The LGBTQ+ Cultural Heritage Strategy (Strategy) is a community-driven effort to honor the legacy, ensure the longevity, and nurture the well-being of San Francisco’s LGBTQ+ community. Please find the attached Draft Executive Summary, Draft Strategy Recommendations, and supporting documents for your review and comment. Since the Executive Summary provides a full description of the Strategy, this memo will not repeat this description but will focus on how the Strategy relates to the Historic Preservation Program’s existing work regarding LGBTQ+ cultural heritage. The memo will also explain the next steps in the project schedule and direct the Commission’s review to key topics for discussion.

HISTORIC PRESERVATION PROGRAM CONTEXT

The LGBTQ+ Cultural Heritage Strategy will implement the recommendations of the Citywide Historic Context Statement for LGBTQ History in San Francisco adopted by the Commission in 2016, which are as follows:

1. Continue to identify, document, and designate LGBTQ+ historic properties in San Francisco.
2. Develop programs for interpretation and education.
3. Support existing and new strategies to preserve historic LGBTQ+ properties, neighborhoods, and culture.
4. Continue to offer incentives for preserving LGBTQ+ historic properties.

The Strategy Working Group is recommending formation of an ongoing community advisory group to support the Historic Preservation Commission’s Landmark Designation Work Program in the following ways:

- Aid the Planning Department in the evaluation of LGBTQ+ cultural resources
- Contribute to the surveying of LGBTQ+ cultural resources
- Monitor threats to LGBTQ+ cultural resources
- Develop interpretation methods for LGBTQ+ cultural resources
• Perform outreach to property owners to promote preservation of important LGBTQ+ cultural resources
• Develop stronger CEQA mitigation measures for LGBTQ+ cultural resources
• Provide support for local Landmark and National Register nominations of LGBTQ+ cultural resources

The implementation of the Strategy will elevate recognition and respect for LGBTQ+ history, which results in greater visibility and protection of cultural resources. It will help to retain LGBTQ+ residents and support their quality of life, which will safeguard the community’s living history and build capacity in the community to protect their cultural resources. It will support the development of LGBTQ+ focused cultural districts and promote the expansion of the existing GLBT museum and research center, further elevating the importance of LGBTQ+ history in San Francisco. Last, it recommends the expansion of the existing SF Office of Transgender Initiatives (OTI) to monitor and coordinate initiatives related to the broader gender and sexual minority community while retaining their focus on the needs of the transgender community.

NEXT STEPS

The Working Group will refine the Strategy recommendations based upon the feedback received from the Advisory Committee, the Historic Preservation Commission, and the Board of Supervisors. The Working Group and Planning Staff will then complete the LGBTQ+ Cultural Heritage Strategy report in collaboration with the City agencies and community partners that will be responsible for implementing the plan. The broader community is encouraged to participate in the finalization of the plan by attending sessions to learn about the various strategies and to speak with their own organizations and representatives about ways to support or strengthen the effort. The final report will be presented to the Board of Supervisors for adoption in winter 2019.

ENVIRONMENTAL REVIEW

The proposed Strategy is not defined as a project under CEQA Guidelines Section 15060(c) and 15378 because it will not result in a physical change in the environment.

PUBLIC COMMENT

As of the date of this report, the Planning Department and Strategy Working Group have received substantive public input from the numerous community members who have participated in the development of the draft Strategy and approximately 1500 survey respondents. Please see the Executive Summary for a discussion of the survey findings, outreach process, and the attached Exhibit D for a list of participating individuals and organizations.

REQUIRED COMMISSION ACTION

Staff is requesting that the Commission comment on the following topics:

1. Do the strategies collectively represent the right approach to honoring the history and living heritage of the LGBTQ+ community?
2. What specific actions and tools will make the biggest difference in achieving the project goals?
3. In particular, are you supportive of the formation of the Historic Preservation Advisory Group, and if so, do you have any recommendations regarding how it should be implemented?

4. How should community partners be best engaged in these efforts?

5. How should we measure the success of the LGBTQ+ Cultural Heritage Strategy?

Draft Executive Summary
Historic Preservation Commission Hearing
September 19, 2018
INTRODUCTION

The LGBTQ+ Cultural Heritage Strategy (Strategy) is a community-driven effort to honor the legacy, ensure the longevity, and nurture the well-being of San Francisco’s LGBTQ+ community. The Strategy effort was initiated by a unanimous resolution of the Board of Supervisors in October 2016 that authorized the formation of a community-based Working Group and provided City support to help develop the Strategy. The adoption of the Citywide Historic Context Statement for LGBTQ History in San Francisco in October 2015 by the Historic Preservation Commission provided a foundation for this effort. Strategy planning has occurred alongside the development of several related cultural districts, including Compton’s Transgender Cultural District, the Leather and LGBTQ Cultural District and the Castro LGBTQ Cultural District.

