCD Case 2015-03891DRM
Building Permit 2013.09.24.7657
Hearing Scheduled for Thurs July 21st, 2016

Dear President Fong and Commissioners,

As the Chair of the Cayuga Improvement Association MCD Compliance Committee I am writing to inform you that members of this committee, the Board of Directors of the Cayuga Improvement Association, and the general membership have all voted to oppose approval of an MCD at 100 Sickles Ave. We already have three MCDs and believe those in need of this type of medication are well supported. We would respectfully like to request the Planning Commission take Discretionary Review and oppose this project.

This part of the Outer Mission has been unfairly impacted by the "green zone" areas designated by the 1000 foot restrictions. This has put a burden on neighborhood organizations in District 11 which now feel like they spend a disproportionately large amount of time repeatedly fighting the same battles, no more MCDs at this time. It has put a burden on the Ingleside Police Station which has not received any additional staffing to deal with associated issues.

We will be joining with the Outer Mission Merchants Association to strongly oppose this application at your Commission Meeting on July 21st and we are requesting that the Planning Commission oppose the project.

Regards,

Barbara Fugate
Chair - MCD Compliance Committee

Jackson, Erika

Subject: 100 Sickles Avenue - Green Gods Compassion / Agenda Item for July 21, 2016

Dear President Fong and Planning Commissioners,

I'm writing you today to voice OPPOSITION to a proposed cannabis club (Green Gods Compassion) at 100 Sickles Avenue, San Francisco, CA. I write you today not as one man but instead as the voice of hundreds of neighbors that are against another club in District 11 let alone one so close to the county line. We've collected hundreds of signatures (attached as a PDF) from neighbors that stand to be immediately impacted by the opening of an MCD at 100 Sickles Avenue. We ask that you please note the addresses of folks that signed the petition and their proximity to the proposed club.

The debate about 100 Sickles Avenue isn't about whether cannabis is good or bad. This isn't about whether it does or doesn't work from a medicinal standpoint. This debate is whether or not 100 Sickles Avenue is an ideal location for a cannabis club and whether or not it stands to serve the true needs of the community.

I've been living in San Francisco my whole life and in District 11 for almost 19 years. In that time, I've never seen neighborhood groups and neighbors rally so much in opposition against an issue. The opening of yet another MCD in D11 is being frowned upon by every major neighborhood group in our district, Supervisor John Avalos, and hundreds of residents in our district.

100 Sickles is NOT a suitable location for an MCD for several reasons. The first reason is the proximity to the county line. This location is less than 350 ft/ 1½ football fields away from the county line. Would an MCD at this location really serve residents of D11 or would it merely be the "first-stop-shop" for folks coming in from San Mateo County where MCD's aren't allowed? Why should neighbors and Ingleside PD have to undertake the burden of yet another MCD when it really doesn't stand to serve folks in our district. As you know, D11 already has 3 clubs (coincidentally the 3 were approved the same night) and another 2 clubs are literally at the

edge of the district boundaries. So in essence, D11 is being served by 5 MCD's some of which offer delivery service. Two of the clubs are on the same block a mere six blocks away from 100 Sickles Avenue.

Furthermore, an all-cash business like an MCD might prove very tempting to thieves considering its distance to the county line (350 ft) and freeway on-ramps (3.5 blocks away). In fact, Daly City recently announced that they're outsourcing their 911 police calls to a call center in Redwood City. Imagine the scenario of an SF police officer chasing a suspect the distance of 1½ football fields and into Daly City. Any apprehension efforts would need to be coordinated through Daly City's call center in Redwood City which is 30 miles away. What happens if there's a break in power (PG&E) over that 30 mile distance? Is there a delay in communication? Why place the neighbors and SFPD in jeopardy for a business that won't truly be servicing the needs of residents in our district?

