9. Commission Comments/Questions

Commissioner Koppel:
So, we received a letter in our packets last Thursday. We received an eight-page letter from the Northern California Carpenter's Regional Council saying that - - I honestly am confused as to what was actually said in the letter. So apparently, from our joint hearing with the Building Inspection Commission, I brought up issues about factory built housing; the fact that it is built outside of San Francisco. It is built to a less stringent code than San Francisco and I questioned how we’re able to approve these types of developments and if they’re actually legally allowed to be installed here. I am really confused on what the letter was saying and how a certain party is trying to tell us that we should be putting substandard residential housing in San Francisco, but just wanted to clarify that as of right now, I can’t support anything built in this City that does not pass the local building codes that we have here in San Francisco.

Commissioner Johnson:
I just wanted to commend the Mayor’s office for putting together, convening to address high, affordable housing, building costs here in San Francisco. This is an issue that we talk a lot about as a Commission -- thank you. This is an issue we speak a lot about as a Commission, just the rising cost of housing production overall and I was pretty shocked to see just how much the cost of affordable housing has skyrocketed. Two years ago we were talking about the fact that every unit of affordable housing costs around $500,000 to produce and now those numbers are $750,000 to produce a single unit and so as that gap continues to widen and we really struggle with ways to fund affordable housing, putting together a coalition of folks from industry, from nonprofits, from community organizations and other decision makers to come together and rally around a solution is the type of coalition that I want to see because I believe that the solution to this challenge really sits at the intersection of those different perspectives. So I am incredibly excited to see what the three working groups come up with and what their recommendations are, can inform our decisions going forward.

D. DEPARTMENT MATTERS

10. Director’s Announcements

Director John Rahaim:
Just one announcement today, I wanted to let you know last night I went to the Southeast Facilities Commission meeting to talk about the 1550 Evans Project. I think you remember, there were a number of members of the community, who came out a few weeks ago concerned about a position, that, I had proposed, of adding housing to a site, that had been proposed by the community, and the PUC, for a Community Center and Education Facility. I had not been aware when I first proposed that idea with a couple of colleagues that this process had been going on with the community for several years, where they had agreed on a plan and a facility for this site that is owned by the PUC. So, last night I went to
the community to explain my regrets and not having discussed it with them and to talk
about the fact that we were pursuing the project as proposed by the community and the
PUC. I will say that I was very graciously received, and left the meeting feeling quite
positive about the relationship, and the community was very grateful for my attending
and explaining my point of view. This project is in process in the Department. We are
doing the CEQA work on it. The hope is that the project can be -- can start construction by
the middle of next year. Just a reminder it includes a Community Center, an Education
Facility and a fairly large park area that the community would use, in that area. It’s right at
the corner of Third and Evans Street. So, you will see the zoning change for this site. It
does require a change to the Planning Code to accommodate the proposed development
and that will likely come to you, either late this year, or early next year. That concludes my
presentation. Thank you.

11. Review of Past Events at the Board of Supervisors, Board of Appeals and Historic
Preservation Commission

Aaron Starr:

LAND USE COMMITTEE:

• 180117 Planning Code - Increasing the Transportation Sustainability Fee for Large Non-
Residential Projects. Sponsor: Peskin. Staff: D. Sanchez. Item 1

At Monday’s Land Use hearing, the Committee considered the ordinance, introduced by
Supervisor Peskin that would increase the TSF on Large Non-Residential Projects.
 Commissioners, you heard this Ordinance on May 17. You unanimously recommended
approval with modifications, specifying a $2 increase within the Central SOMA plan area
and a $5 increase elsewhere.

During their deliberation, the Supervisors stated that they felt comfortable recommending
the increase in TSF given that the Planning Code requires a periodic update to the
Economic Feasibility Study, which establishes the fee rate. Also, in late June the Land Use
Committee will hear the Central SOMA Plan and have the opportunity to consider all
development impact fees at once. During public comment, some members expressed the
need to consider all Central SOMA Plan Area fees together, including the interaction of the
TSF with other Central SOMA fees. Other testimony during public comment supported the
fee outright.

The Land Use Committee moved to recommend the Ordinance for the Full BoS

FULL BOARD:

• 180243 Interim Zoning Controls - Conversion of Retail to Non-Retail Sales and Service Use
in the C-3-R Zoning District. Sponsor: Peskin. Staff: Asbagh.
Amended to grandparent application already entitled, and the amended resolution was
adopted by the Board.

INTRODUCTIONS:
BF TBD. Ronen introduced legislation that order Planning, Building Inspection, Public
Works, Fire and the Mayor’s Office on Disability to put affordable projects at the front of
the line. This is something we already do as policy, but this ordinance presumable would make it a requirement.

E. **GENERAL PUBLIC COMMENT**

At this time, members of the public may address the Commission on items of interest to the public that are within the subject matter jurisdiction of the Commission except agenda items. With respect to agenda items, your opportunity to address the Commission will be afforded when the item is reached in the meeting. Each member of the public may address the Commission for up to three minutes.

