7. Commission Comments/Questions

**Commissioner Moore:**  
I want to comment on SB-1085. I am delighted to hear that Senator Skinner worked for the Board of Supervisors to protect the Affordable Housing Fees for San Francisco. Further to this I would like to commend the Department, praise the Department for its remarkable effort having held an intern program that has created remarkable results. I participated the intern presentations on Tuesday the 18th, 19th and 20th. Where each day five interns recommended their respective programs. I strongly recommend that all commissioners
avail themselves to the link that has been sent out and hear the presentations. They were remarkable, there is lots to be learned and I couldn’t be happier for the Department being capable of conducting a remote intern program, for each participant made significantly important and valuable contributions for Planning in San Francisco. The range of topics is amazing and would take too long to mention all 15 of them, but I strongly would like to direct your attention towards the presentation POPOS Monitoring and Compliance in addition to Climate Resilience Story Map. Also of great interest I think was the idea about Freight Planning and the Housing Element Update and a discussion on a new Land Use code called Co-Sharing. All of them are thought provoking. I hope the Commission will work closely with the Department to take some of these things forward and those are my comments.

**Commissioner Imperial:**
Yes, I agree with Commissioner Moore. I also participated the interns’ presentation. And I would like to applaud, as well, the Planning staff as well and the supervisors who supervised those interns. They are knowledgeable for me and I hope that this will continue for next summer program. I know we may be facing budget cuts but I hope that one will not be cut. So congratulations to the supervisor and to the interns and hope you can send them my regards. Thank you.

**D. DEPARTMENT MATTERS**

8. **Director’s Announcements**

**Rich Hillis, Planning Director:**
Thank you, Commissioners. Thank you, Commissioner Imperial and Moore for the comments on the internship program and participating in it. I do want to thank Tina Tam who led the effort with our interns. As you know, many agencies and corporations got canceled their internship programs over the summer because of COVID and we made our conscious effort to keep ours going. And I think it was tremendously successful. So, we sent around a link, please do take a look at those presentations.

So, welcome back to everyone and congratulations Commissioner Diamond, Imperial and President Koppel on your reappointments to this commission. A few items, you probably have heard that Jeff Joslin announced a few weeks ago that he was leaving his position as our Director of Current Planning. His last day was last week, August 20th. So, I just wanted to publicly thank him for his 7+ years with the Department and his leadership at Current Planning. He was definitely unprecedented at times and that he was here - - and especially I want to highlight his work building our capacity around Design Review and Preservation. I think the changes he’s made will have a lasting impact on our work for years to come. So, thank you to Jeff. Liz Watty who’s been the Deputy Director of Current Planning for the past 4 years has taken over in an acting capacity while we take out a process to fill that position. So more to come on that.

Our offices officially moved to 49 South Van Ness last week. It was a bit odd because we didn’t physically move, our stuff moved. So we haven’t been able to occupy the space. Some staff had gone in to unpack and do some work. We are still awaiting any additional guidelines from the City, DHR, and DPH on how and when we will ultimately be able to occupy the space.
I do want to highlight an issue with DBI that is impacting our work as well. As you may have heard, DBI was accepting all permit applications electronically. There were some issues and some kinks that had to be worked out related to that. So, they have temporarily limited the types of applications that are able to be submitted online. And they are working to retool the electronic submission process to better integrate it with their permit tracking system. So, we hope that's up and running more robustly in the coming weeks. While they are making those improvements, they are continuing to offer limited in-person ability to permit applications. And they will continue to process digitally those that have been submitted. So, we realize this is an impact. We’re working with them, lending our expertise to their processes as well as expanding our ability to accept permits over the counter.

And then finally, our department’s budget was approved at the Full Board this past week. There were some minor changes, not a tremendous amount of change to what we had submitted to you a couple of months ago in response to the mayor’s request to reduce our General Fund allocation. There is still a bit of uncertainty as we move forward around fees and fee revenue because that makes up the bulk of our budget. So, we’re maintaining flexibility by keeping some positions vacant until we get a better handle on our fee revenue. Because this issue came up, I think the last time we talked about the budget around our historic survey work, that money remains – the funding remains intact in our budget. So, that work will continue. And that concludes my report. Thank you.