The Strategy will support LGBTQ+-associated Cultural Districts, which are place-based heritage conservation tools, but its purpose is to broadly address the needs of the entire citywide LGBTQ+ population. The Strategy report (1) identifies the needs and concerns of the LGBTQ+ community in San Francisco; (2) articulates goals for the management of LGBTQ+ resources; and, (3) outlines a process for developing and prioritizing projects that support the goals and needs of the LGBTQ+ community. Based on extensive input from members of the LGBTQ+ Community, the Working Group created the following vision statement to articulate the project aspirations and serve as a guide to decision-making during the process of developing the Strategy.

CULTURAL HERITAGE STRATEGY VISION:

Our City is a beacon for gender and sexual minorities, calling us to build a society that:

- Honors the legacy
- Ensures longevity
- Celebrates culture
- Nurtures well-being and
- Uplifts the most vulnerable

of the LGBTQ+ community.

1 The Working Group has opted to use the abbreviation “LGBTQ+” to indicate the varied identities among sexual and gender minorities.
2 In October 2016, the Board of Supervisors unanimously passed Resolution No. 446-16 (File No. 160996) recognizing San Francisco’s rich LGBTQ+ culture and the historic and ongoing importance of nightlife businesses as social spaces, venues for art, political organizing and places to build community and the need to develop a Strategy to preserve LGBTQ+ cultural resources.
3 On May 22, 2018, the Board amended the Administrative Code to create a process for the establishment of cultural districts in the City to acknowledge and preserve neighborhoods with unique cultural heritage. This follows the establishment of five existing cultural districts since 2013.
BACKGROUND

Cultural heritage is the expression of a way of living. It is developed by a community through objects, beliefs, traditions, practices, artistic interpretation, and places. It manifests itself in tangible and intangible elements passed through generations, such as buildings, landscapes, artistic expression, festivals, processions, streetscapes, protests, businesses, community events, and programs. And most importantly, cultural heritage lives and is enriched through the well-being, support and success of people throughout the community. Losing any of these elements diminishes a community’s cultural integrity.

Honoring and preserving LGBTQ+ cultural heritage requires a set of unique and tailored strategies involving collaboration with partners in local government and community organizations. Safeguarding cultural heritage helps develop a shared bond and sense of belonging, increases understanding and appreciation of our shared history, inspires community pride and awareness, and emboldens a sense of identity and responsibility to society at large. As described so eloquently in the vision, it also assures that the most vulnerable among us are recognized and supported.

The Cultural Heritage Strategy (CHS) was informed by a public survey that provided an opportunity for a broad cross-section of the LGBTQ+ community to share their perspectives and recommendations on how best to preserve, honor and enhance LGBTQ+ cultural heritage. The survey questions were developed and refined with community input from local organizations who also encouraged participation from community members representing a broad spectrum of sex and gender identities. About 1500 people from diverse cultural, economic and educational backgrounds participated in the survey, which was made available in English, Spanish, Tagalog, and Mandarin. Their insights provided critical input in developing the CHS recommendations summarized in this Executive Summary.
**PARTICIPANTS**

**Working Group**

The Strategy Working Group has been tasked with developing and drafting a plan to protect, preserve, and expand LGBTQ+ cultural heritage. The Working Group has collaborated with community members, neighborhood and nonprofit organizations, cultural heritage stakeholders and City staff throughout the Strategy development process and continues to build support for its implementation. The Working Group is organized into three committees:

- Arts, Culture, and Heritage Committee
- Community Services and Education Committee
- Economic Opportunity and Equity Committee

The committee chairs have met monthly to report back on their outreach efforts and collaboratively work towards development of the Strategy. The Working Group is an entirely volunteer body and has no appointed leader other than the committee chairs.

**Public Outreach**

Outreach for this effort has included open invitations to early Working Group meetings, project updates through a mailing list, information updates through social media and a project website, three community-organized workshops, business and economic development forums, and a survey reaching approximately 1500 respondents over nine months. The Working Group also held a City Family Briefing in March 2018 to gather input from City departments that currently provide programs, funds, and services to the LGBTQ+ community and can play an important role in the implementation of the Strategy.