**SPEAKERS:**
- Steven Buss – Housing pipeline, internal vs publicly available data
- Sue Hestor – Transit Center Plan, development analysis presented as an informational item

F. **REGULAR CALENDAR**

The Commission Hearing Procedures provide for presentations by staff; followed by the project sponsor team; followed by public comment for and against the proposal. Please be advised that the project sponsor team includes: the sponsor(s) or their designee, lawyers, architects, engineers, expediters, and/or other advisors.

   **228-230 CLAYTON STREET** – east side of Clayton Street between Hayes and Fell Streets; Lot 024 in Assessor's Block 1210 (District 5) – Request for a **Condominium Conversion Subdivision**, pursuant to Subdivision Code Sections 1332 and 1381, to convert a four-story, five-unit building into residential condominiums. The subject property is located within a RH-3 (Residential – House, Three Family) Zoning District and 40-X Height and Bulk District. The project was determined not to be a project under CEQA Guidelines Sections 15060(c) and 15378 because there is no direct or indirect physical change in the environment.

   **OBSTRUCTIONS IN REQUIRED SETBACKS, YARDS, AND USABLE OPEN SPACE** – **Planning Code Amendment Initiation** to allow in required setbacks, yards, and usable open space all projections of an architectural nature if they meet the specified requirements and to allow bay windows that do not meet the specified requirements to apply for a Zoning Administrator waiver; adopting findings, including environmental findings, Planning Code Sections 302 findings, and findings of consistency with the General Plan and Planning Code Section 101.1.

   **Preliminary Recommendation:** Initiate and Schedule for Adoption on or After June 13, 2018
SPEAKERS:  
= Audrey Butkus – Staff report  
= Mike Buhler – More intensive review  
= Katherine Petrin – Comprehensive review  
  - Katherine Howard – Impact on open space  
  - Rose Hillson – Required design standards.  

Allowing projections *without* maximum dimensions beyond today’s 3-10 ft. for residential lots while retaining maximums for large C-3 downtown buildings seems illogical. Please specify the “required design standards” for 136(c)(1) features. If projections can go the full width & length of a lot, and they’re put on a building with a 10-ft. first floor height & the adjoining building’s first floor has a lower-than-10-ft. height, there may be substantial impacts. Though Sec. 136(c)(2)(a)-(g) for bay windows remains undeleted in the ordinance, this section would now be trumped by the Planning Director to decide appropriateness per Section 307(h) regardless of impacts. Bay windows could get large with no maximums to increase floor area ratios of buildings. Will Planning allow Neighbor #1’s bathroom bay window to be built to the side lot line if it looks right into Neighbor #2’s bedroom bay window also built to the side lot line?

(T. OJEDA: (415) 558-6251)  
HOUSING BALANCE REPORT – Informational Presentation - On April 21, 2015, the Board of Supervisors passed Ordinance No. 53-15 amending the Planning Code to include a new Section 103 requiring the Planning Department to monitor and report on the “housing balance” between new market rate housing and new affordable housing production. The ordinance required that reports are to be submitted by April 1 and October 1 of each year. This will be the sixth report in the series. The Ordinance also mandated an annual public hearing before the Board of Supervisors on the progress towards meeting the City's affordable housing goals. This Informational Presentation will highlight the Report’s findings to the Commission.  

Preliminary Recommendation: None - Informational

984-988 JACKSON STREET – north side of Jackson Street, between Mason and Powell Streets, Lot 017 in Assessor’s Block 0180 (District 3) – Request for Conditional Use
Authorization pursuant to Planning Code Sections 209.1, 253 and 303 to permit a building to exceed 40 feet in height within a RH Zoning District. The proposed project would add a fourth floor (one-story) to the existing three-story-over-basement residential building containing 3 dwelling units, with a net addition of approximately 1,100 square feet of living space to the existing dwelling unit located on the third floor. The project does not add or remove any existing dwelling units, nor does the project add any off-street parking. With the addition of one floor, the building would reach a height of 44’-6”. Even though the underlying Bulk and Height District (65-A) for the subject property would allow for a taller structure, the Planning Code requires approval by the Planning Commission according to the procedures for conditional use approval. This action constitutes the Approval Action for the project for the purposes of CEQA, pursuant to San Francisco Administrative Code Section 31.04(h).

Preliminary Recommendation: Approve with Conditions
(Continued from Regular Meeting on November 30, 2017)

984-988 JACKSON STREET – north side of Jackson Street, between Mason and Powell Streets, Lot 017 in Assessor’s Block 0180 (District 3) – Request for Variance pursuant to Planning Code Section 134 (“Rear Yard”). The basic rear yard requirement for the subject property is 45 percent (or 33’-4”) which can be reduced down to the minimum rear yard depth of 25 percent or (18’-6”). In any case in which a rear yard requirement is thus reduced to the minimum rear yard depth, the last 10 feet of building depth thus permitted on the subject lot shall be limited to a height of 30 feet, pursuant to Section 134(c)(1). The Project proposes a vertical addition that exceeds 30 feet in height and the depth of the proposed addition would encroach into last 10 feet of building depth; therefore a variance is required. This action constitutes the Approval Action for the project for the purposes of CEQA, pursuant to San Francisco Administrative Code Section 31.04(h).

SPEAKERS: Same as item 14a.

ACTION: Acting ZA closed the public hearing and indicated an intent to Grant.