Another reason 100 Sickles is not suitable for an MCD is its proximity to the S.F. Christian Center which is located a mere ½ block away. The S.F. Christian Center provides after-school services for over 100 children daily with their "Our Kids First" program. The children are ages 5-11 and shouldn't be exposed to this type of business so close to their school. The S.F. Christian Center also has a K-12 school (S.F. Christian School) which would automatically disqualify this location however it's just beyond 1,000 feet. Adjacent to the Christian School is SFUSD Longfellow Elementary School. Also, MAC's Children & Family Services (Group Home for children ages 14-18) is located at Cayuga & Sickles streets which is a mere 506 ft away from the proposed MCD.

Also within proximity of the proposed MCD is Sears-Lessing Park which is exclusively a children's playground which is frequented by parents, grandparents, and nanny's on the daily. The park is 609 ft away from the proposed MCD. Another park, Lincoln Park, is located 715 ft from the proposed MCD. Although Lincoln Park falls within the boundaries of Daly City, CA., we should be good neighbors and not expose the small children that frequent either park to an MCD so close by.

Another concern expressed by numerous neighbors is the impact this type of business will have to street parking, blocking of driveways, and double parking. This issue is way too common at the other MCD's within the neighborhood. When neighbors met with Ms. Ong (applicant) in December 2015 to express concern about an MCD at 100 Sickles, she informed us that she had addressed the street parking concern by entering into an agreement with BOTH the ARCO gas station and nearby autobody to lease their off-street parking spots. This raised concerns at the meeting since several neighbors concluded that the autobody and ARCO would simply monopolize the street parking. The autobody will park their crashed vehicles on the street and only move them during street-cleaning. ARCO's staff and customers will park along the street or double park when they can't find parking on the premises. This is not only an inconvenience but also a major safety concern for pedestrians especially when the City is moving towards its' Vision Zero goal. Ms. Ong didn't seemed moved by our concerns and simply dismissed it as being our issue and that she had done her part to secure off-street parking. I guess money is able to buy, or in this case lease, off-street parking with no regard to the neighbors and the fact that street parking will still be impacted. Her leasing of spots from ARCO and the autobody doesn't address the parking problem, they simply attempt to mask them by shifting who's cars will be parked on the street or blocking traffic.

An MCD at this location is NOT supported by neighbors. Ms. Ong may have obtained some support from folks however they DON'T live in District 11 and don't stand to be impacted by another MCD in our district. We beg the City and Planning Commission to consider equity when allowing MCD's. Perhaps after every other Supervisorial district has at least 3-5 servicing it then perhaps the city could look at adding more in D11. But until then, we ask that no more MCD's be allowed in our district especially at 100 Sickles

Avenue. This entire block is residential with only that one building having a store front. An MCD is NOT ideal at this location and is being opposed by neighbors.

We thank you for your time and consideration. We're also available to meet in advance should any commissioners want to meet on-site.

Sincerely,

Alex M. Murillo

RE: Project Address: 100 Sickles Avenue, San Francisco CA 94112

Case No.: 2015-013891DRM

Building Permit: 2013.09.24.7657

Hearing Date: Thursday, July 21, 2016

Dear President Fong and Commissioners,

On behalf of the New Mission Terrace Improvement Association, I am writing to you to with regard to the application for 100 Sickles Avenue.

Our neighborhood association is **opposed to the application** to establish a medical cannabis dispensary at 100 Sickles Ave.

In opposition we wish to emphasis these issues:

clustering (we are already over-served by MCDs),

equity ("green zones" mean many districts in San Francisco are not served by MCDs and ours is over-served)

economic justice (the condemnation of our community to second-class economic development and further social marginalization).

We urge you and the other members of the Planning Commission take Discretionary Review and oppose this project.

Thank you,

David Hooper

Subject: Opposition: 100 Sickles Street. - Green Goddess Compassion

Hello.

I am in total opposition to the application for 100 Sickles street.

The north end beyond Silver Avenue of our neighborhood has an MCD and at the southern end beyond Geneva Avenue has two MCDs side by side with no regard to required distance.

It seems to be that anything can be dumped in our neighborhood, I believe the distribution of MCDs should be spread all over the city and not just in those neighborhoods perceived to be areas where the residents do not care. We DO care about the trouble that has accompanied the Planning Department's decision to allow a seemingly irresponsible clustering here. We did not ask for, nor were we consulted on being the city's 'green zone'. Our District Supervisor, John Avalos has stated his opposition to this applicant.