**Advisory Committee**

The Working Group formed an Advisory Committee composed of individuals and organizations with expertise in various aspects of LGBTQ+ culture, including history, arts, small business, education, public health, and community organizing. The Advisory Committee reviewed the draft Strategy in spring/summer 2018 and provided targeted feedback for refinement of the plan.
PROCESS

The Working Group, guided by Planning Department staff, Seifel Consulting, and lowercase productions’, set out to develop a vision for the Strategy followed by a set of goals that articulate how the vision will be achieved. Each goal is supported by objectives that provide more fine-grained policy direction for the goals.

CULTURAL HERITAGE STRATEGY GOALS:

GOAL
Maintain San Francisco as a global leader in providing inclusive, intergenerational LGBTQ+ community services, education, resources, and access to safe, queer-friendly spaces.

GOAL
Honor, protect, and celebrate our rich and diverse LGBTQ+ heritage while nurturing our community of artists and cultural organizations.

GOAL
Promote economic well-being, equitable access to resources and leadership pathways for LGBTQ+ community members and businesses.

From this foundation, the three committees researched and proposed “strategies” or tools that can be implemented to achieve the project goals. Each strategy component is a discrete project that will have its own timelines, budgets, lead agencies, and community partners. The committees then listed actions for each strategy, which are the tactical steps required to implement the strategy. This has resulted in an implementation plan that comprises the recommendations of the LGBTQ+ Cultural Heritage Strategy report.

4 Seifel Consulting, Inc. and lowercase productions were contracted by the Planning Department with funding provided by the Planning Department and the San Francisco Historic Preservation Fund.

Public Survey

GOAL
The goal of the survey was to provide an opportunity for a broad cross-section of the LGBTQ+ community to share their perspectives and recommendations on the development of the Cultural Heritage Strategy.

PROCESS
• The survey questions were developed and refined with community input from local organizations and meetings over several months
• The survey was administered by the City in collaboration with LGBTQ+ organizations and made available in English, Spanish, Tagalog, and Mandarin.
• The survey was promoted through ads on Muni, print and online newspapers, postcard distribution at community events, and outreach to local San Francisco and LGBTQ+ organizations.

TIMELINE
The survey was launched in June 2017 and was available to participants through March 2018.

RESPONDENTS
1,475 people participated in the survey representing:
• A broad spectrum of sex and gender identities
• People from diverse cultural, economic and educational backgrounds
• Residents of 29 zip codes in San Francisco
• Speakers of 31 languages at home
• Members/supporters of 139 LGBTQ+ Organizations

KEY TAKE-AWAYS
Based on survey population responses, the strategy should focus in parallel across three key categories:

**Arts, Culture & Heritage**
Honor and celebrate everyone-
Ensure the diversity of the LGBTQ+ community is represented and celebrated

**Community Building & Well-being**
Support and serve our diverse needs-
Expand resources and enhance coordination across multiple LGBTQ+ events and organizations

**Economic Opportunity & Equity**
Safeguard our community and cultivate our success-
Protect and advance the quality of life and success of the LGBTQ+ population

KEY ACTION RECOMMENDATIONS — IMPROVE PROGRAMS, ACCESS & AWARENESS

Promote Navigation Services. Make programs/services more visible and more widely available.

Enhance Programs. Increase funding, cross-organizational collaboration, and education programs for both the LGBTQ+ community and professionals providing services.

Expand Access. Provide spaces for organizations, extend hours for services, consolidate online resources, develop community hubs, and ensure services are actually provided.
SURVEY INSIGHTS FROM MEMBERS OF LGBTQ+ COMMUNITY

Grey boxes denote diverse gender and sexual minority identification of survey participants.

Non-Binary
I see neighborhoods losing locally owned businesses and the diversity of businesses that make for a 'full service' neighborhood focused on an LGBTQ clientele.

Bisexual
Document and celebrate the past, but move the community forward!

Lesbian
There's a hodgepodge of different community and social services. Many exist in silos (e.g. gay-specific, lesbian-specific, transgender-specific)... it's hard to get a handle on all the different resources that are available to the community.

Trans
Providing funding to ensure that all LGBTQ people who need such services not only have access, but actually receive needed services in a complete and timely way.

Asexual
Increase program capacity and use funding to increase collaboration - for example, employment programs are generally very population specific (i.e., for people with disabilities or for seniors) even as there is often cross-over within these populations.