**Commissioner Imperial:**
I have a question director Hillis if that’s okay.

**Rich Hillis, Planning Director:**
Sure.

**Commissioner Imperial:**
I’m sad to hear regarding Director Joslin leaving. But I have a question in terms of – in the process of hiring his position. I’m assuming that the Racial and Social Equity work that we have in terms of hiring will be something applicable?

**Rich Hillis, Planning Director:**
Absolutely. It is something we’re constantly working on and we got internal processes that we have put in place to implement the Phase 1 of our work. We are also working with DHR to expand the applicability of that work but yes.

**Commissioner Imperial:**
Okay thank you. And I hope I - - I wish I got to work more with Director Joslin so regards to him as well.

**Rich Hillis, Planning Director:**
Thank you.

9. Review of Past Events at the Board of Supervisors, Board of Appeals and Historic Preservation Commission
Aaron Starr, Legislative Manager:
Good afternoon, Commissioners. Welcome back from your summer break. In the pandemic, fires, deadly air and multiple constitutional crisis, I’m sure it was very relaxing. Before I begin, I would like to announce that this will be my last board report. I’ve decided to quit my job and join the touring cast of Hair, playing the role of Claude. We’ll be performing in socially distant crowds in parts across the country. While we still take our clothes off at the end of the first act, we always keep our masks on. So let’s get on with it.

While you were on break, the Board remained in session except for the first week in August. During that time, only one Land Use hearing had a Planning Department item on it. That item was Supervisor Yee’s amendment to Prop E, the Educator Housing Streamlining Program. This ordinance amended the Planning Code to require at least 10% of the units in educator housing be three-bedroom units. Commissioners, you heard this item on July 16th in conjunction with Supervisor Fewer’s ordinance that also amended the controls for Prop E. This item was unanimously recommended to the Board.

Over the course of the last three boring hearings, the following items all passed their second read – Supervisor Ronen’s ordinance that will allow arts activities, social services, or philanthropic facilities and COVID-19 recovery activities at temporary uses; supervisor Ronen’s ordinance that would amend the controls for the Urban Mixed Use Zoning District by prohibiting office uses, specifically in the Mission SUD; Supervisor Ronen’s ordinance that would allow for the continuation of the parking lot behind the El Capitan theatre building; Supervisor Fewer’s ordinance that would amend Prop E by allowing for height increases and development on lots over 8,000 sq ft or more; Supervisor Yee’s proposed amendments to proposition E that would require that 10% of the units in Prop E projects have three bedrooms; Supervisor Peskin’s ordinance that would codify the Planning Commission’s successful CB3 program; and Supervisor Peskin’s ordinance that would make technical corrections to the Chinatown Community Business District.

There are also several resolutions that the Board passed including the Mayor’s reappointment of Commissioner Diamond and Commissioner Koppel to the commission, congratulations. As well as President Yee’s reappointment to commissioner Imperial to the Planning Commission, also congratulations to her. And finally, Supervisor Mar’s resolution urging the Association of Bay Area Governments in the regional housing needs allocation process to focus on unmet needs for affordable housing. That was continued for one week. The Board also continued several appeals and heard a few. It continued the appeal for 617 Sanchez Street; that’s environmental appeal to September 29th. It continued the environmental appeal for 66 Mountain Spring Avenue to September 15th. It continued the 1846 Grove Street CU and CEQA appeal to September 29th.

The Board did take up the Balboa Reservoir project after denying a CEQA appeal for the project. The Board then voted to approve the General Plan, Planning Code, Zoning Map and Development Agreement for this project. Those items passed their second read on October 18th. And the Board also heard the Community Plan Evaluation appeal for 2300 Harrison. This project was the [inaudible] for Supervisor Ronen’s ordinance to prohibit offices in the UMU Zoning District, which recently passed on second read. The project proposed replacing a vacant parking lot with a 6-story building that will expand the existing office use and also add 24 residential units. The project sought a height waiver in
accordance with the State Density Bonus Law. The project was before the Commission on December 12, 2019 and received a Large Project Authorization and Small Cap Office Allocation for 27,000 sq ft. The appellant argued that the Department should have prepared an Environmental Impact Report instead of a Community Plan Evaluation for the project. Reasons cited included the claim that the project is inconsistent with the Mission Area Plan and General Plan Policies both in terms of goals and zoning. The Department’s position is that the Environmental review was properly performed pursuant to local and state requirements. The project is consistent with the zoning of the site which means it is consistent with the development density established by the General Plan. This therefore satisfies the standard to qualify for CPE. That 2020 monitoring last year showed that the neighborhood has gained 235,000 sq ft of office use while losing 481,000 sq ft of PDR use since 2011. Supervisor Ronen indicated this new information should have been acknowledged and analyzed in the CPE. The Board concurred and unanimously upheld the appeal on the spaces. The Board did not state that this new information would result in a new significant impact or substantially more severe significant impact that was not identified in the Eastern neighborhood’s EIR. Moreover, the Board did not ask Planning staff any questions during the hearing. Nonetheless, the Board voted to conditionally reverse the CPE determination by the Planning Department.