Points to consider:

clustering (we are already over-served by MCDs),

equity ("green zones" mean many districts in San Francisco are not served by MCDs while our community is over-served)

economic justice (the condemnation of our community to second-class economic development and further social marginalization).

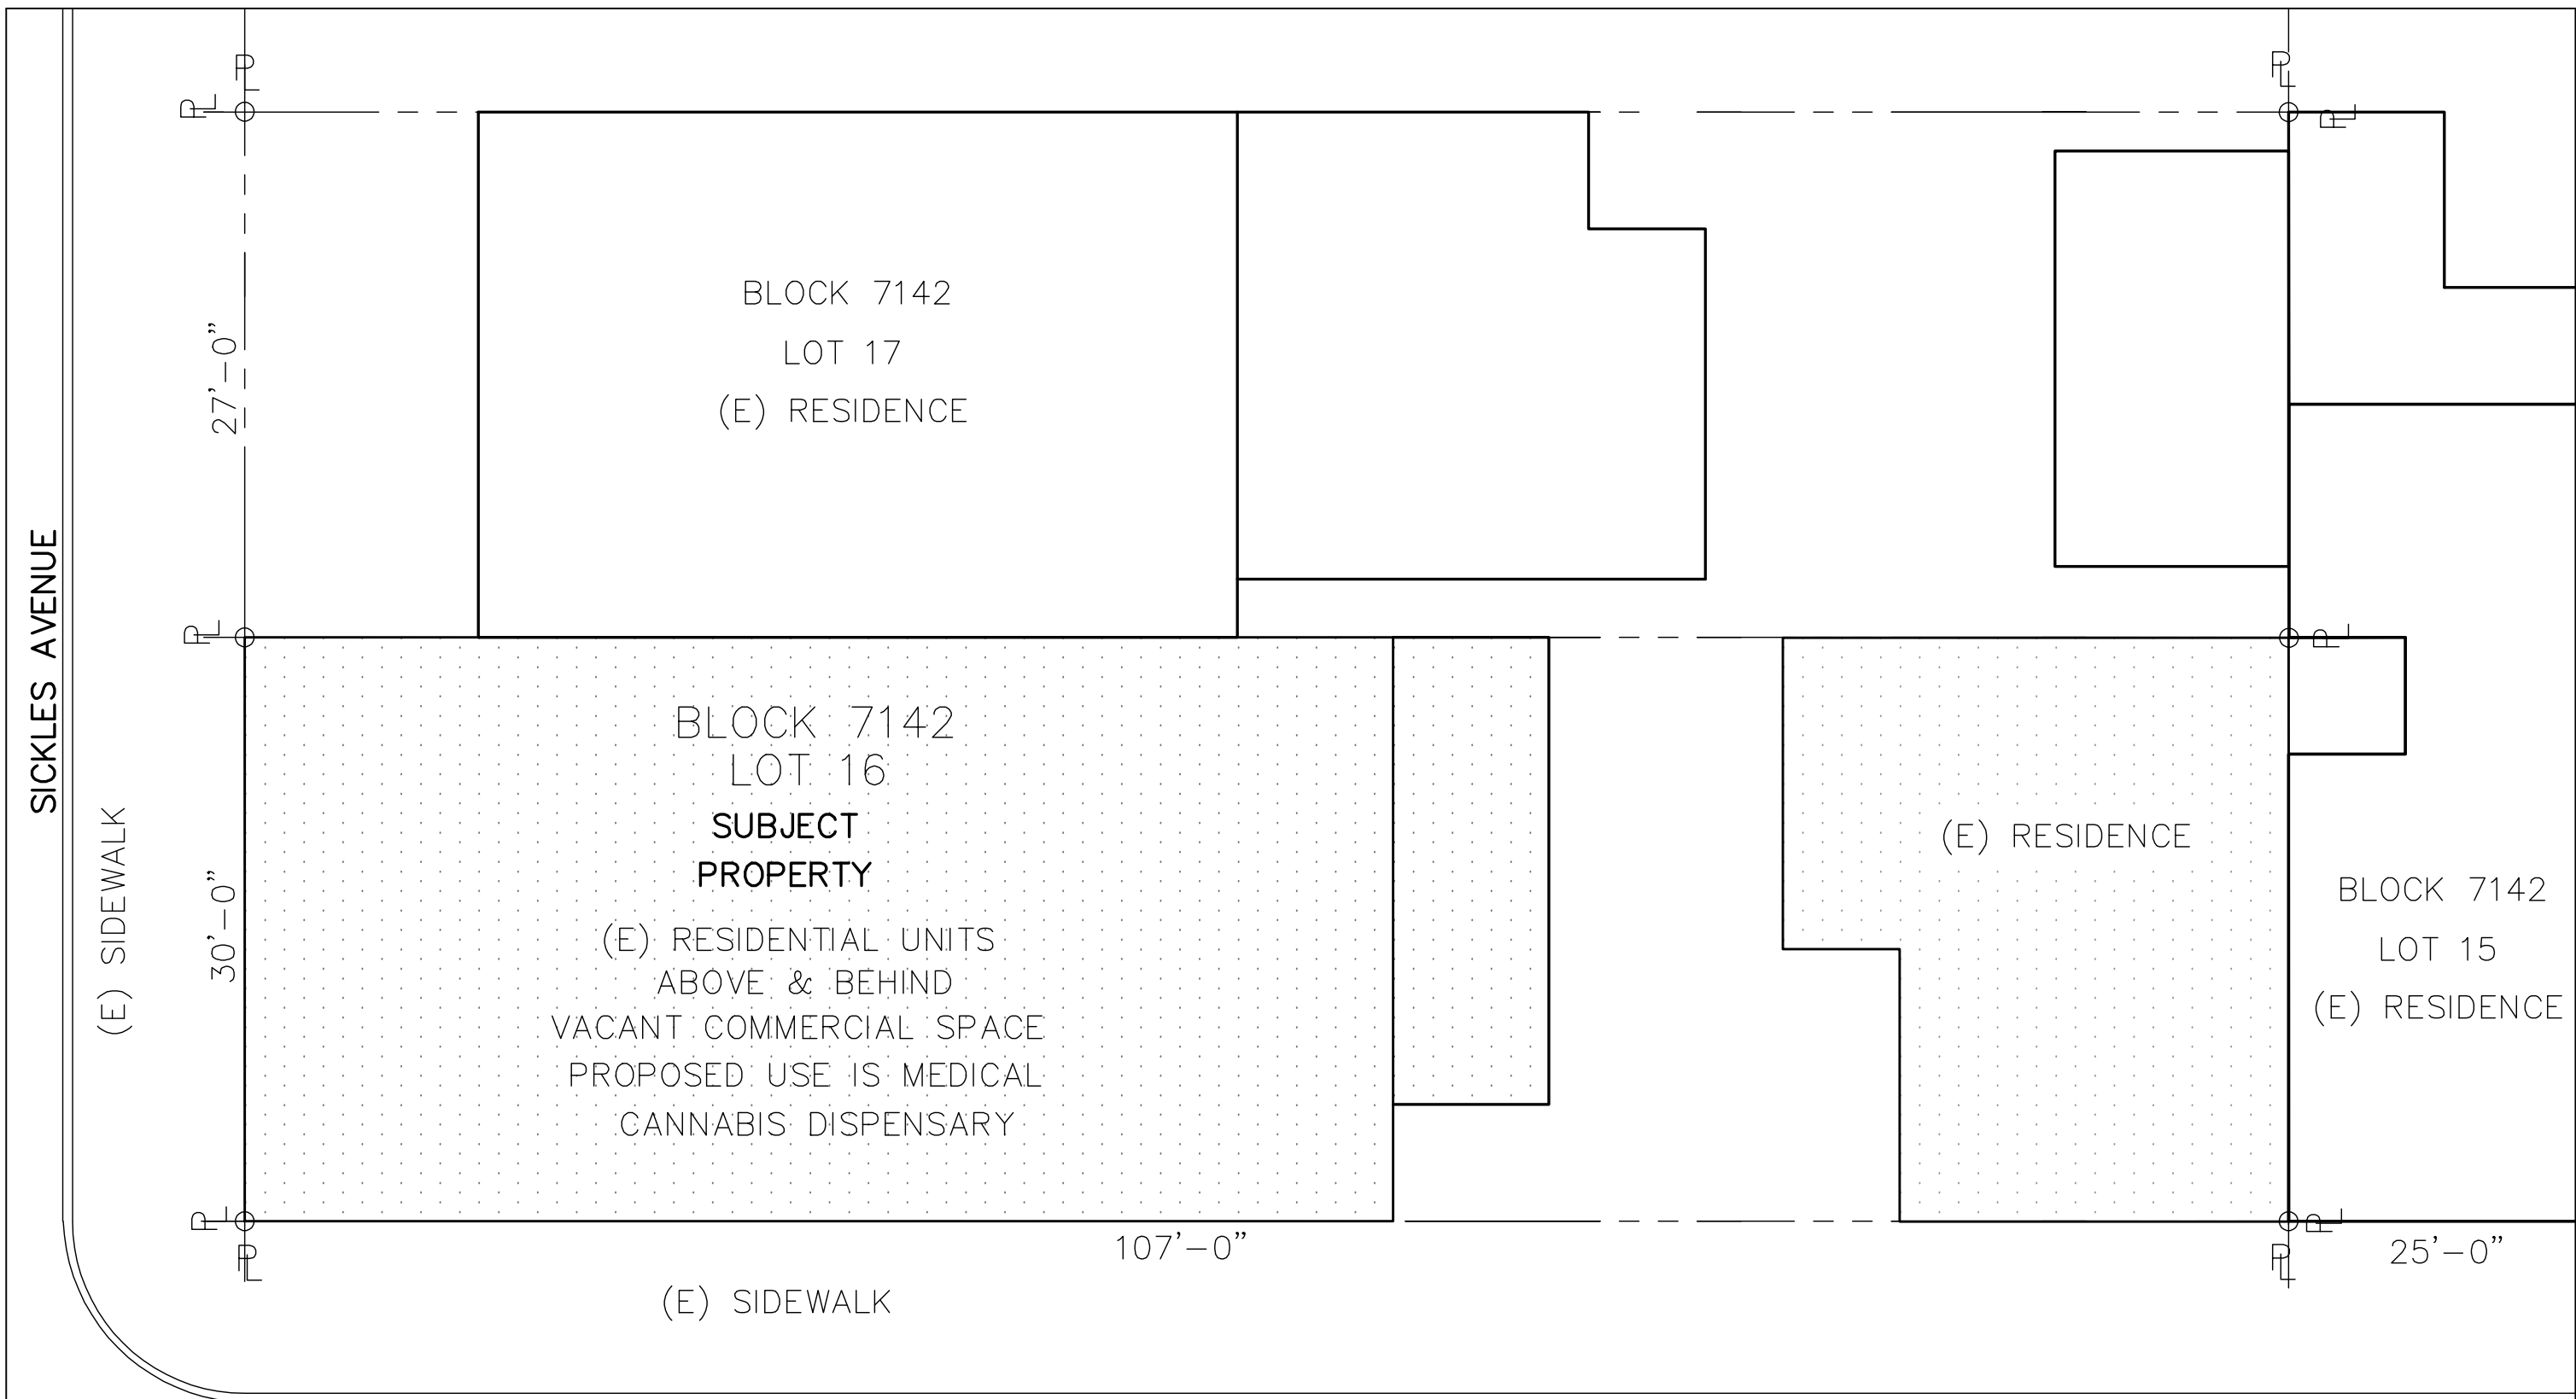

I urge you and the other members of the Planning Commission take Discretionary Review and oppose this project

Thank you.