Queer
It is important to ensure that LGBTQ+ people of color, particularly queer cisgender women and transgender women of color are remembered and celebrated and supported for the vital work they do for the LGBTQ+ community.

Support and uplift the most vulnerable among us (POC, poor/working class, youth/elder, trans, disabled, homeless, immigrants, incarcerated).

Pansexual
Queer women's spaces are pretty much non-existent in the modern San Francisco, and this is a huge shame. We have no queer women's bars, sober social spaces, or shops that cater to the queer women's community.

Gay
Since other communities look to San Francisco for how to preserve and represent their LGBTQ+ spaces and history, what we do here in the city has larger implications for the global LGBTQ+ community.

Cisgender

Additional hours for health care and mental health services, open later so we don't have to choose between well-being and employment.

Community and social services should have more staff that represent the populations that need the resources--there should be more transgender (and) gender-nonconforming queer people of color (on staff).
STRATEGY RECOMMENDATIONS

The LGBTQ+ Cultural Heritage Strategy recommends a comprehensive series of projects, procedures, programs, and techniques to preserve and promote LGBTQ+ cultural heritage in San Francisco. These recommendations were developed as a direct response to the concerns expressed by the community during intensive community outreach and engagement, as well as in the survey, and they were shaped by extensive dialogue with partner organizations, including the San Francisco LGBT Center, the San Francisco Office of Transgender Initiatives, and the GLBT Historical Society.

One of the most consistent responses to this project has been a desire to see the most vulnerable and marginalized members of the LGBTQ+ community uplifted and empowered, and this mission underlies each of the recommendations presented in the report. The Strategy Working Group is recommending a holistic plan to ensure that the people who actively sustain LGBTQ+ living heritage can remain in San Francisco.

The following is a summary of the Strategy recommendations.

STRATEGIES:

The following strategies focus on preserving and celebrating our City’s LGBTQ+ culture, ensuring the well-being of all members of the LGBTQ+ community, particularly those who are most vulnerable, and enhancing economic opportunity and equity through community services, education and business support.

IMPLEMENTATION

Upon adoption by the Board of Supervisors, the LGBTQ+ Cultural Heritage Strategy will be a planning document shared by the City and the community. Lead City agencies and community partners are cited in the report for each recommended action, and they will be responsible for incorporating these actions into their individual work plans over the next few years. The Strategy is considered a working document. As actions are accomplished and as the community’s needs evolve, new actions will be identified and new organizations may partner to carry out the implementation of the Strategy.

The Strategy recommends formal expansion of the existing SF Office of Transgender Initiatives (OTI). The Office would continue to focus on the needs of the transgender and the most vulnerable members of the LGBTQ+ community, but its expanded function would include the management of initiatives related to the broader gender and sexual minority community. In this new role, the Office would collaborate with the Planning Department, Mayor’s Office of Housing and Community Development, Office of Economic and Workforce Development, the SF LGBT Center, the GLBT Historical Society, and many other City agencies and community organizations to undertake the recommended actions of the Strategy. The Office would monitor and measure the progress of the Strategy, advocate for Strategy resources, facilitate coordination of the various bodies involved in implementation, and take on the responsibility of planning a City-sponsored Summit to promote and track progress of the Strategy and garner support for future actions to be undertaken.

Two community organizations, the SF LGBT Center and the GLBT Historical Society, would be responsible for undertaking significant components of the Strategy. The LGBT Center, working alongside many other community organizations and educational institutions referenced as key partners in the Strategy, will enhance navigation tools to facilitate broader access to services, education, training, workforce development, and entrepreneurship resources. The GLBT Historical Society, working with the proposed Historic Preservation Advisory Group, the Cultural Districts, the Historic Preservation Commission, and others, will guide City decision-making concerning LGBTQ+ historic resources and provide key support to citywide efforts to cultivate and safeguard LGBTQ+ cultural heritage. The GLBT Historical Society will also continue to work towards establishing a full-scale museum and public history center for LGBTQ+ history and culture.

The LGBTQ+ Cultural Heritage Strategy generally recommends citywide programmatic solutions; however, where recommendations would primarily affect particular LGBTQ+ neighborhoods and cultural districts, strong public engagement with neighborhood and cultural groups will be essential for success. For example, site selection for the museum or resource hubs would occur in consultation with local stakeholders. Overall, the implementation of the Strategy should strengthen the LGBTQ+ community by building relationships, facilitating collaboration, and increasing resources.