Staff would like to note that the updated Office and PDR monitoring numbers for the Mission area in the last MAP 2020 report do not exceed the non-residential projections never used as the basis for the impact analysis in the Eastern neighborhood’s EIR. During the hearing, most public commenters spoke in favor of the appeal while a few spoke in favor of the project and its CPE. While the Board has not yet adopted written findings in support of their decision to overturn the CPE, those findings would be applicable only to the Board’s decision on 2300 Harrison Street CPE appeal. The findings may be moot at this point, however, as because the Mayor has recently signed Supervisor Ronen’s legislation prohibiting new office uses in the UMU Zoning District, legislation will be effective within 30 days. It is not possible for the Department to issue a new environmental determination and for the project to receive new approvals from the Planning Commission before that legislation goes into effect. Thus, the project is effectively no longer viable. And that concludes my remarks and I am happy take questions. Thank you.

Jonas P. Ionin, Commission Secretary:
I don’t have a report from the Board of Appeals. I won’t be quitting, but I do have a report from the Historic Preservation Commission, which didn’t meet yesterday but did meet last week on August 19th. They approved several Legacy Business Registry applications specifically Legal Assistance to the Elderly on Mission Street, the San Francisco Natural Medicine, business on 20th Street, Annie’s Hot Dogs on 25th Street, the House of Nanking on Kearny, and JHW Locksmith on Fillmore, and The Wok Shop on Grant Avenue. Most significantly, they reviewed and adopted a recommendation for approval of landmark designation to the Board of Supervisors on the History of Medicine in California frescoes at 533 Parnassus Avenue, part of the UCSF campus. They then reviewed and commented on the draft Environmental Impact Report of the UCSF comprehensive Parnassus Heights plan.
E. GENERAL PUBLIC COMMENT

SPEAKERS: Katherine Howard – Articles on toxic building site on Green Street
San Francisco gave CEQA categorical exemptions to nine projects located on state-
identified toxic waste sites. Local residents appealed the Green Street exemption. "Despite the pending appeal, the San Francisco Department of Public Works
allowed work to begin this week and expects it to conclude on Friday." Apparently, this action has been sanctioned by the Planning Department. (SF
Chronicle)

CEQA attorney Richard Drury says, “In the 30 years I’ve been doing this I have
never seen anything like it. We are in the midst of an appeal process, and they are
short-circuiting the elected officials...”

These actions by the City illustrate concerns with how the misuse of CEQA might
be supported by the proposed Standard Environmental Requirements (SER).
SER will have a negative impact on transparency and public participation in the
CEQA process. We need a strong CEQA process. Please oppose the SER Ordinance.
Georgia Schuttish – At the DR Hearing on May 18, 2017, neighbors asked for two
simple changes: To protect neighbors’ light and air, keeping separation on the
property line, eliminating minuscule amount of expanded square footage. Also
not allow a fourth floor which violated RDGs. Neighbors requests were reasonable.
The owner and architect stated it wasn’t a speculative project but a family home.
1647 Sanchez sold for $9.1 million last month upon completion. At the hearing,
one Commissioner said it was an inefficient use of space. And it was a Demolition.
Another Commissioner wanted two equal sized units. Another Commissioner
wanted to approve it as an Alteration because that would keep the second very
small unit rent controlled. If the Calcs had been adjusted at least once since 2009
per the code it would have been a Demolition because Calcs so close to Section
317 thresholds. Please adjust the Demo Calcs.
Ozzie Rohm – Resolution against RHNA
